LOCAL STOCKS QUIET; READY TO PUSH BONDS

BY I. A. FLEMING.

While there was some little improvement on the daily session of the stock exchange today, it was more sentimental than real, and the transactions were not numerous.

Capital Traction sold at 80½ ex-dividend, being equivalent to 81⅝ dividend on, or about the best prices of recent sessions.

A number of sales of Union Trust Company stock were reported at 120, the usual prevailing bid price for these shares.

Bonds were slow at 102 for Capital Traction 5s and 95for Potomac Consolidated 5s.

During the week ended with today's session the trades totaled but $9,000 bonds and 249 shares of stock.

The first meeting of the liberty loan committee of the District Bankers' Association to plan ways and means for aiding in the second bond campaign was held yesterday afternoon. John Poole, Eugene E. Thompson, Eugene E. Ailes, Corcoran Thom and B. F. Saul constitute the committee.

Ideas were advanced looking to unanimity of action on the part of all banks in financing installment buyers; also action in harmony with the publicity bureau, and with the various agencies used to make the loan a success, as well as some kind of a demonstration of a quasi-public nature to give the campaign a good opening.

The committee will meet again this afternoon.

The first issue of liberty loan bonds is selling in round lots at and very close to par and the opinion is freely expressed in banking circles that they will sell before long at a premium, and that they will be wanted by buyers who seek them for their tax-free privileges.

Silver's Advance.

Silver is now quoted near the record price for the white metal. The record on the London market was 54⅝ pence, in 1908, and the price is but ⅝ below the high today.

It is pointed out by some financial writers that the salvation of Mexico and its financial rehabilitation may come from a resumption of silver mining operations. Mexico's record production, in 1911, was 79,032,000 ounces; last year but 40,000,000 ounces were produced.

China is importing all metal possible, and the United States is in the market, while the Indian government is augmenting its stock, while prohibiting other imports.

Liberty Bonds at a Premium.

NEW YORK, September 21.—For the first time since liberty bonds were listed on the stock exchange, in June, when the securities sold at a slight premium during the initial week of their offering, they went above par today, reaching 100.02 on small transactions. After the sale of two blocks of $500,000 each and one of $513,000, the securities rose to a premium. Trading in the bonds was active. The low record for full lots was 99.52, on August 8.

Dr. Jarboe Joins Navy Dental Corps.

Dr. Eugene D. Jarboe of Poolesville, Md., has been commissioned a dental surgeon in the Navy, with the rank of lieutenant. He has been assigned to the Texas.

Dr. Jarboe was graduated from Georgetown University in 1913, and began his practice in Washington. For about three years he has been practicing in Poolesville.

WALL STREET MARKET SHOWS NERVOUSNESS

NEW YORK, September 21.—Twenty-three and one-half cents a pound for copper, less excess profits and corporation taxes, while satisfactory to copper producers, in that it is a little better than they expected, will not leave a large margin of profit or even a moderate gain, while the product of the mines is being freely used in the war game.

But the fact that the price was a little in excess of the estimates of the copper experts gave assurance that the prices of steel might also be better than expected. The opening of the stock market was stronger and for a few minutes higher prices dominated. Steel common advancing to 111½, Anaconda Copper to 74, Bethlehem B to 98⅝ and Industrial Alcohol to 141, these figures being a point on the average higher than yesterday's closing, while the last named stock was 2 points better. Throughout the industrial list ½-point gains were general.

Earlier Advances Wiped Out.

The improvements were not long maintained, sluggishness in rails, nearly 3 points' break in Canadian Pacific and the development of positive weakness in motors, led by General Motors with a drop from 97, yesterday's closing, to 94; Studebaker's slump from 47½ to 44 and 1½ loss on Chalmers, turned the whole list much softer, wiped out the earlier advances and slowed down trading to occasional transactions toward the end of the second hour of the morning. By noon values were at or below the closings of yesterday, motors all being off as indicated and ½-point net losses general in other industrials.

Chief Declines Enumerated.

The chief declines of the session were in Canadian Pacific, which dropped to 147¾, as compared with yesterday's closing at 150½; in General Motors, which did not go below the morning figures, and in Bethlehem Steel, which slumped badly in the noon hour, breaking from 98⅜, the high of the day, to 94⅞, with a recovery in the second hour of the afternoon to 96⅜.

The general list fluctuated within a very narrow range, after the reaction which followed the opening, showing no special activity, with Steel the leader. This stock at the low was off ⅝, but recovered ⅝.

The market continued steady throughout the afternoon, the final closing being a little better than the earlier afternoon figures, with American Smelter, Marine preferred and Tobacco leading, and with some little uneasiness on the part of shorts.

Rails continued slow to the close.

LONDON MONEY.

LONDON, September 21.—Bar silver, 55d per ounce.

Money, 4 per cent; discount rates short bills, 4⅝ per cent; three months' bills, 4 13-16 per cent.

There are three rivers known as Colorado. The first is in Utah and Arizona, and is 1,300 miles long; the second is a river in Texas, 900 miles in length; the third is in the Argentine Republic, in South America, and is 400 miles long.

Washington Stock Exchange.

The Safest Investments
Are those that do not fluctuate during disturbed conditions of the money or stock market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments, and do not depend upon the financial responsibility of individuals or corporations for their stability. We can supply such investments in amounts from $500 upward. Send for booklet, "Concerning Loans and Investments."
Swartzell, Rheem & Hensey Co.

Money to Loan
Secured by First Deed of Trust on Real Estate. Prevailing interest and commission.
Joseph I. Weller, 624 F St. N.W.
