DON'T CALL THE KETTLE BLACK -YOU MAY BE A POT

against national preparedness offer- lightning." ed by the Rev. J. W. Speake of this tary program, outlined by the presi-

With reference to the debate in the Conference on the Speake resolution, promise of revolutionizing our navy, one of the Spartanburg papers makes the following summary of the pro-

A lively debate followed a resolution by J. W. Speake recomicending that the Conference take stand against the nation-wide propaganda now being made in the interest of preparedness for war and that Conference petition the president and members of Congress to oppose the proposed appropriation of \$5,000,000 within the next few years to place this nation on a war footing with other nations.

Dr. John O. Wilson said he hoped the resolution would not pass, declaring it to be a political question and, if passed, it might embarrass President V. IIson. He moved to lay the resolution on the table.

In defending the resolution, Mr. Speake said he had anticipated objection to the resolution. He believed, however, the time had come for religious bodies to lend their influence in the religious bodies to lend their influence in the religion of peace. Humanity demanded it, he spid. Great pressure is being brought to bear upon the president and those in authority by army and navy officials and by mentioners. manufacturers of munitions support of the propaganda and he thought it right that church todies should take a stand for peace in all the earth and good will toward men.

Mr. Wilson again spoke in opposition to the resolution, declar-ing there was too much Bryan-ism in it for him. He said he had the highest respect for Mr. as a Christian man, but politically would not follow him ten yards.

It is not our desire to engage in a controversy on the subject of preparedness, but we think it proper to protest against the attitude of paciworld and an army that is but little 000,000 to carry on the war. more than a joke. The attitude of the belohg to this class are jingo papers and their editors fingoes.

The pacificists would have the country believe that those favoring pre-financial powers, Great Britain and paredness are prompted by ulterlor Cermany. The last German loan of motives and that that portion of the \$3,007,000,000 was a record-breaker, press favoring such a program de- but both in amount and in spontauelty serves to be classed as "jingo." We of subscriptions the French have balleve that those who are opposed to nearly doubled it. Germany has raispreparedness ere weakening their ed altogether, in three war loans,

It is possible to hold debate upon question without either side pointing the finger of suspicion at the other. No doubt there are thousands of people throughout, the country who are neither army nor navy officials and who wouldn't know a muuitious factory were they to see one Within 10 days the Baptist hosts of who believe that this country should, many people no doubt who are conscientiously in favor of preparedness, and when the pacificists refuse to

weaken their position very materially. We have carefully refrained from committing ourselves one way or the They're taking copper off the church other on the question of preparedness re's nothing sacred any more but against the pscincists' attitude toward those who hold opinions contrary to theirs. Had those who favor preparedness charged the pacificists with Staats-Zeitung declares, that Great having ulterior motives, we would British wants to form at alliance have entered the same protest. There's with the Daited States, he isn't give no use calling each other "names" in ing away and state secret. And there is confroversy like this for that kind isn't a power in Europe—not except of discussion doesn't get one anying Germany—that wouldn't jump at where. Pacificists should give the abunce of an American alliance preparetness crowd credit for being

church in voting down the regolution with a pitcher of water to put out

Several months ago Mr. Ford came city, is causing no little comment in in for nation-wide commendation as dren through learning more common Anderson and no doubt throughout a figure who provided to work won- fractions and our crazy tables of the state. The question of prepared- ders with economic problems by the nots is a live subject throughout the way he decided to share the earnings country just now and it is likely that of his automobile business with those it will become more so following Pres- employed in his factories. But even the same old crazy system for maybe ident Wilson's message to Congress, then a great many people charac- a hundred years longer. a portion of which, we understand, terized him as a crank. Since that will deal with the proposed new mill- time Mr. Ford has done a number of other things that have kept him bedent in his recent address at the an- fore the public eye almost constantly. mual dinner of the Manhattan Club. At one time it was reported that he had invented a submarine that gave but something evidently went off halfcocked for we have never heard any more of Mr. Ford's "jitney submaine."

As we said, Mr. Ford at one time gave promise of mastering great economic problems and people began to look upon him as one of the coming men of the nation. However, no sooner had his scheme for the sharing of profits of his factory with his employees became known than all a finish. lilius of freak schemes began to be accredited to him. The latest of these a party composed of prominent Amerconfer with interested Europeans and the great conflict to a close. The whole scheme is so foolish one really Whitner. wonders what Mr. Ford could be thinking about to propose such a venture. We are not yet ready to charge that he is doing it for advertising purposes, for somehow we believe that the man is in earnest.

We would by far rather see Mr. Ford stick to the manufacture of autoinoofles and continue to devise plar. for sharing his huge carnings with those who toll for him, and spend less of his time dabbling with such things as that which is now engaging his attention and costing him a hage sum of money. He is throwing away a lot of perfectly good markey and making of a very likable and useful fellow an object to be ridiculed throughout his country and in Europe.

"THE LOAN OF VICTORY"

France has just added to her other bolieve it is unwise at this time for raising the greatest loan in history. the nation to rest contented with a and raising it with incredible ease. navy that is inferior to that of almost Within twenty-four hours the French any other first class nation of the people subscribed more than \$5,000,-

That is more than five times the pacificists toward those favoring a huge indemnity that Germany exactreaspnable degree of preparedness is al from France at the close of the this; the latter are army and naval France-Prussian war. It is more than officers and manufacturers of muni- the total cost of our civil war, and tions of war, and the newspapers who twice the cost of the Russo-Japanese

> It dwarfs, in comparison, the immense loans made by the other great contrary that this new French issue by the time the books are closed will have surpassed all three.

The last German loan was taken a proof of the faith of the German nathe is the triumph of the German army. What, then, shall be said of France today? This loan was dubbed b · 1) e government, "The Loan of Victory." and was taken by the people in the spirit of victory. It is the best evidence yet given to the strength of France in material recources and the indomitable spirit of the French people.

METRIC SYSTEM TO SAVE MONEY

A writer in the December Scientific American presents a staggering argument for the adoption of the metric system for general use in this coun-

ductive power of 1,500,000 carning hours a great deal as the holidays youths for two-thirds of a year is approach, as or maked with what \$75,000,000. The loss of earning power they would be if the shopping was not done early.

The merchants appreciate this shop early movement and now put their nation in making calculations in but these and industry by the present the present earlier than was once the custom. This seems to be a mighty good custom too, for although a person may \$10,000,000. For loss of time in make the buy an article now, each and

DESTROYING HIS USEFULNESS | ing cross reductions to and from one system to the other, \$5,000,000. Por A member of the American Peace loss of profit from foreign trade be-Society says of the Henry Ford cause we don't put out our goods in The action of the Upper South Car- "poace plan" that it is "about as metric units, \$20,000,000. Thus there olina Conference of the Methodist reasonable as going up in a balloon is a total annual loss of \$315,000,000.

Against this debit the writer sets one item of credit, as follows: "By culture (?) acquired by chil-

weights and measures -It's probably true, every word of it. And yet we'll keep right on using

DOPE

Weather Forecast-Fair Wednesday and Thursday; warmer on coast Thursday.

With Greenville street now open to traffic and the asphalt crew working on Manning street, the city paving crews can see the completion of their work in Anderson rapidly coming to

The work on Manning street will very probably be finished Friday and is his scheme for ending the war by the street will be thrown open to chartering a ship and journeying to traffic. From there the asphalt crew some neutral European country with will move to Earle street and then to East Market. By the time these icans, including suffragettes, who streets are completed West Whitner will be ready for them. The condevise ways and means of bringing crete crew is now engaged in putting down the concrete base on

> The track paying work on North Main street is going right ahead. Owing to the fact that this street is to be graded down, a great amount of dirt has to be moved before this to tuy it, they know exactly where to foundation for the rails can be plac-

Lawrence Orr, Jr, and that the other tion of the will provides that Dr. Mo-Calla's mother be paid \$2,000, provided she outlive him.

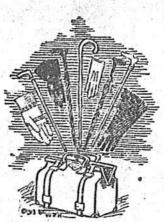

Mr. Newman Laser, manager of the Fraternal Union in the Southern states, is spending, a few days in here till Friday and is trying to inprospects.

November is gone, and December is here, which means that there are only 23 more shopping days before Christ mas. This means "skidoo" if you want to buy your Christmas goods before the rush. It seems that the days pass more quickly at this time than at any other part of the year (not meaning to the little folks of course) and before one realizes it, Christmas eve will be with us. . Never before in several years have

pride in arranging their wares for the Christmas shoppers. They rea- placed in the county jail until a train position when they cast aspersions about \$5,270,000,000, and it is possible lize that this is one of the best seasons this county has had in a long while, and they firmly believe that there is going to be a big business for somebody between now and Decamber 25. And all of them are right; there will be a good business to all of them who have the goods to sell. Although husiness has been good in the fact that nothing was said about Anderson this fall, the people have the prisoner being in Anderson. The not spent near the money that some local officers kept quiet also on this were expecting. One reason for this may be attributed to the fact that it was a late fall, and the majority of the people wait till the weather drives them to the stores.

The "shop early movement," is be coming more and more popular every year. The people are becoming educated in the movement, so to speak erd realize more and more each year what it means to all parties concern ed. To the purchaser it means that he or one will have this or that present pyrchased, and ready to give It costs us, he says, \$50,000,000 in one pyrchased, and ready to give to at one time was associated in busi-taxes to keep the nation's children in the friend on Christmas morning, or us a with Mr. Farmer.
