A.—KENTUCKY TALKS.

BY WILLIAM ROSS WALLACE.

Often has my broad old bosom thrilled into the very core
At my children's triumph-banners proudly, purely streaming o'er;
Banners won in pioneer battle, won in enterprise that made
Wealth material on the mountain, river, forest, valley, glade,
And no trophies have delighted more for the heart and mind
Which in my Great Public Library will forevermore be shrined.
Two Gift Concerts held already have resulted in success,
Thousands fairly drawing prizes—and the third will not be less.
Fairly—Bramlette, my old Governor, had, has management of all;
And by Durrett, Cain, assisted, thousands answered to his call.
Yes, Gift Concert third and drawing will come off on April 8,
Where one half a million dollars, sound in cash and sure as fate.
Will have a just distribution. Oh, 'tis joy for me to know
That so many ticket-holders with fair-earned success will glow;
For the venture's right and noble—right, here to increase one's wealth
And while trying to be sure of adding to the mental health;
Nor is this to be forgotten by the liberal, that the Grand Library's free to not mine only, but to all in our great land!
Gifts will be 10,000 total—ticket buyers, brief is time;
Then be quick, and for particulars in this plan, sound as sublime,
Send for information, circulars, and learn all you want to know,
So that wealth, with a proud feeling of assisting a grand object,
May into your pockets flow!
List of gifts to be distributed by lot among ticket holders to the Third Grand Gift Concert in aid of the Public Library of Kentucky, at Louisville, Ky., positively on April 8, 1873, viz.:—

BREWSTER, OF TWENTY-FIFTH STREET.
Warerooms,
Fifth avenue, corner Twenty-seventh street.
Sole makers of BREWSTER WAGONS, with the VERTICAL STEEL PLATES.
The maximum of strength, the minimum of weight, obviating all spread of the axle, a prevailing source of annoyance to those using road wagons.
To attain the highest speed a wagon should follow the horse in a direct line. This can only be accomplished by the wheels running plumb; any inclination in the axle to spread destroys the plumb of the spoke and gives a lateral motion to the wheel, causing it to push out sideways. This lateral movement greatly increases the friction to be overcome by the horse, with a consequent waste of power, thus detracting from his speed in direct proportion to the spread of the axle.
With our Vertical Steel Plates we have been enabled to build wagons of the lightest weight, running so absolutely true that we have yet to hear the first complaint from our patrons.
See certificate from General McClellan:—
NEW YORK, June 1, 1871.
GENTLEMEN:—
I have carefully examined your Patent Vertical Steel Plate Axle. I find that the addition of the Vertical Plate renders the axle about two and a half (2½) times as stiff as it would be without it.
Very respectfully,
GEORGE B. McCLELLAN.
