A Republican meeting will be held on Saturday at 2 o'clock, p. m., at the White House Depot, Hunterdon County, on the Central Railroad, which will be addressed by the Hon. Geo. H. Brown of Somerville, and S. B. Ransom, esq. of Jersey City.

From an article in *The Republican State Gazette*—urging a thorough organization of the Republicans in every county and township in New-Jersey—the following extracts are taken:

"Our friends are full of enthusiasm. Never before have we received so many letters expressing such an intensity of determination to carry the contest through. * * * * Organize the counties, towns, wards and school districts. Let a few earnest men in every county, charge themselves with the duty of seeing that in every township or school district, some one or more efficient men procure a list of all the voters, classified according to their political predilections. A small sum of money should be collected and a sufficient number of documents purchased and distributed, to supply every man whose mind is not made up, with some document which will influence his judgment, or induce him to exercise. * * * A little money spent in this way will do vast good, particularly in this campaign, which is to be decided, more than any other campaign ever was, upon questions of principle. We urge, therefore, that the work be commenced at once in every county and township. * * * *
