JAPANESE ATTACK ON PORT ARTHUR.

Gen. Stoessel Says That They Were Repulsed With Enormous Loss.

THE JAPS PRAISE KUROPATKIN.

For Manner in Which He Extricated His Army From the Liao Tung Peninsula.

St. Petersburg, Aug. 7.—Lieut.-Gen. Stoessel, commanding the Russian military forces at Port Arthur, in an undated dispatch to the emperor says: "I am happy to report that the troops repulsed all the Japanese attacks of July 26, 27 and 28 with enormous losses. The garrison's enthusiasm was extraordinary. The fleet assisted in the defense of bombarding the Japanese flank.

"Our losses during the three days' fighting were about 1,500 and 40 officers killed or wounded. According to statements of Chinese and prisoners the Japanese lost as many as 10,000. Their losses were so great that the enemy has not had time to remove the dead and wounded."

Gen. Kuripatkin in a telegram to the emperor dated Aug. 6 reports a reconnaissance on Aug. 5 on the south front in the direction of the Japanese positions. The Russians set fire to the village of Henchuan Tsa, 13 miles northeast of Newchwang, from which place a small force of Japanese fled precipitately, leaving their transport animal. The report give details of other skirmishes and concludes with the statement that there is no change on the east front of the army.

JAPS PRAISE KUROPATKIN.

Tokio, Aug. 7.—Gen. Kuropatkin's success in extricating his army from the Liao Tung peninsula without disaster has elicited much praise from the Japanese. The concentrattion of his army at Kai Chou at one time seemed certain to involve it in disaster. It was popularly believed that a general and decisive battle would be fought either at Ta Tche Kiao or at Hai Cheng. It is considered here that Kuropatkin sacrificed his prestige by abandoning an immense territory without a battle. He was forced to abandon or destroy valuable stores and munitions of war when transportation was the most serious problem to the Russians. He also impaired the morale of his army, but he preserved his men and guns. It is evident that he had hoped and planned to check the Japanese at Ta Tche Kiao. Then, after holding the enemy in check, it is believed to have been his purpose to concentrate his remaining force at Liao Yang and to strike Kuroki.

The unexpected loss of the Russian left at Ta Tche Kiao and the appearance of the Japanese Takushan army on the flank forced the abandonment and surrender, without a fight, of Yinkow, Hai Cheng and Newchwang. It is generally believed that the crisis will come shortly at Liao Yang, and that Kuropatkin will be forced to give battle, whatever his present purpose may be. Gen. Oku's and the Takushan armies are pressing northward and Gen. Kuroki is close at hand, ready to take any part necessary in the general Japanese play.

The possession of Yinkow (the port of Newchwang) has enormously simplified the transportation problem for the Japanese. It gives their two armies a freedom of movement which they have heretofore not possessed. The Japanese are speedily repairing the railroad, which the Russians railed to seriously damage in their hasty retreat.

SOME RUSSIAN SUCCESSES.

St. Petersburg, Aug. 8, 2:15 a. m.—An official report from Lieut.-Gen. Stoessel, commanding the military forces at Port Arthur, says that the Japanese were repulsed with tremendous losses in a three-day fight from July 26 to July 28.

Gen. Kuropatkin reports some Russian successes in outpost fighting to Aug. 5 without the expected great battle having opened.

The simultaneous receipt of favorable news from these commanders in the far east raised the spirits of those in the Russian capital immensely. The dispatches were printed in special newspaper bulletins and were eagerly bought up on the street. The newsboys around the depots met the strong crowds of Sunday pleasure seekers and shouted their wares without being reproved by the police and thousands of St. Petersburgers went to their homes tonight apparently satisfied that a favorable turn of affairs had commenced at the front.

Gen. Stoessel's dispatch, though 10 days old, is taken as a satisfactory refutation of the recently repeated rumors of the fall of Port Arthur. He states that the determined Japanese assaults were repulsed with tremendous losses and figures 10,000 as the number of Japanese killed or wounded. This is admittedly on Chinese information which heretofore has proved of exceedingly doubtful value. But with Russian losses of 1,500 as a basis, the authorities here consider that 10,000 is a fairly conservative estimate since the Japanese were beaten off in what must have been a desperate assault on tremendously strong fortifications. The fact that the Japanese were not able to remove their dead and wounded is taken to prove that their defeat must have been one of great severity.

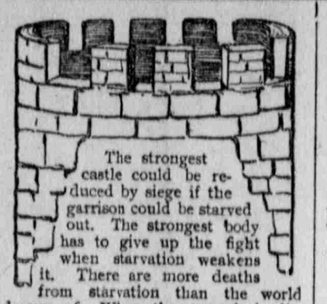
The part played by the fleet bears out the prediction of the Associated Press that Rear Admiral Withoft is able to render efficient support to the garrison. It is considered significant that no mention is made of Vice Admiral Togo, indicating that the Japanese fleet is impotent to aid friend or injure foe. Possibly the bulk of the fleet has been detached for other service, though this would not be likely at a time when a serious land assault on the fortress was contemplated.

The authorities do not divulge the source of Gen. Stoessel's report, though it is understood that it came by way of Chefoo. The fact that the Japanese are in possession of the country as far north as Hai Cheng renders it unlikely that it came by the land route.

Gen. Kuropatkin's report states that the Japanese are stationary on his eastern front, the greatest activity being on the south and southeast positions, where the Russians are able to take the offensive. While the movements in themselves are apparently of no great importance they are interesting as showing that the Japanese are still halting before undertaking the serious task of attacking Liao Yang with its strong circle of defenses.

AN EVENTFUL WEEK.

Liao Yang, Aug. 7.—The past week has been a most dramatic and eventful one. The Japanese intend to follow up the Russians and to gain ground east and south by an attack on Anshanshan (midway between Haicheng and Liao Yang). It is reported that the Japanese are advancing on the west, and exciting rumors are current.



The strongest castle could be reduced by siege if the garrison could be starved out. The strongest body has to give up the fight when starvation weakens it. There are more deaths from starvation than the world dreams of. When the stomach is diseased and the food eaten is not digested and assimilated, then the strength of the body begins to fail because of lack of nutrition, and the weak body falls an easy victim to the microbes of disease.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores physical strength in the only possible way, by enabling the assimilation of the nutrition contained in food.

"I was sick for over three years with a complication of stomach troubles," writes Mr. John H. Castona, residing at 2942 Arch St., Chicago, Illinois. "Had tried every good physican I knew of, as well as many patent medicines, but received only temporary relief. One day a friend recommended your 'Golden Medical Discovery.' I immediately procured some and began its use. Commenced to gain the first week, and after I had taken only one bottle I could eat as well as any one without experiencing ill effects. I took five bottles, and to-day am happy to announce that I am as well and healthy as any one could be. I owe it all to Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains. You lose. Therefore accept no substitute for "Golden Medical Discovery."

FREE, Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send twenty-one one-cent stamps for the book in paper covers, or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Though apparently beaten at every point, and though the Japanese have advanced well on the Russian flank, the Russians, in council of war, have determined to defend all their positions as heretofore. All the foreign attaches and newspaper correspondents are hurrying to the lines.

Russians Again Retiring.

Gen. Kuroki's Headquarters in the Field, via Fushan, Aug. 7. (Delayed in transmission).—The Russian forces in front of Gen. Kuroki's army are reported retreating northward. A part of it has encamped at Anping, 12 miles from Liao Yang. Guns were heard this morning on the Japanese right, meaning that possibly the Japanese are following the Russian retirement. In connection with the death of Lieut.-Gen. Count Keller, killed by shrapnel on July 29, while watching the battle at Yangse pass from a battery position above Maowan, the Chinese living there say that the Russians removed two coffins from that place wtih great ceremony.

Forest Fires in Washington.

Portland, Or., Aug. 7.—Green timber is on fire back of Oak Point, Wash., eight miles distant from the Columbia river, in a tract of 20,000 acres. Three hundred men have been fighting for two days, and the last report received from there last night indicates that the fire is not under control.

The timber threatened belongs to the Benson Logging & Timber company, and immediately back of it lie the immense holdings of the Wyerhauser company of St Paul, Minn. If the fire gets away from the loggers now fighting it, the whole timber tract is likely to burn.

All western and southern Oregon is suffering more or less from the scorge of forest fires. The biggest in southern Oregon is between Woodville and Gold Hill, in Josephine county, almost on the Josephine county line. This is back in the hills and little is known of its extent.

Filipinos to Visit the President.

St. Louis, Aug. 7.—In response to a telegram from Col. Edwards, chief of the bureau of insular affairs, saying that President Roosevelt would be pleased to receive some of the head people of the Filipino tribes at the exposition, Fred Lewis, manager of the Moro village, and T. K. Hunt, in charge of the Igorrote village, left tonight for Washington with eight of the natives.

Will Pledge Opium Revenues.

London, Aug. 8.—The Pekin correspondent of the Times, in a dispatch referring to the question of the improvement with the financial assistance of China of the Whamgphu river, on which Shanghai is situated, says that the foreign office has notified Mr. Conger, the American minister, that China will pledge the opium and inland revenues of the province of Szechuan, yielding 400,000 taels annually, and the opium revenues of the prefecture of Suchau, yielding 200,000 taels annually, at the same time agreeing that these revenues shall not be pledged to any other service whatever. Ministr Conger has referred the matter to the state department at Washington.

SWIMMERS WENT INSANE.

Attempted to Swim from Brooklyn Bridge to Coney Island.

New York, Aug. 7.—Clifford R. Baxter, a civil engineer, and Capt John Enright of the South Beach life saving station, started in a swimming contest from Brooklyn bridge to the iron pier at Coney Island today and were both taken out of the water temporarily crazed after swimming for seven hours and when within a mile of their goal. The distance is estimated at 13 and one-half miles.

Baxter passed Enright at Norton's Point when both men were nearly exhausted. Enright soon afterward declared that someone was holding him back and began to rave. He was taken from the water. A brother of Enright, seeing that Baxter might finish, became excited and jumped overboard. He caught Baxter and Baxter's crew fought him off with an oar. By this time Baxter developed a delusion that a devil fish was towing him and that he was starving to death and his friends dragged him from the water.

WIRELESS TELEGRAPHY.

Is the Result of Prolonged Study and Deep Research.

Marconi—the wireless wizard—did not stumble accidentally upon the principles of his marvelous invention.

It was only by deep and prolonged study of the cause of certain known phenomena in nature that he was able to produce the startling effect.

Many people, in speaking of Hair Restorers, have a way of bunching them altogether without discrimination.

Herpicide is as different from other so-called "hair restorers" and "remedies" as day is from night.

It is a scientific preparation prepared for the sole purpose of destroying the scalp microbe that causes dandruff and falling hair.

BRITISH VESSEL HAD CONTRABAND.

Evidence Against the Knight Commander on This Point Quite Conclusive.

THE CAPTAIN SIMPLY LIED.

Said He Didn't Know it and His Own Letter Copying Book Showed That He Did.

Vladivostok, Aug. 7.—The evidence on which the British steamer Knight Commander, sunk by the Vladivostok squadron, was condemned by the prize court was contained in a letter copying book taken from a press in the captain's cabin by Midshipman Baron Ert, after the officers and crew had left the vessel. This book was not delivered when the captain surrendered the other documents, and it proved conclusively to the Russians that the cargo of railway material carried by the Knight Commander was destined for Chemulpo and not for private firms in Japan.

Before the prize court the captain was not compelled to take an oath, the president of the court saying that he would accept his word of honor as a gentleman.

The captain testified that neither he nor the owners of the Knight Commander knew that the cargo was contraband and that they believed it was not destined to be used as war material.

He was then confronted with his own letter book and was dazed for a moment. He then exclaimed: "Heavens, I thought that book was at the bottom of the sea."

The Knight Commander was promptly condemned.

WHY HE WAS SUNK.

St. Petersburg, Aug. 7.—The official account of the sinking of the British steamer Knight Commander by the Vladivostok squadron says that a Russian cruiser fired two blank shots at her at a distance of two miles. Instead of stopping, the vessel steamed at full speed towards the gulf of Tokio, and only heaved to at a second shell, having in the meantime hoisted the British flag.

The visit to the vessel, the official account says, showed that the captain had neither charter nor manifest, but certified copies of these documents presented by the captain showed that his cargo was destined for Kobe and Yokohama. It was established that the vessel was chartered in the United States to sail for Japan with raw material and machinery, which is contraband, and the vessel was therefore liable to confiscation.

The proximity of a Japanese port, the lack of coal on board the Knight Commander to carry her to a Russian port, and the impossibility of coaling from a Russian cruiser owing to the high sea running, obliged the Russian commander to sink the vessel.

The members of the crew were taken to Vladivostok as passengers and not as prisoners. They were granted perfect liberty and every possible assistance was given them. They were also invited to attend the sittings of the prize court, although there was no obligation on their part to do so.

Porte Accepts Notification.

Constantinople, Aug. 7.—The porte has practically accepted the verbal notification made Saturday by the Russian ambassador, M. Zinavieff, of the impending passage of the Dardanelles by some vessels of the volunteer fleet laden with coal. This notification was accompanied by assurance that the vessels would preserve the character of merchantmen throughout the voyage.

To avoid difficulty, it also included a textual reproduction of the Russian declaration in the official note addressed to the Russian embassy.

Homesteaders Lining Up.

Devil's Lake, N. D., Aug. 7.—The line-up of the prospective homesteaders for registration in the land lottery began this afternoon, a great number forming in line, although the filing does not begin until tomorrow morning. Much excitement attended the lineup. Many gamblers and grafters are here and the police department has been largely increased.

Big Lake Freighter Sunk.

Detroit, Mich., Aug. 7.—The freighter City of Berlin, with about 3,000 tons of iron on board, collided with an unknown boat in the Detroit river, north of Belle Isle, tonight and sank. The crew was rescued.

Not Sounding the Powers.

Washington, Aug. 7.—The statement was made tonight in high official quarters that, contrary to the reports from abroad, the United States has not been sounding the European governments with a view to ascertaining their views of what should be considered contraband in the present struggle between Russia and Japan. This government is determining for itself what classes of merchandise it considers contraband, without suggestions from any other power, and when a decision has been reached its attitude on the subject will be made public.

A MESSAGE TO GARCIA.

Capt. Rowan, Man Who Carried It, Married.

San Francisco, Aug. 7.—Capt. and Rev. S. Rowan, United States army, and Mrs. Josephine De Greayer were married in this city today. Capt. Rowan is best known as "The man who carried the message to Garcia."

New York's Healthy Summer.

New York, Aug. 8.—Records of the board of health and of Bellevue hospital indicate that this city is having the healthiest summer season in 10 years. Favorable weather conditions are admitted to have figured largely in the returns. Thus far there has not been a single case of heat prostration in Bellevue, excepting four alcoholic patients. There has been comparatively little sickness among the babies of the tenements and the mortality among infants is much lower than in previous years. There have been no epidemics of fever or contagious diseases and cases of smallpox, scarlet fever, diphtheria and typhoid have been few and scattered.

TWO LIVES LOST.

Through Cloudburst Near Trinidad, Colorado.

Trinidad, Colo., Aug. 7.—A cloudburst in Fisher canyon, three miles north of here, tonight caused the loss of two lives and flooded mines and other property in and adjacent to the canyon. William Haigh, general manager of the Trinidad Coal company, which owns several mines in Fisher canyon, his son, George Haigh, and an employe named William Richardson, while driving up Fisher canyon, were caught in the flood caused by the cloudburst. William Haigh and Richardson were drowned. George Haigh was thrown upon a rock by the force of the torrent, where he clung until rescued. The body of William Haigh was recovered five miles from weher he drowned.

A heavy rain is reported to have fallen north of here. Two bridges on the Santa Fe road near El Moro were washed out and traffic will be delayed on that road for some time. The California Limited of the Santa Fe, which arrived here 40 hours late by reason of the floods in Arizona, started north tonight over the Rio Grande tracks. It is reported that bridges and roadbeds of the Colorado & Southern have been damaged also.

Pueblo Colo., Aug. 7.—Pueblo and vicinity were visited by one of the worst electric and rainstorms the city has experienced for many years. The rain began falling after 6 o'clock and continued for about an hour. During the storms the streets were flooded and rendered impassable.

A DARING ESCAPE.

Two Horse Thieves Break Out of Oregon Jail.

Ontario, Or., Aug. 7.—Bob Hess and Ed. Chester, the two prisoners conconfined in the Malheur county jail for horse stealing at Vale, made a daring escape at 6 o'clock this morning.

Deputy Sheriff Thomas was giving them their breakfast when he was seized, bound and gagged and locked in a cell. Then the men secured arms and horses and started for the hills.

Vale is a small town of about 300 inhabitants and but few people were astir at the time of the escape and it was two hours before the citizens became aware of what had transpired. A party was then organized and started in pursuit.

Hess and Chester were recently arrested on the charge of horse stealing. They had seventeen stolen horses in their possession when arrested. Previous to that they attempted to ship two stolen horses from Parma, Ida. Both are desperate characters and will resist arrest if overtaken.

SMUGGLED CHINESE.

Sealed in Box Car for Seven Days, Four Without Water.

Los Angeles, Aug. 7.—Six Chinese were taken from a box car that had just arrived over the Southern Pacific today in a pitiable condition, having been sealed up in their prison at Juarez, Mexico, in order to smuggle themselves into the United States. For seven days they lay in a car filled with merchandise, four days without water and food. In their ignorance and fear of being discovered and arrested the unfortunate men suffered the tortures of thirst and the pangs of hunger without making outcry. When they were discovered today and taken out they were in a state of complete physical exhaustion and almost unable to stand. The Chinese say they were placed in the car by an employe of the Mexican National railroad at Juarez, in consideration of $25.

When in St. Louis

see the Grand Trunk exhibit in the Forestry, Fish and Game Building and get from attendant illustrated literature describing the finest summer resort regions on the American continent, all of which are most conveniently reached by the new Grand Trunk-Illinois Central through car line from St. Louis to Montreal.

SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run-down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep.

S. S. S. improves the appetite and digestion, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, shortness of breath, drowsiness and dizziness that so often come after eating. S. S. S. is not only the best tonic, but possesses alterative or purifying properties, and if there is any taint, humor or poison in the blood, it searches it out and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by such a remedy as S. S. S.

I have used S. S. S. and found it to be an excellent blood purifier and tonic. My system became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in a bad shape. Seeing S. S. S. advertised I began its use, and am well pleased with the results after using it for some little while. From 139 pounds to 165 is pretty good evidence of merit on the part of S. S. S. H. MARTIN. 50 Second St., Warren, Ohio.

If you suffer from debility, weakness, insomnia, nervousness, loss of appetite, bad digestion, or any of the miserable symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system and restore the health as S. S. S.
