THREE DAYS LATER FROM EUROPE.

THE VANDERBILT OFF CAPE RACE.

THE COMMERCIAL CRISIS IN ENGLAND

A TERRIBLE PANIC.

THE BANK CHARTER ACT SUSPENDED.

NUMEROUS FAILURES.

GREAT DECLINE IN COTTON.

CONSOLS 89¼.

ST. JOHNS, N. F., Tuesday, Nov. 24, 1857.

The steamship Vanderbilt touched at Southampton on Saturday, the 14th inst., and arrived off Cape Race at 3 o'clock on Sunday afternoon, the 22d inst.

The steamer North Star from New-York arrived out on the 13th inst.

The following is the summary of news prepared at Liverpool and Southampton, by the correspondents of the Associated Press—the Liverpool advices coming down to Friday evening, the 13th inst., and from London to Saturday morning, the 14th inst:

The despondent condition of monetary matters on the departure of the steamship Atlantic on the afternoon of the 11th inst., resulted on the following day in a fearful panic throughout the whole country. All the banks utterly refused to discount to their patrons, which naturally added to the wild excitement, until the afternoon of Thursday, when a Treasury letter appeared in London, and was instantly transmitted by telegraph to all the chief cities and towns, suspending the Bank Charter Act, and authorizing the issue of notes to any amount on approved securities. The effect at every point was instantaneous, and the panic ceased as if by magic. At Liverpool, Manchester, Glasgow, and other important cities, the news was received with the most extravagant demonstrations of joy.

The suspension of the City Bank of Glasgow on Wednesday, the day the Atlantic sailed, is confirmed.

We select the following additional list of suspensions from a large number reported in the English newspapers: Sanderson, Sandmann & Co., London; Wilson, Morgan & Co., stationers, London; Fitch & Skeet, London; Coddington & Co., iron merchants Liverpool; Mackenzie, Ramsay & Co., Dundee; Draper, Picton & Co., London; Falman, Gruneel & Co., Liverpool; Ban, Broddice & Co., London; Munroe, Grant & Co., Swansea; Stergman & Co., Nottingham.

The London Money market was steadier on Friday, the 13th inst., and Bank Stock sold at 209½@212. Exchequer Bills were firm, and the feeling in business circles in all the principal cities and manufacturing towns became decidedly more cheerful as soon as it became known that Government had authorized the Bank to extend its issues without incurring the penalty of the Bank Charter Act.

The Bank of France had raised its rate of discount on 90 days' bills to 10 per cent.

Consols had fluctuated considerably, but closed with increased steadiness on Friday at 89¼@89¾ for Money.

The details of the news from India by the last mail add few facts of special importance. The latest report from Delhi states that the loss of the British at that place, in killed and wounded, was within 1,200, including 61 officers.

Scindin had brought the mutineers of the Gwalior contingent under his control, by arraigning against them his own troops and ten thousand Thakoore, and by cutting off their supplies.

It was reported that Lucknow, which was relieved Sept. 25, was again besieged by Nana Sahib, with 50,000 rebels.

All the city people found in Delhi were bayoneted by the British troops. Many Europeans were found in the city fighting in the ranks of the rebels.

The English ship Dunbar, bound to Australia, had been wrecked off Sydney, and one hundred and forty passengers and all the crew lost.

Parliament was to assemble immediately.

The greatest anxiety was felt in England to have the news by the Vanderbilt reach New-York in advance of the publicity of the advices by the Atlantic.

COMMERCIAL.

LIVERPOOL COTTON MARKET.—The sales of Cotton for the week amounted to 11,000 bales, of which 1,000 were taken on speculation, and 300 for export. There was a general panic in the market, and prices declined ⅛@1¼d., holders pressing sales. On Friday, however, a recovery of ⅛d. took place, the market closing with an advancing tendency, and the sales adding up 6,000 bales. Quotations are nominal and irregular.

Fair Orleans	7¾d	Middling Uplands	7 1-16d.
Middling Uplands	7⅞d.	Middling Mobile	7⅞d.
Fair Uplands	7¾d.		

The stock was 325,000 bales, of which 162,000 were American.

STATE OF TRADE IN MANCHESTER.—The advices from Manchester were unfavorable and the sales unimportant.

LIVERPOOL BREADSTUFFS MARKET.—Breadstuffs had slightly declined. Flour closed dull at a decline of 6d.@1/ since Tuesday. Wheat closed dull, with a decline in the middling and lower grades of 1½d@3d. Corn was quiet, and all qualities had slightly declined. Western Canal Flour, 26/@27/; Philadelphia and Baltimore, 27/@29/; Ohio, 29/; Red Wheat, 6/3@7/6; White Corn, 40/@41/.

LIVERPOOL PROVISIONS MARKET.—Pork dull and slightly declined. Bacon quiet and prices weak. Lard heavy and somewhat lower. Tallow—a slight decline in prices.

LIVERPOOL PRODUCE MARKET.—Pot and Pearl Ashes dull. Sugar—no sales of consequence, but prices steady. Coffee—sales unimportant. Tea—little inquiry, and prices weak. Spirits Turpentine, 35/@35/6.

LONDON MARKETS.—Sugar—the market is firmer and holders demand an advance of 1/@1/6 over the rates current on the 6th. Coffee is also in better demand, and prices are rather higher. Rice is dull and prices nearly nominal. Tallow is steady at previous rates. Iron—The market is dull at a decline of 2/@3/ on rails and bars.

[The Vanderbilt was boarded by the news yacht of the New-York Associated Press, and her news was delivered to the agent here on Monday morning; but unfortunately the recent heavy storm in Cape Breton, N. S., had broken down the wires at several points between Cape Hood and Pictou—a distance of some two hundred miles through a portion of the country sparsely inhabited—and it was found impossible to repair the line until this afternoon. On reaching the St. John, N. B., office, it was found that the line between that place and Portland, Me., was also broken, and we finally succeeded in reaching New-York, via St. John and Frederickton, N. B., and Quebec and Montreal, Canada, and thence, via Portland and Boston, over the lines of the American Telegraph Company.]

BURGLARY IN THE CUSTOM-HOUSE—ONE OF THE BURGLARS SHOT.—Three burglars broke into the Custom-House about 2 o'clock this morning and seized 200 watches. Just as they were departing with their booty, they were discovered by the watch, who fired upon them. One of the thieves was shot, the slug passing through his cheek and out of his mouth.

TUESDAY, Nov. 24—P. M.

Stocks were heavy during the day, commencing at the First Board with lower quotations, and a general desire to sell, and showing throughout the list more decided symptoms of weakness than have been noticed for two weeks. This is partially attributable to a feeling of uneasiness excited by the foreign news, which, after thorough digestion, is received as unsatisfactory, and partly to the threatened revival of active specie exports; but the great and influential cause is to be found in the withdrawal, for the time, of the support of that powerful knot of operators, to whose bold, shrewd and active efforts the market owes much of its strength and backbone. Business at the First Board was not large, but very well distributed through the list. Cleveland and Toledo, and Illinois Central were quite active, with but slight concession in prices during the session. New York Central opened dull, and declined to 78¾ on comparatively small sales. Reading was firm, and quotations well sustained until after the adjournment. Erie and Michigan Southern declined ¼ ⅌ cent. Galena was firm but Rock Island dropped 1½. Between the Boards outside operators caught the more bearish tone of the market, and for the remainder of the day a vigorous and tolerably successful hammering was kept up. Sales at the Second Board show a still further decline in the leading stocks; New York Central, the great card in the market touching 77¾; Erie, 15¾; Reading, 51½, and Toledo, 42. No effort seemed to be made to sustain the market, but operators for the fall had the field pretty much to themselves. Bond sales were to a fair extent, most of the securities offered finding a fair and steady market. Missouri 6s are quoted at about the same prices quoted at yesterday's Second Board. California 7s advanced ½; Illinois Central's declined 1 ⅌ cent; Michigan Central (new loan) 8 ⅌ cent mortgage, sold in the morning at 84, but at the Second Board were down to 83.

For the information of those who did not observe our previous statement in regard to this new security, we repeat that this issue composes a part of those bonds included in a first mortgage of the entire road and other property of the Michigan Central Railroad Company. The mortgage being so framed that all outstanding bonds of the Company, with the exception of those due in 1857 and 1858, are embraced within its provisions, it forms in fact one first mortgage, amounting now to about $8,000,000, and all issued. The new loan, so called, comprising about $2,600,000, is the only portion which is protected by a sinking fund and this is a distinctive and advantageous feature of the security; the fund being sufficient in its natural accumulation to extinguish the entire issue before maturity. The bonds bear 8 ⅌ cent interest payable semi-annually—Oct. 1 and April 1. They have recently met with considerable favor for investment. At the close of business, lower prices were quoted; New York Central sold down to 77; Reading, 49½; Erie, 15⅜@15½; Toledo, 40½. There was but little animation in street operations.

The following table shows the bidding and asking prices for bank shares. The difference between the views of buyers and sellers, it will be noticed, is still very wide in several instances:

The Exchange market for the steamer has been irregular but strong, with a fair amount of business doing. There has been much care exhibited in selecting bills, and some parties have preferred to ship coin, even at higher cost. Sterling has ranged from 105 to 108¾ for document and commercial bills, and banks' and bankers' signatures have sold at 108¼@109½. Of late, good commercial bills, with bills of lading attached, have taken higher rank in the opinion of remitters than heretofore. Southern bank bills with city indorsements sold at 108@108¾, and thirty day Government bills at 110½. France are 5.30@5.18¾.

Freights continue dull and nominal. The engagements to Liverpool are 180 bales Cotton at 5-32d; 60 tuns Oil Cake at 20s. To Rotterdam, 1,000 bbls. Rosin at 3s. 6d. A schooner from St. Mary's River to Port Spain or Trinidad, with Lumber, at $11.

The business of the Sub-Treasury was: Receipts, $73,128 42—$73,000 from Customs; Payments, $74,500 68; Balance, $4,816,169 23.

The gold shipment by the steamer to-morrow promises to be a large one. As many small lots go direct with out passing through the hands of the bullion brokers, it is difficult to ascertain the exact amount. It will probably reach $1,500,000 from the usual shippers, and will include $200,000 on account of the payment made to-day by the special Receiver of the North American Trust Company to the agent of Messrs Palmer, McKillop, Dent & Co. The effect of the receipt in England of this million and a half of dollars and of the six hundred thousand dollars by the Persia, cannot but be very favorable. It will show that we both can and will pay a portion of our debt at least to Europe. A large portion of the shipment to-morrow is in sovereigns, which are selling at $4 86@$4 87. Gold is ⅛@¼ premium, and the demand has been freely met.

Mr. Draper sold at auction to-day:

$2,000 Missouri 6s	1st. add'l 78½
$3,000 Tennessee 6s	1st. add'l 78½
$1,000 Tennessee 6s	1st. added 80½

10 shares Hanover Bank	74½
10 shares Bank of Commerce	93½
22 shares Delaware Lackawanna and Western R.R.	15
25 shares Cumberland Coal Co.	8½

And Albert H. Nicolay the following:

$1,000 La Crosse and Milwaukee R. R. 7s	1st added 9
$6,000 New-York and Harlem R. R. 7s	1st add'l 56½

20 shares Artisans' Bank	57½
10 shares People's Ins. Co.	90½
5 shares La Crosse and Milwaukee R.R.	11½

S. Draper will hold his regular auction sale of stocks and bonds to-morrow (Wednesday), at 12½ o'clock, at the Merchants' Exchange.

Adrian H. Muller will hold his regular auction sale of stocks and bonds to-morrow, at 12½ o'clock, at the Merchants' Exchange.

Albert H. Nicolay will hold a special sale of stocks and bonds to-morrow (Wednesday), at 12½ o'clock, at the Merchants' Exchange.

We annex a comparative statement of the exports (exclusive of specie) from New-York to foreign ports for the week and since Jan 1:

	1855.	1856.	1857.
Total for the week	$1,352,790	$1,073,060	$1,295,899
Previously reported	57,962,174	79,411,927	66,211,285
Since Jan. 1	$59,254,974	$72,484,987	$67,450,184

The business of the Clearing House to-day was $13,352,000.

Two of the State Banks—the Addison Bank and the Elmira Bank, which have been unable or unwilling to stand up to the Metropolitan Bank arrangement, are to-day thrown out at that institution. Some eight or ten others will probably fall into the same category within a week or two.

The late decision of the Court of Appeals in the case of the trusts of the North American Trust Company confirming their legality, has operated to distribute the large amount of funds which have been for the last fifteen years accumulating in the hands of the Special Receiver, to the proper owners. The decision of the Court and the receipt of the funds by the bondholders will go far to do away with the unfavorable impression in regard to American honesty caused by the decision in the case of the Dry Dock Bank and other decisions of like character, which have operated to swindle European capitalists out of their money. Mr. John J. Palmer was appointed, we think, in 1843, Special Receiver of what is called "the million trust" and "the first half million trust." These trusts were formed to secure certain bondholders and the securities under them consisted mainly, if not entirely of bonds and mortgages and real estate. The question as to the legality of the trusts whether the securities should apply specially to the bonds named in them or to the aggregate liabilities of the Company, has been in litigation since the appointment of Mr. Palmer until the decision of the Court alluded to. Judgment under that decision was taken on the 16th inst., and to-day Mr. Palmer paid over to the agents of the claimants $1,329,485 30. The funds, as collected by Mr. Palmer have been deposited with the New-York Life and Trust Company, who have been preparing for some time to make this large payment, and have withdrawn money so gradually from the street as to cause no inconvenience. A large proportion of the payments from these trusts is on foreign account. The negotiation of the Million Loan have been mainly with Messrs. Palmer, McKillop, Dent & Co. of London. A portion of the money, we understand, will be invested here in stocks, &c., but $200,000 goes forward to-morrow by the steamer to Messrs. P., McK., Dent & Co. The payment was made in one check by the Trust Company on the Bank of America, to the order of J. J. Palmer, Special Receiver. The disbursement on account of the Million Trust was...$800,717 76

Of which there was to Mr Chas. Aug. Davis, as agent of Messrs Palmer, McKillop Dent & Co., on account of 499 bonds sold $341,815 00; On account of 377 bonds as collateral 256,245 00; To the agent of Mr. Jas. Halford's estate 16,460 00; Returned to the Trust for certain purposes 184,217 76; $800,717 76

The disbursement on account of the Half Million Trust was...$519,767 54

Of which there was paid to Mr. Davis as agent of Messrs P., McK., Dent & Co., on bonds as collateral $190,600 00; To Mr. R. M. Blatchford as agent of the Guard Bank, Philadelphia 143,100 00; Also as agent of Messrs. Morrisons of London 143,100 00; Returned to the Trust for certain purposes 42,767 54; 519,767 54

The above is a first dividend and there is a large amount of assets, bonus and mortgages and real estate still remaining for future dividends.

The report in a morning paper of the suspension of Messrs. Richard Irwin & Co. is without foundation. The report grew out of the rumored suspension of the City Bank of Glasgow, of which institution that house are the Agents in this city. The suspension of the City Bank of Glasgow is considered as doubtful.

The Grocers Steam Sugar Refining Company propose to pay sixty cents on the dollar at 4, 8 and 12 months, with the indorsement of the Trustees, which has been generally accepted by the creditors.

A dividend of 50 ⅌ cent will be paid by Mr. Platt Adams, No 2 Wall street, Assignee upon the certificates of deposit issued by Mr. John Thompson.

The Philadelphia Ledger says:

"We were informed yesterday that letters have been received from Mr. Alibone, in which he expresses a determination to return immediately home, to meet the serious accusations against him as President of the Bank of Pennsylvania.

"At a meeting of the Directors of the Commonwealth Bank, in this city yesterday, we learn that Robert Morris, esq., was elected President, and Henry Grambo, esq., Cashier. The bank purposes to go into immediate operation."

The trial of B. C. Bachman, late President of the Lancaster (Penn.) Bank, for embezzlement, terminated in a verdict of not guilty, defendant to pay the costs; and David Longenecker, who had been held upon a similar charge, was discharged.

The statement made in some of the journals, that the Milwaukee and Mississippi Road has resumed payment, is not strictly correct. They are paying at fast as possible, but some coupons are still in arrears. A large portion of the floating debt has been arranged by payment in second mortgage bonds, and the Company hope to work themselves out of embarrassment by next Spring. The earnings for October were about $120,000. For the present month they will be larger.

Mr. Stephen Clark of Albany, we understand, has been elected President of the La Crosse and Milwaukee Road, vice Mr. B. Kilbourne.

The following is a translation of Marié & Kanz's Circular to Europe by the Arabia:

NEW-YORK, Tuesday, Nov. 24, 1857.

Our last advices were to the 18th inst. The foreign advices to the 7th and 11th, per Niagara and Atlantic, although they reported several important failures, and the successive advance on the rate of the Bank of England to 9 and then 10 ⅌ cent, yet caused only a slight effect on our stock market. Money is getting so abundant, owing to the enlarging stagnation in business, and to the distrust of capitalists in commercial paper, and the specie reserves of our banks has run up to so high a figure, being now over $25,167,000, that the downward movement has thus far been able to make but trifling progress. There has been, on the contrary, up to to-day, a great disposition to speculate for a rise, and had it not been for the repressive influence of European affairs if we may judge from the aspect of the stock market on the day previous to the Niagara's arrival, we should have now had to record a great advance and extraordinary activity. And as it is we have to note a rise on most stocks, and active purchases throughout the week. We mention in particular large purchases, at private sale, of the new Michigan Central 1st mtge. 8 ⅌ cent Bonds, which are in demand for investment, both on foreign and domestic account. At the close the market shows a downward tendency. Domestic exchanges continue to recede, and indicate a gradual improvement in the business of the country. Drafts on New-York are selling as follows:

In Boston	par.	In Richmond	1@
In Philadelphia	¼@¾	In Cincinnati	102 @104
In Baltimore	par.	In Chicago	105
In Providence	1@1¼	In St. Louis	105
In Nashville	¾@1	In New-Orleans	99¼@ 99

STATE STOCKS for the most part, show a rise—others have declined. The movement has been active (sales 800,000), mostly in Missouri, which have advanced 4½ ⅌ cent. Ohio, 1000, without change; do 1856 4 ⅌ cent higher; Michigan, no change; California, 1870, 3 ⅌ cent higher; do. 1875, ½; Indiana, 2½; New-York 6s, 2½; Louisiana, sales at 90; Virginia have declined ½; Tennessee ½; North Carolina 1½; New-York 5s 1 ⅌ cent.

CITY AND COUNTY BONDS—Sales have been small. We notice sales of Brooklyn 6s at former prices, and Milwaukee 7s, Municipal Bonds, at 2 ⅌ cent advance.

N. Y. Wholesale Prices of Country Produce,

FOR THE WEEK ENDING NOV. 24.

[Reported Expressly for THE NEW-YORK TRIBUNE by DREW & FRENCH, Commission Merchants for the Sale of Fruits and Produce, No. 85 Barclay street.]

NOTICE TO CONSIGNORS OF FARM PRODUCE.—Put up everything in best order. Mark plain, indelible directions on every package, including weight, with tare, count and name of articles. Attach a bill of particulars inside of one package, marked "Bill," and always send one by mail, with notice when and how things are forwarded.

COMMISSIONS.—For selling Berries, Fruits, &c., where packages are returned, and on small lots of stuff, 10 ⅌ cent. Other sales are returned, and on small lots of stuff, 10 ⅌ cent. Other Farm Produce generally 5 ⅌ cent.

QUOTATIONS are for sales of good Produce, in good order, at wholesale, such as farmers realize, and not jobbers' or speculators' prices.

Markets...CAREFULLY REPORTED FOR THE TRIBUNE.

TUESDAY, Nov. 24 1857.

ASHES—The market is without variation and is quiet; sales of Pots at ⅌7; and Pearls at ⅌6 50; the stock is fair—about 576 bbls. Pots, and 770 bbls. Pearls. Saleratus is steady at 7c., cash.

BOOTS AND SHOES—Trade has undergone no amelioration, the slow movement of the crops toward the seaboard tending to render collections difficult, and but few sales are making to country dealers. The disorganized state of the trade which at present exists will not adjust itself to any material extent, as the extensions that have been made and are still being granted are quite numerous. For California we notice but a limited business is doing, and this chiefly by Eastern shippers. Manufacturing at the Eastward
