The Smack in School.

The following incident in a District School, described by Mr. William Pitt Palmer, of New York, President of the Manhattan Insurance Company, in an address before "The Literary Society," in Stockbridge, Mass., his native home, will take many whose heads are now streaked with silvery hairs, a journey back to boyhood and early life.

A District School, not far away
Mid Berkshire hills, one Winter's day
Was humming with its wonted noise
Of three-score mingled girls and boys—
Some few upon their tasks intent,
But more on furtive mischief bent;
The while the Master's downward look
Was fastened on a copy book—
When suddenly behind his back,
Rose sharp and clear a rousing SMACK!
As 'twere a battery of bliss
Let off in one tremendous kiss!
"What's that?" the startled Master cries;
"That this," a little imp replies,
"With William Willim, it you pleathe—
"I saw him kith Chuthannah Peathe!"
With frown to make a statute thrill,
The Master thundered "Hither Will!"
Like wretch o'ertaken in his track,
With stolen chattels on his back,
Will hung his head in fear and shame,
And to the awful presence came—
A great, green, bashful simpleton,
The but of all good natured fun—
With smile suppressed, and birch upraised,
The threatener faltered—"I'm amazed
That you, my biggest pupil, should
Be guilty of an act so rude!
Before the whole set school to boot—
What evil genius put you to't?"
—"I'was she, herself, sir," sobbed the lad,
"I didn't mean to be so bad—
But when Susannah shook her curls,
And whispered I was 'fraid of girls,
And durst'n kiss a baby's doll,
I couldn't stand it, sir, at all!
But up and kissed her on the spot,
I know—boo—boo—I ought too not,
But, somehow, from her looks—boo hoo,
I thought she kind o' wished me to!"

Salt for Horses Feet.

The tendency of common salt to absorb moisture from the air is well known to all. Mr. E. L. Gibbs, of Orwell, Ohio, communicates to the Ohio *Cultivator* a new use he has made of this property of salt, by applying it to the hoofs of horses:

"A horse that is driven upon a road is liable to get stiffened. I have seen valuable horses driven on our own plank roads a few days get quite lame. I reasoned to myself of the cause, and produced a remedy which proved effectual. I have since tried it on foundered or hoof bound horses, and with good results. I made a solution of salt and water, and applied it three times a day, by washing the legs and pouring upon the bottom of the feet, and holding them up a few minutes to let it strike in, and saw the wonderful effects in a few days. I account for it in this way: Salt will extract moisture from the atmosphere, which keeps the feet moist all the while; it acts nearly like melted grease upon the foot. The hoof becomes tough yet pliable; like a chunk of wood saturated with salt or brine, it is tough, yet moist, and so with a horse's foot. Here let me add, that the practice of rasping a cracked hoof to toughen it is all folly. Apply brine, and you will effect a cure.

A VEGETABLE KING.—At the New York State Fair held at Syracuse, the *Journal* tells one of the great features was an exhibition composed entirely of vegetables and fruits, and representing a human being much more perfectly than could be expected, considering the material employed. The feet are two yellow summer squashes; the legs, below the knees, large cucumbers; the knee-joints turnips; the thighs winter squashes; the abdomen a huge round squash; the dress that clothed it composed of long ears of corn, fringed at the bottom with peppers and dwarf tomatoes and buttoned with horse chestnuts, the arms crook-necks, the shoulder-joints egg plants, the hands turnips, and fingers small carrots; the head an overgrown pumpkin, the ears tomatoes, the eyes horse chestnuts, the nose a sweet potato, the mouth *a gash*, the teeth white beans, the moustache two green peppers, the under lip a bean-pod, the whiskers asparagus. The crown which His Majesty wears is composed of thorn berries, snow-drops and tomatoes; his sash is made of apples and he holds in his hand a corn stalk cane, topped with a big onion.

CONSTERNATION AT WASHINGTON.—It is difficult to depict the consternation and dismay caused in official circles here by the result of your election. The utter rout that has taken place was totally unexpected. The king who, when he opened his blackbird pie, found its five and twenty occupants singing melodiously, was not more taken aback than Mr. Buchanan when he discovered that of the five and twenty Congressmen of his native State, but *two* favorable to his Kansas policy had been elected. The President could have borne without a pang the loss of any other State, but to be thus rebuked and repudiated by the Commonwealth of which he was so long "the favorite son," is a terrible blow, and puts him in a very bad humor. The lamentations over the defeat of Glancy Jones are really distressing. It is currently reported that the President busily endeavored, when the earlier reports from Berks came in, to *figure up* a majority for his distinguished favorite, out all in vain; the figure of Schwartz would loom up.—Judge Black is not in his usual talkative and amiable mood. His mind is too much occupied with *State affairs*.—*Wash. Cor. Philadelphia Press.*

The doctrine of the Democratic faith, is that a man is capable of self-government, no matter what his birth-place, or what his religious faith. It is, that man's capacity for self-government depends not upon his possessing property, *or any other accidental circumstances by which he may be surrounded; but that it is an inherent, heaven-derived and absolute right, belonging to the man himself.*—*Judge Parker's N. Y. Speech.*

If this is Democratic doctrine, it is very different to the Democratic practice. To carry it out would be not only to grant "Popular Sovereignty" to settlers in Kansas, but to emancipate every slave from Maryland to Texas!

"Self-government," says Judge Parker, "is an inherent, heaven-derived and absolute right, belonging to the man himself." It belongs then to the Slave, unless the Judge denies a Slave to be a man. True, he is held in bondage because he happened to be born in a Slaveholding State, But, says Judge P., the right of self-government belongs to him, "no matter what his birthplace!"

And yet the orator who deals in these "glittering generalities" in behalf of Freedom—in the same breath endorses the Lecompton Swindle and the Dred Scott decision!

Judge PARKER'S position, as defined in speeches, appears to be this: He agrees with GERRIT SMITH in doctrine, but with BUCHANAN in action. He believes in preaching the universality of Freedom, and practising the extension of Slavery. Man in general, according to his theory, is entitled to self-government, but individual Pomp and Sambo are only fit to be kicked by a master. The abstract being, Man, is capable of saying how he wants to be governed, "no matter what his religious faith," but the Quaker man of Pennsylvania, and the Abolitionist man of New York, should be Atherton gagged if they "try it on."—Man in general, living nowhere, is entitled to vote on his Constitution. Man in particular, at Kickapoo, Kansas is entitled to nothing of the sort. Theoretically, our rights are heaven-derived; practically, Buchanan-derived if derived at all. Certain absolute rights are "inherent" in every man, provided he is a Pro-Slavery Democrat.—Otherwise not. Such is the ingenious platform erected by the Democratic candidate for Governor!

It was done when it was done, It was done when it was half done, and yet it wasn't done when it was finished. Now, what was it?

Timothy Johnson courted Susannah Dunn. It was Dunn when it was begun, it was Dunn when it was half done, and yet it wasn't Dunn when it was finished—for it was Johnson.

EVERY Family now-a-days begins to feel the importance of these machines, but many are at a loss in deciding in the matter of selecting, while others have hastily purchased a cheap, slight thread machine, which they find is but poorly suited to answer the end designed. Those who have had opportunities for a comparison of the merits of the different machines in use, readily discover which holds the superiority and give the palm where justice points it due.

Wheeler & Wilson's Machine

every intelligent observer will small, stands without a rival. Its advantages are

1 Its simplicity and beauty of construction.
2 The excellence and neatness of its stitch—alike on both sides, and its freedom from anything like raveling or cambric cold on the underside.
3 Speed—accuracy, and reliability at any rate of speed.
4 Economy of thread.
5 Portability—ease of operation and management.
6 Quietness of movement.
7 Ready adaptation to every species of family sewing, gathering, &c.

This is a pure and simple narration of its qualities, which will appear to every one on acquaintance with the machine. Its design and mechanism is such, as to make its presence an acquisition to any one's parlor.

One of these machines may be seen in operation at the residence of the subscriber, who is authorized to supply any demand for them in this vicinity. JAMES REED.

Ambrotypes,
Photographs, Melainotypes, & Daguerreotypes.

W. C. NORTH, of Cleveland, Ohio, would respectfully inform the citizens of Ashtabula, that he is prepared at all time to take, in the best style, the finest and most durable likeness pictures that may be called for. Having been engaged in this Art for a number of years, and having a perfect knowledge of chemicals used in producing beautiful results, and keeping up with the times in any new or valuable improvement in his line, he is fully able to give the best of satisfaction. We are daily taking the finest Ambrotypes that can be found in the states. All are warranted durable, and will suit any who may favor us with a call. The Melainotype picture is getting to be very popular, are very suitable for locket pictures, as they can be fitted in any shaped locket or pocket, they make a very brilliant picture, similar to the Ambrotype. Photographs magnified to any size desired, and colored true to nature by one of the best Artists to be found. Photographs made from small pictures of living or deceased persons, and colored in oil. Numerous specimens on exhibition at my rooms, and should be happy to wait on any of the citizens of Ashtabula, that may be visiting Cleveland, whether wishing likenesses or not. All are invited to call.

Rooms open from 8 A. M., till 5 P. M., at Melodeon Hall, 77 Superior street.

HOWARD ASSOCIATION.
PHILADELPHIA
A Benevolent Institution, established by special Endowment for the Relief of the Sick and Distressed, afflicted with Purulent and Epidemic Diseases.

THE HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual Diseases, and the deceptions practiced upon the unfortunate victims of such diseases by Quacks, a few years ago directed their consulting surgeon, to open a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved medical treatment.

The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, for the year ending January 1st, 1858, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted; especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhœa or Seminal Weakness, the Vice of Onanism, Gonorrhœa or Self Abuse, and other diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail (in a sealed Envelope,) FREE OF CHARGE, on the receipt of two stamps for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, diet, &c., are constantly being published gratuitous distribution, and will be sent to the afflicted.—Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, Dr. GEO. R. CALOHUN, Consulting Surgeon Howard Association, No. 2 South NINTH Street, Philadelphia, Pa. By order of the Directors.

DOCTOR MORSE'S INDIAN ROOT PILLS

CAUTION.

Merchants and Traders will be on their guard and not be imposed upon by a counterfeit of Morse's Indian Root Pills; signed *A. B. Morse*. All genuine Indian Root Pills have the name and signature of *A. J. White & Co.*, on each box.

DR. MORSE the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of His life in travelling, having visited Europe, Asia and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered, and it was the first man to establish the fact that all diseases arise from a vitiated state of the blood—that our strength, health and life depends upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased, thus causing all pains, sickness and sickness of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and then our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to think that we have it in our power to put a medicine in your reach, namely Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots, perhaps the most valuable in the Materia Medica, which opens pores of the skin, and assists Nature to throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passages of the lungs and throat, thus assisting nature in the work of duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the Kidneys, thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bodily by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for the first was to every part, and completely rout out and cleanse the system from all impurity, and the life of this body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes as pure and clear as the crystal spring. The reason why people are so diseased when sick, and why so many die, is because they do not get a medicine, which will pass to the afflicted parts, and which will open the natural passages for the disease to be rout out; hence a large quantity of foul matter remains in the body, and the bowels or intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added a new victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of angry fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished and absolutely surprised, to witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood—Therefore, it will be shown, especially to those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy ,will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cheerful and brighten your days.

SUCCESSOR TO E. HOWELL

WOULD respectfully announce to the citizens of Ashtabula, and surrounding country, that he has recently purchased the entire interest of E. Howell in the Daguerreian business in this place, including his Paper-type, recently patented, and that he is prepared to take correct likenesses, in all the different styles of the art, and in the most approved style. Having had several year's experience with the first artists in the country, I am enabled to keep up with all the improvements, and feel safe in saying I will furnish good pictures, and reasonable prices, as can be obtained anyw
