terminated. Until then, tragedies such as this cannot be enacted with impunity. Some of the actors, if not all, must be responsible, and it is for you to determine which and to what extent.

Mr. Brady rose and said he objected to the whole charge as assuming as proved certain facts which were denied. I also object, (he said,) to all the opinions expressed by your Honor, as your Honor is not a Juror. On all matters of opinion I appeal to the Jury.

Judge R.—That you have a right to do.

Mr. Brady—I object, for the reasons stated, to the whole of your Honor's charge; and to several particulars therein.

Mr. Brady then made the following exceptions:

To the statement that the Baker party had pistols—it being a question whether Paugene had any.

To the words, "Why did they leave the City Hotel" unless to renew the ball." Objected to specifically.

To the words, "Why did Paugene lock the door behind him." Objected to, there being no evidence of the fact.

To the ruling that frequenting of tippling-houses was a violation of law. Objected to in this case, as giving an unfavorable conclusion in a murder case, to which it did not belong.

To the remark that that was an unlawful and suspicious visit. Objected to, the visit being lawful.

To the statement that the defense should show what Baker had been doing from 9 to 1. Objected to, as being such a remark as led to a reversal of judgment in the Bedine case.

To the statement that all these parties saw Poole when they entered the baize door. Objected to, there being no evidence of the fact, and it being extremely improbable where there were so many persons.

To the statement that Baker heedlessly and perversely got in to the difficulty at the Gem. Objected to, on the ground that if any man enter a house, he is not obliged to sneak out of it because his enemy is there. Court asked so to charge.

To the statement that Baker did nothing till Poole was shot by Turner. Objected to, it being in doubt whether Poole was shot by Turner.

To the statement that the testimony of the witnesses for the prosecution corresponded with the dying declaration of Poole. Mr. Brady objected that it was directly contrary; Dr. Putnam said that Poole conveyed the idea that the shower of shot was from his foes, which was contrary to the testimony of the witnesses.

To the statement that, under certain circumstances, the case would be one of murder, but a proper one for a recommendation to mercy. My client (said Mr. Brady), a man of intelligence, authorizes me to say that if the Jury think he committed a murder in this case he could not respect them as men if they gave such a recommendation to mercy.

To the statement that the burden of proof of the killing being in self-defense lay on the defense. Objected to. Killing in self-defense not being a possible hypothesis from the prosecution.

To the remarks about Mitchell's and McDonough's testimony being incredible or contrary to the other testimony.

Mr. Brady made some minor exceptions, and concluded thus: I ask your Honor to charge the Jury that Poole's statement to Dr. Putnam is no part of evidence, according to any law here or in Europe, as being a declaration regarding what the deceased himself did. We also except to your Honor's remarks about manslaughter in the second degree being applicable to his case. And finally we object to your honor's remarks regarding the counsel for the prisoner having occupied eight or nine hours in summing up evidence which it took fifteen days to get, and implying that some inference hurtful to the prisoner's case was to be drawn from that fact.

Mr Clark asked the Judge for a copy of the charge, in the style in which it had been delivered.

The Judge addressed the Jury, and said that, as he had observed, they were the exclusive judges of the facts; he gave his conclusions, not to control the Jury, but to aid them in their deliberations. It might be that, as to some points, some misapprehension might have occurred on the part of the Court—for example, with regard to the first wound received by Poole, whether it was given by Turner or some other. As to some points of law, it is not lawful to visit a tippling-house on the Sabbath, for the purpose of tippling, though the penalty was comparatively light. Where the prosecution makes a case of self-defense, the whole burden of proof should not be left on the defense. As to whether there could be a verdict of manslaughter, it was a matter entirely for the Jury. The whole subject of guilt or innocence (said Judge R) is in your hands, gentlemen, altogether; and in this case I am ready to adopt the opinion (though it has been called in question, still I am willing it should be applied to this case) that, in a case of life and death, the Jury are the judges both of the law and the facts.

The Jury retired at 10 minutes after 6 p. m.

COURT OF GENERAL SESSIONS—Dec. 12.—Before Recorder SMITH.

This morning, at the opening of the Court, Curtis Johnson, a young man indicted for burglary in the third degree, in having burglariously entered the store of Messrs. Arnold, Constable & Co., No. 62 Canal street, on the night of the 7th of October last, and stealing goods to the amount of $5 00, was placed on trial, which occupied the attention of the Court during the entire day. The evidence was somewhat conflicting, but the Jury under the charge of the Court rendered a verdict of guilty, and the prisoner was sentenced to the State Prison for four years and six months. There are three others under indictment for the same burglary, but they claim separate trials. Adjourned for the day.

SUPREME COURT—SPECIAL TERM.—Dec. 12.—Before Judge PEABODY.

Jane M. Haskell, by her next friend, sat. Thomas Haskell, Jr. Report confirmed, and decree of divorce granted.

HABEAS CORPUS.

Peter Thompson, who had been arrested and committed on a charge of stealing a gold watch, valued at $100, from Charles Parkyns, was brought up on habeas corpus, and his discharge from imprisonment demanded on the ground, principally, of irregularity in the proceedings. The habeas corpus, we understood, was dismissed.

WEDNESDAY, Dec. 12—p. m.

The Stock market to-day was quiet, and generally had a downward tendency. The Stocks more particularly fancy were firmer than the investment Stocks. The renewal of specie shipments had an unfavorable influence upon the minds of operators, and there was very little disposition to make a movement of any kind. Almost the only firm stock was Nicaragua, which closed at 17—an improvement of ⅛ ⅌ cent. It is understood that the friends of the Pacific Steamship Line have obtained nearly, if not quite, stock enough to control this Company, and will make an entire change in the management of its affairs, working the route in harmony with the Panama route, and saving a large amount of expense. The Transit route earns enough to make a large dividend upon its stock, if the expenses of working it are reduced. The arrangement will also benefit the other route, as the possibility of competition and low passage fares will be obviated. Erie shows a decline of ⅛ ⅌ cent, closing at 47½. Central sold to the extent of 200 or 300 shares, at 88. Reading fell off ⅛ ⅌ cent. Hudson River was weak, and the demand which carried it up a few days since, supposed to be from Albany, appears to have subsided. Cumberland was among the firm stocks, and closed at 22½. Canton also was firm. The Western shares were heavy, and sold lower. In Railroad Bonds the business was moderate, but the market was firm at the close. Illinois Central sold at 77½; Central 6s, 85; Eries, 1875, 87; Goshen, 81, &c. In State Stocks the business was confined to about $60,000, at about previous prices.

The market closed for Exchange scarcely as firm as it opened. We make however no change in our quotations—Sterling, 8@9 ⅌ cent; Francs, 5.22½@5.18¾. Some of the evening papers state that the purchase of £80,000 of Exchange which we noticed a day or two since, was for account of the Erie bulls, who resold the bills for cash for the purpose of carrying on their operations. We have the authority of parties interested in that Exchange operation to deny explicitly this statement. That purchase of Exchange we are fully informed in regard to, but are not permitted to give publicity to the particulars. It was a legitimate mercantile operation although in some respects an exceptional one, and had no more connection with Erie stock than it had with the Kansas outbreak.

In Freights there has been a lull in the market today, but there is still a firm feeling. To Liverpool the engagements include 10,000 bushels Grain at 11½d. in ships' bags; 200 tierces Beef at 7s. 6d. @8s.; 300 bales Cotton at ¼d @9-32d., and 50 pkgs. Bacon, 40s. To London, 300 @400 pkgs Beef and Pork at 45s., measurement; 500 bbls. Lard, and 100 tierces Rice at 45s. To Havre, Flour $1, and Grain 25c. To Antwerp a full cargo of Rye at 15d. The steamer yesterday had 200 tierces Beef, 1,000 bbls. Apples, 456 cases India-Rubber Goods, &c., 200 boxes Havana Sugar.

The business of the Sub-Treasury was: Paid, $92,166 35; received, $58 031 78; balance, $4,065,-151 79; paid for Assay Office, $285,020 72; paid on disbursing checks, $29 556 26.

Albert H. Nicolay's regular semi-weekly auction sale of stocks and bonds will take place to-morrow, (Thursday), at 12½ o'clock, at the Merchants' Exchange. We are informed that a valuable list of bonds will be offered.

Official notice has been given that the navigation of the Delaware and Raritan Canal will be closed on the 25th inst.

The steamer to day took $460,054 in gold, shipped by Messrs. Brown, Brothers & Co., Pickersgill & Co., and Van Vleck Drexel & Reed. A small amount is engaged for the Union on Saturday, and about $400,000 for the Boston steamer next Wednesday. Meantime the Aspinwall steamer is due with a million and a quarter to a half. Letters by the Northern Light state that the boat to Panama would take down about $1,750,000, of which probably $250 000 go to England direct. This amount may be somewhat overstated, as in consequence of long passages several ships from Atlantic ports did not arrive out in time for remittances by this steamer. In addition to the gold by the Northern Light there came at least $60,000 of Government drafts, in addition to a considerable amount of Sterling bills, which are equal to gold. If the Aspinwall boat brings $1,500,000 the semi-monthly boat will be quite up to the average.

The produce markets are rather more active, and the feeling in Breadstuffs is better. Provisions are unchanged and rather dull. Sugar and Coffee are firm and in moderate demand. Cotton is steady. The circular of Mr Wm. P. Wright says:

The advices of another week confirm my conviction that a large crop has been made and mostly gathered. The estimates in the South are generally higher than at any previous time this season. The rivers are now in navigable condition, and I look for free receipts at all the ports.

The total receipts at the ports continue to show a gain upon last year, the excess being 543 000 bales—as compared with 1852, however we do not keep pace, there being now a deficiency of 58 000 bales. The exports to Great Britain is 169,000 in excess of last year and 59,000 less than to same time in 1852. To France and the Continent the shipments are heavy and in advance of either of the last three.

The following is a statement of the movement in Cotton since the 1st September last, as compared with the previous three years:

	1855.	1854.	1853.	1852.
Receipts at the ports	963,000	720,000	569,000	1,002,000
*Exports to Great Britain	332,000	223,000	156,000	360,000
Exports to France	113,000	68,000	35,000	54,000
Exports other for'n ports	77,000	34,000	38,000	52,000
Total exports	522,000	325,000	228,000	466,000
Stock on hand	422,000	330,000	343,000	465,000

Of which during the past week, included in the above:

Receipts at the ports	118,000	84,000	72,000	138,000
Exports to Great Britain	53,000	47,000	24,000	50,000
Exports to France	19,000	7,000	8,000	13,000
Exports other for'n ports	14,000	4,000	5,000	6,000
Total exports	86,000	58,000	37,000	64,000

*Included in the export to Great Britain is 3,800 bales per ship Juventa, omitted in *The Savannah Price-Current*.

From which it will be seen that the increase in receipts now amounts to 543,000 bales. The increase in exports to Great Britain, 169,000; France, 45 000 other foreign ports, 43,000. Total increase in exports, 197 000 bales.

Mr. E. H. Ludlow, the real estate auctioneer and broker, will remove on the 1st January to No. 14 Pine street.

The clipper ship Dreadnaught, Capt. Samuels, from Liverpool, brings 1,000 tuns of fine dry goods, 700 tuns of steel, tin plates and cutlery—being the largest cargo of fine goods ever shipped to New-York from Liverpool.

At Washington Land Warrants are drooping at the following quotations:

80s and 160s.....93 cents ⅌ acre.
60s and 120s.....87 cents ⅌ acre.

The demand from the West has almost entirely fallen off.

At the recent election of Directors of the Gardiner Gold Company the following gentlemen were elected: Charles Ely, Anthony P. Halsey, Charles Tracy, P. G Gardiner, George C. Ripley, Howard C. Cady, Melzar T. Hazen. At a subsequent meeting the following appointments were made: Charles Ely, President; Richard Vose, Secretary.
