A.—INVESTMENT SECURITIES.
JAY COOKE & CO. are now selling, and recommend as a profitable and safe investment for all classes, the First Mortgage 7-30 Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear seven and three-tenths per cent gold interest (more than eight per cent currency) and are secured by the first and only mortgage on the entire road and its equipments, and also, as fast as the road is completed, on 23,000 acres of land to every mile of track, or 500 acres for each $1,000 bond. They are exempt from United States tax; principal and interest are payable in gold. Denominations—coupons, $100 to $1,000; registered, $100 to $10,000.

Northern Pacific 7-30's are at all times receivable at ten per cent above par in exchange for the Company's lands at their lowest cash price.

The proceeds of all sales of lands are required to be devoted to the repurchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres in the most fertile portion of the Northwest, and the demand for the Company's lands for settlement already exceeds the ability of the government to complete the surveys. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due.

Holders of United States five-twenties, who wish to convert them into a first class railroad security, can do so at a present profit of about 12 per cent, while increasing their interest income nearly one-fourth, by exchanging them for Northern Pacific 7-30's.

All marketable stocks and bonds will be received in exchange at their highest current price. Full information, maps, pamphlets, &c., will be furn
