shipments from Chicago last week were 465,560 bushels corn, 105,514 bushels wheat, 31,566 bushels oats, and 8,230 barrels flour.

The upper Lakes are crowded with vessels laden with grain and flour. Between fifty and sixty vessels are on the way to Oswego, with 700,000 bushels grain.

Bonds of the State of California, issued in consolidation of the Controller's warrants, are beginning to appear in this market for sale. We annex the law under which this consolidation takes place, which we believe has never before been published:

AN ACT *to fund the indebtedness of the State, now existing in the form of Controller's warrants, drawn on the general fund, or shall may be outstanding at the 1st of January, 1857, or warrants issued for indebtedness accruing prior to the 1st of January, 1857*

The People of the State of California represented in Senate and Assembly, do enact as follows:

SECTION 1. That for the purpose of funding so much of the indebtedness of the State as remains unpaid on the 1st of January, 1857, as evidenced by State Controller's warrants drawn on the general fund, or warrants issued after 1st of January, 1857, for indebtedness which accrued prior to 1st of January, 1857, the Treasurer of State shall cause to be prepared suitable bonds, not to exceed the sum of $1,200,000, of the denomination of $500 and $1,000, bearing interest at the rate of 7 per cent. per annum from the day of their issue, payable either in the Cities of New-York or San Francisco, or at the State Treasurer's office, at the option of the party or parties to whom such bonds are issued, on the 1st day of July, 1875. The interest accruing on the said bonds shall be due and payable, either in the Cities of New-York or San Francisco, or at the office of the Treasurer of State, on the 1st days of January and July of each year; Provided, that the first payment of the interest shall not be made sooner than the 1st of January, 1857. Said bonds shall be signed by the Governor, and countersigned by the Controller of State, and shall have the seal of State affixed thereto.

SEC. 2. Coupons for the interest shall be attached to each bond, so that the coupon may be removed without injury or mutilation to the bond. Said coupons consecutively numbered, shall be signed by the Treasurer of State; and it shall be his duty to advertise in one newspaper, published in the Cities of New-York and San Francisco, at least twenty days immediately preceding the day on which the same shall be due, stating at what place, or house, the said interest will be paid.

SEC. 3. It shall be the duty of the Treasurer and Controller of State each to keep a separate record of all such bonds as may be issued, showing the number, date and amount of each bond, and to whom the same was issued.

SEC. 4. The sum of $1,000 is hereby appropriated out of any money in the Treasury, not otherwise appropriated, to pay the expense that may be incurred by the Treasurer in having said bonds prepared.

SEC. 5. From and after the passage of this act, all persons having any indebtedness of this State, in the form of warrants, drawn by the Controller of this State upon the State Treasurer prior to the 1st of January, 1857, or that may be issued after the 1st of January, 1857, for indebtedness which accrued prior to January 1, 1857, shall upon presentation of the same to the Treasurer of the State of California, receive in exchange therefor a bond or bonds of the State of California such as is provided for in the first section of this act. The Treasurer shall indorse on the back of each warrant so redeemed, the date on which he redeemed the same, and from whom received; the number of the bond issued in exchange therefor. The indorsement shall be countersigned by the Controller, and each warrant shall be filed in the office of the Secretary of State. The Treasurer and Controller each shall also keep a record of the same, giving the number of the warrant, date of the same and the amount, and the number of the bond issued thereon, and the Treasurer of State shall not liquidate or pay any of the aforesaid warrants or indebtedness of the State but in the manner herein provided.

SEC. 6. For the payment of the principal and interest of the bonds issued under this act there shall be levied and collected annually, in the same manner as is provided by law, now in force, or which may hereafter be enacted, a tax of ten cents on each $100 of taxable property in the State, in addition to the taxes for general State purposes; and the fund derived from this tax shall be set apart and applied to the payment of the interest accruing on the bonds herein provided for; and the final redemption of the principal of said bonds, and the faith of the State of California is hereby pledged for the payment of the bonds issued by virtue of this act, and the interest thereon; and if necessary, to provide other and ampler means for the payment therefor.

SEC. 7. Whenever, on the 1st day of January or July, 1857, or upon the 1st day of January or July in any subsequent year, there remains a surplus after the payment of the interest as herein before provided, of $10,000 in the Treasury, it shall be the duty of the Treasurer to advertise for the space of one month in one newspaper, published in English, in the City of New-York, and one newspaper, published in English, in the City of San Francisco, for sealed proposals for the surrender of bonds issued in accordance with this act, in such quantity as the holders may desire, not exceeding the amount to be redeemed. He shall state in said advertisement the amount of money he has on hand for the purpose of redemption, and he shall accept such proposals at rates not exceeding par value, as may redeem at the lowest rates named for the bonds, until the amount of cash on hand for redemption is exhausted.

SEC. 8. Full and particular account, and record shall be kept by the Treasurer of the condition of the funds collected, in accordance with the provisions of this act, open at all times to the inspection of the Governor and Controller and to any Committee, appointed by the Legislature, or either branch thereof.

SEC. 9. It shall be the duty of the Treasurer of this State to make arrangements for the payment of the interest of the said bonds when the same fall due, and in the event said "Interest Fund" is insufficient, the said Treasurer shall make up the deficiency from the "General Fund," and in the event of the insufficiency of the "General Fund," the said Treasurer is authorized and required to make such contracts and arrangements as may be necessary for the payment of said interest, and the protection of the credit of the State.

SEC. 10. It shall be the duty of the Governor and Controller to attend at least once in each month at the Treasurer's office to examine all warrants received by the Treasurer, as aforesaid, and to cause the same to be registered, and canceled, in such manner as to prevent them from being reissued or put in circulation.

SEC. 11. The Treasurer of State, having occasion to employ or trust any person or persons in or about the business devolved upon him by the provisions of this act, shall take for his own security, and for the security of the State, such securities, by bond and mortgage, or otherwise, as shall be approved by the Governor, which bonds and mortgages, so approved by the Governor, upon default of the obligor or mortgagor, may be prosecuted in the name of the obligee or mortgagee, for his own use or for the State.

SEC. 12. The Treasurer of State shall transmit to the Governor an abstract of all his proceedings under this act, with his annual report, to be by the Governor laid before the Legislature; and all books and papers pertaining to the matter, provided for in this act, shall at all times be open to the inspection of any person interested, or to any Committee of either branch of the Legislature, or a joint Committee of both.

SEC. 13. The provisions of this act shall not authorize the funding of any of those warrants, the registration and indorsement of which were canceled, or required to be canceled, by the provisions of "An Act to cancel the registration and indorsement of certain warrants, and prohibiting the payment of the same," approved Jan. 26, 1856; and said warrants specified in the last-mentioned act, and all alleged indebtedness on which the same were issued, or in any manner appertaining thereto, are hereby expressly excluded from all the benefits and provisions of this act; Provided, that nothing in this act shall authorize funding the indebtedness, unless such indebtedness exist in the shape of Controller's warrants; nor shall the Controller issue warrants for any indebtedness, unless such indebtedness is recognized by direct appropriation.

Approved April 19, 1856. J. NEELY JOHNSON.

J. T. FARLEY, Speaker of the Assembly.
D. R. ASHLEY, President of the Senate pro tem.

Office of Secretary of State, Sacramento, California, April 21, 1856.

I, David F. Douglass, Secretary of State of the State of California, do hereby certify that the foregoing is a true and correct copy of the original act, now on file in my office.

Witness my hand and the seal of the State, at office in Sacramento, the day and date above written.

DAVID F. DOUGLASS, Secretary of State.

A meeting of the bondholders of the New-York City and Buffalo Railroad was held to-day at the office of Messrs. Whitehouse, Son & Morrison, the object being to confer with Mr. Palmer, the receiver of the company, relative to the present condition of its affairs.

Mr. Mann, counsel for the receiver, was introduced and made some statements, in answer to questions propounded by gentlemen present.

The bonds issued, or purporting to be issued by the company are of three classes, namely:

First mortgage bonds, $1,200,000, of which $500,000 are on the road from Buffalo to Attica, and were given in exchange for the track purchased from the old company owning the road between the two places, and $700,000 on the road between Attica and Hornellsville.

The second mortgage bonds, amounting to $500,000, besides being a lien on the whole road, cover some very valuable property in Buffalo which is not included in the first mortgage, having been acquired subsequent to its execution. It is said to be worth at least $400,000.

This property is incumbered by mortgages on the land to the amount of $41,667, a portion of which is now due, and liable to foreclosure, and money will have to be raised to keep it from being sacrificed by the bondholders.

The third mortgage bonds amount to $1,075,000, of which about $600,000 have been issued.

As far as the investigation has proceeded it does not appear that one dollar of this amount has been realized by or used for the Company, and it is the opinion of Mr. Mann that they are altogether invalid as to the Company, and if binding at all, only on Mr. Patchin.

Mr. Mann is further of opinion that the judgments obtained by Mr. Patchin against the Company are not good in law, and will be set aside by the Courts.

He is also of opinion that Mr. Patchin can be held responsible for the earnings of the road, while it was in operation under his management.

The Boston Post says:

"This money market exhibited no special change during the past week. It continued to be well supplied, while the demand was limited and "A No. 1" paper quite scarce. There is, perhaps, a shade less freedom in discounting at the banks, consequent upon the gradual decline of specie for some time past, and the obvious fact that exchange with New-York is steadily ruling against this city. Still there is no difficulty in finding money on good security at 6 to 8 per cent, either in the banks or the street. New-York funds are in quick demand, but little or no specie was transferred to New-York during the week. The last return, however, probably gave an average rather above the holding of the last of the term; and the next one, doubtless, will indicate a further diminution of coin. About $200,000 was shipped by Wednesday's steamer, but the receipts from the Treasury and the interior is fair. The "Clearing-House" experiment has not yet stood the test of tight times, and it is yet a matter of opinion as to the quantity of its effect upon the bank loans and specie. It may be safe to say, however, that this market cannot be much troubled until our specie runs below $3,000,000, and that then, in most cases, the worst effect would be a temporary dampening of feeling, to be obviated by the sale of Eastern paper in New-York. As reindicative of an abundant supply of credit in our commercial cities, with a good degree of confidence in matters and things generally. The most cautious advise only to know that Great Britain will receive the Crampton dismissal and the Nicaraguan recognition without offense to be satisfied that our money markets are very likely to be essentially undisturbed for some time."

Markets. CAREFULLY REPORTED FOR THE TRIBUNE. WEDNESDAY, June 11.

ASHES—The market is heavy and quiet for both kinds; the arrivals are not large.

BOOTS AND SHOES—There are few features of interest to note. The periodical dullness will continue to pervade the market until the latter part of July, when the Southern business season in. The only demand is from the local trade to fill vacancies in assortments. Prices remain very firm, but the upward tendency apparent effectually arrested. No shipping demand at present.

BLUBBER—American Yellow remains in scant supply; sales of 2,000 lb at 2½@2¾c.

BRICKS, &c.—Hard North River are moderately active at $4 25@$4 50 in whole lots, and $4 50@$4 75 for retail do. Philadelphia still sell at $19@$20. Colldaryn are selling at $8@$10. Foreign are inactive at $30 for Welsh, $25@$30 for English Bath, and $40@$45 for Stourbridge. Matt Tiles continued $30@$50.

COTTON has ruled very quiet, but the market retains its firmness; sales of 800 bales. The sales since the 24 inst. are 12,000 bales, including 2,000 in transitu. The exports since, 9,100 bales—to Liverpool, 3,203; to Glasgow, 93; to Havre, 300; to Bremen, 141; to Antwerp, 354. The receipts, 3,000 bales. We make no change in our quotations:

In other descriptions we hear of no transactions to-day. The stock of all kinds is light, and prices are very firm.

EARTHENWARE—The spring trade is now nearly closed, and jobbers are only purchasing to supply immediate wants. A large business has been done, and the orders from the country have been fully equal to those of previous years. The supply, however, has kept pace with the demand, and prices of most articles have been well maintained. Importations during the past fortnight have been heavy, but this may be somewhat accounted for by the arrival of several shipments on their way to the far West, intended for an early Fall trade in that section. In this connection it may not be unimportant to state that among the largest importers of this kind of merchandise in the United States is the firm of Messrs. Dawson & Co. of this city, who have constantly on hand a full and varied assortment adapted to the trade. Among the features of the week we notice the offering of about 100 packages at public auction yesterday. The goods, however, were of an inferior grade, and at this late season attracted but few buyers. We may now expect a laughing market till the 15th or 20th of July next, when the Southern dealers again make their appearance in our market for their supplies.

FLOUR AND MEAL—The supply of Western Canal Flour is largely in excess of the demand, and prices are 5 to 10c. lower and very much tired—especially Western brands—these are pressed on the market. Shippers are buying sparingly to day, waiting later advices from Europe, now fully due. The better grades are quiet, the trade are buying up freely, and our stock is accumulating slightly. The sales are 8,500 bbls at $5 25@$5 70 for common to good State; $5 75@$6 for common to good superfine Ohio; $6 12½@$6 50 for common to fair extra Ohio; $6 50@$7 25 for fair to good extra Ohio; and $6 75@$8 for St. Louis brands. Canadian Flour is freely offered, and is dull and lower for medium qualities; sales of 600 bbls at $6@$6 60 for superfine, and $6 70@$8 for extra brands. Southern Flour is heavy; the low grades are dull, and those of doubtful quality are easier and very slow of sale; there is a fair inquiry for good shipping brands; the sales are 2,600 bbls, mainly for good brands, at $5 60@$5 75 for mixed to good standard brands. Baltimore, &c., anything selling below $6 50 is of doubtful quality, and $6 50@$8 50 for fancy and extra brands. Rye Flour is steady, the supply fair; sales of 175 bbls at $4 50@$4 56 for fine, and $4 62½@$4 69 for superfine. Corn Meal is steady; sales of 250 bbls, at $2 95 for Jersey, and $3 18½@$3 25 for Brandywine, and 200 puncheons at $18.

FRUITS—This branch of business exhibits great quietness except in fresh foreign, which must be sold immediately on arrival, and which has been rather active; sales of 10,000 lbs. Dried Apples at 4½c.; 750 Prunes, 10½c; Cherries command 25c. Deer are steady with sales of 1,000 lb Porto Cabello on private terms. We have no changes to note from our last quotations.

FLAX—Only a moderate inquiry for Jersey at 10¼@11c. cash. Ohio is scarce and nominal.

FEATHERS continue scarce and wanted; prices are entirely nominal.

GRAIN—The demand for Wheat is not very active, the supply of Western is large. Common is nearly and is unsaleable; the wheat we are 2,100 bush. white Southern at $1 40@$1 50 for Prime; 2,500 bush. good red Pennsylvania, in transitu, for Liverpool, freight 7d., at $1 40; 1,000 bush. fair to prime white Canadian at $1 38@$1 40, and 7,500 bush.
