Fire-Proof Safes.

HERRING'S PATENT CHAMPION FIRE PROOF SAFES, which received a medal at the World's Fair.—After the almost daily proofs of the efficacy of HERRINGS SAFES, it seems incredible that any merchant or business man of ordinary prudence should be without one. The trifling cost bears no comparison with the security afforded—not unfrequently the amount preserved in one safe—costing perhaps not more than $150 or $200—is from $50,000 to $100,000.
The subscriber, grateful for the patronage already bestowed by a discriminating public, intends to sustain the high reputation his Safes now enjoy, until his friends and the world at-large are satisfied. They are now invited to call or send their orders to Nos. 135, 137 and 139 Water-st., Green Block, N. Y. S. C. HERRING.

WORLD'S SAFE COMPANY.—Bankers, Brokers, and all classes of the mercantile community that require perfect security against Fire and Burglary, will find it for their interests to examine Little's impenetrable safes on Fire Locks manufactured by this Company. A majority of the Banks in the City of New-York have them, and a still larger proportion of the specie and paper circulation of this city are nightly deposited in these Safes. Over three hundred Banks in the States use these Safes and Locks as full protectors, or in their vaults.
It is believed that more than half of all the Safes sold for use in this city are furnished by this Company, and the Salamanders and other chest from Safes find their sales in less favored locations. We have challenged the world to a Fire and Burglar Test of Safes at the Crystal Palace, with the size of safes and method of testing defined, which, with our descriptive circular and references, will close to communications or inquiry. An assortment always on hand at the Company's Depot, No. 115 Pearl-st., New-York.
