SATURDAY, March 15—P. M.

The effect of the foreign news continues to be felt in the firmness of the Stock market and the advices by the Arctic will probably, on Monday, increase the buoyancy of feeling which has marked the street for the last day or two. The bears are still sellers to some extent, but not as freely as early in the week, and the low prices have, it is quite evident, brought in a considerable amount of orders from parties not usually operators. To this added the buying of the shorts and the renewed confidence of the few bulls left, and the causes have been sufficient to put the fancies up ¼ to 1 ⅌ cent. The apprehensions which produced the decline of the early part of the week are, upon calm reflection, much decreased, and the the street begins to think that a European war may exist for some time without upsetting the foundations of our financial prosperity. Erie improved to 71, closing at 70¾; Reading 72¾, an advance of ¾ ⅌ cent; Hudson River, ¼ ⅌ cent; Harlem 1 ⅌ ct, &c.; Nicaragua improved ¼; Canton ¾ ⅌ ct; Cumberland was quite buoyant and advanced ¾ ⅌ cent; Parker Vein ¼, &c; Crystal Palace was in demand at 50. The injunction brought by Mr Munn has been dissolved, and we have reason to know that Mr Barnum gave an order on Friday to his broker to buy 1,000 shares, and the purchases of the last two days have been on his account. In the Investment Stocks there is not much doing but the market is firmer. New York Central improved ¾ ⅌ cent; Michigan Central ¼ ⅌ cent; Cleveland and Pittsburgh 1 ⅌ cent; Cleveland and Toledo ¼ ⅌ cent, &c. In Railroad Bonds there is also a better feeling; Illinois Central improved ¾ ⅌ cent; N. Y. Central were heavy.

The Mining Board is steady without a very large activity. The tendency of prices to-day has been rather upward. The quotations are:

The receipts at the Sub-Treasury are $115,919; payments, $235,541; balance, $8,480,050.

The Atlantic to day took $528,318 in specie, which is less than was expected, as follows:

Sovereigns	145 260 00	Gold Coin	1,060 00
Gold Bars	428,508 38	Silver	18,452 00
Total for the week			$593 518 38
Previously reported in 1854			4,626 335 27
Total this year			$5,414,651 65

Albert H. Nicolay's regular semi-weekly sale of stocks and bonds will take place on Monday at half-past twelve o'clock, at the Merchants' Exchange.

The simultaneous arrival of many foreign cargoes has brought a large amount of imports for the week other than Dry Goods. The amount is $3,226,254, against $1,828,500 for the same week of the previous year

The aggregate imports for the week add up	$4,837,154
Same week, 1853	2,983,835
Increase	$1,854,319

This still leaves the aggregate for the year some three millions behind last year. Among the imports were:

Cigars	$69,200	Glass	$35,500
Coffee	259,300	Fruit	51,000
Molasses	50,500	Wool	49,700
Sugar	414,100	Hats	22,300
Tea	390,423	India Rubber	142,600
Liquorice Paste	33,800	Indigo	21,500
Sumac	14,300	Hides	154,700
Earthenware	43,800	Cutlery	40,400

Lead	35,700	Drugs	146,300
Steel	47,700	Wine	51,600
Rice	142,600	Whalebone	27,200

The imports of the four leading articles of Groceries alone, it will be seen, amount to over $1,100,000.

We hear that the Chicago and Galena Road has made a dividend of 25 ⅌ cent in stock, and an issue of 25 ⅌ cent. of new stock to the stockholders at par, the market value being about 130@140.

The movements at the Clearing House show a less active state of business than last month.

There is rather a hardening of rates for paper in the street, and short paper has the preference both in and out of Bank. The street rates for first-class paper is 12 ⅌ cent, although some names go at 10@11 ⅌ cent. The pressure of paper on the Banks is considerable, but in such times as these dealers always ask for double the amount they need. On call on available securities money is quite easy, but it is difficult to make time negotiations.

We have advices from Boston of the suspension of specie payments by the Cochituate Bank. The failure of Bryant, Allen & Co., Mr. Allen being the President of the Bank, induced a run on it, which resulted in its failure. Mr. A. it is understood, owes the Bank about $100,000. He has been an operator in various matters which have embarrassed him, and among other things we hear mentioned the Williamsburgh Water Works. The Bank paid coin until about 1 o'clock, when the supply was exhausted. A meeting of the other Banks of Boston was held on Saturday afternoon to consider the policy of assisting the Cochituate to resume on Monday. Meanwhile an injunction was placed on the Bank by the Bank Commissioners. The failure was not unexpected, and the circulating notes of the Bank have been offered in pledge for loans in Wall-st. for some time past.

The Arctic brings a continuance of the improved feeling in Breadstuffs in Europe. The advance in Flour since the upward movement commenced has been 5/6; Corn 4/; Wheat 1/6, &c., and the improvement appears to be a permanent one. Cotton is heavy; a further decline of ¼d. had been submitted to, but the market afterward recovered somewhat. In Consols there had been a reaction, and they had recovered about 1 per cent, closing at 86¾@86⅞. This was partly in consequence of greater ease in the money market, and partly in consequence of the advices from Vienna, being considered favorable to a cooperation of Austria with the Western Powers. Foreign stocks were also active, at an advance of 1@2 per cent. The drain of specie to the Continent from London had in a measure ceased. The exports of the precious metals of the week were less than £200,000, while the imports from all quarters were £800,000.

The return from the Bank of England for the week ending the 12th of March, gives the following results, when compared with the previous week:

Public deposits	£4,423,627	Increase £745,610
Other deposits	14,927,226	Decrease 213,157
Seven day and other bills	3,744,205	Increase 13,328

On the other side of the account:

Government securities	£11,792,116	Decrease £52,531
Other securities	15,797,684	Increase 1,244,709
Notes unemployed	6,833,835	Decrease 645,130

The amount of notes in circulation is £21,240,775, being an increase of £456,925; and the stock of bullion in both departments is £14,629,282, showing a decrease of £193,557, when compared with the preceding return.

The condition of the Bank, as compared with the same period last year is as annexed:

	March 26, '53.	March 25, '54.
Bullion in the issue department	£18,564,065	£13,374,510
Notes issued	32,564,065	27,874,310
Public deposits	8,493,793	4,423,627
Bank deposits	12,721,752	14,927,226
Rest	3,630,628	3,744,205
Seven day and other bills	1,051,013	1,121,909
Private securities	15,931,447	15,756,694

Speaking in round numbers, between 1853 and 1854, its bullion has diminished £4,700,000; its circulation has diminished equally; the public deposits are £4,000,000 and private deposits £1,700,000 less. Such circumstances go far to explain the present increased value of the money at the command of the Bank.

There were sellers of French Scrip at 1¼ discount. *The Times* says:

"The rapid decline on the Paris Bourse since Saturday appears to be attributable to the disquiet caused by the recent failure and the apprehension of its leading to other embarrassments, rather than to anything of a political nature, the pressure of that event being greatly increased by the extent to which the new loan is likely to be offered upon the market. At Vienna a favorable reaction has now continued for three days, the Funds having advanced to 85, while the Exchange on London has receded to 13.35. It may therefore be assumed that the probability of the Austrian Government taking an independent attitude against Russia is considered to have become stronger."

The advices regarding the affairs of Leroy de Chabrol & Co., of Paris, state that they are engaged in making up their accounts, but that their actual position has not yet been ascertained. It is said the run which caused their suspension was so great that they found themselves called upon during the few days of its continuance, to reimburse an amount equal to nearly £500,000. This was a joint-stock concern, with a capital estimated at about £480,000, but a large portion of it seems to have been locked up in shares and other speculative investments. The particulars of their exact position are not yet known; but whatever may be the fate of the shareholders, it is not supposed the general creditors will ultimately be heavy losers. No one on this side of the water will, we learn, be injured by this failure.

It is announced from Paris that from the 1st of April the French mint will deduct 2 ⅌ mille per kilo from all gold brought for coinage, this measure having been adopted to meet the extra expense of coining the new five franc pieces. Under these circumstances it will no longer be profitable, at present rates, to send gold from London.

The accounts of the state of trade in the manufacturing towns during the week show that the excitement caused by the declaration of war was not confined to the London Stock Exchange. Its chief effect has been at Manchester, where a decline in prices has continued throughout the week without any signs of an ultimate reaction.

The shipments of Coal from the Lehigh region for the week ending on Saturday last, were 8,463 tuns; for the season, 10,685 tuns. The rates of freight have been settled between the operators and the boatmen. There was shipped on the Schuylkill Navigation for the week ending on Thursday, 22,765 tuns, and for the season, 102,557 tuns, being 36,318 tuns more than to corresponding time last year. There was brought down on the Reading Railroad for the week ending on Thursday, 44,755 tuns, and for the year, 484,082 tuns, against 377,519 tuns to corresponding time last year.

At Philadelphia Money continues in active demand, but without change in rates. First class paper was at from 10 to 12 ⅌ cent, and second class at from 13½ to 15 ⅌ cent.

At Boston there was a panic in Stocks and Railroad Bonds. Vermont Central sold at 9¾; Ogdensburgh, 9¼; Vermont and Massachusetts, 16½, &c. Ogdensburgh Second Mortgage Bonds, 45½, &c. Copper Stocks were well held. Money was rather easier. The offerings at the Banks are large. Negotiations for best business paper continue at 10 to 12 ⅌ cent.

Markets.. CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.

SATURDAY, April 15, 1854.

ASHES—The market is rather easier for Pots, with sales at $5 31½; no firmer for Pearls; sales at $6 3@$6 12½. Saleratus is selling at 6c. cash.

COTTON—This staple to-day, says the "Board of Brokers," is too unsettled to give any quotations; sales 152 bales: export 23; home use 97; on speculation 27.

FLOUR AND MEAL—There is increased firmness and buoyancy in our market for Western and State Flour, especially for good brands of the former. The better grades are scarce and held still higher, with very light arrivals. There is nothing doing for export, the current prices being above the limits of shippers' orders. The home and Eastern demand is good. Canadian Flour is better and in good request at the close; sales of 1,000 bbls at $7 50 for mixed to good extra at the close; sales of 1,000 bbls at $7 50 for mixed brands in bond; early in the day and since, $7 87½ delivered, with head lining extra.
