$400,000.—CITY OF LOUISVILLE (Ky.) WATER WORKS BONDS.—The subscribers offer for sale $400,000 of the Six Per Cent Bonds of the City of Louisville (Kentucky), issued for Construction of Water Works; maturing May 1, 1887; principal and interest payable in the City of New-York.
The Bonds are secured by (beside the faith of the City) the pledge of the Stock of the Water Company and an irrepealable tax of ten cents on each $100 of all the real and personal estate of the city. The charter confines the city full power to contract debt and issue bonds.

The present debt of the city is	$3,301,000 00
With sinking funds, consisting of real estate, stocks, &c., of	4,015,733 04
The assessed value of the taxable property of the city for 1857 amounted to	33,623,564 00

More than one-half of the present city indebtedness is contingent, as the several Railroads and the Gas Company, to whom $1,825,000 of the Bonds are issued, are bound to provide for the principal and interest—the dividends of the Gas Stock having already retired $36,000 of the original issue to that Company. The Louisville and Frankfort Railroad Company has retired $100,000 of the issue to it, with a large sinking fund applicable to the balance. The Lebanon Branch Road has mortgaged its property to secure its covenant to retire the Bonds, and the ability of the other Companys to fulfill their contracts is not questioned.
The population of the city is 70,000.
Copies of the charter of the city, the ordinance under which the Bonds are issued, the deed of trust of the Water Company's Stock to Commissioners of the Sinking Fund, and all other information concerning the Bonds, may be had on application to
