APPEAL FROM SCHOOL BOARD.

Sets Forth Why $30,000 Loan Should be Permitted.

INTERESTS OF THE SCHOOLS

If the People Withhold Their Permission, It Will Mean Demoralization to the Schools.

An address was issued today over the signatures of President Newman, Chairman Moyle of the committee on teachers and school work, and Chairman Bamberger of the committee on finance of the board of education, to the patrons of the schools setting forth the reason for appealing to the people for permission to maintain the schools to the end of the year. The address is as follows:

To the Patrons of the Schools:

We call your attention to the special election to be held on Tuesday next, and submit the following considerations:

In 1895, school population	11,941
In 1900, school population	14,428
Increase	2,487
In 1900, cost of maintaining schools per pupil	$ 18.39
In 1895, cost of maintaining schools per pupil	17.08
In 1895, income of board for maintenance	216,450.74
In 1900, income of board for maintenance	232,902.28

Increase of school population five years, 20.8 per cent.

Increase of revenue, five years, 7.6 per cent.

The foregoing figures show that the number of children to be educated has increased much more rapidly than the revenues from taxation, and explains why, in 1900, our school year was three weeks short. The same figures also explain why, again this year, unless you vote us permission to borrow, we must close all our schools April 26, making a shortage of six weeks on the school year.

The amount necessary to complete our year's work is $30,000. We believe it is a measure of economy to borrow this money (we get it without interest,) which can be repaid out of our next year's revenues.

Failure on your part to grant us this permission means:

First—No graduation of sixty High school pupils.

Second—No graduation of 700 eighth grade pupils.

Third—No promotion in any grade at the end of this year, necessitating the continuance of present classes into next fall.

Fourth—Overcrowding of schools next fall by reason of the hold-over pupils and entrance of about 1,400 beginners.

Fifth—Enormous increase of expense in employment of additional teachers and hiring new buildings next September.

Sixth—Loss of time resulting from delayed promotion and confusion in the system of promotions.

SCHOOL PATRONS MEET.

Large Gathering Endorses the Proposition of the Loan.

Taggart's hall was the rallying point last night of the patrons of the Wasatch school who met to discuss the special school election. A coterie of leading citizens of the district called the meeting, and the sense of the gathering was that the school board should be permitted to borrow the required amount of money. James Maxwell was named as temporary chairman, and Fisher S. Harris was unanimously elected as permanent chairman. J. O. Cross, principal of the Wasatch, was made secretary, and by request of the chairman, stated the object of the meeting. Judge W. H. King made a ringing plea for the schools, saying that Salt Lake could ill afford to lose her present high standard of educational work, and at the close of his address he offered the following resolution: "Resolved, That the proposition to obtain funds to carry on the schools for the current year be heartily indorsed by this convention and that it be the sense of this meeting that every legitimate means be used to secure a favorable vote on Tuesday, April 16th." A few remarks were made by Mrs. Cowan, W. F. Smith, and Mr. Maxwell, and a committee with power to act was chosen, composed of James Maxwell, Mrs. J. D. Kenworthy, W. H. King, Mrs. Maggie Taggart, W. F. Smith, Mrs. E. M. Miller, Mr. Homer Hodson, Mrs. John F. Cowan and Charles Crane.

MASS MEETING CALLED.

Gathering to be Held in Ninth Ward to Consider School Election.

A mass meeting has been called for Saturday evening to be held in the annex to the Ninth ward meeting house. It is to be held for the purpose of discussing the school election to be held next Tuesday and to get an expression from the taxpayers as to whether the board of education shall be empowered to borrow the $30,000 necessary to keep the schools open the full school year. James G. McAllister, on behalf of himself and others, has called the meeting, so that the matter may be discussed and reasons for keeping the schools open be put before the taxpayers.

It is also expected that a general mass meeting will be called for Monday evening and will be held in the High school assembly hall.

NEVADA AND UTAH.

The Best Cattle Growing States in the West, Says John Sparks.

Nevada and Utah are the best cattle raising States in the west," said John Sparks at the Kenyon this morning. "I mean by that, that the climate is more favorable than other western States. We don't have blizzards and young cattle have a chance to get a start in life, then they can be shipped to other places to be fattened. The ranges in these two States have been pretty much worked, and it pays to raise the cattle on them, on account of the good climate, and then to ship them to Canada or to other States where they can be fattened on corn and alfalfa. Chicago, St. Louis, and San Francisco are the principal markets of Nevada cattle, though many head are sent to Canada."

"The great ranges are being cut up into farms, and I think the only danger of having an over supply of beeves is from this source. If the farmers all begin to raise a few cattle each, the total number will aggregate more than any one owner would manage on the same amount of property and thus the supply would be greatly enlarged. However, armies must be fed on beef because it may be canned and will keep, and there will not in many years be much of an over supply.

"There is probably not fifty beeves on the entire range land of Nevada for the reason that San Francisco has furnished such an excellent market the past year. On Mr. Howell's ranch there are now about 40,000 cattle, and the annual output approximately will be 9,000 head, though this can be increased if he desires to do so. At least 75 men are all the time employed there.

"I am not going into the cotton raising business, as was said in one of the papers, but will probably find something to interest myself with in Nevada or Utah, for next to Nevada I should prefer living in Utah. It is certainly sad that President Cannon should have died in California. He did very much for Utah and was a good man."

AMUSEMENTS.

"The Parish Priest" engagement closed at the Theater last night before a fair house. The Theater will now remain closed until Monday afternoon and evening, when the final performances of "Fatinitza" will be given. The advance sale is now on and tickets have been going with a rush all day.

* * *

"Fatinitza" will be rendered in Ogden this evening. The company goes up on the Rio Grande Western special at 6:10 this evening and returns after the opera.

* * *

The noted lecturer, Ernest Seton-Thompson will be heard on the afternoon and evening of April 20th at the Assembly Hall. Mr. Thompson is famous the world over as the man who knows all about wild animals.

* * *

R. C. Easton will not return home until next week. He sings in a Tabernacle concert at Provo tomorrow night, and will probably appear in Ogden before his departure for New York.

ARTISTIC JOB WORK

Turned out on short notice at the Deseret News. A big shipment of new types and supplies just in. Our facilities for letter heads, bill heads, tags, envelopes, pads, etc., etc., are unexcelled by any establishment in the West.

WARD ENTERTAINMENTS.

ELEVENTH WARD.

A reception and entertainment in honor of Elder Joseph Thomstorff will be given in the Eleventh ward meeting house this evening. Elder Thomstorff is about to depart on a mission to Germany. The program that will be presented will consist of the following excellent features:

Selection ..... Choir
Prayer.
Soprano solo ..... Agnes Olsen Thomas
Piano solo ..... Prof. A. H. Lund
Contralto solo ..... Judith Anderson
Xylophone solo ..... Adelbert Beesley
Duet .....
Prof. E. Stephens and H. S. Ensign.
Recitation ..... Ethel Allen
Ladies Quartet .....
Julia Jones, Annie Owens, Hermia Tyler, Connie McAllister.
Baritone solo ..... John Robinson
Recitation ..... Hattie Carter
Violin solo .....
Soprano solo ..... Lennie L. Savage
Tenor solo ..... Prof. A. H. Lund
Recitation ..... Josie Morris
Soprano solo ..... Connie McAllister
An Ante-bellum Sermon .....
..... Theodore Best
Remarks .. Elder Joseph F. Thomstorff
Anthem ..... Choir
Prof. A. H. Lund, accompanist.

FOREST DALE.

The concert and kirmiss given at the Old Farm House last night was a complete success. The hall was crowded and it was with difficulty that the program was carried out. The concert numbers, the German band and the booths with their characteristic occupants furnished a very pleasant evening's entertainment. An entire change of program will be made tonight and another good audience is expected.

WILL NOT BE BLUFFED OUT.

Clark Road to be Built Even if Another Survey is to be Made.

GEN. SUPT. CALVIN RETURNS

Reports That Four and One-Half Miles of Track Has Been Laid—Whittemore's Version.

C. O. Whittemore of the San Pedro, Los Angeles & Salt Lake since early morning has been in receipt of a number of telegrams at stated intervals from Los Angeles, St. Louis and other points where the directors of the company are at the present time. The tenor of each and every one of the dispatches is "war to the knife."

When seen this morning Mr. Whittemore stated that he had received instructions to take every possible step in order to strengthen their present strong position in regard to the disputed grade over which the Oregon Short Line is now laying track. "We will contest it to a finish in the courts," he said, "and if the ruling should be against us we will at once proceed to start construction over another survey.

"As to the Oregon Short Line laying a first class track over that grade at the present time it is absurd," he added. "The Short Line is doing nothing of the kind. All they are doing now is to get the steel strung along the grade as fast as possible. It is true that good material is being put down, but the rails are being laid without any regard to grade stakes, in fact the surveyors are following after the trackmen and putting in the grade stakes, which is, to say the least of it a funny proceeding. Then when the gangs come to a gap they just pile up ties into a rough trestle and lay their rails across the top of them. The bridge men will probably come along later and fix things up, but at present they look kind of queer."

General Superintendent Calvin of the Short Line came up from Uvada this morning, where he has been for some days past superintending the work of tracklaying. He stated to the "News" this morning that when he left Uvada that there was close four and one-half miles of track down. Mr. Calvin also emphatically stated that tracklaying would be pushed and the work of construction continued "right through to California."

The contest on the grade continues to be one of the absorbing topics around town. One well known railroad man who has been watching the trend of affairs said this morning: "Whatever has been said about 'hot air' in the past there is one thing sure and that is that the hot air has made the Harriman people get a most unseemly gait upon themselves. If Clark had not started to build this road we would never have heard, under the community of interests, of either the Oregon Short Line or the Rio Grande Western extending through to the coast, neither would we have heard of the Southern Pacific coming to Salt Lake. Clark is a fighter as his record shows and I believe that he really intends to build this road. If he does you will find that it will pull the others here despite Harriman's for reaching plans."

Senator Clark is at the present time in the South of France and will return to America about May 1st.

NEWS IN LOS ANGELES.

Clippings from Local Press on the Railroad Situation and Uvada.

Los Angeles Herald: "That the Union Pacific has "jumped" a portion of the right of way declared to be ours by the United States land office, will not hinder the building of the San Pedro, Los Angeles & Salt Lake railroad. We will fight them in the courts, and even if we should lose there, the work will not even be retarded.' This emphatic statement was made yesterday by J. Ross Clark, after he had read carefully the report that the Union Pacific railroad had begun laying track upon the Nevada right of way claimed by the San Pedro, Los Angeles & Salt Lake road. Local railway circles were deeply interested by the news. The sudden move of the Harriman syndicate was wholly unexpected and was of so radical a nature that the ultimate intent could only be guessed at.

"Many were of the opinion that it was a mere bluff on the syndicate's part, calculated to scare Senator Clark and his associates out of the field. Others took the opposite view, and held that the Union Pacific had at last begun in good faith to make its way to Los Angeles."

CLARK VS WALL STREET.

Los Angeles Express: Wall street has as a matter of fact, not been taking the proposed new Clark road at all seriously. Senator Clark, having unlimited resources of his own, was not compelled to go to "the street" for assistance in financiering his enterprise, and the street could not realize that any such venture could be successfully launched without its aid. When the New York money market began to awaken to the situation, there was at first something of a smile of incredulity. A bait was then thrown out in chunks of assorted sizes, first from one part of the country and then from another, that the new Clark road might be started, but that it would at the proper time be swallowed up by one or more community of interests, which would be compelled to see to it that the enterprise did not become really a serious factor. Senator Clark, R. C. Kerens and their associates, however, kept right on in the even tenor of their way. They were not even disturbed apparently at the threat that after their line was in Salt Lake City it could not possibly obtain an outlet from there East. Then it was that Wall street awakened with a shock.

T. E. Gibbon said today that the efforts of the Union Pacific would be resisted in the courts and he has no doubt of the result. Even should the pending controversy be decided against his company, J. Ross Clark said today, the San Pedro, Los Angeles and Salt Lake railway company will keep right on into Los Angeles, going around the old Union Pacific survey, which has suddenly become such a big bone of contention.

The conflict between Wall street and Senator W. A. Clark is in the meantime bound to attract no end of the attention throughout the country, as it has suddenly been realized in the financial world that Clark is probably the one man who could afford to enter the lists with anything like a fair chance in such a conflict as the one now on. Senator Clark is for the time being resting in the south of France.

GOING AHEAD REGARDLESS.

Los Angeles Times: J. Ross Clark, vice president of the San Pedro, Los Angeles and Salt Lake road, and the direct representative of Senator W. A. Clark, said yesterday that he had heard nothing of this move, excepting what was in the Times. He stated that his road has acquired title to the old grade of the Union Pacific, and that it is his opinion that the title is good. He said further that the building of the Union Pacific line has in no way changed the plans of the San Pedro, Los Angeles and Salt Lake Railroad company; that company will go on and build its line without reference to the action of the Union Pacific.

There is a significant fact in this connection. Southern Pacific officials, whenever they could be got to talk, have for years smiled incredulously at any road being built from Salt Lake to Los Angeles, excepting by the Southern Pacific. They have always said, "Whenever that road is built, we will build it."

The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Scrofula, Rheumatism, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetter—in fact the majority of human ailments—are caused by poisons or humors that are engendered and fostered in a sluggish and impoverished blood. Old sores, chronic ulcers and rheumatic pains are common, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as ulcers, tumors, itching eruptions, muscular or bone pains, require a tonic and blood purifier such as S. S. S., which not only antidotes and neutralizes blood poisons and humors, but possesses health-giving tonic properties that no other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system everything of a poisonous character or that obstructs and clogs the circulation. It builds up and imparts new strength and vitality to the old innutritious blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

The Blood is the Source of All Strength

Polluted Blood Breeds Disease

S. S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to send you our book free, and if in need of medical advice write our physicians all about your case; this information will cost you nothing and comes from experienced and educated doctors. All correspondence is conducted in strictest confidence. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

SPIKE AND RAIL.

Col. Dodge went East last night on No. 4.

General Agent W. E. Coman of the Oregon Short Line is in Idaho on a wool expedition.

John Q. Critchlow, ex-Auditor of the Utah & Pacific, leaves for New York on Monday.

Owing to the blizzard in Colorado yesterday, No. 1 Rio Grande Western came in in two sections today, five hours late.

General Manager Bateman of the Salt Lake & Los Angeles is overhauling the track prior to the opening of the lake season next month.

Samuel Stark and his assistant, Geo. Fairbanks, are having their hands full down at Uvada operating the wires at that end of the line.

All lines into Salt Lake will put reduced rates into effect on the occasion of the funeral of the late President George Q. Cannon.

Butte Intermountain: Prince H. M. Cushing of Salt Lake, traveling passenger agent of the Denver & Rio Grande, in town. He is making a tour of the entire State in the interest of the line he represents.

A big rockslide came down in the Black canyon of the Gunnison yesterday, a few miles west of Sapinero, and covered about 600 feet of Denver & Rio Grande track. Passenger trains were delayed several hours while the track was being cleared.

The Oregon Short Line yesterday hauled a special train of Alberta, Canada, homeseekers north. Among those who were on board with their families were Ole Ellingson, formerly cashier of the Lehi bank; R. W. Bradshaw, William Hindly, Eugene Bushman, Joseph R. Smuin, John S. Taylor, Alfred Gurney, D. W. Thomas, Berg Ellingson, F. M. Cook and a number of others. All of them are experienced stockraisers.

A new type of locomotive on the Chicago, Rock Island & Pacific last week made a record-breaking run, hauling seven cars. It is 182 miles from Davenport to Chicago, and it was covered in two hours and twenty minutes. The first 119 miles was run in 122 minutes, making two stops. There were several bursts of speed when several consecutive miles were covered at a speed of eighty-five miles an hour.

Ogden is getting real cross whenever the Southern Pacific cut-off to Salt Lake is mentioned. On the other hand the residents in this city hail the proposed move with demonstrations of delight, while the more conservative element here says that if Mr. Herriman says that the Southern Pacific will make Salt Lake its eastern terminus in Utah that the road will come irrespective of any action on the part of the citizens.

A CORNER IN ERMINE.

The peeresses who did not possess "robes" for the state opening of parliament felt some consternation at the costliness of these necessary appendages, for ermine, says the London Express, besides being very expensive, is one of those which suffer most from the ravages of "moth." The ermine-lined cloaks are calculated to cost £500 at the very least, that which regulation requires a duchess to appear in being nearly as long as a court train, so that if the rumored corner in ermine comes off there will be a heavy drain upon "pin money" this year.

MEETING AT DELMONTE.

Important Gathering of General Passenger Agt's Scheduled for Monday.

San Francisco, April 12.—Railroad business of great importance will be transacted at the transcontinental passenger association meeting that opens at Delmonte next Monday. A large number of delegates now on their way from the east to attend the convention will arrive in Los Angeles today. They will leave Southern California Monday morning in a special train and go direct to Monterey.

Among the subjects on the program for fixing of rates at this meeting are the general convention of the Episcopal church, which will be held in this city in October; the Biennial meeting of the Knights of Pythias to be held in San Francisco in 1902; the general assembly of the Presbyterian church, to be held in Los Angeles in May, 1902; the convention of the federation of women's clubs to take place in Los Angeles in 1902; the convention of the Baptist Young People's Union, to be held in Chicago in July of this year; the Thirty-ninth annual encampment of the Grand Army of the Republic in Cleveland in September, 1901, the National Irrigation congress at Colorado Springs July 12 and 13 of this year; the national convention of the Travelers' Protective association at Portland, Ore., 1902.

WALKER'S SUDDEN DEATH.

Chairman of the Atchison, Topeka & Santa Fe Dies of Heart Disease.

New York, April 12.—Chairman Walker, of the Atchison, Topeka, & Santa Fe railroad, died suddenly at his home in this city today of heart disease. His death came as a surprise. He had not been feeling well for the past two weeks but was not so ill as to create any concern among his friends and family. He was to have sailed for Europe today and all arrangements had been made for his departure. Mr. Walker leaves a widow and two children.

Aldace F. Walker was born in West Rutland, Vermont, in 1842. He was educated at Middlesburg, Vermont, college, and at the Columbia law school, after which he served with the New York volunteers in the civil war, advancing to the rank of lieutenant colonel. After the war, Mr. Walker practiced law in New York from 1867 to 1874, when he removed to Rutland, Vermont. In 1882, he was elected a state senator in Vermont and from 1887 to 1889 he served as a member of the Inter-States Commerce commission. On leaving the Inter-State Commerce commission, Mr. Walker became chairman of the Western Traffic association. His connection with the Atchison, Topeka & Santa Fe railroad began in 1894, when he was appointed receiver of the company's property. After the re-organization Mr. Walker was made chairman of the board of directors and he retained this position up to the time of his death.

Minimum Weights.

The Union Pacific announces that on and after April 23 the minimum weight on all commodities moving to Utah, covered by the Transmississippi tariff, will be 30,000 pounds instead of 24,000, as heretofore.

Fast Run.

General Agent Kooser of the Missouri Pacific received advice this morning to the effect that the 17 cars of cattle consigned by Tallman & Elwood from Montpelier, Ida., to Kansas City, had arrived at their destination. The run between Pueblo and Kansas City, including a stop to feed at Council Grove, Kans., was made in the remarkable good time of inside of twenty-four hours.

Nerves Need Fuel

To feed the vital fires or they lose the power to regulate and control the body. Unnatural stimulants won't do. Like an air blast on dying embers they cause a sudden flash of heat—then all is dead. Give the nerves plenty of fuel, and the worry and fretting, the headaches, the nervousness, loss of sleep, deranged digestion, neuralgia, rheumatism and heart troubles, that burn up the brain substance and destroy the nerve-force, will disappear forever. Don't wait till the fires are burned out. Begin now.

"I was so nervous and restless that I could get little sleep, and the headaches were something dreadful. Pains would start in the temples and travel down the chords at the back of my neck to chest and arms. Doctors gave no relief, but Dr. Miles' Nervine cured me."
MRS. A. H. WIEMAN, German Valley, Ills.

Dr. Miles' Nervine

creates a good appetite, stimulates digestion, quiets nervous irritation, gives refreshing sleep and sends plenty of fresh blood to the furnaces of the brain and nerves.

Sold by druggists on guarantee. DR. MILES MEDICAL CO., Elkhart, Ind

A Baby's Birth

is very much like the blossoming of a flower. Its beauty and perfection depends entirely upon the care bestowed upon its parent. Expectant mothers should have the tenderest care. They should be spared all worry and anxiety. They should eat plenty of good nourishing food and take gentle exercises. This will go a long way toward preserving their health and their beauty as well as that of the little one to come. But to be absolutely sure of a short and painless labor they should use

Mother's Friend

regularly during the months of gestation. This is a simple liniment, which is to be applied externally. It gives strength and vigor to the muscles and prevents all of the discomforts of pregnancy, which women used to think were absolutely necessary. When Mother's Friend is used there is no danger whatever.

Get Mother's Friend at the drug store, $1 per bottle.

AGED WOMAN COMMITS SUICIDE

Mrs. Singleton Ferguson of Eureka Jumps In a Well.

WAS SLIGHTLY DEMENTED.

Her Trouble is Said to Have Been Brought Through Worrying Over the Death of Her Husband.

Eureka, Utah, April 12.—Mrs. Singleton Ferguson, aged about 60 years, killed herself by jumping in a well at her home here last night. At intervals during the past year Mrs. Ferguson has been slightly demented which was said to have been brought on through worrying over the death of her husband. As soon as she was missed from her home, a search was began and Sheriff Cronin and others were out all night looking for the aged woman. At first it was thought that she had wandered into the mountains around the camp, but the searching parties failed to discover any trace of her until at an early hour this morning when the finding of some of her wearing apparel led them to look into the well which is near the house and at about 6 o'clock this morning her dead body was taken out of the well. The well is about forty-five feet deep and contained something like five feet of water. From the position of the body when found it would appear that Mrs. Ferguson had jumped into the well headforemost. All indications point to suicide and it was not considered necessary to hold an inquest over the remains. The fall was so great as to cause death had there been no water in the well. It is supposed that Mrs. Ferguson took her own life at about 9 o'clock last night but it was not until this morning that the body was removed. She has several grown children who are well known and quite popular.

PEOPLE WHO ARE PASSING

W. H. Remington is in Salt Lake from Tacoma and the Northwest. He reports Washington and Oregon to be in a very prosperous condition and says that Tacoma is rapidly coming to the front in the matter of foreign commerce. He thinks that city is second only to San Francisco in its imports and exports. Mr. Remington is much gratified at the success he has met with in his mining operations in eastern Oregon.

County Commissioner Edward Dalton of Tooele is a guest at the Walker House.

Mining Engineer R. M. Pope, of Vernal was in the city yesterday and left last night for New York.

PERSONALS.

Bishop Abiel Leonard left last evening for Colorado. He will be gone four or five weeks and while in Colorado will assist the bishop of that State, who has been ill, to straighten out the church affairs that accumulated during his illness.

P. J. Moran leaves tomorow for San Francisco. He will be there about ten days on business.

Rev. Dr. David Utter of Denver and formerly of the Unitarian church in this city, will arrive in Salt Lake tomorrow. He will address the Unitarians at the Theater on Sunday morning.

Tavner B. Laymon, formerly steward of the Knutsford hotel, has returned from Ohio. While there he studied law and was admitted to the bar. He has opened an office in the Auerbach building and will practice his profession in Salt Lake.

Springville Independent: A. T. Ogren, representing R. L. Polk & Co., the Salt Lake directory publishers, was here this week listing the inhabitants. Mr. Ogren and the editor of this paper were known to each other in the east during a certain portion of the misty past, and have renewed their friendship. When the directory man shows up at the judgment seat of heaven, he will be asked why he taught the editor to smoke tobacco.

Payson Globe-Header: Miss Mina Walser, of Colonia Juarez, Mexico, arrived in our city last Thursday morning. She came up here for the purpose of studying music. The young lady has considerable ability in this direction and with study will no doubt make rapid advancement. She will study with Prof. McClellan at Salt Lake.

Boxelder News: William Glasmann, editor of the Ogden Standard, has gone east to look up a market for onyx. There is quite an interest being taken in Utah onyx, and that about fifteen miles southeast of this city has been tested by the United States government chemist who reports it up to the required test and satisfactory. As there is considerable onyx in the vicinity of this city, the movement will be of interest here.

Lehi Banner: The many friends of Mr. Charles Orhan will be sorry to learn he is at the Holy Cross hospital of Salt Lake. Sometime ago he wrenched his side from which he has suffered more or less ever since and it was now thought advisable for him to go and have the injured part attended to. He may have to undergo an operation.

Oneida County Republican (Preston, Ida.): Bert Benzon, a young man of 28 years, and a resident of Salt Lake, died suddenly at the home of his mother, Mrs. J. H. Tippets, of this place, last Saturday evening about 8 o'clock. He came up from the city about a week ago, and seemed to be ailing slightly, with a cold. The funeral services were held in the meeting house Monday. The speakers were J. G. Nelson, Junius Jensen, G. H. Carver and H. S. Geddes.

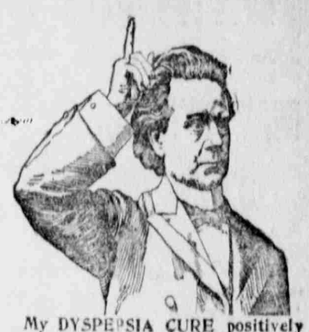
Logan Journal: Mrs. Moses Thatcher came up from Salt Lake yesterday morning. She is the guest of Mrs. S. A. Langton, who has been quite ill the past four weeks, but who is now improving.

Pocatello Tribune: Postmaster Ball is in receipt of a letter from Naples, N. Y., from two widows, one young, the other old enough to know better. The sweet young thing evidently wrote the letter and explains that she and her friend, who is 45, "think a wild life would just suit them" and consequently want to come to Pocatello when the reservation opens. The special request is that they be furnished with some reliable correspondents. Gentlemen who enter into the spirit of the thing can get the names from Mr. Ball.

Boxelder News: J. Y. Rich was in Salt Lake City last Friday and states he had a long talk with Banker J. E. Dooly concerning a canal on the east side of Bear river. He says Mr. Dooly is quite interested in the proposition and requested Mr. Rich to furnish him with all the information possible as to the number of acres that could be irrigated, etc., and the probability of the people purchasing water rights. Mr. Rich is interesting himself in the matter and believes there is a chance for the canal to be built.

Mrs. and Miss O'Brien, of Butte, are guests at the Knutsford.

DYSPEPSIA



My DYSPEPSIA CURE positively cures all forms of indigestion or stomach trouble. It rejuvenates worn-out stomachs. It builds up stomachs that have been weakened by powerful cathartics and old-fashioned nostrums.

Munyon's Dyspepsia Cure corrects bloating of the stomach, palpitation of the heart, shortness of breath, and all affections of the heart caused by indigestion, wind on the stomach, belching wind or sour food, bad taste, offensive breath, loss of appetite, faintness or weakness of the stomach, improper circulation, coated tongue, heart-burn or water-brash.

His Headache Cure stops headache in 3 minutes.

Munyon's Pile Ointment cures all forms of piles.

Munyon's Blood Cure corrects all blood impurities.

Munyon's Liver Cure corrects headache, biliousness, jaundice, constipation and all liver diseases.

Munyon's Female Remedies are a boon to women.

Munyon's Asthma Cure and Herbs are guaranteed to relieve asthma in three minutes and cure in five days.

Munyon's Catarrh Remedies never fail.

Munyon's Vitalizer restores lost powers to weak men. Price, $1.
