The whole number of pieces coined in May, 1854, was 4,717,132 against 4,869,786 the corresponding month of 1853. Of the pieces coined this year 295,536 were gold, 3,686,000 silver, and 817,596 copper.

The gold bullion deposited in May, was:

From California	$5,400,500
From other sources	196,000
Total	$5,596,500
Silver Bullion deposited	134,000

The deposits of precious metals for the first five months of the year were:

	1853. Gold.	1853. Silver.	1854. Gold.	1854. Silver.
January	$4,062,007	$14,000	$4,215,579	$102,000

Total	$25,255,772	$4,984,950	$17,049,579	$1,736,500

Showing for the four months of this year a decrease of $7,485,792 in the deposits of gold, and of $2,348,060 in the deposits of silver, making a total decrease of $9,833,852.

The Washington correspondent of *The Courier and Enquirer* give the following as an approximation to the total receipts of the United States for the fiscal year, ending June 30, 1854:

	1st quarter.	2d quarter.	3d quarter.	4th qr. est.
From Customs	$19,570,262	$19,567,821	$16,836,724	$15,600,000
From Lands	1,489,562	2,223,076	2,012,000	2,000,000
Incidentals	347,994	101,963	486,091	400,000
Loans	1,650	850	300	——
Total	$21,337,028	$15,913,211	$19,385,025	$18,000,000

Total receipts for the fiscal year 1854 ..... $74,636,264
Total receipts for the fiscal year 1853 61,600,000

Increase of receipts for the present year $13,766,264

The balance in the Treasury last year on the 1st July was $21,942,892
It may be estimated at the same date this year at 32,000,000

Increase of means at the beginning of the fiscal year 1855 ..... $10,057,108

The amount of public debt paid off will have been about $20,000,000. The revenue collected has been, therefore, about $30,000,000 more than the current wants of Government have required. Of this entire revenue, the existing tariff has produced $68,000,000, and the public land $7,000,000. The tariff might be reduced so as to yield only $40,000,000, instead of $68,000,000.

The weekly statement of the Boston Banks shows a general contraction excepting in Loans, which have increased. The figures are:

Capital	$30,542,642	Due from Banks	$8,897,760
Loans, &c.	49,248,869	Deposits	19,015,196
Specie	2,796,914	Circulation	8,968,265
Due other Banks	6,679,145		

These figures show an increase of Loans, &c. of $138,000, a decrease of Specie, $135,000; of Deposits, $282,000, and of Circulation, $163,000. The Bank Balances are also lower.

The St. Louis Intelligencer says that the Ohio and Mississippi Road is completed and operating forty miles east of the city. The road is graded and ready for the rails for near 140 miles; and the rails are going down as fast as they can be laid. By the first of August the road will be completed to the Illinois Central. The Illinois Central has only 60 miles unfinished between Cairo and the intersection of the Ohio and Mississippi. A celebration of the opening of this Road westwardly from Cincinnati to Seymour, on the Jeffersonville Road, comes off on the 29th. This will form a connection between Cincinnati and Louisville by railroad.

The receipts of the Fitchburg Railroad Company for May, 1854 and 1853, were:

	Passengers.	Freight.	Total.
1854	$22,453 83	$36,248 99	$59,699 82
1853	21,888 57	39,867 82	52,656 39
Increase			$7,043 43

Some interest is felt in the Gold region recently discovered in Franklin County, Ga. A Company with a capital of $12,000 has commenced operations. Some gold found has been assayed, and pronounced worth $18 per ounce. It remains to be seen whether enough can be gathered to pay for the trouble of gathering it.

The Cumberland (Md.) Journal says that the Baltimore and Ohio Railroad Company now require the freights on coal to be settled by the coal companies weekly, instead of monthly as heretofore. This change is intended to meet such cases as the Parker Vein Company.

The earnings of the Taunton Branch Railroad for the year ending May 31, 1854, were:

Passengers	$100,080 55
Freight	16,630 74
Mail	1,151 98
Interest	1,052 03
	$118,915 31
Expenses	100,440 79
Net profits	$18,474 52

At Philadelphia Money continues in active request.

The Boston Journal says: There is a more comfortable feeling in the Money market, although no concession of importance is made in discount rates. At 10 ⅌ cent. the very best paper goes a little easier than a few days since, but anything short of "gilt-edged" must submit to 12 and over, according to its grade.

The Albany Journal says: On the 19th of the present month the amounts of Wheat and Flour in store at the places named, were as follows:

	Wheat, bus.	Flour, bbls.
Chicago	60,000	8,000
Waukegan	10,000	——
Kenosha	8,000	——
Racine	20,000	——
Milwaukee	80,000	11,000
Sheboygan and Fond du Lac	75,000	——
Total	253,000	17,000

The receipts of Flour, Grain and Provisions at Ogdensburgh, for the season, up to June 19, were:

Flour	bbls. 121,543	Oats	bush. 77,116
Wheat	bush. 82,254	Pork	bbls. 9,422
Corn	bush. 189,818

Markets.

CAREFULLY REPORTED FOR THE TRIBUNE.

WEDNESDAY, June 28, 1854.

ASHES—The market is firm for Pearls at $5 50, and less buoyant for Pots at $5 31½.

COTTON—The market for this staple since our last weekly review has been quiet, owing to the unfavorable advices received per Atlantic and prices of the common qualities are ⅛ lower than the quotations annexed, and there is also less firmness for grades below middling; but good qualities are scarce and quite firm. The annexed quotations must be considered nominal:

NEW-YORK CLASSIFICATION.

	Upland.	Florida.	Mobile.	N. O. & Tex.
Ordinary	7½	7½	7½	7½
Middling	9	9	9	9
Middling Fair	10½	10½	10½	11½
Fair	11½	11½	11½	12½

FLOUR AND MEAL—There is increased heaviness in the low grades of State Flour, but the better kinds are firm, with a fair inquiry for the home trade and for export. There is more doing in the inferior grades for export, but at lower prices. The better grades are firm and in fair demand. Canadian is firm, the supply limited; sales of 300 bbls. at $7 12½ for common, and $7 37½ for good, in bond. The sales of Western Canal are 11,200 bbls. at $6@$6 75 for No. 2 superfine and inferior State, $7@$7 50 for common to good State, $7 25@$7 75 for common to good Ohio, and $6 87½@$7 75 for mixed to fancy Western. About half of the sales were for export. Southern Flour is without change, the demand fair for the home trade; sales of 600 bbls. at $8 62½@$9 12½ for mixed to good straight brands Baltimore, &c. &c. Rye Flour is firm; sales of 200 bbls. fine at $5 50. Corn Meal is quite firm; sales of 250 bbls. Jersey at $3 37½. We quote:

GRAIN—The market for Wheat is quite heavy, especially for Upper Lake—this is different from the rest of sale, the export and milling demand is quite moderate; sales of 3,200 bus. good Upper Lake at $1 50, and 2,000 bus. good White Canadian at $1 90. Rye is quite firm and in fair demand; sales of 2,500 bus. Jersey at $1 20 cash. Oats are better and are scarce; sales of State and Western at 57@58c. Corn is easier and is less active for export; the sales are 30,000 bus. at 70@70c. for unsound; 78@80c. for Western Mixed; 80@82c. for Round, Yellow, and 86@87c. for Southern White and Yellow. White Beans are in fair demand at $1 25@$1 50 for Western, and 87½c.@$1 12½ for Southern. Canadian Peas are quiet at $1 56@$1 62½ ⅌ bush. Black Eyed Peas are dull at $3 87½ ⅌ bag of two bush. New-York Horse Market.

Reported Exclusively for THE N. Y. TRIBUNE by SOLON ROBINSON, EAST TWENTY-FOURTH-ST., Wednesday, June 28, 1854.

We have reported the Horse market dull for some weeks past. The only variation necessary to make this week is to add a superlative to that word. In all our familiarity with this market, we do not recollect a war to have seen a smaller show of business than to-day. We did not see a single lover in the street all the time we were there, and heard of but very few sales for a week past.

BROWN & SMITH sold one pair of fancy Carriage Horses to a wealthy City gentleman on private terms; something pretty large, as we know they paid $1,150 for them at Jefferson, Tompkins County. If we are rightly informed these were a pair of light bloods, trained and fitted for sale at Jefferson. Fine looking horses are often sold for less money, but these had the merit of docility, as well as spirit and speed.

A Light Bay Horse, 16½ hands high, sold for $500; because he could go a mile in three minutes in a wagon. He looked more like an English Hunter than any horse we have noticed in market.

AMOS SMITH sold a pair of sour Carriage Horses to-day for $600.

LAWRAN brought in a lot on Saturday, and sold nine yesterday and day before at $140 to $550, four of them to stages, two to milkmen, and the others for City work. This is the most lively sale of the week.

Mr. LAWRENCE of Eighty-sixth-st. bought a pair of fine, large, brown carriage horses, out of Sarsaparilla's stable, last week, for $1,200. These prices for fancy horses are as good as ever, but the buyers are few. The principal sales made now are to replace such as die or give out at their work this warm weather. This will be the case for two or three months. It is not worth while for owners in the country to crowd their stock into market till after dog days. There is a dozen or so of most disconsolate-looking horses owners here now. They lounge about the stable, watching the entrance of every stranger, to see if he look hopeful, if not turn away with any thing but a horse-laugh within upon their face.

By the following statement of numbers in the several stables, it will be seen how much the stock has been reduced:

Macauley, 150 and 17 mules; Chamberlin, 100; Northrop & Post, 85; Amos Smith & Johnson, 42; Brown & Smith, 30; Sanford, 40; Campbell, 12; Williams & Mulligan, 40; Hetfield & Lampkin, 10; Kelley, 21; Faxon, 17; Wilson, 7; Martin, 9; total, 514.

Taylor has left the street and Macauley occupies his stable. He continues to sell mules for City use, at about $300 a pair. We learn that all the mules at work in the City stand their labor in the heat much better than horses.

Although the number is so much reduced, there is still a complete assortment in the street—cheap ones excepted.

Albany Lumber Market.

[For the week ending June 28, 1854.]

Reported specially for The N. Y. Tribune.

ALBANY, Wednesday, June 28, 1854.

There has been a pretty fair delivery and Sales of Lumber the past week, and freights have been somewhat brisk. There has been no surplus of vessels, they being taken up as fast as they arrive.

Prices for most descriptions are steady, though the advance of the summer season and the increasing stock of some kinds, have a tendency to render the market more easy in some particulars. Sales, however are made readily, and for a prime article buyers will not stand on the price.

But few vessels have arrived the past three days, and there are none lying at the docks of the district which are not receiving loads.

The stock of Shingles is very light, and consequently they are higher now than at any time this year. Hemlock Boards and Joist are increasing, and the market is somewhat easier than last week.

The receipts by the canals at this place for the fourth week in June, for the years named below, were as follows (1854 containing but three days of the canal week).

	Bds. and Scntlg. feet.	Shingles. M.	Timber c. feet.	Staves lbs.
1851	9,664,360	896	2,470	3,574,700
1852	14,723,417	2,268	6,917	2,653,551
1853	20,869,509	1,359	225	9,091,546
1854	6,014,250	663	2,000	717,200

There seemed days in the fourth Canal week of June, which is from the 21st to the 28th, estimating the receipts at 1854, as far during that week as it, the receipts will fall short 2,000,000 feet of Boards and Scantling, and 2,000,000 lbs. of Staves, while there will be an increase of Shingles 1,000 M. and Timber 2,000 c. ft. But it will be observed that the receipts for the fourth week in June last year were unusually large, both of Boards and Scantling and Staves.

The total receipts from the opening of navigation up to and including the fourth week in June, in the years named below, have been as follows, (The fourth week of June 1854 containing but three days, as noted above):

	Boards and Scantl'g feet.	Shingles M.	Timber c. feet.	Staves lbs.
1851	79,969,843	18,500	76,195	25,614,500
1852	100,290,143	17,270	29,329	23,972,046
1853	126,623,656	15,664	4,440	29,021,673
1854	93,234,895	9,530	1,367	25,140,356

Allowing for the six days yet to be added for the fourth week of June 1854, at the rate the receipts have been the three days for which we have returns, and there will still be a great deficiency this year in Boards and Scantling, Shingles and Timber, while the receipts of Staves this year, so far, greatly exceed those of last year.

We make such corrections in the tariff of prices current at the principal yards as have transpired the past week:—
