fabrics suited to that market, which have sold at about 3d. per piece on the prices recently current. Manufacturers are asking in some cases as much as 6d. in advance of last quotations, but at a sacrifice of business. There have been some considerable sales for both India and China, at a moderate advance, and all fabrics suited to these markets have participated more or less in the improvement. We have probably not had a more firm and healthy market in these fabrics for three years past. Longcloths, T-cloths, and domestics also continue in fair request at last week's quotations. In Yarns there is also a struggle for higher rates. Spinners are demanding from ½d. to ¼d. advance on most counts and qualities in request; but these increased quotations have very materially checked business. The advance on yarns is in some degree due to the news from China, but there is a good steady inquiry for them from all markets, including the home trade. But for the higher terms asked, we should have had a very extensive trade both in yarns and cloths. Spinners and manufacturers, being well engaged to order, are firm in adhering to the advanced rates, and the market closes without any indication of an easier tone.

HOPS—A moderate home inquiry prevails at 6@8c. for 1857c, as to quality. Some ask 10c. We do not think a large lot could be purchased at our quotations. Operators are waiting the result of the English and German crops. Sales were made of 10 bales 1858 at 16c.

HONEY has been more active; 20 tcs. Cuba were taken for home use at 6½@6½c., and 100 tcs. have been shipped out of this market. The large sale of 3 hhds., 371 tcs. and 1 bbl. reported by us a day or two since realized 54c., cash, in bond.

NAVAL STORES—Spirits Turpentine is in good supply, and the market is weak under the influence of an accumulating stock and liberal receipts in prospect. We say weak, because it is seldom we have seen 4,000 bbls. sold without establishing an advance of 1@2c., till the present. But at the same time holders generally are firm at our extreme figures. The demand is entirely confined to foreign orders, based on a speculative movement. For home use there is little or no inquiry; the sales include 550 bbls., in shipping and merchantable order, at 48c., cash; and a parcel of 100 bbls., in poor order this morning, on the dock, at 47½c. Crude is quiet but firm. Common Rosin is still scarce and in good request, but the small stock on sale and the high prices asked restrict transactions materially; sales of 800 bbls. at $1 75@$10 ⅝, delivered. The medium and fine grades are in light supply and are very firm, but the transactions are limited, owing to the extreme prices prevalent; sales of 300 bbls. Strained at $1 85@ 310 ⅝, and 400 do. No. 1 White at $4 35@ 320 ⅝. Tar is more inquired for, and with a decreasing stock prices favor the seller; sales of 400 bbls. Wilmington and Newberne at $2, as it runs in the yard.
