such attempt upon his life. It is thought that the wound will not prove fatal.

ATTEMPTED SUICIDE.—Harriet Bertram, an unfortunate young woman living at No. 36 West Broadway, attempted self-destruction on Saturday night, by swallowing laudanum. She was discovered soon after suffering from its effects, and taken to the New-York Hospital.

FOUND DROWNED.—Coroner O'Donnell yesterday held an inquest on the body of an unknown man, about 35 years of age, found drowned in the East River, near Pier No. 9. Deceased was dressed in plaid pants, blue overalls, blue shirt and old boots. He was five feet eight inches in hight, stout built, had brown hair and whiskers, and had been about two weeks in the water.

BURNED TO DEATH.—Joseph Fraser, a child four years old, died yesterday at the residence of his parents, No. 136 East Broadway, from burns received on Friday afternoon, when his clothes caught fire, as is supposed, from some matches which became ignited while he was amusing himself with them. His parents were in an upper room at the time. Coroner O'Donnell held an inquest upon the body, and the jury rendered a verdict of "accidental death."

POCKPOCKET AT WASHINGTON MARKET.—Jacob Wiskocki, a German barber, well known as a pickpocket, was on Saturday arrested for attempting to pick the pocket of Mr. Wm. Collins, of a wallet containing $300. Mr. C., it appears, was prising poultry at Washington Market, when the prisoner crowded closely up to him, and inserted his hand into Mr. C.'s pantaloons pocket, but instead of securing the wallet was himself secured and safely locked up by Justice Anderson for trial.

ARREST OF A "POCKET-BOOK DROPPER"—SWINDLING A COUNTRYMAN.—Mr. Selim Rider, a downeaster, from Winham, Conn., was yesterday swindled out of $20 by (as is alleged) one Mr. Foshay, or Frenchy. It appears that Frenchy dropped a well-filled wallet at the feet of Mr. Selim Rider, and picking it up, endeavored to persuade that individual that he had dropped it. Mr. R. denied the allegation, but was finally persuaded to give Frenchy $50 for it. As soon as the plunder was obtained Frenchy ran off, and he and an accomplice who was with him hid behind a pile of lumber and divided the spoils. The countryman was not long in finding out that the well-filled wallet contained nothing but shop cards made to resemble bank notes, and preferred a complaint against Frenchy and his accomplice. The former was arrested and locked up, but the latter is still at large.

CAPTURE OF A FUGITIVE.—Francis Johnson, a Spanish sailor, was yesterday brought from Boston by Policeman Sampson of the Mayor's Office, to answer a charge of larceny preferred against him upward of a year since. It is alleged that in July, 1854, he stole a gold watch, compass, sextant and $375 in gold coin from the bark Ebzira, then lying in this port, with which he decamped and went to sea as steward in the ship Wm. Chatsworth, which recently returned to Boston. He was taken before Justice Anderson and committed to the Tombs for trial. It is further stated that 2 years ago he was arrested in Havana for attemping to kill a man, but broke jail and escaped.

DISORDERLY HOUSES.—Chas. J. Wilson and Mary A. Eagan, of No. 12 and 14 Walker-st. were yesterday arrested charged with keeping disorderly houses. Capt. Carpenter of the Fifth Ward Police states that about forty persons living in the neighborhood have complained to him about the character of these houses, which they allege are very disorderly. Several female inmates of the houses were also arrested and with the keepers were taken before Justice Connolly for disposal.

YOUNG THIEF.—Louis Harsh, a boy 14 years old, was yesterday arrested charged with stealing $48 from the bakery of Johnson & Co., No. 116 Beekman-st, and was locked up by Justice Anderson for trial. He has several times previously been arrested for theft.

ARREST OF BLACK GAMBLERS.—Capt. Russell and others of the Thirteenth Ward Police made a descent on Saturday night upon the premises rear of No. 12 Ridge-st. and captured a party of eight or ten negroes, whom they caught playing "faro" for money. The tools, stakes and negroes were all taken to the Essex Market Police Court, and the latter were locked up by Justice Brennan for examination.

GRAND LARCENY.—Wm. Davidson, a German coffee and spice peddler, was yesterday arrested, charged with stealing from on board the steamboat South America, three packages of millinery goods valued at $100, and belonging to Mr. S. R. Miller. The property was found in his possession and he acknowledged taking it, but said in extenuation, that he supposed the boxes to contain his own goods, several packages of which he had on board. There seemed to be no similarity between his packages and those of Mr. Miller, and the magistrate, Justice Connolly, not believing his story, locked him up for trial.

A CARD.—On Friday evening last, on board the steamer Metropolitan from Fall River to New-York, between two gentlemen well known in this community, certain words passed, the expression of which resulted from mutual misapprehension, which by mutual friends having been explained, and the offensive expressions disagreeable to said misapprehension having been fully retracted, the parties aforesaid remain now friends as before. JOHN FORSYTH, of Mobile, Ala. A. MACTIER, of New-York.

New-York, Sept. 1, 1855.

The anthracite coal trade, says *The Philadelphia Ledger*, is again very heavy, the tunnage for the week reaching 134,052 tuns, by the three lines connecting the mines with this city. The Schuylkill Navigation Company report coal shipments for the week at 32,794 tuns, and for the season, to Tuesday last, at 683,833 tuns, against 594,834 tuns to the same time last year. The tunnage on the Reading Railroad for the week is 58,882 tuns, and for the season 1,587,433 tuns, against 1,413,659 tuns to the corresponding time last year, showing an increase in the coal tunnage alone, over that of last year, of 173,783 tuns. The increase in price is nearly as great as the increase in tunnage. The shipments of coal on the Lehigh for the week ending on Saturday last were 42,376 tuns, against 39,962 tuns for the corresponding week of last year; for the season, 771,439 tuns, against 704,087 tuns to the same time last year. In the trade there are no changes calling for special notice. There continues to be a very good demand for shipment, but vessels are still scarce, notwithstanding the advance in freights. The retail market shows some increased activity, but without change of price. Lehigh lump is in great demand, and the supply is short. The very healthy condition of the iron market is exerting a favorable influence upon the prices of coal.

British and American Iron Market.

PHILADELPHIA, Friday, Aug. 31, 1855.

The state of the British Iron Market, as indicated by last advices, has not materially changed. Rails at Liverpool are quoted at an advance of 2/6, which must be regarded as nominal since, as we are assured from all quarters trade has received no new impetus. In South Staffordshire furnaces are being put in blast to supply their best class of Pig Metal, with no prospect of an enhanced price for any description, beyond the influence of petty speculators. American Rails have been in sufficient demand throughout the Union to get full prices, and give full employment to our mills. Stocks of Foreign Metal are much reduced, and the demand for Foundery Iron is stimulating its production; furnaces lately idle are beginning to blast, and several new ones are in course of erection. As our mills are making full time, and as the demand for Railway Castings must be commensurate with the orders for Rails given abroad and at home, we may reasonably expect a healthy market for American Pig for some time to come.

Transactions in Pig Metal in this city have been less than the average for the season, though more than usual inquiry; prices have advanced; sales of two lots No. 1, each 100 tuns, were made at $28; ordinary brands are selling at $27; No. 2 at $25 to $26, and forge at $25 to $24 50, as per brand; aggregate sales, 3,500 tuns. American Bars are firm, and a few small sales were made at an advance; quotation, $70 to $75, as per quality and size; aggregate sales, 640 tuns. American Rails have advanced and are firm at $65 cash. Other descriptions of Iron are as last reported.
