Trust Company, to the amount of nearly a million of dollars, have commenced suits against the Trustees personally, on the ground that they have made themselves liable by violations of the Charter. One suit is for $250,000. Some interesting developments will probably grow out of these suits, and show some reasons for the suspension of this institution, which have not heretofore been publicly aired.

There is a fair demand at private sale for New-York State Stocks, and the market has improved. Some of the interior banks, finding a demand for the circulating notes which were run in and redeemed last Winter, are buying securities again, and pressing the Bank Department for notes.

Wm. P. Wright & Co.'s Circular for steamer Africa has the following:

Since our circular of 7th inst. we have received advices ℔ Asia to 28th August and Vanderbilt to 1st inst. The sales for the week in Liverpool were 62,000 bales. Middling New Orleans was quoted at 7¼, Mobile 7, and Uplands 6 15-16d. ℔ lb. The Manchester accounts continued very favorable. The Vanderbilt reported sales in three days of 21,000 bales, prices without alteration, though there was less buoyancy in the market.

The demand for cotton in this market during the past week has been moderate for export, speculation, and home consumption. Owing to the favorable opinion entertained of the future, holders have succeeded in obtaining a further advance of ⅛c. ℔ lb, and the market closes very firmly at the annexed quotations. The Quarantine regulations, which are rigidly enforced, prevent an accession to our stock, and materially interfere with shipments of cotton from southern to northern ports. We must continue light in stock for some weeks. The bulk of what is now here consists of qualities below Middling, with a large proportion of stained and red cotton. The sales for the week amount to 4,000 bales, and there has been cleared during same time for Liverpool 490 bales.

COTTON IN TRANSITU has further advanced ⅛@⅛c. ℔ lb. and nearly all desirable lots have been bought up. We quote as follows: New Orleans or Mobile to Liverpool, with freight at 15-32d.; good Ordinary, 11½c.; low Middling, 12c.; barely Middling, 12½c.; Middling, 12⅝c. Very little new Cotton has been sold so far in transit. We hear of samples of small parcels being on the way, and soon expect to have an active business in floating shipments. The sales for the week have been 6,000 bales.

CROP.—We cannot advise any improvements in the accounts from the South, received here during the past week, touching the prospects of the incoming crop. The complaints continue of too much rain, rust and boll-worm. From Texas, where, until lately, the prospects were the most flattering, we are now assured that a great change for the worse has taken place. In Georgia the open Cotton has suffered from the effects of the recent rains. Public opinion in the South, as well as here, seems to have adopted 3,200,000 to 3,300,000 bales as the probable extent of the incoming crop, subject to further reduction in the event of a killing frost prior to the 10th of November.

The following is a statement of the movement in cotton since the 1st September as compared with the previous four years:

At an election held by the Directors of the Mechanics' Bank, Philadelphia, George H. Stuart, esq., of the foreign banking firm of Stuart & Brothers, and one of the most widely-known and popular citizens of Philadelphia, was elected President.

The subscription of $200,000, from the bondholders, for the relief of the New-Albany and Salem Road is open at the office of the Farmers' Trust Company. Two-thirds of the amount has been subscribed, but the subscription now drags. If parties in interest are unable to loan money, the trustees ask for the loan of the bonds, upon which they have made arrangements to obtain the money. If the first-mortgage bondholders wish to preserve their property they should take immediate action in this matter.

Mr. Moran and Mr. Corning had no interview today, but the arrangement entered into last week, at Philadelphia, by the four great routes to the West, was before the Erie Board for consideration, and the opinion of the Directors appeared to be almost unanimous for its acceptance. The arrangement will probably be agreed to during the week, by consultation between the Erie and Central managers.

The Boston Post of yesterday says:

"There is no special change to record in the money market, although there appears less disposition to accept very low rates on long time. The aggregate of the bank loans is high, and in some of the institutions the loans approach so near the legal maximum that no desire is manifested to increase them at less than 6 ℔ cent, at which rate a great deal of the daily business is done in this way of small loans and renewals of larger paper.

"There is no rush in business, but a good deal of trade is done in the midst of many complaints of stillness. One of the heaviest commission houses estimates that the dry goods people in general are doing about two thirds as much as usual. As far as we can judge, the retailers are having rather a meager business just now, but the jobbing trade is fair. Some houses, in all branches, are as busy as ever they were at this season of the year.

"'Pewabic' advanced a little on Saturday, in consequence of favorable letters. Notwithstanding the promises of the Superintendent, however, many people belive that he cannot produce and ship 225 tuns of ⅌ per cent copper in September and October. The machinery will probably be in operation in November. It has been purchased on a long credit, and the present plan of the management is to avoid further assessments, even at the risk of floating debt, which, it is thought, will easily be worked off in 1859. The mine itself never looked better.

"The 'Quincy' is now a favorite in this market, from the circumstance that while it is yielding as much as the Pewabic, it has two veins, a much larger property than its neighbor, and no debt for machinery.

"The 'Franklin' is also a favorite 'copper.'. It has the Pewabic and Quincy veins, apparently, in all their richness and for a great length. The present probabilities are strongly in favor of the extraordinary profitableness of the three Portage mines, bearing the Pewabic vein. But there is 'many a slip between the cup and the lip,' even in those cases that seem to be most secure."

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING SEPT. 15, 1858.

[Reported exclusively for THE N. Y. TRIBUNE by DARW & FRENCH, Commission Merchants for the Sale of Fruits and Produce, No. 85 Barclay street.]

NOTICE TO CONSIGNORS OF FARM PRODUCE.—Put up every thing in neat order. Mark plain, indelible directions on every package, including weight, with tare, count and name of articles. Also tack a bill of particulars inside of one package, marked "Bill," and always send one by mail, with notice when and how things are forwarded.

COMMISSIONS.—For selling Berries, Fruits, &c., where packages are returned, and on small lots of stuff, 10 ⅌ cent. Other Farm Produce generally, 5 ⅌ cent.

QUOTATIONS are for sales of good Produce, in good order, at wholesale, such as Farmers realize, and not Jobbers' or Speculators' prices.

The receipts of State BUTTER and CHEESE have been much lighter during this than the preceding week, but the arrivals of Western Butter are very large, notwithstanding the advice of receivers to hold it back.

Strictly fine State Butter is relatively quite scarce, and is sought for to take the place of Orange County, which is in limited supply. This quality will readily bring 24c., and in some instances 25c., but anything short of tip-top is neglected, except at much lower rates, coming directly in competition with Western Reserve, and all except the very good selling on a par with Western.

It is a common observation that there was never so wide a difference known between the best Butter and good to fair Butter. We estimate that not more than 10 ⅌ cent of the State Butter now coming in will bring our outside figures, and the next lower grade must be sold at 2c. to 3c. lower, leaving an unusual gap in prices, there being no demand for anything between these rates. The abundance of Western Butter induces some slight concessions in price, but we make no change in our figures. The English market has heretofore cleared out our Grease Butter at satisfactory rates, but no demand exists in that quarter, or in fact any other, for it at present, except for Soap-grease at about 4c. ⅌ lb. Good Butter has very rarely been shipped from this country to Great Britain, but a small lot of 80 firkins best Western Reserve has just been sold at 16c., for Liverpool.

CHEESE is without material change, except that the late heated term caused serious injury to considerable that must be sold at a loss, or much lower, on account of its altered condition.

There is just now a remarkable state of uncertainty in the minds of the principal Butter and Cheese dealers. An impression seems to prevail that there must be a change soon, but whether for the better or worse, is a question upon which few few seem disposed to hazard an opinion.

BUTTER only brings highest quotations when perfectly made and sweet, in small, neat packages. We quote:

Orange Co., pails, ⅌ lb	25 @25	Ordinary State	13 @15
Prime State, firkins	20 @21	Ohio or West. good, fir.	12 @14
Good, fair do	16 @18	Western Reserve	15 @16

CHEESE, ⅌ lb:

Extra quality	8 @—	Eng. Dairy (Goshen)	9 @10
Fair to prime quality	6 @ 7½	English Dairy (Ohio)	8 @ 9½
Ordinary and damaged	4 @ 5		

MEATS—We quote, as sold from market boats or by wholesale butchers:

Beef, sides, good, ⅌ lb	4 @ 5½	Pork carcasses, corn-fed	6 @ —
Mutton carcasses	5 @ 7	Shoats, prime, fat	6½ @ —
Lamb carcasses	5 @ 8	Veal Calves, live wt. full	5½ @ 6½
Veal carcasses	7½ @ 8½		

Live POULTRY continues plenty, and is without material change in rates. To-day is a holiday with the Jews, and live Poultry has been in active demand for their use. Small Chickens are in excess of the demand, and have to be sold very low; better keep them at home. Our quotations indicate the usual current rates of the week, but it happens occasionally, when large receipts find the dealers full, that sales cannot be effected without considerable sacrifice in price.

The manner of dressing and packing Poultry often makes 25 ⅌ cent difference in the prices. We quote:

Sp. Ch'n, (Ro.) ⅌ pr.	62 @ 87	Turkeys, live, ⅌ lb	13 @ 14
Sp. Ch'n, (Br.) do.	37 @ 50	Goslings, fat, ⅌ hd	1 00 @1 25

Eggs are now quite so active, but no material change in price has occurred. By the barrel, packed in oats, or cut straw, in good order, actual count. We quote:

BEESWAX—32@33c. ⅌ lb.

HONEY—White Clover, in comb, 20c. ⅌ lb; do. Buckwheat, 15c. ⅌ lb; Strained, 12c. ⅌ lb.

There is quite a glut of POTATOES, and prices are about 50c. ⅌ bbl. lower on the better sorts. Dykmans are wanted for shipping, and have not declined so much. During the hot, dry weather of last week the disease was rapidly developed upon the heavy soils of the best Potato districts of Monmouth County, N. J., the Manurers suffering most, the Dykmans and Buckeyes nearly or quite escaping. Peachblows, being still unripe, may suffer severely, and we hear of some such indications.

We have also reports of rot in Connecticut and Northern New-York. The news of another week will more reliably indicate the true state of the case. We quote:

Mercers, best, ⅌ bbl.	1 50 @1 75	Buckeyes, ⅌ bbl	1 50 @1 75
Do., common, ⅌ bbl.	1 00 @1 25	Prince Alberts	2 00 @2 25

BROOM CORN—The growing crop is reported good, particularly in Western New-York and Ohio, with promise of very fine quality. It is estimated that there are on hand of the old crop, say, 300 tuns in Connecticut, 50 tuns in New-York, 50 tuns in Albany, and some along the Mohawk Valley—say 500 tuns in all. Prices are still about the same as last Fall. We quote Broom Corn at 4@6c. ⅌ cwt.

OSIER WILLOW—5@8½c. ⅌ lb.

For quotations of Flour, Grain and other Farm Produce, see general Price Current.

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.

WEDNESDAY, Sept. 15, 1858.

ASHES—The market is steady; the demand fair, at $6 for both kinds.

BOOTS AND SHOES—The inquiry has improved since our last; the sales are in larger quantities, but there is still a want of animation among the trade as a body; some are selling to a fair extent, while others are comparatively idle. Western buyers are paying up more promptly, and are now replenishing their assortments. The present activity, we think, will be of short duration. Our jobbers are well supplied, and we hear of no scarcity of any particular description. Men's Brogans have sold remarkably well this season. Light work, which is in abundant supply, has proved very unprofitable. At the East, the production is going on slowly; the cost of goods is very nearly up to that of the latter part of 1856, and the market prices comparatively low.

BEESWAX—Western and Southern Yellow have been sold at 33@34c., cash.

COTTON—Pending the arrival of the Persia, the market has been quiet; the sales are 500 bales. The export for the week is estimated at 490 bales. We quote:

NEW-YORK CLASSIFICATION.

	Upland.	Florida.	Mobile.	N. O. & Tex.
Ordinary	11	11	11	11
Middling	13½	13½	13½	13½
Middling fair	13¾	13½	14	14

COFFEE—The market is generally firm, but quiet. The stock of all kinds is small. We annex closing rates:

Java, white, ⅌ lb	14½ @15	Maracaibo	— @12½
Rio, fair to prime	10½ @12	Jamaica	12 @12½
Rio, ordinary	9½ @10½	St. Domingo (c.)	10 lb 9½ @ 9½
Laguayra	11½ @13		

COAL—The demand continues good for domestic, and, with liberal arrivals, prices are without essential change. The inquiry for shipping is good, in part for Gulf ports. Our stock is increasing, and is now fully up to last year's, and the prospect is that the receipts will be much larger. The cargo price is slightly advanced. We quote by the cargo at $3 60@$4 10, and $4@$4 75 ⅌ tun from the yard; Foreign has been in good request, and we hear of further sales of Sidney at $4 50, and Picton at $4 37½ cash and 4 mos.; Liverpool is quiet, and prices are nominal.

CANDLES—Adamantine are a little more inquired for, and held with increased firmness, based on more favorable advices from California, but there is little vitality in trade or tone to the market; sales are making all the way from 17@17c. cash and 4 mos. Chemical Sperm and French Wax Imitations sell in moderate quantities at 20c. Sperm and Patent ready command 40c. and 50c., and there is a disposition to advance prices 2c., but the demand will regulate prices more than any other combination.

COPPER—Refined Ingot has recently been in active demand for export at 22½@23½c., but job lots command 23½@24c., cash. Other kinds are inactive, and prices unchanged.

DYEWOODS—Logwood and Fustic are very firm, and in meagre supply, and the same is true of Nicaragua and Red Woods. The stock, therefore, is limited. The last sale of St. Domingo Logwood was at $13; Laguayra do. at $21 50, and Savanilla Fustic at $19 50 cash.

FLOUR AND MEAL—The demand for Western Canal Flour is more active, in part for export, but mainly for the home trade; the arrivals are fair, and the medium grades are in request at rather better rates; these are not plenty; but choice parcels are heavy and irregular; unsound Superfine State is less freely offered, and that of good quality is wanted at $5 75@$5 90; very ordinary is unsalable at $5 50@$5 60; standard brands are more salable, and not plenty.
