adapted for steam navigation, and this essential and long sought for desideratum in these latitudes, must, beyond a doubt, work an entire revolution in this country, and add a grand stimulus to the rapidly increasing steam navigation of this entire Coast, as well as that of the Gulf of Mexico. A corps of engineers, surveyors, and miners, are about to be sent out by the Company for the purpose of placing beyond a question this important matter, and we have sanguine hope soon to receive glowing accounts from that interesting quarter, and ere long to see our cars steaming across the Isthmus with native coal, and our steamers on the Pacific supplied with it."

Markets.—CAREFULLY REPORTED FOR THE TRIBUNE.

WEDNESDAY, April 9, 1856.

ASHES—The market is better, with a stock much reduced; sales of 25 bbls. at $3 25 for Pearls, and $6 25@$6 37½ for Pots. Saleratus firm at 7c.

BRICKS AND TILES—Hard North River are moderately inquired for at $4 50@$5. Philadelphia Face are unchanged; they sell at $19@$20. Foreign are quiet at $30 for Welsh; $25@$30 for Bath, and $40@$45 for Stourbridge. Malt Tiles are selling at $27@$30.

BOOTS AND SHOES—An animated business is doing, and the orders from the West are large, but the bulk of the transactions with Southerners is over, though the sales are still to a fair extent. The prospect of a decline in the raw material being remote, holders show much indifference about selling, as they are confident they cannot replace the goods unless at a higher cost. The assortment is good, comprising all the various styles, though Men's Calf Brogans and Boots are quite scarce, and bring a slight advance.

BEESWAX—American Yellow is rather quiet; sales of 1,000 lbs. at 27@27½c.

COAL—The supply of domestic is large, with some abatement in the demand; prices tend downward; sales of Peach Orchard at $4 62½@$6; Lackawanna, $5, and Lehigh $5 62½@$5 25. Foreign is less plenty and is held higher; last sale of Orrel at $8.

COTTON—The market continues buoyant and fairly active; the sales to-day have been chiefly to spinners; sales of 3,000 bales.

TEAS—The auction sale this morning was fairly attended; the catalogue was extensive, composed chiefly of Young Hysons. Taeting kinds of medium and very low grades. The fine and mediums sold at fair prices, but the common grades showed a decline; the trade viewed them as too common for their customers. The Oolongs were common, and declined ¼c.; the Congou and Souchongs fully 1@2c.; but few of the Greens were withdrawn. At private sale, the numerous auctions do not give any chance for operations; we have had two already this week, and two more are announced for the remainder of it, with others for the immediate future. Notwithstanding all these sales, prices have been sustained on all fine grades; the forcing of common qualities on the market has caused the decline in these qualities, closing steadily at our quotations, revised by Messrs. Allen & Hong:
