There has been an active movement in call loans to-day, and it has been difficult to borrow at legal interest. The banks are calling in to some extent, and the usual sources of supply do not yield freely. Needy borrowers are paying ¾@1 ⅌ cent over legal interest for short loans. The supply of paper is not pressing on the market, and rates continue at 8@10 ⅌ cent, the bulk of first class names going at 9 ⅌ cent. Outside of the stock circles there is no scarcity of money, and business appears to be perfectly healthy. The merchants are receiving free remittances from the interior, and all the great interests of the country are flourishing. Any one who only moves about in the neighborhood of the board of brokers would suppose that the end of the world was near at hand, whereas outside of that atmosphere the sun shines clearly and the skies are all bright. We speak only of the present; what may be the appearance of affairs should commercial disaster overtake England and France, we will not undertake to predict.

The State loan bids for $1,250,000 were opened to-day at Albany. The successful bidders range from 15 43-100 to 19 premium—average 16 50. The loan will not be awarded until the application for an injunction is decided in favor of the Canal commissioners. The following is a list of the bidders:

The civil debt of California, according to a late report, is $3,314,583. The war debt, for which an appropriation has been passed by Congress, is $1,022,335.

Judge Mitchell was not prepared to-day with a decision on the injunction asked for against the Commissioners of the Canal Fund, but will render one probably in a day or two.

The Canada took out $736,500 in specie to-day from Boston, all of which was forwarded from this city.

Speaking of the effect of a suspension of the Banks of England and France, *The Boston Journal* says:

"The tendency of specie would not be to concentrate in countries where it is not wanted for commercial purposes, but rather where specie is used as the basis of currency, and it would consequently be quite unnatural for gold to flow from our shores to Europe. In the last war, when all the banks of this country suspended specie payment, with the except on of those in New-England, specie accumulated here rapidly, and become so much of a drug that the Massachusetts banks refused to take further sums on deposit without being paid a bonus, and insisted in many instances in paying specie for checks instead of issuing bills. This, too, was at a time when the Bank of England also had suspended. Upon the whole, the influence of this cautious feeling upon the part of our business men will be salutary in checking over enterprise and strengthening the banks but we cannot look upon it in any other light than as a most unwarrantable alarm. The country never stood better in its trade with foreign countries, and never was better capable of sustaining itself prosperously. As the largest producer of gold cotton and breadstuffs in the world, with plentiful harvests, and a sound condition of trade, we are strong."

At Philadelphia Money rates rule at 7@9 ⅌ cent for prime paper, and for second class names 10@12 ⅌ cent.

At Boston Money is quicker on call at from 6 to 9 ⅌ cent, some of the Banks having felt obliged to contract to a moderate extent. Paper is not off-red freely, but rules at 8 ⅌ cent for the best grades. The Banks are still losing specie.

At New Orleans the Money market is easy, and exchange very weak.

Markets—CAREFULLY REPORTED FOR THE TRIBUNE

WEDNESDAY, Oct. 24, 1855.

ASHES—The market is sparingly supplied; the demand is fair; sales of 50 bbls at $6 37½ for Pots and $7 37½ for Pearls. Sub-sidies firm at 6½c. cash.

BRICKS and TILES—In North River we have no change to note, they are in moderate request at $4; Philadelphia are in fair demand at $10@$12; Foreign are in good request, with sales of 50,000 Bath at $20@$26; Welsh are unchanged, and are firm at $20; Malt Tiles are steady and in good demand at $30@$50.

BEES'WAX—The market is unchanged; sales of 1,000 lb American Yellow at 27@27½.

BOOTS AND SHOES—The business in this branch is diminishing, and the bulk of the sales is for the nearby towns and the lots trade. The supplies are moderate, and the high price of the raw material tends to keep the trade in a healthy course. For California and Australia there is some inquiry, chiefly for Mixed Boots.

CANDLES—The market continues sparingly supplied and prices are firm; sales of 100 boxes Staten Island Palm at 25c., 150 Phenix Co. at 25c., and 500 sperm's at 25½, 4 mos. Plain Sperm are selling at 35c. and Patent at 43@45c.

COTTON—Prior to the reception of the news per steamer Africa, there were some signs of life visible in the market. Over 500 bales were sold on a basis of 8c. for middling Uplands. Since, however, there has been nothing doing. Parties are now looking for a heavy trouble. Some think that middling Uplands will ere long be 8½@8¾c. Our annexed quotations are indicative of the rates of last sales. At the close prices are entirely nominal:

NEW-YORK CLASSIFICATION.

Middling	8½	8½	8½	8½
Middling Fair	8¾	8¾	10½	10½
Fair	10	10	10¾	11¼

COFFEE is without any activity; prices have not quotably changed; the sales are 150 mats Java at 14½c., and 100 bags Savanilla on private terms; the stock of Rio is 45,000 bags, mostly held by speculators, but a small portion of it is now on the market. We quote:

Maracaibo	10½@ 12	Mocha	13½@ 15
St. Domingo, cash	9½@ 10½	Brazil	10½@ 11½

CEMENT—A brisk demand, it is taken readily on arrival for the trade and for shipping at $1.

COPPER—New Scenthing is firm at the advance, with sales in units at 32c. and light sizes at 34c. Yellow metal sells at 26c.

COAL—A good demand for Anthracite, and the market is firm; sales by the cargo at $4 50@$5, and in lots from yard at $4 75@$5 for Nut, and $5 50@$6 for Egg and Stove. A good demand for Foreign here and to arrive, at improving prices; sales of 300 tons Liverpool Orrel at $10 25@$10 50, and 100 do. Cannel at $6 50@$6 75 4 mos.

DYE WOODS—The high rates of freight prevent any activity; sales of St. Domingo Logwood at $19 50, which is a decline from last sale, and Jamaica at $18 cash, duty paid.

FLOUR AND MEAL—Our market opened with a brisk demand for the low grades of State and Western Flour, for the home trade and for export. Prices advanced 12½c. ⅌ bbl prior to the reception of the steamer's advices; holders now demand still higher prices, but in the absence of their letters shippers purchased sparingly. The better grades are in good demand at improving prices; the inquiry for future delivery continues good, but there is less inclination to sell than early in the month. The sales of Western Canal are 21,000 bbls, at $8 62½@$8 75 for common to good State, of Michigan, $8 62½@$8 75, of Ohio at $8 62½@$8 75 for City Trade and Indiana, $8 75@$9 for extra State and Michigan, and $8 50@$11 for extra Genesee. In the latter class we have 3,000 bbls State common and good for November at $8 37½@$8 50, and including a sale of good State delivery any time prior to the 15th of November at $8 75. Canadian Flour is better and in good demand for the trade and the Provinces; sales of 1,000 bbls, at $8 75@$9 87½. Southern Flour is quite active, but with light arrivals is better; sales of 1,000 bbls at $8 93½@$9 50 for mixed to and standard brands Baltimore City "Mills," Alexandria and "Howard street" and $9 5 @$10 00 for favorite fancy and extra brands. Rye Flour is firm, the supply is light; sales of 50 bbls at $6 25@$7 50 for fine and superfine. Corn Meal is steady; sales of 200 bbls at $4 75 for Jersey, $4 81½ for Baltimore and $5 for Brandywine.
