Courts. At any rate it was not intended to prejudice the argument, but to consider that the parties stand in that position, and that the issues will be different to certain of the individuals, and that the suits cannot be joined.

Mr. Noyes stated that there has been no decision that the Company is liable for the over-issues, and in this Court the reverse has been held.

Mr. Lord said that Judges Bosworth and Hoffman of the Superior Court have both held that the Company is liable.

Mr. Noyes replied that Judge Bosworth only informally passed upon it, and argument is now being for the first time presented in relation to that decision. Judge Hoffman did not hold that the Company is liable, but that the fraudulent issues were to be considered valid and the same as the genuine.

After some further remarks the Judge said if Mr. Noyes thought it be might look over the opinion, which would not yet be filed, and if he still considered that the passage alluded to had the effect of prejudicing the argument in this Court, which the Judge did not consider would be the case, it might be omitted in the opinion.

Judgment for defendant on demurrer, and that the temporary injunction be dissolved, was then regularly entered.

MONDAY, May 14—P. M.

The business at the Stock Board was not large this morning and prices were without change of importance but generally well sustained. In Reading there was considerable buoyancy. At the Second Board the feeling was steady and Reading again improved, closing at 87½, an improvement of ¼ ⅌ cent. The circulation of the large earnings for April had a favorable effect upon the market and assisted those who are operating for a rise. Erie closed at 49½, the price of Saturday. Harlem and Hudson River were steady. Panama was active, the sales being some 800 shares, the market closing at 99½, a further improvement of 1 ⅌ cent. Cleveland and Toledo advanced ½ ⅌ cent. A small sale of Michigan Southern was made at 101, but afterward 102½, buyer thirty, was bid. New-York Central improved to 92½. There has been a rumor in the street for several days that this Company was about to come into market with a new issue of bonds, but those best acquainted with its affairs have no confidence in the rumor. In other stocks there was not much done, and prices were without important change. Of Railroad Bonds about $65,000 were sold at full rates: Erie, 1875, 87½, which is ½ ⅌ cent better; Illinois Central, 74½; New-York Central, 103½, ½th advance; Goshen Line, 90, &c. The purchases of Erie were mostly for foreign account. Of State Stock $60,000 sold: Virginias at 97; Missouris, 91½; Indiana 5s, 83½, &c.

There is but a moderate demand for Exchange, and rates are steady. Sterling, 9½@10½; France, 5.15⅞@5.12½. Bankers are free drawers at 10½ ⅌ cent.

Freights are dull. To Liverpool the engagements include 500 bales Cotton at 5-32@3-16d.; 1,000 bbls. Rosin, supposed 1/, and heavy goods 7/6@12/6. To London, Rosin 1/6; tce. Beef 2/@2/6, and Bacon 15/. To Havre, Cotton ¼c.; Whalebone ¼c., and Ashes $7@$8. A Deal charter was made from Bic (River St. Lawrence) to Liverpool at 85/; one from do. to London 80/, and one from Montreal £5. To California the rates are 30@35c. ⅌ foot.

The payments at the Sub-Treasury were large today, including $46,000; drafts from San Francisco, $349,231; received, $98,585; balance, $2,135,624; paid from Assay Office, $5,254; paid in disbursing checks, $107,306.

The earnings of the Erie Railroad Company for April show a small decrease as compared with April of last year, when lake navigation was open about two weeks earlier than this year. The figures are:

April, 1855	$517,323 97
April, 1854	521,989 18
Decrease	$4,567 11

The earnings for the past seven months have been:

	1853-4.	1854-5.
October	$519,675 18	$519,018 70
November	481,486 15	488,018 61
December	501,223 40	454,431 07
January	397,292 56	437,936 09
February	342,555 02	357,629 11
March	406,736 55	492,159 02
April	521,989 18	517,209 97
Total	$3,050,875 14	$3,276,391 56
Increase in 1855		$225,126 41

We annex a statement giving the earnings for April of the four great routes between the Atlantic and the West:

	1854.	1855.
New-York Central	$559,071	$647,159
Erie	521,998	517,999
Pennsylvania Central	321,136	355,349
Baltimore and Ohio	360,346	360,067
Total	$1,744,552	$1,880,574
Increase in 1855		$144,925

We annex the monthly statement of the business of the Reading Railroad for the month of April, compared with the corresponding month last year; also, the net profits for the first five months of the current year, compared with same time last year. The net profits for the month continue to show a large increase on the increased gross receipts. The gross receipts exhibit an increase of about 45 ⅌ cent, while the net profits show an increase of 56 ⅌ cent. The net profits for five months amount to $711,817 37—an increase of 63 ⅌ cent.

April.	1855.	1854.
Received from Coal	$340,128 98	$226,961 91
Received from Merchandise	32,547 93	18,169 19
Received from Travel	20,099 49	22,720 86
Total	$402,476 35	$277,851 96
Transportation, Roadway, Dumpage, Renewal Fund, and all charges	171,763 18	130,313 62
Net profit for the month	$230,613 17	$147,278 94
Net profit for previous 4 months	481,124 20	288,274 66
Total net profit for 5 months	$711,817 37	$435,553 60

The earnings of the Catawissa Railroad for the month of April were:

From passengers	$12,903 66
From freight, &c.	9,315 89
Together	$22,219 55

The Dauphin Railroad, built by the Dauphin Coal Company, earned $6,000 in April over its expenses from local business.

The receipts of the Ohio and Indiana Railroad for April were $30,000, against $26,000 for the month of March. This is very large for this season of the year, with the last grain crop nearly out of the interior, and yields a handsome return on the cost of the road.

The Fort Wayne and Chicago Railroad, which connects the Ohio and Indiana road with Chicago, is now under active construction, and the connection with Chicago will be effected this year.

The business at the Clearing House was $20,474,000.

The deposits of gold by the Illinois at the Assay Office to-day reached about $450,000, of which more than the usual proportion was in dust and a considerable portion was from passengers and did not appear on the manifest. There were also some drafts on the Sub-Treasury, of which $45,000 were paid to-day. With the amount in the hands of passengers we estimate the aggregate by this steamer at about $1,400,000. The letters from San Francisco speak of a very depressed state of business but state that the miners were never doing so well and that the amount of gold dust in the interior was never larger. The letters predict further mercantile failures in San Francisco, but believe that the country at large is abundantly able to pay its debts. A strong competition for business was going on among the bankers and some appeared to be operating without profit.

The old officers of the Board of Brokers were re-elected to-day, excepting the Secretary, Mr. B. Hart, who, on account of his age, 90 years, retired on a pension of $1,000 ⅌ annum. Mr. Hart, we believe, has been Secretary of the Board as far back as the oldest inhabitant can remember. Mr. Geo. H. Broadhead, who has been Assistant-Secretary, was advanced to the vacancy. The officers now are: Charles R. Marvin, President; M. A. Wheelock, Vice-President; Geo. H. Broadhead, Secretary; John Monro, Assistant-Secretary; G. P. Shipman, Roll-Keeper; Jas. W. Bleecker, Treasurer.

The present weekly Bank Statement is a very favorable one, showing a reduction of liabilities and loans, with a fair increase of specie. The reduction of loans is larger than was anticipated. The figures are

	Loans and Dis.	Specie.	Circulation.	Deposits.
May 5	$80,293,245	$11,325,750	$3,087,609	$72,214,069
May 12	79,842,468	14,363,626	7,304,977	73,480,592
Decrease	$260,776			
Increase	$1,436,745	$282,632	$2,363,577

Gold continues to arrive from Philadelphia and the West.

The receipts of the Virginia and Tennessee Road in the month of April last, arising entirely from local business, a part of it only being operated, amounted to $22,070 91, being 50 ⅌ cent increase over the corresponding month of last year.

Mr. Hoadley, the assignee of Messrs. Page, Bacon & Co., is paying to-day the 30 per cent remaining unpaid on the drafts drawn between the 8th and 16th March, but is paying nothing on the drafts drawn subsequently. A new assignment has been made by Mr. Bacon of the remittances by the Illinois and the two next steamers to arrive, which are appropriated to pay the drafts drawn between the 9th April and 3d May, leaving the drafts from 16th March to 9th April entirely unprotected. The reasons for the preference given to late drafts over those drawn in the interval named above are not clear, and it would seem that an act of extreme injustice had been done to the holders of the unprotected drafts. There can be no good reason why gold paid into the San Francisco house for drafts and remitted here should be used to pay drafts drawn by succeeding steamers. The diversion of remittances to pay the drafts in full drawn between the 9th and 16th March, while later drafts received no dividends, was taking a large responsibility; but this last step far exceeds that in injustice. As the matter stands at present no dividend can be made by the assignee until after the arrival of the next Asplinwall steamer.

The Manhattan Fire Insurance Company has declared a semi-annual dividend of 8 ⅌ cent, payable June 1.

The California bars by the Illinois have been sold at ⅛@¼ ⅌ cent premium and Mint bars at 1-16d. premium. The steamer of Wednesday will probably take at least a million in gold.

The canal tolls received at this port in the second week in May were $11,215.

We have a copy of the Annual Statement of the United States Life and Trust Company, from which it appears that on the 1st of January, 1855, it had the following

ASSETS.

Bonds and Mortgages	$752,541 00
City and other Bonds	279,000 00
Bills Purchased	56,621 59
Loans on Personal Security	509,437 63
Cash on hand	29,501 10

Total	$410,850 87
Leaving a surplus of	$1,016,812 45

This is exclusive of the balance of interest due, which enters into the following statement of earnings and expenses during the year 1854:

EARNINGS.

Interest on Bonds and Mortgages	$51,312 16
Interest on Stocks and Bonds owned	17,740 00
Interest on Loans	25,294 14

Thus leaving a surplus of earnings over expenses for the year amounting to $65,095 89.

The Company having been in business from the 3d of August, 1853, as above mentioned had up to the 1st of January, 1854, earned the sum of $10,610 45 over and above expenses.

Thus making on the 1st of January, 1855, the sum of $75,706 34 as net profits.

Out of the net profits two dividends of 3½ ⅌ cent each have been declared, amounting to $70,000, and thus is left a surplus of earn
