ROOFING SLATE—THE EAGLE SLATE Co. of CASTLETON, VERMONT, have now on hand and are manufacturing large quantities of GREEN AND PURPLE ROOFING SLATE, and recommend it with confidence as superior to any hitherto quarried in this country, being in all respects FULLY EQUAL TO THE WELSH. The facilities and arrangements for its manufacture and transportation are so extensive and complete, that orders can be executed with great dispatch, and it will be forwarded to any part of the United States at quarry prices, with the addition of freight. The Company, while calling the attention of the public to the article produced by them, would remark of SLATE FOR ROOFING PURPOSES in general, that the cheapness with which it is produced and laid on, the great protection against fires and the heat of summer, with the fact that it never requires painting—being a life time without repairs—renders it SUPERIOR TO ANY OTHER ROOFING MATERIAL. They therefore invite all Committees for the erection of public institutions, and persons building first class residences, in town or country, to investigate the subject. They refer to the following experienced slaters, for information as to the quality of the article manufactured by them, viz: JOHN BRODIE, No. 677 Washington-st., New-York. EDWARD CROMMELIN, No. 626 Washington-st., N. York. F. & J. DUGAN, No. 438 Broome-st., New-York. THOMAS LEWIS, No. 46 Rose-st., New-York. Communications addressed to J. W.
