The Twenty-second Ward Murder.—The inquest in the case of James Farrell, who was murdered in his stearty in Fortieth street, near Tenth avenue, on Monday night by assassins, John Fenwick, will be held this afternoon at the Station-House corner of Eighth avenue and Forty-eighth street. As far as known the wife of deceased was the only witness to the murder. Fitzpatrick is yet at large, all efforts to find him having thus far proved unavailing. Drs. Burton and Wehjie have made a post mortem examination of the body of deceased, and found several stabs in the left side and back. Two of them were mortal.

Front Bricklayers.—A meeting of the front bricklayers, S. H. Hopper in the chair, was held last evening, at Jackson Hall, corner of Greenwich avenue and Thirteenth street. This association claims to have organized in self-defense, to meet the action of the Bricklayers' Protective Union in refusing to allow their members to "back-up" or do the rough inside work, where any non-members are employed, even though such men are paid higher rates than the established scale of $2 per day. The front bricklayers do a good deal of "jumping," or piece-work, and say that they have plenty to do at from $2 to $2 50 per day and do not need a society like the Protective Union. Squads of a dozen or twenty sometimes leave a job in consequence of the presence of anti-Protective Union men, which, of course, stops the work, as the front wall cannot go on unless they are supported by the rough bricklayers.

Cold Weather on the Hudson—The Fruit Frost, and Snow.—A great change has taken place within the last four or five days in the weather on the Hudson River. On Tuesday and Friday it was very hot. On Saturday, about 11 o'clock, rain began to fall and in a short time the weather was so cold that a room was very uncomfortable without a fire. In this city, on Saturday, the thermometer stood at 83° at 3 o'clock, and was one of the hottest days this year. On Sunday night there was a frost up the River. It was slight and was felt only in the valleys. Monday and Tuesday the weather was again very fine, but yesterday another great change took place. Almost a gale was blowing the whole day, and the weather was very cold. Between 3 and 4 o'clock there was a slight fall of snow.

The Eighth Ward Murder—Continuation of the Inquest.—Coroner Schirmer, on Wednesday afternoon continued the inquest in the case of Richardson Gray, who was murdered in a fracas on Monday night in Clark street, near Dominick street. Charles Manhattan, the alleged murderer was present.

Thomas Slavin of No. 25 Clark street testified that about 10½ o'clock on Monday night he was sitting at his window with a brother of the prisoner and heard a noise below, they went down and saw deceased and prisoner standing on the sidewalk; deceased said to prisoner "you dared s—n of a b—, I can lick you, and a dozen like you"; prisoner said he did not want to hurt deceased then struck prisoner, saying, as he did so, "You s—of a b—, I'll lick you anyhow"; prisoner staggered under the blow and then started off to go up the alley but before he got there deceased caught hold of him and threw him upon the stoop; some one cried out "Give to him, Gray—the son of a b—cut him"; deceased then got on top of prisoner, when the latter cried out "I am stabbed"; deceased immediately got off of prisoner, and the latter got up and went into Mrs. Garvin's grocery store, near by; as soon as prisoner entered the grocery, witness went in after him, closed the door and stood with his back against it, witness tried to keep him in the store, but prisoner urged witness to let him and got to the street. I saw nothing further but a few moments after a colored boy told me that deceased had fallen down the area of a house in Dominick street. I, with others, raised him up, and I went for a physician, but on my return I learned that he was dead, and that his body had been taken away; while prisoner was in the store with me I did not observe him take the knife, and saw no knife in his hand while I was near him; he and deceased were the only ones engaged in the fight; while I was trying to keep prisoner in the store Mrs Garvin stood in the middle of the floor, but said nothing; the deceased was a constant visitor at Mrs. Garvin's house, where I lived; he used to visit two girls who were there, named Mary Ann Norton and Elizabeth Gwynn.

Bernard Manhattan, a brother of the accused was examined but had seen only the first part of the fight and had seen no knife in the hands of his brother.

Francis Dubois of No. 22 Clark street stated that he witnessed the first part of the fight, and saw Slavin, new present, run into the grocery store and come out with something in his hand, but what it was he does not know; he did not see Slavin strike any one; but saw him keep close to those who were fighting, and step back to the door of his father's house.

James Kennedy of No 68 Prince street testified that he witnessed the beginning of the fight, and saw deceased first strike prisoner, and also saw him strike Thomas Slavin; did not see a knife in the hands of either; saw what he took to be a stick in the hand of Slavin.

The testimony here closed and was submitted to the Jury, who after a deliberation of 15 minutes, returned the following verdict:

"That Richardson Gray came to his death by a stab with a sharp knife, at the hands of Charles Manhattan, on the morning of Sept 10 1860, and we further believe Thos. Slavin was an aider and abettor in the assault."

Upon the rendition of the verdict, the accused were examined and then committed to prison. Manhattan is a native of Ireland, 18 years of age, and a coach painter by trade. Slavin is 19 years of age, and also a native of Ireland. He sells soda water as a business. Both deny all knowledge of the stabbing. The deceased was a native of this city, 25 years of age.

Fire in Ann Street.—Shortly after 7 o'clock last night a fire occurred in the premises of Calvin E. Hull patent medicine dealer, on the second floor of the building Nos. 10 and 12 Ann street, adjoining Barnum's Museum, but being discovered at so early moment, the flames were soon extinguished, and the damage sustained was inconsiderable. About 8½ o'clock the same building was found to be on fire again, and an alarm was sounded a second time. The flames spread with great rapidity and over an hour elapsed before the firemen succeeded in mastering them. Apprehensions were at one time entertained for the safety of the Museum, but through the exertions of the firemen the fire was prevented from damaging that place of amusement. The following are the losses and insurances, as near as our reporter could ascertain them in the confusion of the moment:

The stock of Calvin E. Hull was damaged to the amount of $1,000. Fully insured in City Companies. Damage to stock of Bilton & Gallagher, printers, on the third floor, about $3 000. Insured. The stock of Dunham, Hilz & Johnstone, bookbinders, was damaged to the amount of $500. Insured for $1,000 in City Companies. Some books in their establishment, owned by Sheldon & Co., were damaged to the amount of $200. Insured for $300 in the Homestead Insurance Company. Damage to other books belonging to different parties awaiting binding, $1,000. Damage to stock of boots and shoes of H. B. Jones, on first floor, $2,000. Insured for $7,000 in the North American and Albany Insurance Company. The building owned by Mr. Gillet was damaged to the amount of $500. The stock of billiard tables and pianos in the adjoining building was damaged to the amount of $500.

Escape and Capture of a Convict.—On looking up the prison for the night at Sing Sing, a few nights since, a convict was missing; after a short time it was found that his name was Grant. A night watch was kept up all night, but he could not be found. The next morning a complaint was made to the Warden that the Matron's room had been entered and rushed during the night. On examination, a tobacco box and several other articles on sale owned by Green were recognized and no doubt existed as to who was the burglar. He entered the building for the purpose of obtaining clothing, as he well knew that he could not escape with the prison dress on. On the same morning information was given at the prison that a very suspicious looking character was lurking about Sparta, about a mile below the prison and Officers Leggett and Searles went down the road, intending to proceed as far as Kingsbridge as he would probably pass that way at night. The officers took the night train down, and when it stopped at Glenwood, a small station one mile below Yonkers, a man was seen dodging from one piece to another and appearing as if he wished to reach the rear end of the train without being seen and as the train moved off he sprang on the rear platform. Leggett, a spooring that the bird was caged went to the station and arrested him, when sure enough his was found to be the missing convict. He was sentenced to Sing Sing in 1855 for fifteen years, so that he had about ten to serve.

Shocking Affair—Two Brothers Drowned.—A melancholy accident occurred at South Glastonbury on Sunday, by which two young men named Foote were drowned. They went into the water to bathe, and, not returning home, a search was instituted which resulted in finding the bodies of the unfortunate young men some distance apart in Roaring Rock Thicket, named William, was 24 years of age, and the youngest 21. It is supposed the one of the brothers, unable to swim, had ventured too far, when the other attempted to save him, and thus both were drowned. An inquest was held upon the bodies, and a verdict of accidental death rendered.

A Child Drowned.—Coroner O'Keefe held an inquest on Wednesday upon the body of John Kenny, a child, 6 years of age, whose parents reside at No 203 State street, who was found drowned at the foot of Eleventh street. On Saturday deceased was sent on an errand, and was last seen alive following a funeral procession to the Tenth street ferry. He is supposed to have fallen overboard while at play. Verdict: "Death by drowning."

Wednesday, Sept. 12—P. M.

The stock market this morning opened with heaviness, and in some cases a small decline was established. As the call proceeded, however, there was more disposition shewn to buy, especially on buyers' options, and the market recovered what it had lost. The parties who have recently been prominent bears, appear generally to have become satisfied that the market, for the immediate future at least, is a rising one, and are disposed to close up rather than extend their short lines. Of the time sales to-day at the First Board, it is a noticeable feature that, while 2,400 shares are on sellers' options the tendency of the outside speculation is indicated by the taking of 6,000 shares of buyers' options. Central was quite active, and closed at 87 against 87¼ yesterday. It was better later in the day. Every car on the road is now employed to its full capacity. No sales were made of Pacific Mail. We can arrive at no confirmation of the rumor of settlement between Commodore Vanderbilt and Mr. Roberts. The Western shares were fairly active, and quotations generally were well sustained. The reports of large earnings for the first week of September tended to confirm the wavering in the great future of these works. Burlington was among the most buoyant of these stocks, and went to 91 under the immense increase of the first week, and the rumors of an October dividend. A sale of Cincinnati and Indianapolis was made at 49, which is better. After the Board the market in the street was very firm, and Rock Island sold at 80¼. Central at 87¼, &c. At the Second Board there was an unusual activity, and considerable excitement, with a general advance in rates. Central sold up to 80¼. Hudson River was in demand at 60¾. The earnings of this road, judging by the present rate of its, will show $30 000 increase in September. Erie was firm again, and sold at 29¾. The Southern issues were not active, but had an improving appearance. Toledo improved ¼ ₩ cent; Illinois Central ¼ ₩ cent, and Rock Island ¼ ₩ cent. In the street, after the regular session, the tendency was still upward, and in some cases higher quotations were established, and the market closed with great firmness. In State stocks there was a fair amount of business at previous rates. The West is still taking a large amount for banking purposes. Governments are dull in consequence of the impendency of the new loan. In railroad bonds the transactions reach $75 000, and the market has an upward movement. Illinois Central advanced to 99. A sale of Mississippi and Missouri Construction bonds were made at 69, an advance of 1 ₩ cent, and 68 was bid previously for a large amount. The second mortgage North-Western sold at 35¾, and 61¼ was bid for the Firsts. Michigan Southern Seconds sold at 66, which was bid at the close. The closing prices were: Tennessee 6s, 90¾@90⅞; Virginia 6s, 91¾@92; Missouri 6s, 81@81¼; Canton Co., 19¼@20; Pacific Mail, 82@81; New-York Central Railroad, 87¼@87¾; Erie Railroad, 29¾@30¼; Hudson River Railroad, 60¼@60¾; Harlem Railroad 17¾@18; Harlem Railroad Pref., 46¼@47¼; Reading Railroad, 47¼@47¾; Michigan Central Railroad, 71¼@71¾; Michigan Southern and Northern Indiana Railroad, 22¼@23¼; Michigan Southern and Northern Indiana Guaranteed, 46¼@47; Panama Railroad, 126@127; Illinois Central Railroad, 87¾@88, Galena and Chicago Railroad 79¾@79¾; Cleveland and Toledo Railroad, 47¼@47¾; Chicago and Rock Island Railroad, 80¼@80¾; Chicago, Burl. and Quincy Railroad, 91@91¼; Illinois Central 7s, 99@99¾.

The market is heavy for foreign bills, with a good many on side bills offering. Sterling is 108@109¼ for commercial, and 109¼@109¾ for banks and bankers. France are 5 15@5 13¾.

Freights to Liverpool: 30,000 bush. Wheat at 13d. in bags; 25 bbls. Tallow at 35s.; per steamer, 1,000 boxes Cheese at 70s., and 500 firkins Butter at 75s. To London: 300 bbls. Rosin at 3s 6d.; 200 bales Hops at 3s. 4d.; per steamer, 200 boxes Cheese at 65s. To Glasgow: 50 cs. Beef on private terms. A vessel of 150 tuns to St. Domingo and back for $1,400; one of 140 tuns to Jacksonville, and back with Lumber, at $1 050; and a vessel to Havana with Coal at $2 50 ₩ tun.

The business of the Sub-Treasury was: Receipts, $101,477 34—for Customs, $81,000; Payments, $151,163 09; Balance, $5,531,391 74.

The earnings of the Erie Railroad for the month of

August, 1860 were	$477,652 41
Earnings August 1859	378,544 74
Increase	$99,087 67

This is unexpectedly favorable for Erie. The increase is about $2 000 greater than that of the Central for the same month.

The earnings of the Illinois Central for the first week of September were as follows:

1860	$61 375 70
1859	52 213 14
Increase	9 152 56

The collections in the Land Department for the first week were $16,002 99, and the sales $25,379 94.

The traffic return of the Chicago and Rock Island Co. for the first week of September is as follows:

First week, 1860	$37 686
First week, 1859	26,784
Increase	$10,902

The Chicago, Burlington, and Quincy, we learn unofficially, gives a gain of $25,000 on the first week of September.

The Cincinnati and Indianapolis Railroad earned about $13,000 in the first week of September, which if continued for the remainder of the month, will $12 000 to $14 000 increase for September. At election held a few days ago, the following ticket Directors was unanimously elected: Wm. Dowson; Wm. A. Booth, New-York; T. A. Morris, Cleveland, Indianapolis; A. R. Forsyth, Greensburg; L. B. Lewis, Lawrenceburg; N. Wright, Samuel Wiggin, H. C. Lord, Cincinnati.

The August earnings of the Norwich and Worcester Railroad will probably show about $1,000 increase.

The August earnings of the Worcester and Nashua Railroad were over $2,000 more than in any previous month since the opening of the road. The statement is as follows:

At a meeting of the Directors of the Illinois Central Railroad Company, held to-day, the following resolution in regard to optional rights was adopted:

Resolved, That the holders of rights to subscribe to the stock of this Company at par, which expire February 20, 1861, may surrender the same to the Treasurer on or before the 1st day of December next and upon paying eighty dollars to the Treasurer upon one of every ten rights so surrended, he shall issue a scrip certificate for one share of the capital stock of the Company with eighty dollars paid thereon, and three rights to expire 20th February, 1862; three to expire 20th February 1863, and three to expire 20th February, 1864, for each ten rights so surrendered.

These rights to expire in February next, are now selling in London at about 3 per cent premium. This resolution extends nine-tenths of them, one, two and three years, giving the holder all the perspective advantages of that time without obliging him to take up the stock. There are 64 000 of these rights out, and the arrangement gives the Company $512,000 in money, or 6,400 shares with an interest until the commencement of dividends, and places their finances on velvet.

The steamer to-day took $350,000 in gold. The business of the Clearing-House was $21,317,000. The Phenix Fire Insurance Company of Brooklyn has declared a dividend of 8 ₩ cent, payable on demand. A. G. Jerome, D. H. Fitzhugh, jr., and James E. Jenkins, are the members of a new firm of Stock Brokers, under the style of Jerome, Fitzhugh & Co. The firm combines long experience in Wall street, with ample capital. Messrs. Cammann & Co. are paying the February coupons of the first mortgage bonds of the Toledo and Wabash Railroad Company. The supply of money continues abundant at 6@7 ₩ cent on call, and occasionally lower, and 6¼@7 ₩ cent on first-class paper. The banks are getting all the paper they want from their dealers at 7 ₩ cent. The Mint Star brings $500,000 in gold.

On Monday next the Stonington line of steamers will make Groton, Conn., the eastern terminus of the route, instead of Stoning on as at present. On Saturday the Plymouth Rock will make her last trip to Stonington, and on Monday will steam around to Groton, where a grand demonstration on the part of the citizens will take place. By the change to Groton the line will have the advantage of a more commodious harbor, and the running time between this city and Boston will be shortened nearly an hour.

The San Francisco Shipping List by the North Star says:

"There is no change in the rates of exchange, whether foreign or domestic. A good deal has been done in sterling and much more could be done but for the scarcity of tonnage to accommodate our grain shippers.

"Though the receipts of wild bulk in from the interior continue to present a fair average, there has seldom of late been a surplus of bulk remaining over steamer day. At present, the supply is light, and may prove inadequate. Engagements have been made for the ensuing steamer at 5@6 ₩ 100 lb fine par.

"In Mexican Dollars the transactions have been unimportant. Some small parcels have quitted hands at a shade under 6¼ ₩ cent, but any considerable lot might be quoted at that figure, or a shade more particularly if wanted near date of sailing of vessel. Funds for China are, however, taking the direction more and more of gold bars.

"Silver ore continues to arrive freely from the Carson Valley Mines, a portion of which, after having undergone the process of crushing, goes forward to the East, via Panama by every steamer. The Uncle Sam, on the 10th inst., took over 1,000 packages of this ore, valued in the aggregate at $61,741 85."

The receipts of grain at Toledo for the week ending Sept. 1, were as follows: Flour, 24,589 bbls.; Wheat, 358,686 bush.; Oats, 3,554 bush.; Rye, 1,160 bush. By teams not included. Last year the receipt of Breadstuffs at that city, estimated in bushels, a little exceeded seven million. This year it is believed they will be double that amount.

The Boston Post, in its weekly financial review, says:

"Money continues to be a trifle dearer in Wall street than in State street, on good business notes of the ordinary length, and as a matter of course all of the Boston paper that can be gathered is sent here for discount. But, some how or other, the amount so discounted has not yet been so considerable as to trouble this market. Nothing has even grown easier under the burden, the banks gaining coin, and New-York funds continuing in fair supply. At the banks there is very little business done at above six per cent. Few first class borrowers are yet willing to pay exchange on foreign paper. In fact, the supply of credit at the banks is good at six per cent.

"Outside the rates range from six per cent and a brokerage to seven per cent for strictly first class transactions. Loans on stocks run to 12 per cent and upward, according to the strength of the name and the collateral, but 8 or 9 per cent is a fair rate for a stock loan of good quality.

"As to the Boston Share market, it presents little of interest or novelty. Nearly all its speculative vigor finds, for the time, full occupation in New-York. Boston investors also have recently done something in Wall street. More than one thousand shares of Hudson River stock, for one item have been paid for since September 1 by Bostonians. The whole present Boston interest in this road alone must be very large."
