mainly in answer to the demands of the tide-water markets—bringing forward the vast reserves of timber and lumber, now so nearly exhausted in the old lumber sections of the State; as also bringing forward immense deposits of iron ore, well known to exist in the midst of that almost unknown wilderness of nearly one hundred miles square. Such a road, stimulated by State and individual grants of five hundred thousand acres of these timbered lands to the company, is now under contract, running from Albany and Troy to Sacketts's Harbor via Saratoga, thus connecting the Hudson river by a very direct route with Lake Ontario at its eastern most and best harbor—its evident necessity must insure its completion—and when completed it bids fair to take rank as a freight road with the Reading, both roads having upon their summits the articles that is needed at their base; the one, lumber and iron; the other, coal—the three most valuable of earth's productions.

The business of the Sub-treasury was: Paid, $237,671 60; received, $168,436 85; balance, $6,711,335 53; paid for Assay office, $8,637 96; paid on disbursing checks, $69,616 04. The payments include $30,000 California drafts. The receipts include $60,000 from Detroit.

The business of the Clearing-house to-day was $19,740,000.

The steamer to-day took no gold, and a portion, if not all of the gold bought for the Arago, has been countermanded. There is no demand for bars, and a large portion of the gold deposits at the Assay office to-day has been ordered into coin. Much of the remainder was left for decision until to-morrow, waiting the advices per Pacific. Unless the news should induce a renewal of gold shipment, the whole amount in the Assay office will probably be ordered into coin, and enrich our banks. A portion of the California bars received was purchased by the bullion brokers at par. About $250,000, which has been in the Assay office since the previous Aspinwall boat, was also ordered into coin. The amount received by the Empire City was greater than appeared on the manifest. One party had, including treasury draft, nearly $100,000 more than was manifested, and another party $50,000. The entire semi-monthly remittance was, doubtless, quite two millions. Some $20,000 of Bank of England notes were also received. Some Bank of England post notes, at sixty days, have appeared in this market, sent here, doubtless for the purchase of breadstuffs instead of the usual banking credits These form a most unexceptionable medium of exchange between the two countries.

In addition to the specie brought by the Empire City, the following amounts have been transported over the Panama railroad since our last advices for English account:

Gold	$268,558 31
Silver	453,807 67
Total	$722,345 98

The whole amount of treasure conveyed over the road in October was $4,103,948 25 including $32,595 of jewelry, which pays the same freight as gold.

The money market without marked change from yesterday has a tendency to greater ease. The supply appears to be better.

The following are extracts from a private letter addressed to a personal friend by A. J. Center, esq., superintendent of the Panama railroad company. Mr. Center went out to the Isthmus on the 20th ult., and writes from Aspinwall under date of October 31:

"During the first two days out from New-York the weather was bad, head wind and sea, and all things then fore uncomfortable. Here we lost time in the voyage. Afterward we had the finest weather imaginable—cool, with bright moonlight nights. This was highly favorable to the crowd we had on board, and they all seemed to be stowed quite comfortably, were in good humor and uncomplaining. I am quite sure I never sailed with a more quiet and better satisfied set. The fare was better, I think, than I have seen before, and all the baggage matters went off very satisfactorily. Mr. Whittingham, baggage conductor, is peculiarly qualified for his duties—good-humored and efficient, patient and popular among the passengers.

"We were at the wharf at Aspinwall at 2 o'clock a. m., on the 30th. The first train left with passengers at 8 o'clock, followed by the others as fast as prepared (two passenger and two freight trains), all making an excellent trip—the last freight train leaving at 12:30 and arriving at Panama at 4½ p. m., and I am informed all was on board the Pacific steamer at 7 p. m. This, considering the loads, was excellent. There were about eighty tuns of express goods, and 276 bags of mails. The last freight was discharged at 12 m.

"What to me was most striking in this trip over was the *comfort*, (as well as utility,) afforded by the telegraph, by which the departures and arrivals were at once noted. To-morrow I go to Panama to await the arrival of the Pacific passengers, and will then return with them and add a few lines to this.

"*November 3, p. m.*—I am joined with passengers from the Pacific. A bet or transit was never made; tice served at 7 a. m—the steaming Taboga came along side the pier with passengers, &c., and everything is over. These two runs left nothing to be desired in any particular."

There is much dissatisfaction among parties who receive gold from California with the high rates of insurance charged upon specie between the Atlantic and California. The rate is 1½ @ 1¾ ⅌ cent. This difference has driven already many insurers to London for insurances, and more will go unless the New-York offices moderate their charges. Since the discovery of gold in California the New-York offices have received not less than $3,500,000 in premiumson gold, while the losses have been less than $200,000. Our insurance offices should look to this matter before the business passes away from them.

The Clearing house established by the Boston banks will go into operation in January. The country Clearing-house proposed to be established by the interior banks of the State of New-York appears to be indefinitely postponed.

In breadstuffs there is a fair activity, but the export demand is checked by many orders being limited below the market price. The sales of flour are about 25,000 bbls. per day. Wheat is in good request, and advanced to day 2@3c. ⅌ bushel. Corn is quite firm. Provisions are well sustained and selling freely. Sugar shows an advance of about ½c. within a few days. Cotton is quiet at an advance of ⅛c. within a week. Mr. Wright's circular for the steamer says:

It seems pretty generally admitted in the South that the frost of the 24th and 25th October did but partial injury to the crop in some localities. The weather subsequent to the frost has been dry and warm, and picking has been carried on under highly favorable circumstances. Under these influences the letters from the South received here during the last week have very generally spoken of increased estimates of crop. There is still, however, a wide range in opinion on this subject. In the course of another week or two I hope to be in possession of data whereon to form an opinion of its probable extent.

We are advised by telegraph that at last there is a fair prospect of free navigation in the southern rivers. Under date of 10th inst from New-Orleans, Mobile and Montgomery we are informed that a considerable rise had already taken place, very soon, therefore, we may expect to hear of heavy receipt at all the southern ports. The competence this season with that of 1852-3 will now be closely watched, the greatest difference so far being in the increased quantity exported to Great Britain this year over that.

The following is a statement of the movement of cotton since the 1st of September last, as compared with the previous three years:

	1855.	1854.	1853.	1852.
Receipts at the Ports	569,000	37,000	289,000	536,000
Exports to Great Britain	212,000	95,000	65,000	100,000
Exports to France	43,000	41,000	10,000	26,000
Ex. to other For. Ports	57,000	19,000	22,000	26,000
Total Exports	292,000	155,000	117,000	208,000
Stock on hand	511,000	220,000	2[illegible],000	302,000

Of which during the past week, included in the above:

Receipts at the Ports	75,000	68,000	60,000	135,000
Exports to Gr't Britain	40,000	22,000	14,000	41,000
Exports to France	11,000	6,000	—	3,000
Ex. to other For. Ports	6,000	6,000	5,000	5,000
Total Exports	56,000	34,000	19,000	51,000

From which it will be seen that the increase in receipts now amounts to 230,000 bales. The increase in exports to Great Britain, 117,000; other foreign ports, 10,000. Decrease to France, 1,000 bales. Total increase in exports, 134,000 bales.

Markets.—CAREFULLY REPORTED FOR THE TRIBUNE.

WEDNESDAY, Nov. 14, 1855.

ASHES—The market is firm; the demand is light; sales of 50 bbls. at $6 87½ for Pots, and $7 37½ for Pearls. Saleratus firm at 6½c., cash; the stock consists of 421 bbls. Pots and 64 bbls. Pearls.

BEES WAX—The market is quiet for American Yellow at 27c.

BRICKS AND TILES—The market is firm for Hard North river, with a good demand at $4. Philadelphia are in fair request at $12@$13. Foreign are unchanged; sales of 20,000 Rath at $22@$30. We shall see from at $20. Malt Tiles are in good demand at $25@$30.

CANDLES—The demand continues active for Adamantine, and prices favor the seller; sales of 5,500 lbs City, including Phenix cos. brand, nearly all for future delivery, at 20@20½, 4 mos. Plain Sperm sell at 22@40c; and Patent at 40@45c.

BOOTS AND SHOES—There is a fair business doing, almost exclusively for the western part of the State and the near-by towns. Prices are no higher, and are not likely to be for the present. The stocks in manufacturers' hands are very light, and with the high price of the raw material, dealers do not look upon the future as very encouraging. A small demand exists for light goods for California and Australia. We revise quotations:

COPPER—New Sheathing tends upward; the sales in suits have been large at 32c@33c, is now asked. Yellow Metal is firm at 26c.; of Old 6,000 ℔ sold at 25c. cash.

COTTON—A quiet market pending the arrival of steamer Pacific; prices continue very firm owing to the very light stock now estimated at 500 bales offering, and total shut 15,000 bales in Texas all on shipboard and not cleared. To day's sales will not exceed 800 bales. The sales for the week ending to-day are at market at 7,000 bales; the exports for same period, 4,823 bales, viz: to Liverpool, 3,576 bales; Havre, 434; Bremen, 417; Marseilles, 294. Our closing rates indicate the tenor of last sales; they are as follows:

COAL—There is little change to report; supplies are large; sales of Newcastle, at $5, less 4 per cent cash; Sidney, $6 50; Pictou, $7 25 large chaldrons; and Liverp of Orrel, $10 50 time. Anthracite is plenty; and the sales are making from yard at a very irregular rate; we quote $4 75@$5 for Nut, and $5@$6 for Stove at 3 Egg size per ton.

FLOUR AND MEAL—A fair business doing in Western and State Flour for the home and East market and for export; the arrivals are moderate, and large holders are firm; the better grades are in comparatively small supply, and firmly held; there is less inquiry for future delivery, and we only hear of 10,000 bbls. State for January at $8 75; the sales of Western Canal are 6,000 bbls. at $8 75@$8 81½ for state and Michigan; $8 87½@$9 for extra State and superfine Upper Lake and Indiana; $9 12½@$11 25 for extra Genesee. Canadian Flour is not plenty; the demand is light, for the home trade mainly; sales of 400 bbls. at $9 06@ 0 25—the extreme price for the superior brand. "Domestic" Southern Flour is without important change; the demand is fair, for the home trade mainly; the arrivals are light; sales of 900 bbls. at $9 37½@$9 62½ for mixed to good standard brands Baltimore "City Mills," Alexandria and "Howard street," and $9 75@$10 75 for favorite fancy and extra brands, the latter price for "Columbia Mills," extra, and no $10 25, as misprinted yesterday. Rye Flour is without change; the demand is light, in part for export; sales of 150 bbls. at $6 87½@$6 62½ for fine, and $7@$7 50 for superfine. Corn Meal is plenty, and is lower; sales of 325 bbls. at $4 25 for Jersey, and $4 31½ for Baltimore. Buckwheat Flour is in demand at $2 50@$2 75 ⅌ 100 ℔. We quote:
