MONEY SAVED!

—BY USING THE—

Combination Gas Machine!

THERE IS NO DANGER in its management.

IT EMITS no unpleasant or unhealthy smell or odor.

IT IS far less troublesome than lamps, requiring no more attention than an ordinary clock.

GAS made with this machine costs from 75 cents to $1.50 per thousand cubic feet, or less than ONE-HALF OF ONE CENT per hour FOR EACH BURNER, according to the cost of the material (Gasoline) from which the gas is made.

A BUILDING can be lighted with from ONE to FIVE HUNDRED BURNERS, with less trouble and skill than is required to take care of one kerosene lamp.

There is no FIRE OR HEAT used to make the gas, and the time required to attend to a Machine for an ordinary building will not exceed TEN MINUTES per week.

By using gas made with this machine the danger by fire and ACCIDENTS attending the use of kerosene lamps is avoided.

THE WEIGHT CAN BE WOUND UP WHILE THE LIGHTS ARE BURNING WITHOUT EXTINGUISHING THEM.

Small machines made especially adapted to farm residences, small stores and places of business, at prices so low that all can avail themselves of this great convenience and luxury.

Machines of all sizes made from TEN to ONE THOUSAND or more lights, as required.

Where buildings are not piped for gas, pipes can be laid for the distribution of the gas at a TRIFLING COST from CELLAR to GARRET, without injury to the walls, and but slight annoyance to the inmates.

For prices, etc., address

The December Number will begin the Seventy-second Volume of HARPER'S MAGAZINE. Miss WOOLSON'S novel, "East Angels," and Mr. HOWELL'S "Indian Summer"—holding the foremost place in current serial fiction—will run through several numbers, and will be followed by serial stories from R. D. BLACKMORE and MRS. D. M. CRAIK. A new editorial department, discussing topics suggested by the current literature of America and Europe, will be contributed by W. D. HOWELLS, beginning with the January Number.
