The Charleston steamer has a large amount of freight offering to-day, and the express people say the rush to ship goods has not been greater within a year. The leading marine insurance companies have advanced the rate of insurance from "seceding ports," from 1½ to 2½ per cent.

The Governor of Louisiana makes the following statement of the abundance of money, at a low rate of interest, in that State:

I am, moreover, deeply gratified to be able to announce that the emergencies of the times have elicited in various parts of the State the strongest proofs of patriotic zeal for the public safety. These have been manifested by spontaneous offers of loans for the service of the State in produce, goods, and money, on very favorable terms. Among these the cash offers are by Maj. Frank Hayzlo, of $100,000 at 5 ⅌ cent interest; the branch of the Louisiana State Bank at this place, $100,000, without interest; Southern Bank of New-Orleans, $50,000; and Messrs. B. & A. Soulie of New-Orleans, $10,000 on time and interest, at the convenience of the State.

Prime paper continues in small supply in the discount houses, and goes readily at 7 @ 8 ⅌ cent for double, and 8@10 ⅌ cent for single name. The demand for gilt-edged at these rates is in excess of the supply. The banks find it difficult to keep up their lines of this description, and consequently but little finds its way into the street. The bank loans are expanding again, but not mainly on mercantile paper. On demand money is easily obtainable at 6@7 ⅌ cent. The various institutions, trust companies, insurance companies, savings banks, &c., do not appear to be free lending, having invested largely in Treasury Notes, but private capital is abundant.

The Bohemian at Portland brings one day's later advices, which are very favorable for Cotton. The sales of the week were 132,000 bales at ⅛ ⅌ ¼d. advance. Breadstuffs were steady. Consols show no change of importance. Of American Stocks, the latest sales were Illinois Central at 30¼@31 discount; Erie Shares, 33; New-York Central, 74@76. *The Times* states that English funds were firm at the commencement, but closing prices ultimately the same as yesterday. In the Discount market the demand was moderate. About £12,000, in sovereigns, was taken from the Bank for America. It is stated that the Bank of France has experienced a further drain of gold to the amount of £300,000 or £400,000 since the publication of the monthly return. They are understood, however, to have purchased about £160,000 of gold in Germany.

At Philadelphia, the Money market is without any quotable change, and the demand outside the banks light, really first-class paper being scarce and wanted at 9 ⅌ cent ⅌ annum. Call loans are readily made at 6 ⅌ cent, and money plenty at that rate.

Some 3,200 bales of Cotton were received at Cincinnati on Friday last, and several boats with full loads are now on their way to that port. The course pursued by the Governor of Mississippi in overhauling the river steamers at Vicksburg, is producing a complete revolution in trade, making the Central Illinois, Southern Michigan, and Grand Trank, railways; the Ohio River and Central Pennsylvania Railway, and the Baltimore and Ohio Railway, the great carriers of all the freight which hitherto found a market by ship through the Gulf around the Florida Capes and up the Coast to New-York, Philadelphia and Boston. Nearly all the immense trade hitherto carried on through New-Orleans, and via Memphis, Chattanooga and Charleston, or Savannah, is now rapidly turning Northward, and finding its way so the seaboard via Cincinnati, Pittsburg and Baltimore.

The Boston Post furnishes the following information relative to the Lake Superior copper mines:

In December the Quincy got out 133 tons, the Pewabic 62, the Franklin 69 tons of the mineral. The Pewabic machinery was stopped for two weeks, and the raising of Copper to the surface was interrupted by various causes. The January yield will show "very different figures," says *The Mining Gazette*. The Quincy will stop end in January, and would not run again until February. The mining force on the three mines will have few alterations. The Isle Royale has recently increased its force by one third, on the finding of a rich vein of barrel and stamp copper. The prospects are described as "improving," but it is not weighing up the copper. A mass of 13,000 lb has been sent from the National. It is 12,000 lb heavier than any previously reported. The Columbian "has suspended operations."

If we understand it, the Isle Royal is looking well, but will make no attempt to get out copper this Winter. The time and cost are mainly to be devoted to opening. Unless the expenditure, therefore, is kept at a lower figure than we think it can be, an assessment during the Spring is not impossible, although the mine may be better than ever. The Hancock seems improving. The vein is above 14 feet in width at one point, and in many places is exhibiting rich stamp stuff, and some barrel copper. The holders of the stock are quite sanguine as to the future. It is reported that the Pewabic Company has made a two years' contract with the Revere Company with regard to sales and advances, the latter to take all the metal produced. This report has increased confidence in the stock, and made it in good request.

The New-Orleans Picayune of Saturday last reports:

The foreign exchange market is tending steadily upward, and is fully ½ ⅌ cent above the quotations in our last weekly summary. This morning the rates stiffened, more in consequence of the difficulties in the way of moving produce under the existing scarcity of ships than from any other cause. It is reasoned that this may result in a temporary scarcity of bills. Clear Sterling was sold at a range of 103@104½, and not a great deal offering. Drafts with bill of lading were negotiated at 102½@104. Francs took a jump, and some considerable sales were effected, principally at 5f 40@5f 35. The range extends down to 5f 50.

At the close, a sale was made above our inside figure. Sixty-day bills have been dealt in largely this week, to the extent, perhaps of nearly half a million, but confined to strictly first-class paper, readily discountable in Wall street at 8@9 ⅌ cent. A leading house sold heavily at 2½@2¾, and a round sum, say $100,000, was placed by another party at 2½ discount. Slight circumstances at 3@4, and 1 discount for outside names. Banks and bankers check at ½@¾ discount.

The arrivals of specie this week reach $1,039,233 from the North, and $54,426 from Havana. Nearly half a million of the former has been already counted in the last bank return, so that the statement to-morrow will show nearly seventeen and a half millions in vault.

We make the following extract from the Cotton Circular of Wm. P. Wright & Co.:

CROP.—Notwithstanding the heavy receipts, the accounts from various sections of the cotton region confirm the general estimate of under 4,000,000 bales.

RECEIPTS.—For the week, 163,000 bales, against 157,000 bales last year. The deficit is now 616,000 bales. At New-Orleans by telegraph for a week later, we have 110,000 bales, the largest amount ever received at that port in one week. This must be attributed to a variety of causes, viz: First, a desire on the part of planters to get cotton to market from fear of political disturbances; second, an anxiety to secure the present and lately ruling scale of prices; and while the state of the rivers has enabled cotton to arrive freely, it should not be lost sight of that to some considerable extent it has been diverted from other outlets, and forwarded to New-Orleans. At Mobile, Savannah, and Charleston, the receipts are not to an extent to cause particular remark.

EXPORTS are liberal, but not in excess of what might be looked for at this season, notwithstanding the great efforts making to hurry cotton off. The quantity reported by telegraph from New-Orleans is not real, but includes many vessels cleared in advance of the vote of secession passed on Saturday, the 26th inst. Our tables differ from *The N. Y. Shipping List*, inasmuch as we only include the clearances actually made, and not those made in advance of loading.

The following is a statement of the movement in Cotton since the list of September last as compared with the previous four years:

	1861.	1860.	1859.	1858.	1857.

Rio, ordinary	10½@11	St. Domingo, cash	11½@—
Laguayra	13 @13½		

COPPER—We hear of no important change in manufactured. Refined ingot is still in moderate demand; the sales include some 50,000 lb at 19½@20c., cash, for Lake. Baltimore is held at 19c.

COTTON—The market is active and steady; sales of 6,500 bales, including one-third in transitu. We quote at 12½@12¾c. for Middling Upland and Gulf. The sales since 21st January have been 71,000 bales, the export 6,220 bales.

DYEWOODS—There is very little business doing, the only inquiry being for Jamaica and St. Domingo Logwood. The sale of the latter, reported in our last, is said to be at ⅌12 @⅌12 50.

FISH—There is no change of importance in the market since our last. Dry Cod have been in limited demand at ⅌3@⅌3 25 for Bank, and ⅌3 75@⅌4 for St. George's. The sales of Mackerel are moderate, and consist mainly of No. 1 at ⅌11@⅌11 12½; we quote large No. 2 at ⅌10 50@⅌11; medium do. at ⅌6 50@⅌7, and No. 3 at ⅌3@⅌4 50. Pickled Herring are dull. Box Herring meet with a moderate jobbing request at previous rates. There has been some inquiry for Whitefish for shipment to the South at ⅌4 25@⅌4 75 ⅌ bbl.

FLOUR AND MEAL—The inquiry for Western and State Flour, early in the day, was quite limited for export, but ere the close of "Change," with some abatement to freshes, the demand improved, and the market closed firmly. The better grades are quiet and prices are irregular; the sales are 10,700 bbls at ⅌5 25@⅌5 37½ for superfine State and Western; ⅌5 30@⅌5 40 for extra State—chiefly at ⅌5 35; ⅌5 45@⅌5 55 for choice do.; ⅌5 30@⅌5 55 for the low grades of Western extra; ⅌5 60@⅌5 75 for shipping brands of round hoop extra Ohio, and ⅌5 80@⅌7 25 for trade brands do. Canadian Flour is dull but not quotably lower, the arrivals are limited and the stock of choice extras is moderate; the sales are 250 bbls. at ⅌5 40@⅌7 25 for extras. Southern Flour is rather easier and is quiet; the arrivals are limited and consist chiefly of common brands these are unsalable; the sales are 1,100 bbls. at ⅌5 65@⅌6 for Mixed to good Superfine Baltimore, &c., small lots of inferior superfine Baltimore at ⅌5 10, and extra at ⅌6@⅌7 25. Rye Flour is steady; the demand is moderate; sales of 127 bbls. at ⅌3 40@⅌4 20. Corn Meal is quiet at ⅌3 for Jersey. Buckwheat Flour is in limited request at ⅌2@⅌2 25 ⅌ 100 lb. We quote:

OIL CAKE is in limited supply, and prices have improved. Sales of 40 tons Thin Oblong Seed at ⅌23, and Thin City at ⅌23 50@⅌24 ⅌ ton, cash.

OIL MEAL—The supply is large, and prices are lower; sales of Country at ⅌1 60@⅌1 62½ ⅌ 100 lb. A lot of 40 tons City were taken for export at ⅌39 50 cash.

POTATOES—A fair demand prevails for all kinds, and prices are well maintained; we quote White, ⅌1 50@⅌1 75 ⅌ bbl.; Prekmens, ⅌1 62@⅌1 75; Peachblows, ⅌1 75@⅌2; Western Red, ⅌1 50; Mercers, ⅌2 50; Nova Scotia, from vessel, 50c. ⅌ bushel, and Delaware Sweets, ⅌4@⅌4 50 ⅌ bbl.

PROVISIONS—The Pork market is dull, but without quotable change; the arrivals are fair; sales of 450 bbls. at ⅌17 75@⅌17 87½ for new Mess, ⅌13 for new Prime, and ⅌11 75 for old Prime. Beef is in limited demand and is steady; sales of 156 bbls. at ⅌8 75@⅌9 62 for repacked Mess, and ⅌10@⅌10 62½ for extra. Prime Mess is very dull and nominal at ⅌15 50@⅌17. Beef Hams are firm but quiet; sales of 50 bbls. good Western at ⅌15. Bacon is very firm and in demand at 9@9½c. for Cumberland Cut, and 9½@9¾c. for Long Ribbed. Lard is steady, the demand is fair for export and the trade; the sales are 460 bbls. and tcs. at 8½@9½c. for No. 1, and 10½@10½ for fair to prime. Dressed Hogs are in good demand at 7½@7¾c. for Western, and 7½@7¾c. for City. Cut Meats are in fair demand and are firm; sales of 141 bbls. and tcs. at 6½@6¾c. for Shoulders, and 8@8½c. for Hams. Dry Salted meats are scarce and wanted. Butter is quiet, but prices are without quotable change; the demand is mainly for the home trade. We quote Prime State Dairy at 16@18c.; fair to good do. at 14@16c.; Western Reserve Ohio at 14@15c., and interior and Southern do. at 10@13c. Cheese is in moderate request and is lower; we quote Prime State at ⅌10@10½c., and Ohio at 8½@9½c. The principal dealers in Butter, Cheese, and other produce, have very unanimously agreed that in future sales, in the absence of any special agreement at the time of sale, it will be regarded as cash, and to be paid within ten days. Purchasers requiring time will make special agreement for the same, when they buy upon such terms as may be mutually agreed upon; and the bills to be settled by note or draft within ten days. We quote:

SPELTER is dull and flat at 4c., cash, and 4½c. time.

STEARIN—The inquiry is moderate, and the supply limited. Sales of Grocers at 8c., and Prime White at 10@10½c. cash.

SUGARS—The demand is moderate; sales of 240 hhds. Cuba at 4¾@5½c.; 560 hhds. do. at 5c., and by auction 405 hhds. New-Orleans at ⅌4 50@⅌6 12½. Refined are quiet at 8½@9½c. for Crushed, Ground and Granulated, 6½@7½c. for Yellow Coffee grades, and 7½@8c. for A, B and C White do. We quote:

New-Orleans ⅌ lb	5 @7½	Whites (boxes)	7½@8
Porto Rico	5½@7¼	Fair Refining	5½@5¾
Cuba Muscovado	4½@6	Fair Grocery	5¼@5½
Cucurchos (boxes)	5½@7½	Manila	5 @5¼
Browns (boxes)	5¼@—	Brazil, Brown	5½@5¾
Yellows (boxes)	6 @6½	Melado	4½@4¾
Florettes (boxes)	6½@7½		

TALLOW—The demand is less active, but holders are firm. Sales of 23,600 lb at 9½@10c. Rough Fat is steady at 6c. cash.

TEAS—At private sale very little is doing; prices are steady; a sale of 9,062 packages, ex Ann and Winged Racer, took place this morning and was very fairly attended. The greens were mostly withdrawn, prices being very unsatisfactory. On blacks there was a still further decline in prices, and, taken altogether, the sale was very flat. We quote Young Hyson at 20@45½c.; Imperial at 28½c.; Hyson skin at 20@34c.; Orange Pekoe at 21@22c.; Hyson Pekoe at 23c.; Oolong 17½@40c.; and Souchong at 27½@42c.

TIN—Pig continues quiet. We quote Banca at 27c., cash, and Straits at 26c., cash. Plates are also very dull, and the only transactions we are aware of comprise about 750 boxes ½ X, on terms not ascertained.

WHALEBONE—There is nothing doing, and prices are heavy; estimated stock in country 300,000 lb.

WHALEOIL—There is nothing doing, and prices are nominally unchanged; we quote Crude at 40c., cash.

WHISKY—Holders are firmer; this checks business; price are better; sales of 160 bbls. at 19½c.

WOOL—The market is still quiet, but steady; holders, as a general thing, are unwilling to sell their goods at a sacrifice, and most of the wool that has lately changed hands has been taken by dealers who expect to realize profits; it would seem, therefore, that the expectation is general that a good business will be done at the opening of the Spring demand; we hear of no sales of importance; we quote:

Domestic Fleece	25@29	South America	10@25
Pulled Wools	24@44	Smyrna	19@25
California	12@30	Donskoi	8@21
Cape	20@35	East India	9@30

Receipts of Produce.

Jan. 30.—5,000 bbls. Flour, 5,000 bush. Wheat, 700 pkgs. Provisions, 700 pkgs. Whisky, 2,250 Dressed Hogs.

Walter Brown's Monthly Wool Circular.

Since the opening of the new year, there has been more activity in Domestic Wools, both pulled and fleece.

Early in the month a number of sales were made to manufacturers and out of town dealers, for cash or convertible paper, at extremely low prices; and during the entire month, parties who could offer cash or favorite names have been able to obtain concessions from asking prices, very much in proportion to the financial necessities of the owners.

The majority of holders are not willing to sacrifice their Wool, and a very considerable part of all that has changed hands has been taken by dealers who look for an improving market, and expect to resell at a profit. It must, however, be conceded that the scale of prices, which is beginning to assume a degree of definiteness, is settling down to a level considerably below that on which it rested prior to the 1st of November; and, when the demand for fresh supplies becomes more general, the figures will be found to be from 5c. to 7c. below those upon which the season opened.

Should our National troubles soon become adjusted and confidence again be restored, we may look for some improvements in the rates for Wool; but while the future looks so uncertain, common prudence dictates the most cautious and conservative course in every branch of business, and we cannot reasonably look for anything more than such a demand for the raw material as shall suffice to keep the restricted machinery in motion. This policy considered, in connection with the healthy condition of the great West, which is the market on which our woolen manufacturers chiefly rely, and the fact that our importations for Fall and Winter goods will be unusually light must tend to give a good impetus to the Woolen trade whenever the present obstructions shall be removed; and even if the difficulties of the South continue, there is good reason to expect that during the Summer and Fall we shall, at least, do a successful and healthy business with the West and North.

The stock of wools is not large, and we think will all be required to afford manufacturers a fair selection for the remainder of the season. The supply of fine fleeces is much larger in proportion than that of medium and low grades, while the quantity of low-pulled wools is much greater than that of fine. We would here remark that there is, with a few exceptions, room for great improvement in the handling of pulled wools; if they were better cleaned, and more uniformly sorted, they would be much more saleable, and pay a better profit to the owners—and would be more generally substituted for corresponding qualities of fleeces when they are scarce. There have been some considerable sales of California wools, on private terms, and in part to dealers, for relandling, and while there is now a good selection offering at reduced rates, there is also a prospect of a more regular demand from consumers. The stock of Texas is small, and but little has been done. A few small sales of Cape wool only are reported, at about previous rates, and we hear of no transactions of moment in Mestiza or other fine foreign wools.

There has been some activity in Carpet wools, for which the demand is steady, with little variation in prices.

The annual circulars from Europe report light stocks and prices firm, and that, although the amount of Wool imported has increased considerably over preceding years, the demand from consumers has fully kept pace with the supply.

We have reported the following sales: 120,000 lb common to fine Saxony Fleece at 30@45c.; 40,000 lb No. 1 to good extra Pulled at 25@45c.; 235,000 lb California, 15,000 lb Texas, 190 bales Cape Wool, 350 bales Donskoi, at 19@26c.

In Boston: 260,000 lb Ohio Fleece for Philadelphia; 350,000 lb Fleece and Pulled; 330,000 lb Unwashed Wool; 250 bales Cape, South American, and other Foreign Wools.

In Philadelphia: 140,000 lb Fleece; 100,000 lb Pulled.

In Providence: 27,000 lb Fleece; 5,000 lb Pulled.
