WEDNESDAY, March 19.—P. M.

There was a fair amount of business done at the Stock Board to-day. In the morning there was a current rumor that the gold shipped by the Africa would be $1,100,000, and the market became very heavy. The truth was afterwards ascertained and there was a better feeling. At the Second Board some descriptions were quite buoyant. Erie improved to 56¾@56⅞, having been 56⅝. Reading was 91⅞, an improvement of 1 per cent. Panama was scarcely so firm and sold at 105, seller thirty. N. Y. Central was buoyant and went at 93. The February receipts, it is stated, were, in round numbers, $400,000. The movement in Hudson River is strong also, and sales were made as high as 36, an improvement of 1½ per cent. We presume the prospects of the bridge question are favorable. Nicaragua is moderately active, and about the same as yesterday. In Western Stocks there is not much doing, and prices are without important change. Some descriptions are lower; but the recent decline in prices is bringing in orders from the West. Illinois Central Bonds continue to improve, and sold at 90½. The orders by the last two steamers are said to have exceeded a million of dollars. This is probably an exaggeration; but the purchases have been very large, and the market has improved about 3 per cent. The steamer to-day took out some $200,000. Eries, 1875, sold at 90½, which is better; 1862 at 87. Hudson First Mortgage, 98; Second, 87½; Terre Haute and Alton, 7; New-York Central, 102½. State Stocks are quiet and steady. New-York 6's, 1864, sold at 116½.

The market closed heavily for Exchange at ¼@½ ⅌ cent decline on Sterling, and Francs are the prices of the previous steamer. Good commercial signatures sold at 8½@8¾c., and first-class at 9@9½, including bank bills with city indorsement. The supply of bills drawn against Cotton *in transitu* are considerable. The leading bankers are not buyers at the close at over 9½ ⅌ cent Sterling.

The Freight market is firm. To Liverpool, 12,000 bush. Corn at 7d. in bulk; 750 bales Cotton, 9-32@5-16d.; 68 tcs. Tobacco, 30s., and some Bacon, 30s. To London, 350 small tcs. Beef, 6s., and 730 bbls. Turpentine, 3s. 6d.

The business of the Sub-Treasury was: Paid, $132,601 56; received, $111,448 70; balance, $5,274,411 61; paid for Assay Office, $231,149 87; paid on disbursing checks, $84,440 79.

Albert H. Nicolay's regular semi-weekly auction sale of stocks and bonds will take place to-morrow (Thursday,) at ½ o'clock, at the Merchants' Exchange.

The earnings of the Michigan Central Railroad for the first week in March were as follows:

	1855.	1856.	Decrease.
Passengers	$15,572 00	$15,035 97	$536 03
Freight	11,872 79	16,869 52	Inc. 4,996 53
Total	$27,444 79	$31,905 29	Inc. $4,451 50

The Africa takes $790,971 in gold. A much larger amount was reported, but the above figures are from the steamship office at a late hour. Of the shipments, $300,000 were by Brown Brother, $300,000 by Mr. Belmont, $150,000 by Messrs. Pickersgill, $100,000 by Messrs. Hoge, &c. We believe only $150,000 of the amount was in coin.

The business of the Clearing-House was $22,389,000.

The business of the Norwich and Worcester Road in March, thus far, especially in freight, is very large, and promises to be large enough to neutralize the loss in February, when the Sound was closed, which was about $8,000, as compared with February, 1855.

The charter of the Merchants' Bank of this city will expire at the close of the present year, and arrangements are now making for its organization under the General Banking Law.

It is understood that the Chicago and Rock Island Road will on Friday next declare a dividend for six months of 5 ⅌ cent in cash, payable on the 12th or 14th of April. The Cleveland and Toledo dividend is not yet decided on, but rumor places it at 4 ⅌ cent, payable some time in May. Nothing official is known on the subject and the question has not been agitated in the Board. Mr. Martin, the President of this road, will we hear, in consequence of ill health, tender his resignation. His physician advises a visit to the South.

The suit between Samuel G. Ogden and the estate of the late John Jacob Astor, relative to unsettled partnership transactions, it is understood has been settled by Mr. Wm B. Astor paying Mr. Ogden $125,000.

We hear that another payment on account of the Mexican Indemnity will be paid during the present week, which confirms the dispatch we had from Washington this morning from H. G. From certain movements in the Exchange market to-day, we suspect there is some foundation for the story.

There is a better inquiry for Flour, partly for export to France, and prices are a little better. The stock is smaller than was supposed. State brands are $6 75@7. Southern descriptions are without change. Common Wheat is plenty, and heavy, but prime is scarce. Rye and Barley are firm. Corn is not plenty, and prices are steady at 70@72c. for Western mixed. Prime Pork is firm at $14 62½, but Mess is plenty at $15 75@$15 87½. Beef is plenty, and heavy. Lard is lower, and plenty. Bacon and Cut Meats are firm and in demand. In Groceries there is no change to notice. Sugars are rather firmer; and Coffee is selling at full prices. Molasses is heavy. The Tea sale was well attended; Green sold at 1@2c. advance. Wool is in good demand, and firm. The Cotton market is active, with sales of 3,000 bales at full prices. Mr. Wright's Circular says:

Up to Saturday of last week the cotton market in this city continued dull and depressed. Sales were made at a reduction in prices, and though the desire to sell was not generally enough was done to establish a decline of ½c. from the quotations in my last circular. On Saturday, however, we received the letters per Arabia, which were considered more favorable than the telegraphic advices led us to expect, and at the same time we heard from New-Orleans of large transactions there at full prices, with an advancing freight market. And whether it was the one or the other of these causes, or the two combined, that created an active demand, I cannot say I know, but certainly a large business was done, both for cotton in store and in transitu, the sales for the day resulting in 9,000 bales. Prices for cotton on the spot recovered the decline, and which was fully established on Monday and yesterday, the market closing firmly and steadily at the quotations annexed. Great confidence in our present scale of prices is expressed by many, irrespective of crop opinions, and I have seen evidence of it during the past week in the purchases made by Greek houses, some operations by Boston houses, and others on Southern account, all for export to Europe. There is more disposition to buy, also, for domestic consumption, the recent mild weather having opened the channels of communication. The sales for the past week I estimate at 9,000 bales. The clearances during the same time have been—to Liverpool, 4,381 bales; Havre, 652; Bremen, 730; Antwerp, 735. Total, 6,498 bales.

Cotton in transitu has been difficult of sale and prices somewhat irregular, with the exception of Saturday last, when about 5,000 bales were disposed of. The bills of lading for a large portion of the quantity now here will be sent forward by this mail on account of present owners. Such parcels as were intended for sale here have been sold at a slight reduction, and it is difficult either to buy or to sell in quantity. The following are the quotations at which sales were made on Friday and Saturday last. For Mobile and New-Orleans, with freight at ⅛d., Ordinary, 8½c.; Good Ordinary, 8¾@8¾c.; Low Middling, 8¾@9c.; Middling, 9½c. Some small lots Savannah to Liverpool, with freights at 7-16c., have been sold on the basis of 9½c for Middling. Total sales, 9,000 bales.

Southern Markets have been tolerably active, without much change in price.

The following is a statement of the movement in Cotton since the 1st of September last, as compared with the previous three years:

There is a great quantity of "Veal," or what is known among farmers as "Deacon" Calve's meat, on some of the stands, which is not fit for dog's meat. The Inspector should look to it.

BOOTS AND SHOES—A large business is at present being conducted, chiefly for the South and West, and the market rules in favor of sellers; the high cost of all kinds of raw material induces dealers to hold on their stock, anticipating higher prices later in the season; there are no goods going forward on foreign account. DYEWOODS—The stocks are small; sales of 190 tuns Jamaica Logwood at $20 50@$21, duty paid.

EARTHENWARE—Since our last report only a few vessels have arrived, and these having on board small quantities, consequently our market is even much poorer supplied than a month ago. The demand is excellent, far in advance of the supply, which has enabled holders to secure an improvement on Common Ware of 10@15 ⅌ cent over the prices current early in the season. The Western merchants are now buying liberally, and we understand that dealers generally have bought 20 ⅌ cent heavier than in former seasons. White Granite Ware is in moderate supply. There is little going forward to California.

FEATHERS—The market continues scantily supplied; the demand is good at 56c., and some are asking 58c. The sales yesterday should have read 2,000, not 20,000.

FLOUR AND MEAL—There is a much better feeling in our market for Western and State Flour, with a better demand for export, in part for Havre; the reduced stock, which is found to be much less than we had anticipated, has imparted more confidence, strengthened materially by the very light arrivals during the week; at the close there was more inquiry for the East; small and very undesirable lots have been sold below our quotations to close up invoices, but even that selling at our lowest figures is very common; the sales of Western Canal are 6,000 bbls. at $6 75@$7 for common to good State and Michigan, $7 18½@$7 37½ for superfine Indiana and Upper Lake, $7 25@$7 37½ for common to good superfine and fine grades of extra Ohio, and $8 6¼@$8 12½ for do. do. Genesee, the latter now in small supply. Canadian Flour is in moderate demand but is firm, with a very light stock; sales of 280 bbls. at $7 25@$9 25 for ordinary to best brands. Southern Flour is without much change—the arrivals are not large, and the stock is moderate; sales of 250 bbls. at $7 50@$8 for mixed to good standard brands Baltimore "City Mills," Alexandria and "Howard street," and $8 12½@$9 for favorite, fancy and extra brands.
