A report has been made by the Director of the Mint to the Secretary of the Treasury, in answer to a call from the latter, of the charges accruing upon and the expenses incurred in coining at Philadelphia for the past six years. For the first five years mentioned in the statement—namely, to 31st December, 1850—the actual expenses over and above the charges amounted to $305,812 90, being an average expense to the United States during that period of $61,162 58 annually. During the past year—namely, to 31st December, 1853—the coinage at Philadelphia, instead of being an expense, has been a source of profit, the sum of $102,420 96 having been realized therefrom over and above the expenses.

In Albert H. Nicolay's sale on Monday next will be a large assortment of Railroad Bonds, and attention is particularly called to $25,000 of them of the Great Western (Illinois) Railroad. That road has now 100 miles in operation, and the balance of the line from Danville to Hannibal, on the Mississippi River, is to be completed by the 1st of June, 1855, when it will be consolidated with the Lake Erie, Wabash and St. Louis Road. The mortgages do not exceed $15,000 ✠ mile, or about half its cost. The terms of sale will be 10 ✠ cent. on the day of sale, and the balance within 30 days.

The steamer to-morrow has no gold engaged.

The Greenville and Miami Railroad Company have purchased 1,500 tuns rails, which will complete their independent line to Dayton.

There was an increased demand for Money to day and full rates were paid. The payments of to-morrow will be considerable, and the preparations being made for them have caused a temporary stringency. The Banks are also it is supposed, still contracting. The Erie dividend, the Illinois Central interest, and other payments to-morrow, will disburse probably something over a million of dollars.

Forty miles of the Steubenville and Indiana Road, between Steubenville and Cadiz, is now completed and will be opened in a few days. The entire line to Newark (115 miles) will be completed and in operation by the 1st day of August next. At Newark it connects with the Ohio Central, now in operation from that point to Columbus. Rails for the entire line are purchased and on the ground. Means to complete the whole are now provided.

The following table will show the fluctuations in Consols during the week previous to the sailing of the Canada:

The increasing tightness of the London Money market and the corresponding increase in the value of money, are the chief events during the week. This stringency is caused by the demand recently for gold for exportation to Paris, owing to a favorable rate of exchange, and it has been computed that upward of £1,500,000 have, during the past fortnight, been extracted from the Bank coffers for that purpose. Much uneasiness is being felt as the Government have stated that they will require a large amount for accommodation, and should the efflux of gold to the continent continue, the Bank may have again to apply the screw, and, by an additional ½ ✠ cent. to the rate of discount, add to the present embarrassment of trade.

The Bank of England returns for the week ending March 11, in *The Gazette*, exhibit the following results when compared with the preceding return:

Public deposits	£2,999,597	Increase	£157,746
Other deposits	16,887,394	Decrease	357,243
Rest	3,718,229	Increase	4,313

On the other side of the account:

Government securities	£11,740,728	Decrease	£3,837
Other securities	13,054,658	Decrease	187,168
Notes unemployed	7,626,655	Increase	26,935

The stock of Bullion in both departments amounts to £15,396,685, showing a decrease of £512,218, when compared with the preceding return.

In the manufacturing districts the state of things is more depressed.

The Bullion market continues firm, with a very active demand, and the heavy arrivals of Silver, by packet, have been all taken off for export; the Dollars at 5/0¼ ✠ ounce for the East, and Bar Silver at previous quotations for the Continent. The advance on Dollars was well maintained, and the supply very bare.

Baring Brothers' Circular.

Per Canada. LONDON, Friday, March 17, 1854—5 P. M.

The warlike aspect of affairs continues to exercise an unfavorable influence on the Colonial and Foreign Produce markets, and transactions have for the most part been confined to the immediate wants of purchasers. BREADSTUFFS have declined. MONEY is in active demand. CONSOLS leave off 90@91. The DOLLARS by the last West India packet have been sold at 5¼, at which price they are still in demand. BAR SILVER 5 (5) ✠ ounce. The Hon. East India Company have reduced their rate for bills on Bengal and Madras to 2/ and on Bombay to 2 1-16, the Company's rupee. Via Trieste, we have papers in multiple form of the late rate by the Overland Mail with the following dates: Bombay 14th, Calcutta 4th Feb, and Hong Kong 27th Jan.

COTTON continues depressed, and of 115 bags Tenerife at auction only a small portion was sold 6¾, further decline of ⅛ Silver item 4, 2@4 3 and Black at 4/5.

COCOA—170 bags Trinidad partly sold from 31/6@33 for good gray to mid red, and 97 bags Bahia at 26/6 for good red.

COFFEE continues in but moderate demand; but prices are supported, owing to the small quantity offering. In Foreign we have nothing of importance to notice, scarcely any export inquiry having been experienced. 190 casks, 90 barrels and 300 bags Plantation Ceylon, at auction principally, sold at steady prices, and 500 bags good ord. Native Ceylon at 47. A cargo of 2,500 St. Domingo has been sold this afternoon at 43 6, deliverable over ship's side in London.

COPPER quiet at our former quotations.

The importations of WHEAT and FLOUR during the week have been large, and at the CORN market on Monday the English WHEAT was disposed of with difficulty at a decline of 2/@3/ ✠ qr, on the prices of the previous week. To day there was no disposition to buy, and prices were again rather lower. We quote Western Canal FLOUR 36@37/. Baltimore 38/ ✠ barrel. American White WHEAT 9/ @32/. Red 7/6@9/ ✠ qr.

COTTON—The sales during the week have been 650 bales at previous prices. At Liverpool the market continues dull; Middling Orleans, 5¼ ✠ ℔.

HEMP continues to advance rapidly. 600 bales Manilla, to arrive, sold at £36, and none is now to be had under that price. St. Petersburg clean, £55.

INDIGO—Quotations remain unchanged, but there is very little activity in the market, and the few transactions which have taken place are quite of a retail character.

IRON—The market is firm at £8 5/ for Rails, and £4 5@£4 10/ for Bars, free on board in Wales. Staffordshire manufactured Iron in active demand, and the makers are full of orders; Bars are worth £11 10/ ✠ ton here. Scotch Pig 70/ in the Clyde, for mixed numbers, and 80/ for No. 1 Gartsherrie. Swedish £12 15/.

LARD is rather lower. Western in kegs 34/@36/.

LEAD continues in good demand at advancing prices. Common Pig £20, refined £20@£20 10.

LINSEED CAKES—Foreign have met with less attention, and our former quotations are realized with difficulty. English make, firm at £11 5/ ✠ ton.

MOLASSES—The market is dull, and prices are rather easier. West India 17@18/6; Cuba and Porto Rico 18/6.

OILS—In common Fish little passing, and prices show no change. Sperm—It is difficult to quote correctly; stocks are light, and in few hands; the nominal value is 100@105 ✠ ton. Linseed has further improved, the price to-day being 34/@35/ on the spot, and 37/ for the middle months of the year. Rape is also firmer, Brown being now held at 41/, and Refined at 43/@44/. Palm 44/@46/. Cocoa Nut £51 for Cochin, and £50 for Ceylon.

RICE—The market remains very flat, and at auction, of 7,020 bags Bengal, part only found buyers at a decline of 6d., good mid. white fetching 13/@14/. 6,000 bags Madras, chiefly damaged, sold at easier prices, and 200 bags rough Montserrat were bought in at 13/6. This afternoon 3,000 bags Madras sold at 12/6.

RUM is dull; to effect sales lower prices would have to be submitted to.

SAFFLOWER is difficult of sale. 170 bales Bengal were chiefly bought in from 32/6@77/6 for low to good ordinary.

SALTPETRE—120 tons to arrive sold at 63/3, guaranteed 6 ✠ cent. refraction, and the market is firm.
