PUBLIC SCHOOLS.—A growing interest is apparent throughout this country, in the cause of common school education. Under the present laws of New Jersey free schools during the whole year cannot be maintained, except in some favorably situated districts, but the people evince a willingness to be taxed for their support and before many years free education will probably be demanded. [Newark Daily Advertiser.

U. S. COMMISSIONER'S OFFICE.—Before Comm'r MORTON.

EXTRADITION CASE.

In the case of Van Arnum, claimed by the British Government under the Ashburton treaty, on a charge, we believe, of forgery, as related to some bank transactions in Canada which was before Justice Stuart, it will be remembered, some time and other questions transferred to the U. S. Commissioner. Mr Morton, the Commissioner, has decided that the proof is sufficient to sustain the demand for his extradition, and has certified his decision to the Secretary of State, who, (should he concur in the decision,) will forward an order that Van A. be given up.

Before Commissioner NELSON.

CHARGE OF COUNTERFEITING.

Edward C. Morton, John Brown, (otherwise Joseph Herlings) and Charles Watson, James Bowers, also Elmira Watson and Amanda Hewit, arrested by the U. S. Marshals a few days since, at the house of Mr Watson, in Thirty-fifth-st., on a charge of being engaged in counterfeiting, were examined. There did not appear to be any evidence implicating the females, and they are to be discharged. The testimony is principally against Brown, who occupied as a workshop a front room in the house of Watson, and boarded with him. Brown, it appears, who is a German, called on Israel May, an electro plater, or galvanizer, in gold and silver, No. 292 Houston, and said he had been sent by Mr. Ford, Elm-st, to learn the method of galvanizing on soft metal. May agreed to learn him for $25, and stated that it would take two or three days to learn. Watson called afterward and stated that Brown was a poor man, and he should charge a little less than he de nanded. Brown paid the $25 and was taught the process of galvanizing, or placing a gold apparatus on soft metal. He then bought of M. three batteries for galvanizing, at $6, and $5 worth of solution for galvanizing. He called afterward and bought $5 worth more of the solution, at same time said he could not bring gold on soft metal as May could, and he said he would give May a good job, that he would get him to galvanize imitation gold dollars, and give him $15 for each thousand he galvanized. May agreed to do so, and Brown drew from his pocket one thousand imitation gold dollars, appearing to be made of zinc. They were to be done in two or three days, but May put him off with excuses and finally, by advice of an acquaintance, gave information to the U. S. Marshal, Mr Hillyer who placed the affair in the hands of the officers. De Angelis and Horton. By their advice May delivered to Brown sixty dollars of the counterfeits, and he paid May $21 of good money, at the same time handing him $2,000 more of the counterfeits to galvanize, and said he would give him in a short time $50 or $100 more to do. He asked May how many he could do a day, when the latter replied from five to eight. He said he would come back in two or three days and get the whole three thousand. He called subsequently and received 200 more of the dollars and paid $21. Brown stated to May that he lived in Jersey City, and left a direction, which of course was not correct; gave Brown by direction of Mr De Angelis, who handed them to him, five twenty shilling galvanized pieces. May saying to Brown he had received them from a man at Philadelphia. May stated to Brown that he was about to be married, and wanted the coin, as he said his own shop was too small; but Brown said he could not, as he saw men looking for his place, and he would not be able to stay in it. He did not call afterwards and left the counterfeits with May.

Sigmund Moore (the person with whom May advised and by whose advice and that of Moore's brother, he gave intimation to the U S Marshal, testified to the fact—he also stated that on Saturday last he observed Brown to the street, and subsequently entering into conversation with him, having seen him at May's—Brown told him that May's work, with some exceptions was bad. Moore told him the good pieces he (himself (Moore) had galvanized; also told Brown as he had been told to do by Officer De Angelis, that he had worked for Max Roscoe, tent to the State Prison a few weeks since on a charge of counterfeiting; by which he said he got the confidence of Brown. Saw Brown afterward give to Bowers, going across the street to do so, a package. Bowers went one way and Brown the other. Having already ascertained the residence of Brown a witness followed Bowers and got into a conversation with him similar to that he had had with Brown. They went to the City Ferry, and Bowers said he was going to cross the ferry, and made an appointment at a future time to meet Moore. An officer coming up Moore told him he had to make an arrest. Bowers sprang to the ticket office. When he came out he did not have the bundle. On a subsequent search in the water a bundle was got up and found to contain about $162 in counterfeit American half dollars. Bowers was sent to the Station-House. Moore and Mr. Horton went to May's and the latter took possession of the counterfeit coin there; they then went to the house of Mr. Watson, in Thirty-fifth-st., in company with some police officer, the door of which Mr. Horton entered with a key in his possession; found in one of the rooms as stated, machinery calculated for making false coin. Morton was seen afterwards to enter the house, and was arrested. He had in his possession a note signed by Bowers, stating that he (Bowers) had got into difficulty, and also advising that Brown keep out of the way. Brown was the same night arrested by the officers at the house, as were Mr. Watson and his wife, and her sister a little girl about 14 years of age. Mr. Watson had on his person about $30 in good gold pieces. He said that Brown boarded with him, and occupied the front room as a shop. He knew nothing about him except that he was by trade a galvanizer. No counterfeit coin was found in the house.

The examination was continued yesterday afternoon.

U. S. DISTRICT COURT—Before Judge INGERSOLL.

Anson J. Stone, owner of the ice-barge California, agt. the steamboat New-York.

To recover $5,000, alleged value of 200 tuns of ice, lost by the sinking of the bark in August last, with $1,000 injury sustained by the barge. The barge with a load of ice, had been towed, with others, from Athens, on the Hudson River, and while rounding the battery, in tow of the steamer, she was negligently, it is averred, run against a vessel that was anchor, by which her side was stove in, causing the loss complained of; besides, it is alleged, putting libellant to great loss and inconvenience, by not having a supply of ice for his customers. In defense, it is denied that the steamboat was to blame. The case is on.

SUPERIOR COURT—SPECIAL TERM.

DECISION.

Elphalet Nott agt. James S. Thayer and the Corporation of New-York—Belmont agt. Nott, Bliss and others.

Suit as to water right on part of the Stuyvesant property, already referred to. The Court held that Stuyvesant-st., from the margin at high water, to Tomkins-st. was the dividing line between the property of Nicholas and Peter G. Stuyvesant, under the will of their father—[Stuyvesant-st. runs diagonally toward the river]—and that those who purchased under each will be entitled to the preemptive water right in front on taking the lawful measures to obtain it; also, that the ordinances of the 12th of April 1852 establishing an exterior line of street on the East River is illegal, as the water beyond the easterly line of Tompkins-st. belonged to the State. Injunction ordered restraining the Corporation from making grants.

CIRCUIT COURT.—Before Judge MITCHELL.

Richard Warren and others agt. A. and J. Mayhin.

To recover an endorsement on a note, already referred to. Verdict for defendant in the sum they claimed.

This being Good Friday the Court adjourned to Saturday.

COURT OF COMMON PLEAS.—Before Judge WOODRUFF.

George Washing and his wife agt. George Good.

To recover damages for alleged assault and battery on the person of Mrs W. The evidence shewed there had been some hard words but no assault. Verdict for defendant.

COURT OF GENERAL SESSIONS—*Thursday.*

Before the RECORDER.

TRIAL OF ISAIAH SELOVER FOR DEFRAUDING EMIGRANTS.

The trial of Isaiah Selover for defrauding a number of returned Californians by selling them fraudulent tickets for Chicago and the far west, was continued to-day.

Officer Spicer testified for the defense, that when he went to arrest Selover at his office, the complainant, Keyster, said that he was not the man, and that the man from whom the ticket was bought was a larger man.

Cross-examined—I arrested the defendant at his boarding-house in Third-av.; when I got there I was told that he was not in the house, but on searching it, found him there on the third floor of the building.

Caroline Seabold deposed, that the defendant was arrested on the second floor, immediately over the store.

Mrs. Losin corroborated the testimony of the last witness.

George Cornell deposed that he was present when Keyster came into the office of defendant to purchase a ticket, and that nothing was said about a first-class one.

The evidence here closed, and the case after being summed up by Counsel was given to the Jury, under the charge of the Recorder, who after a deliberation of five minutes, brought in a verdict of "Guilty." The prisoner was then remanded for sentence.

PLEAS OF GUILTY.

Austin Marks pleaded guilty of stealing a chronometer valued at $150 from Jeremiah O'Sullivan and was sentenced to the State Prison for two years.

THURSDAY, April 13—P. M.

There was a fair amount of business at the Stock Board to day, but the tendency of prices is still downward. The operators for a fall are still free sellers and there was a larger than usual amount of cash stock on the market. The decline, although not very large, was quite general to day. Erie fluctuated between 63¾ and 64¼, but closed at 64¼, a further decline of ¼ ⅌ cent. Reading was heavy and sold down to 71½; Hudson River, 61½; Norwich, 53½; Stonington, 67½, &c. Nicaragua has lost its firmness and fell off to 25½; Cumberland declined ½ ⅌ cent; Parker was firmer; Canton sold at 24. Crystal Palace was in fair demand and sold at 45, an advance of 2 ⅌ cent. It is understood that the suit of Mr. Munn is to be withdrawn. The Investment Stocks are all heavy, and New York Central fell off to 105¾. In Railroad Bonds the business is moderate and quotations sympathise with the rest of the market. Nothing doing in Government or State Stocks.

Mining Stocks are not active but they are about as well sustained as the other fancies.

The market for Exchange is steady at 9@9¼ for leading Sterling signatures. Francs, 5.13¾@5.12½. There is but a moderate amount of bills on the market and remitters are shy of produce bills.

The steamer of Saturday will have $700,000 or $800,000 in gold, &c, including about 100,000 Mexican dollars and a parcel of sovereigns. We cannot learn that any American gold coin is engaged. Exchanges are now in favor of New-York at most points in the interior, and there have been considerable receipts of gold from the West, Canada, &c., and more is coming. Among the specie by the Canada yesterday from Boston were 30,000 Mexican dollars.

The Money market remains as we have noticed for several days past. The Banks appear to be doing all that is safe for their customers but prefer short paper to long. Time loans are still difficult to make in the street even on first-class securities. The case noticed is only on strictly call loans on current securities.

A forged Certificate of New York State Stock was presented at the Manhattan Bank to-day and at once detected. It purported to be a six ⅌ cent. Certificate for $5,000, due in 1862. It was a genuine Certificate, excepting the signatures and filling up, and was probably torn from some old book of blanks by the rogue who filled it up. Fraudulent Certificates of State Stock are novelties in the world of swindling.

Under the law just made at Albany in regard to the old Safety Fund circulation of the Banks whose charters have been renewed under the general system, one, two and three years' time is given for its withdrawal.

The payments into Bank continue very large, the clearances this morning reaching $19,000,000.

A report from the United States Commissioner of the Land Office states that the whole surface of the public domain covers 1,391,480,320 acres. This is 220,704,509 acres less than the quantity stated in the annual report. The discrepancy is occasioned by an over estimate of the land in Oregon, Nebraska and the Indian territories, which later and more perfect maps have enabled the bureau to correct.

At Boston Stocks are improving again and money is easier.

The Boston Journal of yesterday remarks:

"There is little pressure for demand loans. Rates for paper range from 9 to 12 ⅌ cent. for good paper and up to 18 and 18 for names but little known. The tendency is toward improvement; the banks are discounting regularly to a fair extent, and the mercantile community are now realising large collections.

The Chicago Journal of the 8th inst. says:

"The three trains over the Michigan Southern Railroad yesterday contained twenty nine cars, and brought into the city upward of 1,500 passengers. Of this number, the express train, under the care of our friend Davison, brought over 650 through passengers. The conductor of the train over this road due at 2 o'clock P. M. to-day, telegraphs that it consists of fifteen cars, full of passengers."
