A Safeguard.

The fatal rapidity with which slight **Colds** and coughs frequently develop into the severest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household safeguard, a bottle of AYER'S CHERRY PECTORAL. Nothing else possesses such immediate relief and such sure cure in all affections of the throat and lungs. This celebrated preparation, of which Prof. Sylvester D. Gilman, of the Maine Medical school, Brunswick, Me., says:

"Medical science has produced no other medicine experimentally so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:

"I have never found, in thirty-five years of continuous practice, anything in medicine, or any preparation of so great value as AYER'S CHERRY PECTORAL for the treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."
