HARVEY FISK. A. S. HATCH.
FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5, Nassau street,
NEW YORK, Jan. 14, 1871.
United States Five-twenty Bonds, if allowed to run until 1875, will pay but four per cent gold, on the investment at present market rates, while they are likely to be funded at a lower rate of interest than they now bear before that time.
The First Mortgage Bonds of the Central Pacific Railroad Company at present market price will pay nearly seven per cent in gold on the investment, and cannot be called in or the interest reduced under twenty-five years.
A difference of from fifteen to twenty per cent may be realized in exchanging Government Bonds for Central Pacifics or saved in making new investments.
The safety and value of the First Mortgage Bonds of the Central Pacific Railroad Company are thoroughly established and universally recognized.
The value of the property, the increase and increasing revenues of the Company, and its able and honorable management, assure the security of the principal and prompt and regular payment of interest beyond question.
We have introduced them into our regular business upon the same basis as Government Bonds, and buy and sell them as freely at current market rates, and are prepared to furnish them to investors or others at daily quotations.
We buy and sell Government Bonds, Gold and Coupons, execute orders in miscellaneous securities at the New York Stock Exchange, make collections, receive deposits subject to check at sight, allow interest on balances, and do a general Banking Business.
