[illegible] Bond until the arrears of rent due from the lessee to the former corporation shall be fully paid, according to a clause in the lease.

The Philadelphia Ledger says:

The Committee of the Legislature, to which was referred the complaint against the Bank of the Northern Liberties, of taking illegal interest, &c., has made a report, and the report is published. The report, in brief, is in favor of the bank; but the case, we have been informed, will not end where it now stands. We are assured by the parties interested that it will be carried into the Court. The friends of the bank, as we understand, admit that a clerk in the countinghouse of a director of the bank has been in the habit of taking all of the uncurrent funds of the institution, which they accumulate, for the purpose of converting them into par funds. The *modus operandi* of which was, or is, something like this: He would receive from the bank say $20,000; with this sum he would [illegible] some good note for $5,000, on condition that the borrower would be at the expense of converting the remaining $15,000 into par funds, when the whole would be turned into bank. Those who prefer this complaint against the bank say that this was proceeded, and more. They allege that usury was sought to be covered by the bank in various ways—among others that the payment of the old protested notes of small amount were sometimes made the condition of discounting a note at par; and at others, that the entries of cash were made in the profit and loss account opposite the names of prominent directors, some, if not all of which, it is alleged, cover usury, and are placed in the profit and loss account, in order to avoid the fact which would be apparent, if placed as interest, opposite the bank's line of discount—being more than six per cent, on the aggregate of such line. These are the allegations, pro and con., the truth of which we shall probably know after a judicial investigation. The friends of the bank are bold and defiant, and profess a desire for the most searching scrutiny.

The reduction in the rate of discount by the Bank of England has tended to confirm and somewhat to increase the slightly improved tone which has prevailed for the last few weeks in trade; but there is no present appearance of any considerable change for the better. The conferences at Vienna appear still to be suspended.

The Manchester market is firm; but the advance in prices which has taken place, amounting on some numbers of YARNS to ½d. ⅌ lb. has somewhat checked the demand.

The MONEY market is very easy at 6 ⅌ cent, and in some cases even lower. The EXCHANGES continue at such a point as to check the export of Gold COINS, in anticipation of a loss, have fallen to 91½

CORN MARKET—The market has been quiet, and prices have rather favored buyers The season has continued backward and expended up to this time, but it has been dry, and has afforded in most localities a favorable seed time.

Richardson Brothers, & Co.'s Circular.

Per Africa. LIVERPOOL, 4th Month, 13th 1855.

COTTON—The sales of the week (73,040 bales) are again large with a good steady business at last week's rates Holders offer their stocks freely. Speculators took 11,250 American and 4,000 Surat. Exporters 7,000, about 4,000 of which were American, and the trade, 49,610. Imports 102,590 bales.

QUERCITRON BARK—Philadelphia is in moderate request at 30/ and 7/6 ⅌ cwt for Baltimore

LARD is in fair consumptive demand at 44/ to 46/ for common to good, and 47/ ⅌ cwt. for fine quality. Arrivals continue heavy. Speculators do not operate at present rates

TALLOW has gradually become dearer by 1/ to 1/6 ⅌ cwt, as holders are firm, but the trade only take for their immediate wants.

RESIN we quote about 4/7 ⅌ cwt Sales 4,000 bbls

BEEF—The transactions have been to a fair extent, 200 tcs. "Dominick's" said to be at 122/6, 200 tcs "Hudson and Jones's" at 120/, 50 tcs "Peaks" at 105/ @ 105/; this quality is unsaleable.

BACON has been very quiet during the week; we heard of only one sale of 200 boxes Long Middles at 42/ ⅌ cwt, and some retail sales at 66, more.

PORK—A parcel of McAllister's sold at 72/6, some other lots at 70/ @ 75/ ⅌ barrel; fine parcels are held above market rates.

IMPORTS for the past seven days consist of 7,427 quarters Wheat 2,320 quarters Indian Corn, 2,191 sacks, and 5,139 barrels Flour. Exports for same period, 206 quarters Wheat, 11,173 quarters Indian Corn 1,612 sacks, and 6,5 barrels of flour.

We quote the value of American White WHEAT at this day's market at 11/ @ 12/ ⅌ 70 lb, Red, 10/6 @ 11/ ⅌ 70 lb Baltimore and Philadelphia FLOUR, 36/ @ 42/; Western canal 35/ @ 40/; Ohio ⅌ 280 lb, 34/ ⅌ bbl Yellow INDIAN CORN, 41/ @ 42/; Mixed 42/ @ 43/6; and White 41/ @ 42/ ⅌ 480 lb.

The weather still remains cold and ungenial for the season.

The trade is void of activity in all its branches, with merely a moderate consumptive demand from day to day, which holders are inclined to meet at the current rates of our last market.

The attendance at this morning's market was pretty large for the day of the week; however, sales of WHEAT and FLOUR proceeded slowly, at the rates of Tuesday; holders generally were not willing to submit to any decline, even to promote business

The late imports of INDIAN CORN are gradually being dispersed of, and the choice of samples now is not by any means extensive; prime yellow could not be purchased under 41/, and mixed 42/, ⅌ qr; white, being in greater supply than either of the above, was a shade easier to purchase.

OATS sold slowly at previous rates, but OATMEAL was rather more inquired for; however, no improvement in price can be noted.

Egyptian BEANS still very dull, at a further decline of 1/ to 2/ ⅌ quarter; 30/ ⅌ 480 lb having been accepted.

Having encountered a heavy typhoon, he concluded to return to port, the mate and twelve seamen being down with the small-pox On the 18th, while entering the harbor the wind nearly died away and the current was fast setting the ship on the reef Every effort was made to tow the ship off, but without success; she went ashore upon the reef and filled. She had on board 900 bbls. sperm oil, about 100 bbls of which was saved, which, together with the effects saved from the wreck, were carried to Hong Kong and sold. The captain and crew were taken to Hong Kong Jan 26 by the British steamer Unicorn, from Sydney, N. S. The papers have nearly finished with the St. Bernard's cargo—the value of the sound portion will be about $20,000 by appraisement, which is considered very low. The salvage has been settled at 48 per cent on dry goods, and 60 per cent on the wet goods The salvage on the goods from the Hudson, all saved wet and mostly damaged up has been settled at 55 per cent.
