mand and firm. Corn is in active request, and has advanced 2c. ⅌ bush. In Cotton, the market is heavy, with sales of 1,000 bales. The sales of the week have been 17,000 bales, of which 8,000 bales were in transito. The stock is estimated at 50,000 bales. The number of vessels loading in the United States is 90, against 141 last year. The telegraphic accounts from the South are unfavorable to the new crop.

The circular of Mr. Wright says:

COTT.—The continued decrease in receipts confirms and justifies the opinion that the crop will result in less than 3,000,000 bales. The frost, alluded to in my last circular, extended throughout the entire cotton region, and we are informed that replanting will be necessary in the Southern and Southwestern portion to some extent. I do not attach any consequence to the frost beyond the fact that it disposes of the chance for an unusually early season for the next crop. We yesterday received by telegraph from Mobile and New Orleans dispatches announcing the occurrence of another severe frost on the morning of the 13th. It is of course too early to say what effect this cold weather may have upon the new crop beyond making it backward, but it should not be overlooked in calculating the probabilities that the frost of 16th April, 1849, cut off the crop of that year fully 700,000 bales.

RECEIPTS at the ports are decreasing rapidly. The total for the week under review amounts to 55,000 bales, against 89,000 same week last year, and 63,000 in 1855. Included in the receipts for this week are 6,000 bales correction in taking stock in Charleston, and which causes the total deficit at the ports to amount to 322,000 bales as compared with last year, and 1,200,000 as compared with 1855. Next week's table will exhibit a falling off of over 350,000 bales as compared with last year.

The following is a statement of the movement in Cotton since the 1st of September last, as compared with the previous four years:

SUMMARY.—RECEIPTS.—Decrease at the ports, compared with last year, 322,000 bales; compared with 1855, 200,000. EXPORTS.—Decrease to Great Britain, 217,000; compared with 1855, 159,000. Decrease to France, 43,000; increase compared with 1855, 39,000. Decrease to other foreign ports, 65,000; increase compared with 1855, 86,000 bales.

Mr. J. W. White has resigned the Presidency of the Norwich and Worcester Road, and Mr. Brewster of Norwich was to-day elected to fill the vacancy. The receipts of this road in March show a falling off of $2,800, as compared with March, 1856.

The fare on all the Sound lines between this city and Boston were reduced to-day to $4 for cabin and $2 50 for deck.

The City of Fond du Lac, by an almost unanimous vote (only 24 nays), has decided to issue City Bonds to the amount of $300,000 in aid of the Air Line Railroad between that point and Milwaukee.

The City of Quincy, Illinois, has voted to subscribe $100,000 to the stock of the railroad that is to unite Quincy with Palmyra, Mo., on the Hannibal and St. Joseph Railroad. Palmyra is to subscribe $50,000.

Messrs. Edgerton & Sage of Rochester, have taken the contract for the construction of the Jacksonville, Alton and St. Louis Railway, about 65 miles in length. The contractors also agree to furnish the road with all the necessary engines, cars, engine houses and other buildings. The amount of the contract is about one million five hundred thousand dollars, and the work is to be commenced in forty days.

The Ericsson brings dates to 1st April from Liverpool. In relation to the money market *The London Star* of March 31 says:

Money has been in full demand on commercial account, particularly in connection with the approaching "4th," when the acceptances falling due will be very large. On the Stock Exchange the railway and foreign settlements have also produced an active demand at fully 6⅌ ⅌ cent. On the other hand, there is no abatement in the expectation that the market will become easier before long.

A sum of £61,267 in specie has arrived by the Persia from the United States, but it is believed that the whole was sent on French account.

Now that the most important borough elections are over, business is less dull upon the Stock Exchange, though the greatest interest is taken in the result of those that are still undecided. English securities from this cause to some extent continue to manifest a slightly improving tendency, while railway quotations are well supported; but the state of the money market effectually checks, for the present, any disposition to rapid improvement.

Consols left off on Saturday for account at 93¾@¾, and for a time they obtained an improvement of nearly ¼⅌ cent, having for a few seconds stood at 93⅞, buyers. Afterwards they were steady at 93⅞, but a slight reaction set in, and they were quoted up to the final close at 93¾ exactly. The dealings were at 93¾ and ¾. Business was rather more active. Exchequer Bills (March) 1/ dis. to 3/ prem.; do. June, 5/ dis. to 1/ dis. India Bonds, 1/ dis.

On the 31st the English funds opened rather heavily, but subsequently advanced ¼, and were supported to the close, the latest quotations being 92⅜@¾@92⅞.

From France we have the following:

The letters from Paris state that the bullion in the Bank of France had increased £710,000 within the last fortnight, the total now held being £9,600,000. Under these circumstances it has been resolved, from the 3d of April, to reduce the premium offered for gold from 6 per mille to 4. As soon as the stock of bullion shall amount to £12,000,000, artificial purchases are to be entirely discontinued.

It is stated to have been already ascertained that the French capitalists will not be able to find a market at Paris for their first subscription of £2,500,000 to the Russian Railway scheme, and that they are to be relieved by sending some of the amount back to St. Petersburg, where the demand, which can of course be manufactured to suit the exigency of the occasion, is said to be very great.

Relative to the failure of Messrs. Green & Co., of Paris, *The London Star* remarks:

The cause of this failure is attributed to imprudent advances made on French merchandise dispatched to Nicaragua, and other Central or South American States. The liabilities are not exactly known, but they are heavy. Much inconvenience will be experienced by Americans traveling on the continent, who are provided with letters of credit from the firm in question. American families residing in Paris, who may have had deposit accounts with the late firm, will be less inconvenienced, as Messrs. Monroe & Co. have expressed their willingness to make the necessary advances to this class.

The Boston Post says:

"If there be any change in this Money market since our last, it is for the better as regards supply, but the rates are unaltered. The outside price of paper, which is a prime favorite among lenders, is 8@8½⅌ cent, the lower figure being an occasional rate only. On this same class of paper, and indeed on the very same names, made 'payable in New-York,' the banks charge 7½@8⅌ cent; and for notes known by certain banks to be quite as good as anything that can be written, these banks charge, and get in some cases, from 6⅌ ¼⅌ cent.

"In the mean time, the banks are lending their fluctuating balances on call at 6⅌ cent, and they discount for small customers and to people who keep large sums on deposit at the same rate. Prime paper is scarce in the street. There is no pressing demand for money anywhere. The general idea is that the market is easy enough, although rates are not as low as they sometimes are. Anything really good will readily bring the money from somewhere or other, at from 6 to 10⅌ cent, provided the holder has an average connection and knows how to operate. Inferior securities and those not known to lenders are in small favor.

"On Saturday, New-York funds turned suddenly, and were quite scarce. Some little specie was sent from this city."

The Cleveland and Toledo Company have issued the annexed circular to their stockholders, giving the result of an examination of the securities, &c., of the Company, and its financial condition. It is issued in advance of the usual annual report. The result of the business of the current six months will be seen to be a surplus of $18,209 75 after the payment of the dividend, the contribution to the Sinking Fund, and the interest on the funded and floating debts. The general account of the Company is stated at $6,697,920, instead of $8,000,000, as has been charged. The statement is a favorable one:

CLEVELAND AND TOLEDO RAILROAD COMPANY.
No. 18 William street, N. Y., April 10, 1857.

A Dividend of 4⅌ cent out of the earnings of this road for the last six months, ending April 1, has this day been declared, payable on the 25th inst. The Transfer Book will close on the 20th, and open on the 26th inst.

By order of the Board,
E. B. LITCHFIELD, Treasurer.

In apprising the Stockholders of the dividend declared as above, it has been deemed proper to accompany the notice with the following brief statement:

The undersigned, appointed at the late meeting of the Board of Directors of this Company a Committee to make the usual examination as to the financial condition of the Company, and to prepare a circular to the Stockholders, in anticipation of the regular report to be made at the Annual Meeting in June, report: That they entered into a critical examination of the securities of the Company held by the Treasurer, and of the funds of the Company in his hands, and the condition of his accounts, and that they find them correct and satisfactory.

They would also state that the securities of the Company, including the Sinking Fund and other Bonds, &c., not necessarily required by the Treasurer in the transaction of the Company's business, will at his instance, be transferred and placed in the vaults of the home office at Cleveland.

The Floating Debt of the Company to-day is ⅌ $80,000.

The Cash resources on hand in New-York and Ohio are to-day, in round numbers, ⅌ $150,000.

The Company holds real estate not necessary for the purposes of the road, now being disposed of at prices above cost, and other assets not immediately available, that are good, nearly equal to the amount of the floating debt.

The road and equipments are in excellent working condition.

There are no large construction expenses hereafter to be made.

The following is an approximate statement of the earnings and running expenses of the road for the six months ending March 31, 1857:

Markets.—CAREFULLY REPORTED FOR THE TRIBUNE.
WEDNESDAY, April 15, 1857.

ASHES—The market is quite firm, the arrivals light and stock reduced to 223 bbls Pots, and 495 bbls Pearls; the sales are 50 bbls, at ⅌ $7 81@7 87½ for Pots and ⅌ $7 56 for Pearls.

BOOTS AND SHOES—Trade is still quite backward. Western merchants not having appeared as yet in any considerable numbers; manufacturing generally is in active progress; the Eastern manufacturers are turning out large quantities, they feeling confident of ready sales; the tendency of prices is upward, and dealers generally evince but little disposition to press sales; the growing demand from Canada is a favorable feature in this branch of business; the shipping demand shows no signs of revival. Our anticipated prices have not varied materially:

COTTON—Under the foreign news our quotations are difficult to realize, and the market is decidedly dull. The sales are reported at 1,000 bales. The export since the 6th instant has been 1,962 bales: To Liverpool, 1,556; Antwerp, 176; Barcelona, 141; Havre, 229. We quote as follows:

COFFEE—The feeling is much improved under continued favorable European advices, and an active business has been done in Rahia, with fair sales of Rio; the sales include 4,000 bags Bahia, ex Breeze, at 10¾c. cash, for export, which is an advance on last sale of ⅛c; 1,800 bags Rio at 10@11½—the former figure for skimmings; sales also of 100 bags Savanilla at 11½c, and 100 Maracaibo at 12½c. Another large Dutch sale of Java has transpired at Rotterdam, showing an advance on the previous sale, and, with the large business doing, had the effect of raising the rate of discount to 7⅌ cent.

CEMENT—Rosendale is lower, it now commands ⅌ 1 10. Foreign is without change.

CANDLES—Adamantine continue in good request, partly for future delivery; the sales for the week amount to 17,000 boxes at 24@25c, as to quality, including 5,000 boxes Phenix Co.'s, sellers option, to September and October, at 24c; 5,000 boxes Staten Island at 25c, 4 months, for July delivery; and 2,000 for June at 26c, 4 months. Stearic sell at 25@31c. Plain Sperm at 42c. Patent do. at 52c; Mould Tallow, 13@15c.

COPPER—New Sheathing, owing to an early anticipated decline in the London market (as per advices to hand by steamer) is lower; sales 14 cases, 14@16 oz. at 32½c 6 mos.; small parcels from second hands command 33@33½c. Yellow Metal is selling at 27½@28c 6 mos. Refined Ingot has been in moderate request at 28½@29c. Chili Pig has been sold to the extent of some 250,000 lbs at Boston to come here at 26½@26¾c. Old Sheathing is fairly active at 26½@27c cash.

COAL—The demand for Domestic has been far below our receipts, and prices are rather lower for cargoes, but from yard the price is the same; the stock is larger than at the corresponding date last year; the arrivals by railway are increasing, and are in excess of the increase in the consumption; cargo sales of Porch Orchard at ⅌ 4 70, and Lehigh Lump at ⅌ 5 ⅌ ton of 2,240 lb. Foreign is quiet; the supply is not large; last sales of Liverpool Cannel at ⅌ 75, 4 months; Orrel is nominal, and a cargo of Picton at 5 50, same time.

DYEWOODS—Only a moderate business has been transacted during the week, for the want of adequate supplies chiefly; and with a market almost bare of Logwood, as well as Nicaragua and Red wood, prices favor the seller; the last sales of St. Domingo Logwood were at ⅌ 13, and Jamaica do. at ⅌ 17; Cuba Fustic brought ⅌ 29, and Savanilla ⅌ 20 50, all cash, in bond.

FLOUR AND MEAL—The inquiry for Western Canal Flour is more active, and with light arrivals, a reduced stock and more favorable intelligence from Europe, prices are 5@10c. better; and the advance is the most marked in medium grades of Western extras; the stock of them is much diminished, and the current prices being much below those of Southern of like quality, the former has sold very freely. The sales are 11,000 bbls, at $5 85@$5 90 for common to good State; $5 90@$6 for extra do.; $5 70@$5 85 for superfine Indiana; $6@$6 30 for common to good extra do; $6 10@$6 40 for common to good extra Ohio; $6 40@$7 60 for good to choice extra do.; $6 35@$8 50 for St. Louis brands, and $7 25@$8 25 for extra Genesee. Canadian Flour is firmer; the demand is fair and the stock is light; sales of 300 bbls, at $6@$6 10 for superfine, and $6 20@$7 50 for extra brands. Southern Flour is also decidedly better; the arrivals are light, and the stock is found to be small; sales of 3,100 bbls, at $6 25@$6 50 for mixed to good superfine Baltimore, &c., and $6 56@$7 75 for favorite, fancy and extra brands. Rye Flour is in fair demand at $3 50@$4 for fine, and $4 10@$4 60 for superfine and extra. Corn Meal is held with more firmness, the supply light; sales of Jersey at $3 25, and Brandywine at $3 60@$3 65, and puncheons at $17@$17 25.

FISH—The market for most kinds is very quiet. Dry Cod are in limited request at $3@$3 25 for Western; and $3 75@$3 87½ for St. George's Bank; small lots from store bring a slight advance on these rates. Mackerel are fairly inquired for, and with a light stock, prices are very firm; sales 250 bbls, at ⅌ $12 for No. 1, ⅌ $10 75 for No. 2, and ⅌ 9 for No. 3. Pickled Herring are inactive at $3@$3 25 for Halifax. Smoked Herring are quiet but steady at 35@37c for scaled, and 25@27c for No. 1. Dutch Herring are dull at ⅌ 1 06@1 12. Salmon are scarce and wanted at ⅌ $26@28 50 for bbls, and $32@33 for tcs.

FURS—Minks are lower, with a stagnated feeling in the market at present, but no doubt as the Fall advances a reaction will take place. In consequence of some 50,000@40,000 Opossums being reshipped from London, now on the way to this market, and the great catch this year, it is expected that prices will go considerably lower. Otter are in fair request, and are 25⅌ cent higher. Red Fox and Fisher are 15⅌ cent better. Gray Fox are in great demand. Medium Raccoons are very much lower, but good Raccoon, fine sorts, have slightly advanced. Wolf are much higher, say 10⅌ cent. All European Furs are considerably on the advance.

FLAX—The inquiry is fair for foreign, and the market is firmer at 14@14½c. for Dutch. Domestic is very quiet at 8@10½c. cash.

FEATHERS—Western are selling at 52@55c for prime. Tennessee command 50@52c.

GUANO.—A good business is doing in Peruvian at the annexed quotations:

From 1,001 and upward	60 00	60d s

GRAIN—A good milling demand may be noted for Wheat, and a moderate export inquiry, but the small assortment presents the sections of moment; prices are well supported; the sales are 2,300 bush. Southern red at 1 44, 4,500 bush do white, part fair, at 1 60, and 3,000 bush white Canadian on private terms. Rye is firm and in small stock; sales of Northern at 87@89c. Oats are better and in demand at 50@52c for Jersey, 51@55c for State, 56@57c for Western and 60@62c for Southern. Corn is better and in good demand for the home trade and for export; the arrivals are light; sales of 60,000 bush at 72c for Western mixed in store, 72@73c for new Southern yellow, 72@75c for do white, and 72½@74c for old do yellow.

HOPS—The inquiry continues dull, holders ask former prices. We quote at 7@11c for common to choice Eastern and Western, growth of 1856; old are quiet, last sales at 4½@5c.

HIDES continue dull. There is no movement in foreign and but little in domestic. Holders generally are firm, but buyers are far from the ideas of importers' prices.

HAY—The supply is light of good shipping qualities, and the market is firm. Sales of 700 bales at 70@80c. ⅌ 100 lb.

HEMP—The market for all kinds continues quite languid, but prices are without essential change. American Dressed ranges from ⅌ $25@$30, with only small sales of choice at our extreme rates. Rough is held at ⅌ $190@205 ⅌ ton, 6 months, but no large parcels could be placed at even inside figures. For foreign the demand is equally limited; 20 bales Sunn sold at 5c, 6 months; the last sales of Manilla were at 9c, and of Jute at ⅌ 105, 6 months. At Boston the market has been more active; sales of some 4,000 bales Manilla there at 9c, 8 months; 1,400 bales Jute for export equal to about ⅌ 100, 6 months. Several parcels of clean Russia have changed hands at ⅌ $250, and small lots at ⅌ 290 ⅌ ton, 6 months. In Sunn transactions to the extent of 5,000 bales took place on private terms, probably at 4c, but closing firmly at 4½c.

IRON—Scotch Pig is held with increased firmness, owing to favorable foreign advices stating the particulars of the Iron Masters' preliminary meeting held at Birmingham on the 27th ult., which resulted in the maintenance of last quarter's prices, being justified by the state of the trade, as all the makers were well off for orders, but the demand for the moment is limited owing to the extreme prices asked; the sales include 50 tons in bond at a price not transpired; small sales from store continued to be made at ⅌ $37@37 50, 6 mos. Common and refined Bars have continued extremely quiet, but prices are firmly sustained. English Sheets are fairly active at 5¼@4½c for singles, doubles and triples.

INDIA RUBBER—The market is rather quiet, but prices are without much alteration. The sales for the week include 25,000 lbs coarse and fine Para at 24c for the former and 40c for the latter; also 10,000 lbs East India at 17c, 6 months—all duty paid.

LIME—We notice further sales of 640 bbls. Rockland, half Common and half Lump, at 90c for the former and 1 15 for the latter.

LEAD—Pig is quiet. We quote Galena at 7 25, Spanish and Refined German at 6 50, and English at 6 55. Bar Lead sells at 6½c. Sheet and Pipe at 7½c.

LEATHER—Only a moderate business is doing, and prices still tend downward for Hemlock and Oak. The stock of both is accumulating.

LATHS—Eastern continue quiet at 1 38@1 90 dozen.

LUMBER—The last sales of Eastern Spruce and Pine by the cargo were at ⅌ 13@14.

MOSS—New-Orleans continues dull; prices somewhat nominal.

MOLASSES is very firm, and the sales are moderate to-day; the transactions embrace 150 hhds and 100 tcs Muscovado at 55@60c, and 60 hhds Porto Rico at 67c.

NAILS—Cut are in demand at 4c.; German wrought at 7@7½c.

NAVAL STORES—The activity noticed in Spirits Turpentine yesterday continues, and prices are again a shade better; sales 350 bbls at 48@48½c. cash, and 30 and 60 days, adding interest. Crude is in limited demand, owing chiefly to the firmness of holders, who prefer shipping to offering it unless at extreme rates; the receipts recently have been particular, but a good portion of these were previously disposed of for export, and are now about being shipped; the stock on hand comprises some 3,000@3,500 bbls. The last sales of Newbern were at 3 50 ⅌ 280 lb, but holders now refuse to sell at this rate. Common Rosin is in meager supply, and, with a good inquiry, prices are maintained with increasing firmness, which has the effect to limit transactions very materially; sales 250 bbls at 1 85 ⅌ 310 lb, delivered from yard—this, however, is an extreme rate. The medium and fine qualities are less active, but there is no accumulating stock, and all offering realize full prices. Tar is in good request, but the high rates asked restrict transactions materially; Wilmington Rope is firmly held at 2 62½. Pitch is quiet but steady.

OILS—English Linseed continues to be characterized by extreme dullness, and in the absence of sales prices are entirely nominal. American has further declined, but a good business has been done at the reduction. The transactions include some 12,000@15,000 gallons at 83@84c. Crude Whale is inactive, the supply is
