Farmers', the Commercial, and the Ashland Banks have done, but we doubt whether any of them can come up to the Northern. The feeling of the community is decidedly in favor of bank suspension, and the same is extending itself throughout the State.

The Auditor of Indiana has issued a statement, showing the condition of the free Banks of that State. Having called on the banks for additional securities, in consequence of the depreciation of the stocks upon which they are based, the following have promptly responded to the call, and deposited with the State Treasurer the requisite additional securities, so that they may be relied on as safe currency:

Bank of Goshen,	Crescent City Bank,
Bank of Gosport,	Exchange Bank,
Bank of Mt Vernon,	Farmers' Bank, Westfield,
Bank of Indiana,	Indiana Bank,
Bank of Paoli,	Indiana Farmers' Bank,
Bank of Rockville,	Kentucky Stock Bank,
Bank of Salem, New-Albany,	La Grange Bank,
Bank of Salem, Salem,	Lake County Bank,
Bloomington Bank,	Prairie City Bank,
Cambridge City Bank,	Salem Bank, Goshen,
Cassel Bank,	Southern Bank of Indiana.

The following Indiana Banks are winding up, and retiring their circulation, preparatory to stopping, viz.:

Brookville Bank,	Fayette County Bank,
Bank of the Capitol,	Hoosier Bank,
Bank of Elkhart,	Huntington County Bank,
Bank of Syracuse,	Indiana Stock Bank
Bank of Monticello,	Indiana Reserve Bank,
Central Bank,	Merchants' & Mech's' Bank.

From the Westchester Republican.

This community was thrown into a high state of excitement on Monday morning of last week, by certain of our citizens finding themselves the victims of a series of bold and impudent forgeries, perpetrated by C. M. Layman, somewhat celebrated recently as one of the constables concerned in the attempt to arrest Wm. Baugh of West Pikeland, and which it will be remembered terminated in the killing of Baugh. Layman has resided in Westchester for many years, following the business of a teamster, and doing a large amount of hauling. He has for some time been hard pressed for money, and pushed his credit wherever it would go. Recently a writ was issued against him by the sheriff, and this brought his financial affairs to a crisis. His brother-in-law, George Bugless, a man of some property, residing a short distance from Westchester, had been in the habit of indorsing his notes occasionally, and recently a note was presented to him for payment which he did not recollect to have indorsed, and after careful scrutiny his name was found to be a forgery. The effort was to keep the matter quiet, but Layman took the alarm, and went to the livery-stable of Mr. Samuel Guss, hired a horse and wagon, and was missing. His absence was no noticed particularly until he had time to get a considerable start. When it was ascertained that he was gone and the forgery leaked out, a general examination took place, and a very large quantity of the forged paper was found in the hands of our citizens, some say to the amount of nearly $5,000. Several notes that had genuine indorsements he had altered the amounts, making them, of course, much larger. The only names forged that we have heard of were those of Mr. Bugless and Levi A. Gheen. These notes in a few cases were heavily shaved, but for the most part they were cashed by individuals whose only object was to befriend the scoundrel. This whole affair came upon the victims so unexpectedly, that they were at first more engaged in ascertaining the extent of the swindle, than to take any steps to have Layman arrested. When too late we fear, telegraphic dispatches were sent abroad, but as yet no tidings have been heard of the forger, except that on Friday last Mr. Guss found his wagon and horse at Parkesburg, in this county, where Layman had got in the cars a few days before, saying he would return on the next day. He is a widower, having lost his wife not long since, but we learn he came to Parkesburg and left there in company with a female who is known here as a single woman. We fear this fellow will evade the grasp of the law, but there is a hearty wish by a large number of people here who always cordially despised the bull-dog ferocity of his character, that he may expiate his offense in the penitentiary. When he was so severely cut up in the fight with Baugh, a collection was made for him through the town that amounted to a considerable sum, but many gave to it more because the paper was presented to them by a highly respectable individual, than for any admiration they had for the character of the man, notwithstanding they believed him to have been injured while in the discharge of his duty as an officer of the law. The quality of mercy did not prevail in his composition, as his horses, could they, would abundantly testify.

From The Cincinnati Gazette, 26th.

There is, it may be said, an abundant supply of currency for all legitimate purposes, and if matters were more settled abroad, and confidence somewhat stable at home, no difficulty would be experienced in securing facilities for the transaction of the usual range of business operations. The merchants are suffering now, chiefly because of the enormous sacrifices they are compelled to submit to on almost every side. The high rate at which Exchange is sold, is of itself a very heavy tax; but in addition to this a very large proportion of the currency received by merchants is discounted severely. Indiana Stock money, which is now taken by many, if not most of our business men if sold in this market suffers a shave of 3 a 5 ⅌ cent, while it is received in Indiana, in payment for produce, in preference to any other currency; and in that State, outside of Indianapolis, it is taken for Exchange on this city at ¼ discount.

From The St. Louis Democrat, 24th.

Large amounts of currency are being received daily by express, consigned to our merchants in bills on Eastern banks. This currency is immediately transmitted eastward to pay off incurred debts by parties receiving it, without the intervention of brokers or bankers.

From The N. O. Picayune of 20th.

The improved feeling which was perceptible on Saturday, both in commercial and financial circles, was hardly sustained this morning. One of the chief incidents of the day was a conference of the representatives of the various Banks, at which it was agreed to receive the certified checks of the Citizens' Bank in settlement of all discounted paper; it being understood, moreover, that transfers of checks would be admissible under this arrangement. The Bank of Louisiana likewise publicly announced that it would receive approved Sterling bills in payment of discounted paper. As an indication that the Banks were disposed to work harmoniously, and not to give way to divided counsels, this feature was deemed most encouraging. But, nevertheless, as the day advanced, the more hopeful sign of a favorable change grew dim, and the street, without being directly influenced by anything wrong on the surface, appeared to labor under some ill-defined illusion that we had not yet encountered the worst.

A careful observer could not fail to note these symptoms, but the difficulty is to ascribe them to their proper cause. The chief reason undoubtedly is, that as yet there is no regular vent for foreign exchange. Sterling was offered freely in many quarters, but we could not hear of a cash sale, though some transactions were effected in barter for cotton. Relief in this way is necessarily slow, and by no means general. Some frame of very high grade were sold at 6 02½ @ 5.91½.

The receipts by canal at tide-water, during the third week in October, in the years named, were as follows:

	Flour, bbl.	Wheat, bu.	Corn, bu.	Barley, bu.
1857	48,731	612,601	451,795	122,422
1856	80,718	256,516	217,468	67,199

The receipts at tide-water from the opening of the canals up to the 22d inst., have been as follows:

	Flour, bbl.	Wheat, bu.	Corn, bu.	Barley, bu.
1857	802,107	2,580,999	8,789,453	845,647
1856	741,176	7,802,717	8,850,318	1,181,298
1855	514,180	2,884,520	5,847,169	769,772

Reducing the wheat to flour, the deficiency is equal to 1,210,535 bbls. of flour.

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING OCT. 28.

Reported by DREW & FARRCH, Commission Merchants for the Sale of Fruits and Produce, No. 85 Barclay street.

[The prices named in this report are the wholesale rates obtained by receivers, boatmen and large operators, and not the prices obtained by forestallers and second-hand dealers; hence, consignors may expect to realize our quotations, less the freight and commission. The receivers' commission for Butter, Cheese, Poultry, Game, and heavy produce, sold in quantities, is usually 5 ⅌ cent; for perishable fruits, requiring return of packages, 10 ⅌ cent. Our quotations are applicable only to fair merchantable articles, and not very inferior or damaged stuffs. Produce sold by measure, count or weight, should always have the quantity in each package plainly marked thereon, and, where practicable—especially in the case of poultry and game—a detailed invoice of the shipment should be tacked inside the lid of one package, designated by the word "Bill," on the outside, and a duplicate thereof forwarded by mail. Much trouble and many mistakes would thus be avoided.]

The improvement in the Produce Market noticed in our report of this day week continues. Money is scarce, exchanges difficult and costly, confidence if broken up, and a general feeling of poverty prevails; but still the necessaries of life must change hands, and we are now having a gradual reaction from the stagnation experienced during the flight of the financial panic.

POTATOES have arrived less freely from the North and West during the last three days, probably in consequence of the storm. Leading choice varieties are again a little higher. Other sorts about the same. We note the first arrivals of Nova Scotias—three cargoes to Dutyes & Hyde; quality fair; no sales yet; they expect to get 70@75c. The new variety—Peachblows—which we quote, is a round potato, white and red, partly colored on the outside, white mealed, and of superior quality, particularly those raised in New-Jersey and Long Island. They are entirely different from the old-fashioned, yellow-mealed Peachblows of the North and East. We quote:

Markets...CAREFULLY REPORTED FOR THE TRIBUNE.

WEDNESDAY, Oct. 28, 1857.

ASHES—The market is quite firm for Pots at $7, with a fair inquiry. Pearls are quiet at $6 12½. The stock consists of 304 bbls. Pots and 787 bbls Pearls. Saleratus is steady at 7c., cash.

BOOTS AND SHOES—We have but little new to advise, trade has taken no new form and prices remain about as last quoted. The sales are confined to small lots to the near-by and local trade. Manufactured is much curtailed, both here and at the Eastward, and the stocks on hand are not large.

BEESWAX—American yellow is steady at 26@27c. ⅌ lb, cash.

COTTON, in the absence of stock, continues nominal; Middling Uplands, if offered, would bring 11½@12c.

COFFEE continues dull; we have only to note sales of 200 bags Rio at 11@11½c.

We quote:

Java, White,	⅌ lb....16 @16½	Maracaibo	11½@12½
Rio, fair to prime	10½@11½	Jamaica	—@—
Rio, ordinary	10 @10½	St Do (c), ⅌100 lb	10 @10½
Laguayra	11½@12½		

COPPER—New Sheathing continues quiet at 27@28c., and Yellow Metal at 22c., 6 mos. The recent large sales of Refined Ingot for export have reduced the stock, so that the market is a little firmer; the demand toward the close, however, is less animated; sales of some 85,000 lb Lake Superior have been effected at 20@21c., cash, chiefly the inside rate. Bolts and Braziers are quiet but steady. Old Sheathing is dull and lower; small sales at 18c., cash.

COAL—The demand for domestic since our last week's issue has been quite active, especially for the local trade, and prices of small size by the cargo are a shade better—this being in small stock and wanted; but large size is abundant and unsalable. The demand for manufacturing and for furnaces has greatly fallen off compared with last year, and many who have hitherto been able to purchase on four months at the mines, can no longer do so; hence we have a great falling off in the demand, and consequently diminished receipts at tide water, which is particularly noticeable the past week; sales have to the cargo are few at $4@$4 05 ⅌ tun, and from yard $5 10@$5 50. In foreign the business has been limited and at lower prices; the stock is moderate, quite equal to the demand; some 300 tuns Liverpool Orrel and Cannel on private terms. Sidney and Pictou are inactive and nominal.

CANDLES—The demand is light and Adamantine are nominally quoted at 21c. Plain Sperm are in fair request 42c. Patent do. at 52c.

DRUGS AND DYES—A moderate business has been done in articles classed under this heading; the annexed quotations exhibit the prices at which the last sales were made, but some are little better than nominal.

DYEWOODS—The demand for all kinds has been quite limited, owing in part to the unsettled state of financial affairs, as well as the advance in freights, and with more liberal receipts, particularly of St. Domingo Logwood, prices are much lower; sales of two or three cargoes St. Domingo Logwood have been made at $13, cash; 150 tuns Spanish Main Fustic at $17 75, and 40 tuns Savanilla do. at $18, cash. We quote St. Domingo Logwood at $12@$13; Jamaica do at $11@$12; Tobasco and Laguna do at $27@$28; Honduras do. $22@$23; Cuba Fustic $30@$32; Tampico do. $24@$25; Savanilla and Maracaibo do. $17@$18; Camwood may be quoted at $1@$1 20, but for most of the kinds prices are entirely nominal.

EARTHENWARE—Business in this branch is at a complete stand still, and the season now fast drawing to a close will long be noted for its inactivity; few, if any, failures, however, have occurred here, which is somewhat astonishing, considering the prostrate state of trade, and the numerous disasters which, in other localities, have clogged and paralyzed this as well as all other branches of commerce. The available stock in warehouse is ample, but that in first and second hands is not burdensome. The imports are on a limited scale, and are likely to continue so for a long time to come, as the orders going forward to the potteries are very few.

FISH—The market for all kinds has again lapsed into a quiet. Dry Cod are quiet at $3@$3 25 for small and large Western, and $3 50@$3 62½ for Georges Bank. Mackerel are inactive at $10 25@$10 50 for large No. 1 Mass.; $9 25@$9 50 for do. No. 2, and $8@$8 25 for do. No. 3—our extreme figures only for parcels from store. Herring, both Smoked and Pickled, are dull and heavy; the former may be quoted at 28@30c. for scaled; 18@20c. for do. No. 1; and the latter at $3 50@$3 75 for prime Halifax; small parcels from store, however, command an improvement on these rates.

FRUITS—Malaga Fruits are plenty and dull. An auction sale was made to-day of 859 boxes bunch Raisins, at $2 30@$2 40; 1,050 half boxes do., at $1 12½@$1 15; 2,832 quarter-boxes do., at 52½@54½c.; 1,297 boxes, layers, at $2 50@$2 55, and 593 boxes Plums, at 7½c. Domestic are quiet, especially dried. Western Apples command $2 50@2 62½ ⅌ barrel.

FLOUR AND MEAL—The demand for Western Canal Flour is fair, early in the day mainly confined to the home trade. After Change a fair inquiry may be noted for export, and at the close a good degree of firmness prevailed; and less inclination to sell after the receipt of the Persia's mail. The sales are 11,700 bbls, at $4 60@$4 70 for common to good State; favorite do. at $4 75; $4 80@$5 10 for extra do.; $4 60@$4 70 for common to good superfine Indiana and Michigan; $4 75@$5 50 for extra do.; $5 20@$5 70 for common to good extra Ohio; $5 70@$7 10 for good to choice do.; $5 80@$7 20 for St. Louis brands, and $5 60@$7 60 for extra Genesee. Canadian Flour is well sustained and in fair request; the sales are 600 bbls. at $5 05@$5 50 for extra brands, and choice do. at $6 75. Southern Flour is in good supply and in limited demand; prices are without change of moment; the sales are 1,160 bbls, at $5 20@$5 50 for mixed to good brands Baltimore, and $5 50@$7 for fancy and extra brands. Rye Flour is quiet; the inquiry is of a retail character; sales of 40 bbls at $3 12½@$4 for fine and $4 25@$4 50 for superfine and extra. Corn Meal is quiet at $3 25 for Jersey and $3 75@$3 80 for Brandywine. Buckwheat Flour is in fair request at $2@$2 25 ⅌ 100 lb.

FURS—The market is devoid of activity, and a decline of 50 ⅌ cent in most descriptions from last year's rates has failed to bring buyers forward. In the present unsettled state of financial affairs, prices are entirely nominal, and we therefore omit them, being no guide to the market.
