of 26 shares, an improvement of 5 ⅌ cent over yesterday's price. It is reported, unofficially, that a dividend will be declared on the stock in January. After the adjournment there were large sales of Rock Island at 72, a slight advance over the last registered transaction. The Bond market for the day shows a firm and well-sustained market for State Securities, with but moderate business. Railway Bonds are generally dull. Brooklyn City 6s advanced 1 ⅌ cent. The closing prices were, for Erie, 15¼@¾; New-York Central, 81¼@¾; Reading, 41¼@¾; Galena, 81¼@¾; Rock Island, 71¼@72; Hudson River, 25¼@¾; Michigan Southern, 20¼@¾; Pacific do., 62¼@¾; Cumberland, 20; Milwaukee and Mississippi, 21¼@25; Delaware and Hudson, 98¼@¾; Missouri 6s, 81¼.

The Money market is more plentifully supplied in the open market, if any change may be noted. Call loans have been made to prominent banking houses to-day at 3@3½ ⅌ cent, and the discount figures for desirable paper rule as low as heretofore reported, with a very limited demand. Appearances justify the expectation of continued dullness in money negotiations for some months to come, and even cheaper rates of interest than any hitherto reported. At the present rate of progress in monetary abundance, we shall soon find capital in New-York quoted at about the same figures current in England—an approximation to equality which is not inconsistent with the growing importance of New-York as one of the great financial centers of the world, though quite unnatural when considered in a comparison of the more extensive field offered on this side of the water for the employment of capital. The vast accession to the wealth of this country which has been realized since the discovery of gold in California, is made manifest in this general clogging of the machinery of business, and the question as to the absorption of gold becomes less difficult of solution than heretofore, when we witness its rapid accumulation at great commercial points. When the wheels of industry and trade are put in motion again, we shall have occasion to notice the celerity with which capital will move back again to its former channels of employment.

The Kangaroo brings four days' later intelligence from Europe. The rates for money had undergone no change, and the supply was as abundant as heretofore reported. Consols, after rising a fraction over 98, had declined to 97¾@⅞ for Money, and 97¾@98 for the Account. Cotton was dull and ⅛d. lower. Breadstuffs in slack demand at a concession in prices. The market for American Securities was weak, especially for Illinois Central and Erie Securities. Sales on the 24th inst. were made of Illinois Central shares at 12¼ discount, and of the Bonds of 1875 at 80; New-York Central 7s of 1864 at 95. The Messrs. Rothschild invite bids for a Brazilian loan of £1,800,000—the bonds to be issued at 96.

The "Phœnix Buildings," Nos. 91 and 93 Wall street, corner of Water street, were sold at auction to-day, at the Merchants' Exchange, for $190,000. The Goodhue Fire Insurance Company has declared a dividend of 6 ⅌ cent, payable on and after July 1. The Exchanges at the Clearing-Houses to-day, were $15,163,785 39, and the balances $802,486 18. The Metropolitan Certificates remain at $10,000. Mr. Chas. A. Fisher of the late firm of Fisher, Dennys & Co., was elected a member of the Stock Exchange this morning. The statement in an article of Monday, to the effect that the Commissioners were engaged in an examination of the Litchfield Bank of Connecticut, is incorrect, as we learn from the officers of that Bank. The examination was made the last of April, before the Commissioners made up their report.

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING JUNE 9.

Reported exclusively for THE N. Y. TRIBUNE by DREW & PERKINS, Commission Merchants for the sale of Fruits and Produce, No. 85 Barclay-street.]

NOTICE TO CONSIGNORS OF FARM PRODUCE.—Put up every thing in neat order. Mark plain, indelible directions on every package, including weight with tare, count and name of articles. Also, tack a bill of particulars inside of the package, marked with your name and consignee, and by mail, sub office, where and how to forward.

COMMISSIONS.—Forwarding Berries, Fruits, &c., where purchases are wanted, add 5 cents small lots of stuff, 10 ⅌ cent. Other Farm Produce generally, 5 ⅌ cent.

QUOTATIONS are for sales of good Produce in good order, at wholesale, such as Farmers deliver, and not Jobbers or Speculators' prices.

GENERAL REMARKS.

Our Produce Market is trending under a complication of difficulties. The weather is hot and debilitating; the consumption demand is thereby diminished, and seems very slight; the shipping trade is moderate; economy of use is more prevalent than formerly; altogether the Produce trade is in an unfigured decline, without a redeeming feature.

BUTTER is 1@2c lower than a week ago, with an unsettled market, and nothing to quote at quotes. The stock, particularly of Western, is considerably accumulating; regular receipts buy sparingly for Cash only, and take only the choicest extra quality; the rejected stock, and other consignments, are shipping, and will be dry cure hoarded at Jobbers in the country, but cannot force it in this market at $@10@12c. California butter is selling well enough, and there that article ships the same, was a choice of extra, will ultimately find which side their bread is buttered, counting their profits, we fear, over the "left," if indeed, they do not jump out of the frying pan into the fire. Orange County in pails was held in artificial title months at the retail price, and, as which the retail grocers took it very sparingly, winding it up proportionately cheap, which was stored in it in the city by speculators. The [illegible] fine lots have arrived daily in baskets, and quite plentiful, so that the fancy prices, in the continued accumulation here, is worse than useless. A much larger proportion than usual of Western butter seems to have been forwarded to this market, and the stock of Western extra requires, it is said, much less than formerly.

Butter quoted by trade at market quotations when perfectly made and sweet, transient prices:

CHEESE has continued to decline in price, but much of it has increased in bulk. Best it has very prominent appearance. Much of it would be nearly lost but for the English shipment, who clear out the common qualities at 4@5c. Dairymen and dealers are advised that during the hot weather only well-cured cheese can be safely forwarded, and there is much more risk in large Cheese than in small. Aged, if possible, selling Cheese during Summer that exceeds say 30 to 35 lbs in weight.
