sited yesterday as having been paid out of the Boston Sub-Treasury, all of which, it is supposed, is intended for transfer to this City. The amount of stock now going forward for redemption is quite small.

Albert H. Nicolay's regular semi-weekly auction sale of Stocks and Bonds will take place to-morrow, at 12½ o'clock, at the Merchants' Exchange.

The Ocean Steam Navigation Company has declared a semi-annual dividend of five ℘ cent., payable on the 1st of February.

The Manhatten Gas Light Company, a dividend of two dollars per share on the full, and one dollar eighty-one and a half ℘ cent. on the scrip stock, payable on demand.

The Commercial Bank, of Albany, an extra dividend of twelve and a half ℘ cent., payable Feb. 18.

The Terre Haute and Richmond Railroad has declared a dividend of 5 ℘ cent., payable 27th inst. at the Farmers' Loan and Trust Company.

The steamer took about $75,000 in foreign gold and silver coin, shipped mostly by the agents of the Rothschilds, who has bought about $200,000 of foreign specie, mostly Napoleons, which will be shipped by the next steamer or two.

The City Controller gives notice that the fourth installment of Building Loan Stock No. 2, due and payable on the 1st of February, will be at his office on that day, after which interest on the loan will cease.

We understand that the wealthy dry goods house J. & J. Stuart & Co. are about to establish themselves as private bankers in connection with a brother of the Messrs. Stuart, who resides in Manchester, England. This house has been for some time past more or less connected with foreign exchange operations. It is supposed they will commence with an unembarrassed capital of over a million of dollars. There is ample room in this City for new banking houses of large Capital and business experience.

The business in Cotton has been light since the last steamer, partly in consequence of the lightness of the stock. Prices have been well supported. The sales *in transitu* have been 12,000 bales, and on the spot 3,500 bales. The decrease in the receipts at the ports, as compared with last year, is 64,000 bales. The excess of exports is 196,000 bales, and the deficiency in stock on hand 194,000 bales. A sufficient rise in the Southern rivers would give much activity to this staple. Mr. W. P. Wright's Circular contains the following statistics of the movement:

CROP RECEIPTS &c.—As the decrease in receipts of Cotton at the ports, compared with last year, increases, the disposition to reduce the estimates of crop extends, and parties who have been waiting for heavy arrivals, and consequent low prices, to enter upon operations, find the season creeping on without either the one or the other having yet taken place; nor is there any immediate prospect of the supplies of Cotton being materially increased. We have had rumors of a rise in some of the upper tributaries of the Mississippi, as well as in the Alabama; but the latest accounts from New Orleans and Mobile represent them as falling again. The receipts at all the ports during the week under review have been 70,000 bales, against 77,000 for the corresponding week last year; and unless they should be unusually heavy during the coming six weeks our present decrease of 64,000 bales must of necessity be larger, as we have to compare respectively with receipts last year of 97,000 bales, 120,000, 129,000, 140,000, 107,000, and 106,000, and it was on this basis I formed the opinion expressed in my circular of the 10th inst., that the deficit might run down to 150,000 bales, or even more.

The following is a statement of the movement in Cotton since the 1st September last, as compared with the previous three years.

	1853.	1854.	1853.	1852.
Receipts at the Ports	1,049,000	1,112,000	1,708,000	1,261,000
Exports to Great Britain	525,000	332,000	692,000	427,000
Exports to France	141,000	109,000	110,000	147,000
Exports to othr for'gn ports	69,000	78,000	104,000	65,000
Total Exports	715,000	519,000	906,000	639,000
Stock on hand	313,000	507,000	676,000	479,000

Of which during the past week, included to the above:

Receipts at the Ports	70,000	77,000	112,000	120,000
Exports to Great Britain	50,000	34,000	51,000	38,000
Exports to France	12,000	19,000	50,000	13,000
Exports to othr for'gn ports	11,000	11,000	10,000	7,000
Total Exports	81,000	64,000	66,000	53,000

From which it will be seen that the decrease in receipts now amounts to 64,000 bales. The increase in exports to Great Britain, 193,000—France, 12,000; decrease to other foreign ports, 9,000. Total increase in exports, 196,000 bales.

The application for the appointment of a Receiver for the Empire City Bank has been postponed to Friday. The Cashier testified to-day that the bills receivable might possibly be worth, in the aggregate, 50 ℘ cent. The names of most of the prominent Locofocos in the City appear in the list of loans and discounts. Before Justice Roosevelt to-day, Mr. Creamer, the present Cashier of the Bank, (appointed in October,) gave testimony as to the assets and affairs of the Bank. When the Bank stopped it had but between $3,000 and $4,000 in specie to meet nearly $300,000 due to its depositors, bill-holders and holders of certificates of deposit—of which latter there was at one time about $80,000. The Bank, however, had in the Bank Department sufficient United States and State Stocks to meet all its outstanding bank bills, and a surplus remaining of $5,000. A large amount of the certificates of deposit were issued to parties making loans to the Bank, and for much of which the Bank paid 5 ℘ cent. interest per month, or 60 ℘ cent. a year. Many certificates of deposit were given when parties had no funds in the bank. On borrowing money, the certificates of deposit were secured to the lenders by collaterals of notes. In the certificates of deposit the transaction was made to appear regular on its face, but, (as the Judge remarked) very much the reverse inside.

A very large amount of notes were said to be among the assets, part due. There were a number of questions asked and answered as to the condition of the bank. The following is claimed by Mr. Tracy, counsel of the bank, to be its situation:

ASSETS.

The nominal assets are	$443,181 56
Of which, he says, 50 ℘ cent. are good, making	221,950 77
U. S. stocks and State stocks, deposited with Bank Department	118,476 78
Specie and cash items, about	5,000 00
Total	$345,567 55

LIABILITIES.

To depositors	$120,260 00
Circulation of bills	105,991 00
Outstanding certificates of deposit	40,000 00
Due to Banks at Clearing-House	15,000 00
Other items	17,000 00
Total	$298,261 00
Surplus	46,306 55

Of the certificates of deposit, on which an usurious rate of interest had been charged, the Judge considered that they would be void; and the parties, even where paid, made to refund—and so much more to be added to the assets.

The State Controller gives notice that he will pay $884 28 upon the surrender of each $1,000 bond of the Hudson and Berkshire Company, issued under the act of 1847, to relay the track.

The business at the Clearing-house amounted to $15,621,545 67.

The redemption of the public debt of the United States during last week was as follows: Loan of 1846, $14,000; do. of 1847, $42,500; do. of 1848, $10,000—total, $66,600.

The attempt of the Boston Board of Trade to change the bank hours, so that they shall close at 3 P. M. instead of 2, is not likely to be successful. The Directors of the Union Bank have decided not to favor any such change, and the Suffolk Bank refuses to entertain the proposition.

Markets.. CAREFULLY REPORTED FOR THE TRIBUNE.

WEDNESDAY, Jan. 24, 1855

ASHES—The market is quiet for Pots at $6 62½, and Pearls at $7. Saleratus is in demand at 6½c. The following was the stock remaining in the warehouse of Messrs. Lester, Palmer & Co. on the 19th inst:

WEEKLY STATEMENT BY LESTER, PALMER & CO.

Second sort, casks	21	58
Third sort, casks	35	16

BEESWAX is without change; sales have been made of 100 lb Western and Southern at 27½@28c.

BRICK—The supply is light so is the demand, and prices are the same; sales of Hard North River at $5, and Jersey at $4 50@$4 75 ℘ M.

BARILLA is in very moderate demand, and prices are unchanged; sales of Tenerife in lots, at $27.

BOOTS AND SHOES—There is more confidence with the trade, especially with the manufacturers, who take hold with some vigor though much less than last year this time; and the orders on hand are larger than was expected would be the case a month since, but prices open considerably lower than last season. There is nothing doing for Australia or California.

CANDLES—The demand is fair from the trade, and prices are firm, with sales of 800 boxes City Adamantine, 24s, at 22c; and Star at 24c, 4 mos. Plain Sperm is selling in lots at 29@30c, and Patent, 35@40c.

CORDAGE—Manilla is dull at 14@15c; American, 13c, and Russia at 16@18c.

COAL—Foreign is still dull and plenty, with hardly any demand; sales of 150 tuns Liverpool Orrel at $7 50, and 50 tuns Scotch Carrel at same rate. Anthracite is quiet at $6@$7 50 from vessel and yard.

COFFEE—The market is dull and prices are in favor of the purchaser; the sales since our last weekly report are 1,300 bags Rio at 9¾@10c, 650 do. Maracaibo, 10¼@10½c; 50 do. Bahia, 9c, 400 do. Java, 15@15½c; 40 do. Brown, 10c; 2,500 do. St. Domingo at 8¼@9c, and 200 bags Jamaica, 10½c.

COTTON—Prices are in sellers' favor with a good demand and almost exhausted supply. The latter is owing to the indisposition on the part of southern bankers to accept anything but short-sight bill drafts for Cotton shipped to this port. A large portion of the sales this week was in transitu, and prices close buoyant at the annexed quotations:

DYEWOODS—The market is bare of St. Domingo, and prices are steady at $16 50@$17. We hear of sales of Lagueyra at $22, and Jamaica do. $14 50, and Cuba Fustic at $23, and 27 tuns Camwood for home use at $20, 6 months.

FLOUR AND MEAL—The market is again easier for the low grades of State and Western Flour, with a fair inquiry for export at the inside prices; the eastern demand is not active, and the home trade buy only for their present wants. The better grades are more salable, but at irregular prices. At the close there was more business, owing to the threatening snow storm, which may cut off the supplies from the interior. The stock at present is ample; the receipts since the 1st inst. have exceeded the consumption. The sales of Western Canal are 6,000 bbls., at $8 12½@$8 37½ for common to good State, $8 50@$9 for mixed to good brands Upper Lake, Michigan, Indiana and common to good Ohio, and $9 50@$12 for extra and double extra Genesee—the latter price for favorite brands, long and favorably known. Included in the sales are 3,500 bbls., mainly State, for export. Canadian Flour is without variation, and not active; the stock is moderate; sales of 650 bbls. at $9 in bond, and $9 50@$9 87½ for common to very good brands. Southern Flour is in moderate request, and is held rather more firmly, but prices are without change; the arrivals are fair, and the stock has not diminished since 1st inst.; the sales are 1,400 bbls., at $8 50@$9 for mixed to good standard brands Baltimore, Alexandria and Georgetown, and $9 12½@$10 25 for favorite, fancy and extra brands, and $11 for "Gallego & Haxall." Rye Flour is in fair request; sales of 150 bbls., at $6 12½@$7 50 for fine and superfine. Corn Meal is heavy at the decline; sales of 200 bbls Jersey at $4 62½, and Brandywine at $4 62½, and puncheons at $21. Buckwheat Flour is in fair demand at $3 50@$4 ℘ 100 lb. We quote:

FISH—Dry Cod are in fair stock, the demand for which is not very brisk, but is rather better than it has been; sales of 2,400 quintals at $3 12½@$3 31, closing at $3 25@$3 31—the latter figure an improvement for Grand Bank. There is no George Bank here. Dry Mackerel are scarce, but not much inquired for; small and medium are plenty and dull; the sales include 500 bbls at $18 75@$19 for No. 1 large; No 2 small at $16@$16 25; No. 3 large at $6 25@$6 50; small No. 3 at $5 75@$6. Pickled Cod are scarce at $5 87½@$6. Pickled Herring of prime quality Halifax would command $4; small sales of Eastport at $3.
