PROSPECTUS of the NEW-YORK PURE MILK COMPANY.
This Company, organized under a Special Act of Incorporation by the Legislature of New-York, has Twenty-five Thousand Dollars of its Capital Stock subscribed and paid in.
The Directors have purchased seven hundred and fifty acres of most desirable Grazing Land in Sussex County, New-Jersey, with Farm Houses, Dairy Houses, and Stock; and are preparing to carry out literally and effectively the object of their charter, by supplying to the Citizens of New-York Pure Milk from cows fed only on grass, hay, and grain—the product of their own lands.
It is the intention of the Company to increase their Capital to $100,000; to add largely to their lands and dairies, and to produce a new era in the Milk business of New-York, not less important to the health and comfort of its citizens than was the introduction of Croton Water; and in doing this they hope and expect that the Stock of the Company will take rank with the best paying stocks known in this market.
The facilities for such a success are within their reach. The far-famed Dairy Lands of Orange County lie in the same range, and are but a continuation of the same rich, well watered, grass-producing uplands, mountains, and valleys which form the district from which this Company are to draw their supplies. This district
