Lard and Resin for Tools.

"A penny saved is a penny earned."

Not less than $50,000 worth of valuable tools, belonging to the readers of the *American Agriculturist*, (less than two dollars each,) will be spoiled or materially injured, simply by resting between now and next spring. The damage alone will be $50,000. Look at the plows, harrows, cultivators, hoes, shovels, forks, chains, axes, saws, not to enumerate wagon irons, and a multitude of little tools that *ought* to be provided on or about every farm, and then reckon up how many of them will be left where the combined effect of air and moisture will attack their surface and eat away enough to render them rough at least, if not to materially depreciate their value. Many instruments are destroyed faster by lying idle than they would be by constant wear. We will not now write a homily upon the value and importance of a *tool house*, and of having every implement stored in it but give a recipe for an exceedingly cheap, simple and effective preparation, one available to all, which will at least save all most all from loss by rust.

Take about three pounds of lard and one pound of resin. Melt them together in a basin or kettle, and rub over all iron or steel surface in danger of being rusted. It can be put on with a brush or piece of cloth, and wherever it is applied it most effectually keeps air and moisture away, and of course prevents rust. When knives and forks, or other household articles, liable to become rusted or spotted, are to be laid away, rub them over with this mixture, and they will come out bright and clean even years afterward. The coating may be so thin as not to be perceived, and it will still be effectual. Let every one keep a dish of this preparation on hand. As it does not spoil of itself, it may be kept ready mixed for months or years. *Mem.*—Fresh lard, containing no salt, should be used. Resin is a cheap article, and may be obtained almost anywhere for four or six cents per pound.

Pickling Eggs.

As our readers will understand by this time, we advocate the plan of keeping fowls in such a manner that they will produce fresh eggs the year round. This they will do in the coldest weather, if kept in a warm, clean place, and, supplied with unfrozen earth, gravel and lime.—They must also be fed with flesh food to make up for the lack of animal food which they gather in warm weather in the form of insects of various kinds. Fish, or refuse meat of any kind will be devoured greedily by them. Milk curd, sour or even sweet can be substituted for meat, or may be given with it. But many persons fail to secure the necessary conditions for an abundant supply of fresh eggs, and it is often desirable to pack them not only for future home use, but also for transportation to distant markets. The best recipe we can give is the following, which some of our friends have employed with entire success, their eggs having kept perfectly through a whole year or more: Procure a water-tight firkin, tub, cask or barrel, according to the amount to be put down. Pack in sound eggs, (examined as below) sitting them with the small end downward. When all the eggs on hand at any time are packed, cover them with a pickle, made by dissolving in *four* gallons of water two quarts of unslacked lime and two quarts of salt. The water will not dissolve all the lime, but the pickle should be made two or three days before it is wanted, and be frequently stirred.—The milky liquid is to be poured off to be put upon the eggs. The cask must be set in a cool place, but not where it will freeze in winter. Eggs are now (Sept. 10,) worth 15 @ 16 cents per dozen in this market, and now is a good time to provide for next winter, when they will cost 3 to 6 cents a piece, judging from two or three winters past.

TESTING EGGS is a very simple process. Take them into a dark or partially darkened room, and hold them between the eye and a lighted candle. If good the light will shine through them, with a uniform reddish glow. Every one should use this simple test before buying eggs, or breaking them for cooking. A dozen can be examined in two minutes by the merest novice.

Large Experiments with Chinese Sugar Cane.

MESSRS. L. TUCKER & SON: In your sheet, under date of October 15, I see several reports of trials with the sugar-cane. Allow me to trouble you with another. Having planted several acres of the Sorghum, I procured from Hedges & Free, of Cincinnati, a cane mill, with three rollers thirty-two inches long by eleven in diameter. Pans and other arrangements, which a novice might deem sufficient, were added, and we waited for the maturing of the cane.

September 14, we made our first trial. Cut the ground one acre by measurement. The per cent of juice expressed from the cane by the mill was a trifle over fifty by weight. A load of cane, as it averaged when cut, gave one gallon of juice to eleven canes, and one gallon of fair syrup to eleven of juice. The cane was but fairly in blossom. The yield per acre was precisely one hundred gallons.

This trial consumed two days. We then went into the field and spent one week in stripping cane.

September 29, resumed grinding.—Found that our cane had increased very rapidly in its richness. The average yield of syrup to juice was now one to eight, and per acre one hundred and thirty-five gallons thick syrup, and improved in taste over the former. This trial consumed four and a half days and three acres of cane.

October 7, we resumed our experiments. The seed was nearly and quite ripe. The improvement in quality of juice surprised us all. One gallon of syrup, thick and smooth like honey, to six and a half of juice, was now the result. The yield was one hundred and sixty-two gallons per acre with two acres manufactured.

ORDERED TO UTAH.—We learn, incidentally, that the artillery stationed at Fort Snelling have received marching orders, their ultimate destination being Utah. We suppose that, since the Indians are very quiet, and generally upon the reservation, the force at Fort Ridgley will also be reduced, and probably have also marching orders for Utah.—*St. Paul Pioneer, Nov. 29.*

WHEN JEW MEETS JEW, THEN COMES THE TUG OF WAR!

WELL NOW, I DO DECLARE!

There is really another

JEW CLOTHING STORE

in Ashland, with a regular

JEW STOCK!

Shouldn't wonder if they had an OLD STOCK, out of Fashion in the place they came from, and expect to palm them off in Ashland, thinking the people GREEN, but I would say to my brother from Jerusalem, that if he thinks so, he is mistaken, for the people of this county know where to get

Good Clothes,

made of the best

BISHOP, REMINGTON & CO.,

Importers Direct from Europe,

Wines & Liquors,

No. 52 Water St., CLEVELAND, O. | No. 69 Pearl St., NEW-YORK

I. D. BISHOP, S. G. REMINGTON, CLEVELAND. | JAMES BRACKETT, NEW-YORK.

THIS is the principal House in Cleveland devoted exclusively to the importation and sale of

WINES AND LIQUORS.

It is connected with the house of James Brackett & Co., of New York, and enjoys facilities for importing goods from Germany, France and England, that few Western houses can command. They are enabled, also, to secure the most reliable products of the vine growing countries of Europe, as well as the purest liquors for the supply of

DRUGGISTS AND PHYSICIANS,

that importations can furnish. Their prices, too, can be made more satisfactory than could be done did they rely wholly on purchases, even from the best establishments East.

The House of Bishop, Remington & Co. was established here in 1847, and has enjoyed from the first, the favorable regards of Western merchants, and have every year increased their range of patronage. They are now prepared, with a still heavier stock of unusually choice varieties of imported and domestic

WINES AND LIQUORS,

to invite the attention of Western trade, to their establishment, especially such as are desirous of pure and reliable qualities of these goods.

THE GREATEST

MEDICAL DISCOVERY

OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture-weeds a remedy that cures

EVERY KIND OF HUMOR,

from

The Worst Scrofula down to a Common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One or two bottles will cure the worst kind of Pimples on the face.

Two or three bottles will cure the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure Salt-Rheum.

Five to eight bottles will cure the worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, MASS.

DEAR MADAM—The reputation of the Medical Discovery, in curing all kind of humors, is so well established by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skilful physicians and careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative power, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to affectionate mother,

Nursing Sore Mouth,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessing to your husband and household.

In the more advanced stages of

Canker,

it extends to the stomach, causing

Dyspepsia,

which is nothing but canker on the stomach; then to the intestines and

Kidneys,

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

Raw and Inflamed,

your food disgresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow and greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

Cure,

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases, the

Piles.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is worth a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never under any circumstances do you any injury.

No change of diet ever necessary,—eat the best you can get and enough of it.

DIRECTIONS FOR USE—Adults one table spoonful per day; children proportionately less; a decided improvement.—Children from five to eight years, tea spoonful.—As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day. Yours truly,

DONALD KENNEDY.

Price $1.00 per bottle. For sale by ROLLER & HOWARD, Ashland, and by Druggists generally.

HOWARD ASSOCIATION,

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

TO all persons afflicted with Sexual Diseases, such as SPERMATORRHŒA, SEMINAL WEAKNESS, IMPOTENCE, GONORRHŒA, GLEET, SYPHILIS, the Vice of ONANISM, or SELF ABUSE &c., &c.

The HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual diseases, and the deceptious practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.

Just Published by the Association, a Report on Spermatorrhœa, or Seminal Weakness, the Vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail, (in a sealed letter envelope,) FREE OF CHARGE, on receipt of TWO STAMPS for postage.

Address, for Report or treatment, Dr. GEORGE H. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South Ninth Street, Philadelphia, Pa.

By order of the Directors,

EZRA D. HEARTWELL, President.

GEO. FAIRCHILD, Secretary. 1y21

THE ATTENTION OF THE LADIES

IS particularly requested to the fact that I have just returned from New York with the largest and most splendid assortment of

Millinery and Fancy Goods,

BONNETS, DRESS TRIMMINGS,

&c., ever brought to this market. The goods have been selected by myself, with special attention to the tastes of my former patrons, and I know I have such a stock, as cannot fail to suit any and all of them. I have also, while East, procured the very latest fashions for Bounets and Dresses, and consequently is that particular can cater to the wishes of the most fastidious. Rooms above D. S. Sampsel's Store. Give me a call.

Ashland, Sept. 16, 1857.—n15 MRS. S. DREW.

LUMBER YARD IN ASHLAND.

McLAIN & SMITH keep on hands all kinds of the first quality of good seasonable

LUMBER,

Also, dressed flooring, siding, doors and blinds, all of which they offer as low as can be bought at Mansfield or Wooster. Mechanics and Builders, don't fail to give us a call, for we will certainly give you a bargain.

MILLER HOTEL.

THE subscriber having enlarged and refitted his well known hotel, opposite the Sampsel House, on Main street, is now prepared to accommodate the travelling public in a superior manner. He hopes that the liberal patronage heretofore extended to him will be continued. He particularly invites his friends in the country to call on him, as his bills will always be found reasonable. His table will constantly be supplied with the best the market affords. Good stabling for horses and a faithful Ostler will always be provided. Boarding for private families of single persons furnished at reasonable rates.

BAKERY AND RESTURANT.

In connection with the Hotel, he will also continue to keep open his BAKERY and RESTAURANT, where he will at all times keep on hand Confectioneries, Pies, Bread, Cakes, all kinds of Temperance drinks, and in short every luxury to be found on the tables of first class eating houses. MICHAEL MILLER.

Ashland, July 16th, 1856. notf.

SEBASTOPOL TAKEN.

THE BEST STOCK OF

SADDLERY AND HARNESS

IN ASHLAND,

IS to be found at the Shop of Hugh Davis, on Main Street, between Ralston's Jewelry Store and W. Wasson's Boot and Shoe Store, Ashland, Ohio. We invite the attention of the public to our large stock of

Saddles, French and Boston Harness, Trunks, Valleces, Carpet Bags and

CARRIAGE TRIMMINGS,

and in short everything kept in an establishment of this kind, and we assure them that our prices are as low if not *lower* than any other establishment in this place. All our work we will warrant, and our stock but the very best is ever permitted to go out to any job.

Repairing done on the Shortest Notice.

We return our sincere thanks to all our old customers for the very liberal patronage heretofore so liberally bestowed upon us, and we hope by our good work and prompt attention to our business, not only to warrant a continuance of the same but we expect those who have never been our customers to call in and see us at least, examine our work and prices, and then we know they will buy. Don't forget the place, opposite Wallack's Grocery, and west of the McNally House.

HUGH DAVIS.

P. S.—We manufacture our own stock.
