TEXT GREEK REPLY NOT YET PUBLISHED

INDICATION THAT GREECE HAS AGREED TO ALL DEMANDS

SATISFACTION TO THE BRITISH

Will Greece Oppose German Troops if They Enter Territory is Question Raised.

London, Nov. 25.—Although the full text of the Greek reply to the collective note presented by the entente powers has not been made public, the indication here is that Greece yielded every essential point and the British government is satisfied with the position taken at Athens.

Whether the guaranty of safety to the Anglo-French troops will carry Greece to the extent of opposing German forces which might attempt their pursuit should the allied troops retreat into Greece, could not be ascertained until the full dispatches are received.

The Germans are reported to have raised the approaches to the Kosovo plain, which had been expected to form a strong defensive line for the Serbians, who it is reported are now in retreat toward the Albanian border.

Heavy fighting with the repulse of the Turkish offensive is announced in an official statement from Paris. The allies bombarded the railway between Constantinoople and Dedeagatch, Bulgaria, damaging bridges and warships fired on the coast of Asia Minor.

Small engagements, including a British attack in Galicia and Russian offensive on the Strips, occur in the east.

Russia's proposed move in the Balkans is now the center of attention. It is known that a large Muscovite army is massed on the Rumanian frontier and it is reported that heavy guns for its use have arrived at Odessa from Japan.

The Rumanian attitude, while causing uneasiness in Germany, for a report that Premier Bratianu said that relations between Rumania and Bulgaria were never better is still in doubt.

The French and British naval brigades sent to the Balkans are reported safe, the French arriving in Montenegro and the British were heard from at Mitrovitz. The British tars took part in the Serbian defense at Belgrade a year ago.

BALKAN EVENTS MOVING SWIFTLY

Athens, Nov. 25.—Greece has met the demands of the entente powers and given guarantees that their requirements will be filled.

From the optimistic tone of dispatches from Athens to London, however, it may be inferred that Greece has yielded in every essential point raised by the allies. The situation then is regarded having been cleared finally.

Events in the Balkans appear to be moving swiftly to a conclusion disastrous to Serbia. Approaches to the historic battlefield on Kosovo plain which had been expected to form a strong defensive line seriously delaying the advance of the invaders already have been traversed. In the ensuing battle the Serbians are reported to have been unable to withstand the shock of attack and are said to be in retreat toward the Albanian border.

Since the fall of Pristina and Mitrovitz the keys to the Serbian defensive position, a final Serbian retreat is considered inevitable. The Germans announce the capture of a large number of prisoners at these two points.

In the absence of definite news from Katschak pass it is assumed the Serbians will be holding out there. In the south where the allies are operating the situation is unchanged.

Nogales, Ariz., Nov. 25.—Conflicting reports regarding the probable action of the Villa troops who are being forced towards Nogales, Sonora by Carranza troops, heightened the excitement, caused by the hurried placing under arms of the twelfth United States infantry on the border yesterday.

Small engagements, including a British attack in Galicia and Russian offensive on the Strips, occur in the east.

"There should be as many trained observers," he said. "It will take ten years to build our defenses.
