THE THIRD THOUSAND READY.
We can now fill our orders for this extraordinary work, by
MARGARET FULLER OSSOLI
WOMAN IN THE 19TH CENTURY.
Col. Fuller, of The New-York Mirror, speaks thus of this wonderful woman and of this book:
"The book is a remarkable one, and more philosophically suggestive on the Woman question than anything that has hitherto emanated from the pen of woman.
"Margaret Fuller was a decided character—a veritable entity—an apparition upon the horizon of humanity not soon to be forgotten.
"As a scholar, we have never known her equal among her sex; as a writer, she has few if any superiors in philosophical force and poetic suggestiveness; and as a talker, her eloquence surpassed anything we have ever heard from the lips of woman. Her flashes of eloquence had the startling spontaneity of inspiration. It seemed as if the opaque creation suddenly became transparent to her vision, and, like the rapt apostle when caught up into the seventh heaven, she saw things 'not lawful for man to utter'—not possible for mortals to understand."

HEAR YE! HEAR YE!! HEAR YE!!!— HIGH PROOF PRESSURE PROCLAMATION OF PRINCIPLES—A MECHANIC'S OPINION, WITHOUT PAY, OF THE MEANEST LAW OF THE DAY.—Kneeling down with foolish fanatics and Christless, Carson crew, that cancer of Christianity, you have heaved off without a helm to navigate and legislate over a light liquid fountain that has flowed freely since the flood, the only liquid that improves by age, and the age it was lawful to make it and take it. At the time of the Revolution it was used by the signers of the Constitution, the framers of Freedom, while viewing through the telescope of time, which is Heaven's hydrometer, to prove principles that could protect millions of minds still in God's mint from the black bandage of Bigotry binding up their brains. If our noble Father Noah or the Fathers of Freedom were here, you would make them Felons by your water-varnished virtuous villainous wisdom. Your consciences are calloused, and your brains are so concentrated in your skulls that they are case hardened to common sense. You are looking through the spectacles of Posterity with asses' eyes. Before you see your substance slime over your sins you will be slain with his jaw-bone. The liquid light of Science will be the "Sampson" that will prostrate such preposterous principles as to destroy the juice that Jesus wisely put with water, the sacred substance that God has put in all seductive matter. The Almighty who has made, and sees the map of the minds of men has secreted as tears in one of his optical organs this earth to preserve it from inflammation of stagnant fermentation of Fanatics with india-rubber Religion and rag-money to rob. The Habeas Corpus hoist way of Heaven will never raise a hod-full of such hypocrites from Hell. I will remain free until the Fourth, and on the Fifth will freely fight for Freedom.
A Bigot's brain will never bloom,
But in the bad pass to the tomb,
And perish in its poisoned form;
While liberal minds will blossom forth
And the flowers of Freedom nourish
All minds that eat that fruit so sweet,
And Truth and Liberty forever flourish.
