FAIRBANKS' BOOM DULY LAUNCHED

At the Biennial Love Feast of the Republicans of Indiana.

VERY STRONGLY ENDORSED.

Senator Beveridge, the Principal Speaker, Said Hoosier Delegations Would be for Him.

Indianapolis, Dec. 26.—Resolutions were adopted unanimously today at the biennial love feast of Indiana Republicans, urging the nomination of Vice President Charles W. Fairbanks for the presidency. The resolutions were introduced by Gov. J. Frank Hanly, and were adopted with a round of cheers by the thousand and more active party workers of the state who were present. The resolutions were as follows:

"We, the Republicans of the state of Indiana, in biennial love feast assembled, send greetings and felicitations to Charles W. Fairbanks, vice president of the United States, and turn to him for leadership in the pending presidential campaign. We have often trusted him, and have many times given him high commission.

"His clean life in public and in the home, his clearness of concept, his character, his courage and his great ability have long appealed to us.

"His love of the people, from whose loins he came, the faith he has for institutions and in the Republican principles, his ripe experience in public affairs, the support he has given President Roosevelt in the senate and in his present high office, and the memory of the confidence and affection in which the late President McKinley held him, lead us to declare him great and broad and brave enough to deal with the new conditions now before the country.

"We ask his leadership with full confidence in his wisdom and his patriotism, and promise him, in return, our highest effort and best endeavor to secure for him the commission of his party at the national convention to be held at Chicago next June."

United States Senator Albert J. Beveridge presided and made the principal address, dwelling on the notable accomplishments of the vice president's public career, and averring that the Indiana delegation would stand solidly by him in the national convention.

Others present included Senator Hemenway, many of the Indian representatives in Congress, members of the legislature, county and city officials and a number of candidates for places on the ticket, with their friends.

The gathering was large and enthusiastic.

ABNER McKINLEY ESTATE.

Nephew Files Suit Against it for Ten Thousand Dollars.

Canton, O., Dec. 26.—William H. Duncan of Cleveland, a nephew of the late President McKinley, filed suit for $10,000 against R. F. Shields, administrator of the Abner McKinley estate, and against the widow and daughter of Abner McKinley. Duncan alleges that Abner borrowed $10,000 from Helen McKinley in return for an assignment of his interest in President McKinley's estate, and that Helen assigned the claim to Duncan. He says Abner refused to recognize the claim in his lifetime.

POLICE AND STRIKERS.

210 Men Killed, 50 Wounded in an Encounter Between Them.

Valparaiso, Dec. 26.—According to an official statement the recent encounters at Iquique between nitrate strikers and the police resulted in the killing of 210 men and the wounding of about 50. During one of the engagements, the troops fired particularly at the leaders of the strikers, but their aim was poor and the men were not hurt. The president and vice president of the strike organization, who are Spanish anarchists, have disappeared.

RALEIGH, N. C., GOES "DRY."

Raleigh, N. C., Dec. 26.—By a majority of 545 Raleigh toay voted out its liquor dispensary, and will become a prohibition city, the dispensary to close at noon tomorrow. In the city there were 928 votes for prohibition, 881 for dispensary and two for saloons. The dispensary has been in operation here for four years. The sales have amounted to about $250,000 a year, with about $75,000 profit, this being placed to the credit of the school fund, the road fund and the city expense account. It reduced taxation, but the voters here felt that its influence was not for the city's best interests.

SNOW SHEDS ON FIRE.

San Francisco, Dec. 26.—Word was received this afternoon that a bad fire had started in the snow sheds on the Southern Pacific line near Truckee. The flames, it was reported, had delayed many trains and had also cut off all telegraph communication with the east along that line.

The Western Union's wire service past Sacramento was cut off at about 2:30 p. m. It is now reported that the fire has been extinguished.

POWERS TRIAL NEARLY OVER.

Georgetown, Ky., Dec. 26.—The case of Caleb Powers on trial for alleged complicity in the murder of William Goebel, will probably go to the jury about Wednesday noon. The greater part of today was taken up by testimony of contradiction of that of Henry E. Youtsey.

Sour Stomach

"I used Cascarets and feel like a new man. I have been a sufferer from dyspepsia and sour stomach for the last two years. I have been taking medicine and other drugs, but could find no relief only for a short time. I will recommend Cascarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to eat."
Harry Stuckley, Mauch Chunk, Pa.

A TWIRLER WHO USES BOTH ARMS

Herrmann of Manhansett Club Makes Great Record Of Strike-Outs.

An ambidextrous pitcher, one that can pitch equally well with either hand, has come to the surface in New York. How rare it is to find such a man may be gathered from the fact that there is no record of an ambidextrous twirler excepting Tony Mullane having played in any league in the country.

Baseball men are inclined to regard the development of such a man as an impossibility. They say that even if a twirler could use either hand for pitching, he would be so much better with one hand that he would seldom risk using the other in an important contest.

But William Herrmann of the Manhansett club of the Bronx is a twirler who pitches with either the right or left hand with perfect confidence. He did this all last summer to the great confusion of opposing batsmen, and he is now regarded as a veritable freak by the baseball enthusiasts of the upper part of the city.

ALWAYS IN SHAPE.

Manager W. E. Plaff of the Manhansett club, who is a cousin of the ambidextrous one, says it is fascinating to see the ease with which Herrmann shifts his delivery from one side to the other.

"He has got down so fine that many spectators might watch him pitch several innings without noticing it. I never have any doubts about Herrmann being in shape for a game, for if one arm happens to be a trifle overworked, I know that he is there with the other."

Like most good ball players, Herrmann began on the lots when a youngster in knickerbockers. He has played every position on the diamond, but up to three years ago thought that catching was his real forte. Then he discovered his ability to pitch with either hand, and to his surprise a little practise made him perfectly ambidextrous. Herrmann is a steady young fellow of 22 and lives with his wife and children at 774 Prospect avenue, Bronx. This fact has made him stick pretty closely to the trade of a retail butcher, but his heart is with the diamond, and he is trying hard to be given a trial in one of the important leagues.

WANTS LEAGUE TRY-OUT.

He hopes that either the Jersey City or Newark club, of the Eastern league, will give him a chance next spring.

His friends feel sure that Herrmann will make good wherever he goes, for he is not only a good natural ball player, but has made a thorough study of the art of twirling. He knows every curve and shoot used on the diamond, and can deliver them all with either hand. He also has a new curve of his own that he intends to use some day when he has thoroughly mastered it. Herrmann pitched nine games for the Manhansett team last season and won six of them. In these nine games he struck out eighty-three men.

TOM PAINTER CHOSEN TO REFEREE FIGHT.

Williams and Smith are rapidly rounding into form for their Queensbury argument scheduled for Lagoon on the afternoon of New Year's day, and local fight fans are promised a rare boxing treat when this pair of welterweights clash in the roped arena. Both boxers are working hard at their trainig quarters. Williams is in Ogden while Smith secured training quarters at Fort Douglas. There are a number of clever boxers among the soldiers recently arrived and they keep Smith busy and give him all the exercise he wants.

The question of referee has finally been settled. Smith wanted Otto Floto of Denver, while Williams wanted someone else. The name of Jim Williams was mentioned but last night the selection of Tom Painter of Evanston, Wyo., was made.

NOW A PEARL DIVER.

Amos Rusie, Once Great Baseball Pitcher Seeking Fortune.

According to a Richmond, Ind., dispatch Amos Rusie, once the greatest pitcher that ever stood in a box, is now a pearl diver at Vincennes, Ind., and while he has thus far not discovered any gems of very great value, he has made a fair living for his family. When Rusie first retired from baseball, having spent the many thousands that had been paid him for his services as a twirler, he found employment in a planing mill at Vincennes at the fancy salary of $1.50 a day, $9 being crowded into his hand each Saturday night. Later he tried to pitch in independent ball, but his arm failed him. There is a great lump under the arm of the Giants' former celebrity and idol of the New York fans in the long ago, and medical science can find no way to reduce it.

When the pearl fishing craze struck Vincennes, Rusie did not pay particular attention to it, but as one after another of his neighbors began to find pearls and build houses and buy property on the proceeds, he became interested.

Thus far Rusie has discovered nothing but buttons and slugs, the latter being worth about 50 cents each, but he is hopeful of some day finding a pearl that will make him rich.

FLEET AT TRINIDAD.

Sir Henry Moore Jackson, Governor, Entertains the Captains.

Port of Spain, Dec. 26.—The captains of the American battleships and their staffs were entertained at luncheon today by Sir Henry Moore Jackson, governor of Trinidad, and later were the guests of the governor at the horse races. The weather was ideal and the race course was thronged with officers and men of the fleet, together with a holiday crowd from the city.

American horses carried off the honors, being winners in nearly all the races, and the visitors gave themselves over to applauding these victories in an appropriate manner.

Owing to the fact that the ships will have finished coaling by tomorrow noon, thousands of the blue jackets will be given shore leave. Most of them undoubtedly will find their way to the race track, where the contests have been more than ordinarily exciting.

The tender Yankton of the auxiliary division, having taken on supplies today, will leave for Rio Janeiro tomorrow in advance of the fleet. The collier Marcellus, which arrived here Dec. 1 from League Island navy yard, will start on her return trip tomorrow.

DEM. NAT'L COMMITTEE.

At Denver Convention Headquarters Will be at Brown Palace Hotel.

Denver, Colo., Dec. 27.—The headquarters of the Democratic national committee will be at the Brown Palace hoael which has received a request from Chairman Taggart of the committee, through Secretary Mills of the convention league, to reserve 50 additional rooms besides those already reserved. As soon as those reservations are made the other hotels will begin to make reservations for the convention.

SULLIVAN ISSUES TIMELY STATEMENT

Growth of Professionalism in Amateur Sports is a Menace.

New York, Dec. 27.—The growth of professionalism in amateur athletic circles has become so serious that President James E. Sullivan, of the Amateur Athletic Union, has issued a statement on the matter in which he calls attention to the menace to amateur sport that now exists in the professional, who poses as an amateur and thereby pollutes clean sport. Special attention is called to the athletes who represent the second signal corps of the Military Athletic league, who have been suspended by the union, but whose members continue to play with teams that have a more or less clean record. Many of these teams have been in turn suspended. Mr. Sullivan says, that the efforts of the union's committee for clean sport are not getting the support they should receive, and asks athletes throughout not only the metropolitan district, but the country at large to aid in the effort to purge sport of those who pollute it.

The union is about to deal with the protests against the selection of Matthew B. Halpin as manager of the American team which will take part in the Olympic games at London next summer. It is now said that the committee in charge of the selection of the team will hold a meeting soon at which all the protests will be considered. Halpin is not accused of dishonesty incompetency or in showing favoritism, but rather of a lack of diplomacy, a lack of consideration for the men, a desire to show his authority, and boorishness. A number of the best known athletes in the country have stated that in case Halpin is retained as manager they will make no effort to secure places on the team. Among them are Eaton, the sixty-yard flyer; Sheridan, the weight thrower; Sheppard, the half mile, as well as Harvey Cohen, Mike Spring and Billy Frank.

In the meantime college athletes all over the country are planning to capture many places on the team. The Yale track squad, will enter the preliminaries for the selection of a team, has already been called out and men of other colleges will begin training immediately after the holiday vacations have ended. There is every prospect that there will be a good representation of the colleges on the team.

RULES FOR RACE.

New York, Dec. 26.—The committee having in charge the details of the automobile race for the Vanderbilt cup will meet on Sunday and will discuss the proposed rules for the race, which, it is hopend, can be held next summer. The main point to be decided is whether or not the committee shall adopt the rules now in force for road races in Europe.

It is said that several members of the committee will advocate the retention of the American rules, which differ in many details from those in use abroad.

MAKING UP CREWS.

New York, Dec. 26.—Amateur oarsmen are busy figuring on the make-up of the crews which President James Pilkington of the National Association of Amateur Oarsmen will select to take part as the representaives of America in the races which will be part of the Olympic games at London next summer. Several New York oarsmen are candidates already for places on the crews and it is said in rowing circles that the Philadelphia oarsmen are sure to capture several places.
