DAILY LEADER

[From the Saturday Press]

SWEET IMPATIENCE.

BY GEORGE ARNOLD.

I.

The sunlight glimmers dull and gray
Upon my wall to-day;
The summer is too long;
The hot days go
Weary and slow,
As if time's reckoning were perverse and wrong;
But when the flowers
Have faded, and their bloom has passed away,
Then will my song
Be all of happier hours.

II.

But song can never tell
How much I long to hear
One voice, that like the echo of a bell,
Unconscious, low, and clear,
Falls, as aforetime, on delighted ears
On Saint Cecilia's eve;
And it will come again,
And I shall hear it, when
The droning summer bee forgets his song
And frosty Autumn crimsons hill and dell;
I shall not murmur then,
"This Summer is too long!"

III.

The trellised grapes shall purple be,
And all
The forest aisles re-echo merrily;
The brown quail's call,
And gay Sir chestnut's fall
In pattering plenty from the leafless tree
When Autumn winds blow strong;
Then shall I see
Her worshiped face once more, and in its sunshine bask
She'll cease to sigh
"This Summer is too long!"

VI.

Meanwhile, I wander up and down
The noisy town
Alone;
I miss the lithe form from my side,
The kind caressing tone,
The gentle eyes
In whose soft depths so much of loving lies;
And I move in the throng—
Each jostling, bustling, gasping over his own—
The weary weeks are
"This summer is too long!"

V.

Haste, happy hours—
Fade, tardy, linge ing flower!
Your frankness has deprived long ago:
I yearn for cool winds, whistling through the ruined bowers,
For winter's snow,
If with them, she
May come to teach my heart a cheerier song,
And lovingly
Make me forget all weariness and severance and wrong,
Whispering close and low,
"Here are we still together, Love, although
The Summer was so long!"

GENERAL SHERMAN.

His Birth and Descent—Extracts from His Early Letters.

We take the following from Colonel Bowman's forthcoming Life of General Sherman, which is soon to be published:

William Tecumseh Sherman was born in Lancaster, Ohio, on the 8th of February 1820. The branch of the Sherman family to which he belongs is descended from the Honorable Samuel Sherman, of Dedham, in the county of Essex, England, who came to Massachusetts in the year 1634, in company with his brother, the Rev. John Sherman, and their cousin, Captain John Sherman. The two latter settled at Milford, Connecticut, and became the founders of useful and influential families. Roger Sherman was a descendant of the captain's. Samuel Sherman, after residing for a time at Wethersfield, Connecticut, removed to Stamford, and finally to Stratford, in the same State, where the family remained for many years.

Taylor Sherman, one of the descendants of Samuel Sherman, who died in 1815, was for many years judge of one of the courts of his native State. On his death his widow removed with her children, to what is now the town of Lancaster, in Fairfield county, in the State of Ohio. Charles Robert Sherman, the son of Taylor Sherman, and the father of General Sherman, was born on the 26th of September, 1788, and had one brother, Daniel, and a sister named Betsey. He was an accomplished lawyer, very successful as an advocate, and from 1823 to 1829, when he died of cholera, was one of the judges of the Supreme Court of the State of Ohio. On the 8th of May, 1810, he married Mary Hoyt, by whom he had ten children: first, Charles Taylor, a prominent lawyer, formerly of Mansfield, Ohio, now of Washington city; second, Mary Elizabeth; third, James; fourth, Amelia; fifth, Julia; sixth, William Tecumseh; seventh, Parker; eighth, John, for many years an influential member of the House of Representatives from Ohio, now Senator from the same State; ninth, Susan Hoyt; and tenth, Frances.

His death left this large family in very moderate circumstances. Shortly afterward, being then but little past nine years of age, William Tecumseh was adopted by the Honorable Thomas Ewing, one of his father's most intimate friends, as a member of his own family. Mr. Ewing sent him to school in Lancaster until his sixteenth year, when, having, as a member of Congress from Ohio, the privilege of nominating a youth from his Congressional District for appointment as a cadet at the United States Military Academy at West Point, he exercised this right by procuring the warrant for his youthful charge.

In one of his letters, dated February 17th, 1839, he writes from West Point:

"Bill is much elated at the idea of getting free of West Point next June. He does not intend remaining in the army more than one year, then to resign and study law, probably. No doubt you admire his choice; but, to speak plain and candidly, I had rather be a blacksmith. Indeed, the nearer we come to that dreadful epoch, a graduation-day, the higher opinion I conceive of the duties and life of an officer of the United States army, and the more confirmed in the wish of spending my life in the service of my country. Think of that. Curse it! the church bugle has just blown, and in a moment I must put on my side-arms and march to church, to listen to a two hours' sermon, with its twenty divisions and twenty-one sub divisions; * * * but I believe it is a general fact that what people are compelled to do they dislike. * * *

"As we have, then, two or three dancing parties each week, at which the gray bobtail is sufficient recommendation for an introduction to any one, you can well conceive how the cadets have always had the reputation, and still have, here in the East, of being great gallants and ladies' men. God only knows how I will sustain that reputation!"

Here is a glimpse of his tastes and occupations:

TASTES AND OCCUPATIONS.

"The last encampment, taken all in all, I think was the most pleasant one I have ever spent, even to me, who did not participate in the dances and balls given every week by the different classes; besides, the duties were of altogether a different nature from any of the previous ones, such as acting as officers on guard and at artillery drills, practicing at target, firing with long twenty fours and thirty-twos, mortars, howitzers, &c., as also cavalry exercise, which has been introduced this year. As to lording it over plebes, to which you referred, I had only one, whom I made, of course, tend to a plebe's duty, such as bringing water, policing the tent, cleaning my gun and accoutrements, and the like, and repaid him in the usual and cheap coin—advice; and since we have commenced studying I make him bone (study), and explain to him the difficult parts of Algebra and the French grammar, since he is a good one and fine fellow; but should he not carry himself straight, I should have him found in January and sent off, that being the usual way in such cases, and then take his bed, table and chair, to pay for the Christmas spree. * * * * *

"I presume you have seen the register of cadets for the last year, and remarked that I still maintain a good stand in my class; and if it were not for that column of 'demerit' it would be still better, for they are combined with the proficiency in study to make out the standing in general merit. In fact this year, as well as the last, in studies alone, I have been among the stars. * * * I fear I have a difficult part to act for the next three years, because I am almost confident that your father's wishes and intentions will clash with my inclinations. In the first place I think he wishes me to strive and graduate in the engineer corps. This I can't do. Next, to resign and become a civil engineer. * * Whilst I propose and intend to go into the infantry, be stationed in the far West, out of the reach of what is termed civilization, and there remain as long as possible."

In April, 1840, he wrote:

"Sometimes it appears that war with England is inevitable; books are thrown in the corner, and broadswords and foils supply their place. Such lunging, cutting and slashing—enough to dispose of at least a thousand British a day; but the mail or recitation soon destroys the illusion with—'It's all a hoax;' or, 'Sir, you've been neglecting your studies.'"

MEDICAL SUCCESS
EXTRAORDINARY.
100 DOLLARS PREMIUM!
SEMINAL WEAKNESS,

—AND—
IMPOTENCY CURED,
AFTER ALL OTHER TREATMENT FAILS.
DR. A. GIBSON,

Formerly of New York City, will pay one hundred dollars for the proof that he ever fails to cure the above-named disease. He will pay the same sum for the proof that any other Physician in the United States treats the same diseases with equal success.

After many years of laborious study and experience Dr. Gibson is happy in being able to announce to the unfortunate, that he has perfected a system of treatment for

THE SPEEDY AND PERMANENT CURE

of the above, and also all contagious diseases of the Reproductive Organs, with all bad effects arising therefrom, including General

DEBILITY OR NERVOUS PROSTRATION.

He has succeeded in curing cases in this city, some of whom had expended hundreds of dollars with selfsyled physicians, who profess to treat all private maladies with success, and without receiving the least particle of benefit.

Dr. Gibson does not boast that he is a member of some College in London or Paris, as he knows some others do for the purpose of snaring the innocent, and who hold out great expectations, never to be realized. But what Dr. C. does boast of is this, that he is able to give entire satisfaction to those who repose confidence in his ability and integrity, and that he has perfected an American system of treatment which challenges any Physician of London or Paris, or any patent medicine, to equal for the radical cure of seminal weakness, and all diseases or derangements, both mental and physical, arising from sexual or secret abuse.

Dr. Gibson also claims for his new treatment the following advantages over all other yet discovered:—and, first, the agents used are in no respect disagreeable; he uses no relics of the dark ages, such as Mercury, or any other deleterious drug; secondly, no restriction in diet or business is required; thirdly, his treatment is positive and certain in all cases. He stands prepared to go into any public or private hospital in the United States, and demonstrate the immense superiority of his new treatment over any other now known to the world, in points of promptness, permanency, mildness, safety and convenience to the patient.

Dr. Gibson is permanently located in Cleveland, and has during the past few years performed many of the most difficult cures ever performed by any other modes of treatment. References can be given to individuals of the first respectability in Cleveland, Boston, New York and other cities, in regard to skill and integrity in all professional transactions—Dyspepsia, Rheumatism, Scrofula, all Diseases of the Urinary Organs, and all Chronic Diseases treated with superior success.

Medicines sent to any part of the country on receipt of ten dollars.

PRIVATE AFFAIRS,
IN WHICH
All Classes are Interested.

Farmers, Drovers, Merchants, Lumbermen, Mechanics, Miners, Bankers, the rich and the poor, should ask themselves if the slightest SYPHILITIC or so-called PRIVATE DISEASE, taint is lingering in their SYSTEMS, if so, they should apply in person, if possible; if not possible in person, by letter, and receive by return mail a blank circular of questions, which will enable any one to know positively just how they stand.

To the intelligent reader it is not necessary to publish the names of the many complications and forms assumed by this terrible scourge, yet it may be advisable to mention as most prominent SYPHILIS PRIMARY, SYPHILIS SECONDARY, and SYPHILIS TERTIARY, the latter involving the bones in its deathly action.

Every one should know, also, that many of the most obstinate and worst ULCERATED THROATS proceed from this cause, and will, if not properly handled, ultimately result in loss of voice. Look to your true interest, and consult by letter, or apply at

DR. DeHART'S
UNITED STATES HOSPITAL
AND
Private Medical Dispensary,
130 Jefferson Avenue, Detroit, Mich.
Near the Michigan Exchange Hotel.

Where every form of SYPHILIS and all other diseases of the procreative and urinary organs of both sexes are more successfully managed than at any other similar institution in this country. Every one should know that whilst the slightest constitutional contamination exists, marriage is impossible, for the good reason that where offspring ensues disease is nearly always entailed. This, therefore, is one of the worst impediments to matrimony.

YOUNG MEN,

Suffering mentally and bodily from certain early improper practices, will find this a Dispensary where there is no uncertainty about getting relief, but where every one of such cases are cured permanently. No books published by nor issued from this institution by which the minds of the young are poisoned and they thereby ruined.

LADIES,

Married or single, requiring a Female Regulator, should enclose one dollar and three postage stamps, and by return mail they will receive, with full directions, the only reliable Female Regulator in use. This Regulator is fast becoming the favorite of ladies everywhere, simply because its action is mild and safe and can always be depended upon in removing obstructions from colds and any other cause.

All correspondence strictly confidential. Letters on consultation should contain one dollar and a postage stamp for answer. Office and rooms arranged that patients never see each other.

Consultation and services at the office, free to the poor, every Saturday afternoon, from 3 to 5 P. M. Office and Dispensary open from 8 A. M. to 8 P. M., daily, except Sundays. All necessary surgical operations performed.

A CARD TO THE LADIES.
DR. DUPONCO'S
Golden Periodical Pills,
FOR FEMALES.

Infallible in Correcting Irregularities, Removing Obstructions of the Monthly Turns, from whatever Cause, and ALWAYS SUCCESSFUL as a PREVENTATIVE.

It is now over thirty years since the above celebrated Pills were first discovered by Dr. Duponco, of Paris, during which time they have been extensively and successfully used in most of the public institutions, as well as in private practice, of both hemispheres, with *unparalleled success* in every case, so it is only as the urgent request of the thousands of ladies who have used them, that he is induced to make the Pills public for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family, where health will not permit it. Females peculiarly situated, or those supposing themselves so, are cautioned against using these pills while in that condition, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health, otherwise the Pills are recommended.

Price, $1.00 per Box. Six Boxes $5.00.

Sold in Cleveland by Messrs. BENTON & DUNHAM and STRONG & ARMSTRONG, who will supply Dealers, and send the Pills confidentially by mail on receipt of $1.00, or address

DR. SEELYE'S LIQUID CATARRH REMEDY.
Cure Warranted,
IF DIRECTIONS ARE FOLLOWED.
CALL FOR A CIRCULAR DESCRIBING ALL SYMPTOMS.

SYMPTOMS:

The symptoms of Catarrh, as they generally appear, are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, the nose may be dry, or a slight discharge, thin and acrid, afterwards becoming thick and adhesive. As the disease becomes chronic the discharges are increased in quantity and changed in quality; they are now thick and heavy and are hawked or coughed off. The secretions are adhesive, causing a bad breath; the voice is thick and nasal; the eyes are weak; the sense of the smell is lessened or destroyed; deafness frequently takes place. Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a thick or slimy mucus, which has fallen down from the head during the night. This takes place when the person may be sure that his disease is on its way to the lungs, and should lose no time in arresting it.

The above are but few of the many Catarrh symptoms.

A single Bottle will last a Month—to be used three times a Day.
