N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING WEDNESDAY, NOV. 9, 1859.
Reported exclusively for THE NEW-YORK TRIBUNE, by DREW & FRENCH.

NOTICE TO CORRESPONDENTS OF FARM PRODUCE.—Put everything in neat order. Mark plain, indelible directions on every package, including weight, with tare, count, and name of articles. Also send a bill of particulars inside of one package marked "Bill," and always send one by mail, with notice when and how things are forwarded.

COMMISSIONS.—For selling Berries, Fruits, &c., where packages are returned, and on small lots of stuff, 10 ⅌ cent. Other Farm Produce generally, 5 ⅌ cent.

QUOTATIONS are for sales of good Produce, in good order, at wholesale, such as Farmers realize, and not Jobbers' or Speculators' prices.

BUTTER—Continued Summer-like weather, large receipts and a moderate demand have depressed the market, and we think the average rate for dairies is lower than a week ago, and we change our figures accordingly. Fine Fall-made Butter is salable at former rates, and at very rare intervals an entire dairy is found good enough for 22c. Our outside figures for Western are more rarely reached, and the average for all common grades is lower. We quote:

Orange Co., pails, ⅌ lb	25@28	State, common	13@15
State, ch. dairies	20@22	Western Res., best, late made	16@18
State, ch., ⅌ tubs, do	19@21	Western Res., fair	13@14

State, ex. Fall-made	23@24		
State, fair to good	16@18		

CHEESE—There has been less activity during the week, and comparatively little doing for export; but this is regarded as only a temporary lull, and the export has been so large—some 63,000 boxes over the export to the same period last year—that holders maintain their prices with entire confidence. We quote:

GAME AND BIRDS—With pretty liberal receipts, and Summer weather, the Game trade is flat enough. Ducks are down; Venison is down; all are down, and are likely to stay down until colder weather. We quote:

POULTRY—On the day succeeding our last trade opened brisk in the morning at former rates, but the very large receipts soon becoming apparent, buyers insisted upon lower prices, and finally had the market pretty much at their mercy. We never saw a more sudden and complete breakdown in this class of trade. Prices ranged in the afternoon 3@4c. lower than the opening rates of the morning. Friday's receipts were lighter, but ample for the wants of the trade; and under the depressing influence of still warmer weather, no improvement could be noted; and, although the receipts have since been moderate, the warm weather and consequent light demand has prevented any advance in rates.

Thanksgiving (the great feast of turkeys), comes on the 24th inst.—less than three weeks from the present time. As usual, a perfect avalanche of poultry may be expected on that important occasion. From present reports and appearances, there is a large crop in the country, and an overwhelming amount will very likely reach this market at or near that interesting period. We have a word of caution to our friends, and beg of them, for their own sakes, not to send us the uncovered frame-work of respectable turkeys, or the ghostly skeletons of emaciated Shanghaes. We cannot be thankful for such apparitions, and fear you will not be very jolly over the net returns. Well-fattened, nicely-dressed and neatly-packed Poultry will be wanted in immense quantities, and will bring handsome prices, especially if forwarded so as to arrive here without fail on Monday or Tuesday preceding Thanksgiving day. But do not imagine that the anxiety of our people to eat poultry on this occasion will induce them to pay high or even fair prices for "scalawags." Keep them at home, to consume the coarse grain of the country, which is abundant, until they are FAT, when you may reasonably expect paying prices, and general satisfaction from producer to consumer.

LIVE POULTRY—We quote:

Fowls, ⅌ lb	7½@ 8	Ducks, live, ⅌ pair	44@ 50
Spring Chickens, ⅌ lb	8@ 12	Turkeys, live, ⅌ lb	8@ 10

POTATOES—There are 60 car-loads, mostly Peachblows, now at Twelfth-street depot, and the usual quantities at other points. The warm weather has induced great anxiety to sell, but does not stimulate the appetites of purchasers. Under this state of affairs a further breakdown has occurred in this leading variety, and ⅌1 25 ⅌ bbl. must now be considered an outside price for quantities. Other varieties are not materially changed. We quote:
