Scene in the Brandreth House.

NEW YORK, May 14.

—(*See Gentlemen medical round a table.*)

1st Gentleman—This house is owned by the maker of the celebrated Brandreth Pills, which have great merit. I have a brother who lives in New Hampshire, and who was for a long time sick. The doctors around did not seem to help him; his courage and energy failed; his step was feeble, and his countenance and eyes indicated some not physical debility. Finally he was prevailed upon to take Brandreth's Pills, and strange as it may appear to you, the first box put him right on his feet, and their use for a few months, restored him entirely to perfect health. He thinks that Dr. Brandreth is superior to all living men.

2nd Gentleman—I am from Buenos Ayres. The brother of Rosas was for a long time a bed-ridden paralytic. No idea was entertained that he would ever recover the use of his limbs. His case was supposed helpless; but an enlightened Jesuit said, "Try a few doses of Brandreth's Pills; they may possibly benefit you." He used a few doses, and was helped. He continued them daily, he increased to ten pills, night and morning; he began to feel the circulation in the remote extremities. The use of the Pills was further judiciously preserved in; suffice to say, that in less than six months he was perfectly cured, having recovered the use of his limbs completely. He immediately had a picture of Dr. Brandreth painted, as his tutelary saint, and to this day he has burning before it two large candles, which he designs to continue in proof of his veneration for the man whose pills restored him to health. Mr. Graham, U. S. C., at Buenos Ayres, narrated to me the above *facts*, and I know them to be true.

3rd Gentleman—Brandreth's Pills have made many cures here. A friend of mine of large fortune and high social position, was afflicted with a dropsy. His physicians gave him no hope, advised him to settle his worldly affairs, for his time on earth was to be of brief duration. He was directed by a special Providence to Brandreth's Pills; he read over a pamphlet relating to them; he took a full dose; he followed the plan of purgation right onward; his largest dose was fifteen pills in a single day. The aliment was aroused to action—the excess of water, deposite was removed, and in the very prime of his manhood and usefulness he was restored to vigorous health. Dr. Brandreth's Pills have not begun to be half known yet.

4th Gentleman—I know Brandreth's Pills are a wonderful remedy. In Jagoza, Rio Grand, Brazil, they were administered to a man who had been sick for five years, confined to his bed by inflammatory rheumatism. His limbs were contracted and drawn up, his hands closed and stiffened. He took the pills, four in the morning and four in the evening, and drank freely of beefsoup, which was his only diet. In six weeks he was entirely cured, and rode six miles to see one, on horseback. This cure, effected by Brandreth's Pills, after many medicines and physicians had failed, caused the sons of Dr Brandreth to sell at retail seventeen hundred dollars worth of his pills in that little town in two weeks.

5th Gentleman—A Mr. Underhill, of Westchester county, who fought in the war of 1812, is a great admirer of Dr. Brandreth, because, he says, his pills saved his life. He was suffering from a cancerous affection in his left breast, and had been under treatment for three years without any benefit. He finally commenced to try the different patent medicines, but got no better until he began with Brandreth's Pills. These taken every night, in doses varying from five to ten, cured him entirely in two months. Some time after he was badly hurt by a tree falling upon his back, but still he took Brandreth's Pills every day. His surgeon told him they could do no good for a bone injury, and that it would be at least a year before he could walk. In three weeks he was restored to health, and ascribes his recovery to them. He swears he will vote for Brandreth as long as he lives.

6th Gentleman—And these Pills are sold at No 204 Canal street, Brandreth Building?

1st Gentleman—They are, at 25 cents a box, and by A. S. GARDINER, Cleveland. jun1-d&w 12t

DYSPEPSIA AND FITS

DR. TRACY DELORME,

THE GREAT CURER OF CONSUMPTION, was for several years so badly afflicted by Dyspepsia, that for part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young clairvoyant girl. This prescription, given by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of FITS as of DYSPEPSIA. The ingredients may be found in any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage.—Address DR. CONGRESSIONAL.

WASHINGTON, June 1.

HOUSE—Mr. Morrill, of Vt., spoke of the great wrong done in the sale of the Reservation. A frank and honorable man placed in the position of the Secretary of War, when he found that he had made a blunder and mistake in the appointments of agents or superintendents, would have frankly admitted the fact and corrected it; but instead of that, there was not only a remarkable persistent and studied effort to justify, but an attempt to persuade us that he was right in relation to the deliberate concealment of the preliminaries preceding the sale. No corpse in the catacombs was more closely locked up than this transaction. No one could worm out of the Secretary what was going on. He (Morrill) reviewed the testimony concerning the New York and Virginia combination, arguing that the property was sold for less than its value, and insisting that the House should place the seal of disapprobation on the whole manner in which the sale was effected.

Mr. Faulkner, of Va., expressed his condemnation of the tone and temper and spirit of the report of the majority of the committee, the ability of which was displayed in presenting this transaction to the country in a light wholly different from what the testimony warranted. As a report, he had no hesitation in saying that it was more characterised by partisan feelings than any document heretofore made to Congress. The speech of the gentleman from Vermont (Mr. Morrill) was marked by the same partisan spirit. The document was loose and inaccurate in its statements and evidence. The Committee omitted to do justice to the Secretary of War in the only virtual and material point. They were required to ascertain where there was any corruption in the high places of the Government, and if so, to bring the offender to punishment.—There was not a syllable in the testimony injuriously affecting the official character and purity of the Secretary of war, and this fact should have been cheerfully announced to the House.

He showed that the Fort Snelling reservation was useless for military purposes to the Government. The legislative assembly and constitutional convention of Minnesota petition the Government to sell it. The land commanded a higher price than any since the commencement of the Government, except the little spot within the corporate limits of Chicago.

Mr. Morris, of Ill., understood that the Willett's Point Committee would report to-morrow, and as that subject and this were somewhat connected, he thought they should be considered together. The same parties who purchased Fort Snelling a few days before, sold to the Government Willett's Point.

Mr. Florence of Pa., said Mr. Morris knew more than he did if the Committee was going to report to-morrow.

Mr. Morris replied he was so informed by the Chairman of the Committee.

Mr. Dawes, of Mass., having read the report and evidence, had come to the conclusion to support the condemnatory resolutions of the Committee.—The sale of Fort Snelling for the price to certain persons, and at the time, was the consummation of a scheme laid in past Administrations and carried out in the present under the eyes of the Secretary of War in such a manner, that blindness to it was a grievous fraud. He did not care what the property brought. The House had to do with the secret sale and with the special favorites who took rich slices of the public domain to their heart's content at any price.

Mr. Bishop of Ct. said the movement was set on foot for the purpose of gratifying the spirit of political dishonesty which seems to establish its own purity and perfection by heaping disgrace on those entitled to confidence and respect. The whole report of the committee from beginning to end in its statements, arguments, assumptions and conclusions, bears unmistakable evidence of a deep laid party scheme against one of the chief officers of the Government whom he believed as honest a man as was ever honored with the position of Secretary of War. He contended that Secretary Floyd's course was in accordance with law, and therefore not void as the committee assert.—The Secretary was bound to dispose of Fort Snelling, it being no longer necessary for military purposes.

SENATE.—The miscellaneous civil appropriation bill was further discussed.

Mr. Seward moved an amendment that the public lands in Kansas shall not be offered at public sale until the expiration of one year from next November, which was lost by the following vote—yeas 17, nays 33.

Mr. Mason of Va., from the Committee on Foreign Affairs, reported a bill authorizing the Executive to employ force to protect the rights of our citizens from outrages by foreign nations, having a special reference to Central and South America. This is the bill recently introduced by Mr. Douglas, slightly altered.

Messrs. Mason, Gwinn and Houston argued the importance of immediate action so as to obtain the concurrence of the House ere the adjournment.

Mr. Seward of expressed strong disapprobation of the measure; he was unwilling to involve the country in a war with all the nations of America South of our own.

Mr. Slidell introduced an amendment authorizing the President in certain cases to suspend the neutrality law. An attempt to make the bill the special order of to-morrow was voted down by 27 majority.

The bill was debated at great length by the friends of Internal improvement, the Northwestern Senators especially introducing amendment after amendment for appropriations of Lake Rivers and Harbors, but no action was taken on them up to the recess at 4 o'clock.

Mr. Seward made a powerful appeal for the Western interests.

The question being on Mr. Chandler's proposition to provide $54,000 for the improvement of the St. Clair flats, it was lost by a tie vote of 26 to 26, whereupon Mr. Pugh moved an amendment which was virtually to engraft the whole River and Harbor bill as an additional section to this bill, and asking appropriations for the Harbors of Chicago, Milwaukee, Sheboygan, St. Joseph, Monroe, St. Clair flats, Cleveland, Huron, Grand River, Ashtabula, Laninburgh, Buffalo, Genessee, San-lusky, Oswego, Burlington, and a few others amounting to over $450,000; also $110,000 for the Red River raft.

Mr. Jones moved an additional $50,000 for the Des Moines and Rock River Rapids, which was lost by 30 against 47.

Mr. Pugh's amendment was then voted on and rejected by 26 against 23. Mr. Pugh next moved to strike out all the appropriations for life boats and life saving stations on the Atlantic coast with the view, he said, of ascertaining whether the Northwestern States are to have justice or whether they were mere conquered provinces.

Mr. Seward declared he could not support any such proposal, and the Senate voted it down by 31 against 17.

Mr. Polk moved to reduce the appropriation for the coast survey from $250,000 to $150,000. Adjourned.

GROVER AND BAKER'S FAMILY SEWING MACHINES.—The particular attention of Ladies is called to the above machine, which possesses the following decided and unmistakable advantages:

1st. Cotton is used as it is purchased—on spools—without re-winding; saving time, trouble and waste.

2d. The trouble and perplexity of filling a shuttle, (as in other machines,) is in this avoided; no shuttle is employed, the under thread being used from a large spool.

3d. It is very simple yet strong in construction, easily learned and kept in order, and does not require to be taken apart to be oiled.

4th. The stitch is always distinct, even and regular, and will not rip though every fourth stitch be cut.

5th. The stitch is as elastic as the most elastic fabric.

This Machine embroiders beautifully.

Ladies and others interested in the saving of labor are invited to call at the sales-room of the subscriber and examine for themselves. The above machines are freely shown and samples of work given at all times.
