PUBLIC MEETINGS.

BOARD OF EDUCATION.

The Board of Education met yesterday afternoon at 5 o'clock, President CURTIS in the Chair.

Permission was given to the school officers of the Fifteenth Ward to close up school No. 35 for repairs. Similar permission was given to one or two other schools.

The PRESIDENT announced a considerable number of bills, which he declined signing, on the ground that they were exorbitant. Some discussion took place as to the proper reference, whether or not the various descriptions of items should be referred to the appropriate committees, but the matter was finally given in charge of the Finance Committee.

The report of the Committee on Teachers, presenting a new tariff of salaries for teachers in the Ward and Primary Schools, laid over from last meeting, was next called up.

Mr. WETHERBURY moved that the matter be referred back to the Committee on Teachers, with an addition of four members appointed by the Chair. It certainly was an anomalous thing that four or five Wards, represented by the members of the Committee, had it reported to increase the salaries of their teachers.

Mr. GALVAN objected to the addition of any to the Committee, on the ground that it was without precedent and unnecessary.

Mr. SMITH of the Sixteenth Ward thought such an addition was casting an insinuation against the Committee, which was unjust.

Mr. FARRA also objected.

Mr. WETHERBURY said the principle professedly acted on was a tariff proportional to the number of scholars, but if the report were inspected, it would be found that in schools Nos. 45 and 68, for instance, there was a difference, on this principle, of as much as $1,000.

The matter was referred back to the Committee on Teachers, at the suggestion of Mr. MCKEAN, who said he had reason to believe that the Committee would make some improvements in their report, and if it then did not suit the Board an additional number could be appointed to the Committee.

Permission was given the School Officers of the Fifteenth Ward to hire the premises Nos. 63 and 67 Sixth avenue, from April 1 to Jan. 1, 1862, for the occupancy of School No. 35.

Mr. SHINE offered a resolution to pay Andrew Cusack $126 for inspecting the foundation of School No. 14 in Oliver street. As usual, objection was made to it as being unnecessary, and Mr. Shine made a very long speech, and the matter was lost.

Mr. WATERBURY subsequently moved that $75 be allowed, which was also lost. Adjourned.

COMMISSIONERS OF EMIGRATION.

At the meeting of this Board yesterday, Mr. CASSELLY, the Secretary, stated that he had received a communication from the Department of Charities and Corrections, setting forth that the Commissioners had hired a steamboat at $12 per day for the purpose of transporting passengers and merchandise from the city to the Island, and inquiring if the Commissioners of Emigration did not wish to bear part of the expense for the conveyance of emigrants to Ward's Island. The Secretary stated that he thought the price too great, and it would not be worth while to enter into such an arrangement, inasmuch as it was only occasionally that they required to send to Ward's Island, and when they did they could hire a boat in the harbor to do the work for $5. The matter was referred to the Ward's Island Committee.

The following resolution offered by Mr. Low was adopted.

Resolved, That the bonds required to the care of the ship Margaret Evans for bringing to this port seven passengers who were said to be "discharged criminals" be remitted, on the application of Capt. Morgan, with a notice to the owner of such vessel that if a similar case again occur, the bond will be enforced, if the passengers returned at the expense of the ship bringing them.

The weekly statement shows that the number of alien emigrants arrived to April 3, 1861, was 6,261; to same date in 1860, 7,733; number of inmates in Institution, Ward's Island, 1,631; balance January 1, 1861, $1,321 42; aggregate receipts to April 3, 1861, $73,853 27; total, 36,574 69; disbursements to April 3, 1861, $35,615 11; balance in bank, $2,959 58.

The following return shows the number of arrivals at Castle Garden, from March 1 to the 31st:

Vessels.	Port of Clearance.	Bondable.	Not Bondable.
16	Liverpool	2,216	245
6	London	118	15
1	Galway	216	19
1	Havre	185	2
1	Hamburg	191	47
1	Bremen	241	—
1	Leghorn	6	—
Total...29		3,973	331

1,839 passengers arrived on 21 sailing vessels; 2,465 on 8 steamers.

NEW-YORK POLYTECHNIC ASSOCIATION.

This Society met last night at the rooms of the American Institute, at Clinton Hall, J. P. VREDENBURGH in the chair in the absence of Prof. Mason.

Mr. J. S. SEELY presented for the examination of the Association a new water-wheel for grist-mills and factories, which he said would cost much less than the wheels now in use, and would perform a greater amount of work.

Mr. C. A. SEELY made some observations in regard to the use of kerosene and other burning fluids, and their explosive tendencies. Some discussion ensued upon the subject, in which Mr. WADSWORTH, the Chairman, and others took part.

Mr. DIBBIN renewed the subject of "iron-cased ships," which was laid over at the last meeting of the Association. He claimed that the honor of originating this plan was due to R. L. Stevens of Hoboken, and alluded to the mysterious battery now building in New-Jersey, admitting it to be a nondescript. He spoke of the iron-cased ships that had recently been built in France and England, but remarked that in their construction they had not put on their iron plates according to Mr. Stevens's project. These glorious ships, which so many people had talked about, would not stand as much from shot as one of the old fashioned ships. The French and English ships were had copies of a plan that Mr. Stevens had abandoned. They had merely riveted their plates against the sides of ordinary built vessels.

At this time Prof. MASON entered and took the Chair.

Mr. DIBBIN proceeded to describe the "nondescript"—or the "mysterious battery"—but did very little toward clearing up the obscurity which for a long time past has enveloped the work, and which will probably never be known to this generation. He thought that iron ships would be far less useful than the ordinary wooden ships, for the reason that a shot striking them would crush away the surrounding iron work, and create a fracture which could not easily be repaired.

The attention of the Association was then directed toward the invulnerability of a series of iron plates, close riveted together, and one single plate of the same thickness. The matter elicited considerable discussion, and it was contended by some that wrought iron could not be shattered by a cast-iron ball; while others argued affirmatively. Mr. STETSON, Mr. BUTLER, Mr. WADSWORTH, and others, took part in the debate.

Mr. BARTLETT, formerly of the U. S. Navy, spoke at some length on the subject of resistance to projectiles, and exhibited some sheet of peculiar formation, which exploded upon falling and striking a cap at the conical point of the missile. The remarks were listened to with deep interest, and a vote of thanks was tendered to Mr. Bartlett at the close of his speech.

AN EAGLE CAUGHT.—A correspondent at West Lebanon, N. H., informs us that a bald headed eagle was caught on the 8th day of March, 1861, (after Lincoln was fairly inaugurated), by Mr. Wm. S. Ladieu of Plainfield, Sullivan County, N. H., and is a fine specimen, measuring over seven feet from tip to tip of wings, and weighing, it is judged, about fifteen pounds. He was taken uninjured, excepting a little wound upon the foot, one toe of which was caught in the trap set for him. This is the only true bald headed eagle that has been taken in New-Hampshire for many years.

—The Mr. Russell, who now represents *The London Times* here, is the same gentleman who was sent by that journal to Ireland to report O'Connell's speeches, during the Repeal agitation. One of the first meetings the newspaper man attended was in Kerry. Having heard of O'Connell's polite qualities, he thought he would ask that gentleman's permission to take a verbatim account of the oration. The "Liberator" not only consented, but, in his oiliest manner, informed the assembled audience, that "until that gintleman was provided with all writin' conveniences, he wouldn't spake a word," assuming an extra brogue, which was altogether unnecessary. Russell was delighted. The preparations began, and were completed; Russell was ready.

"Are you quite ready?" asked Dan.

"Quite ready."

"Now, are you sure you're entirely ready?"

"I am certain, Sir. Yes."

The crowd becoming excited and impatient, Dan said: "Now, 'pon my conscience I won't begin the speech till the London gintleman is intirely ready."

After waiting another moment or so, O'Connell advanced; eyes glistened; ears were all attention; and the reporterial pencil arose. Dan gave one more benignant smile on the correspondent, winked at the auditors, *and commenced his speech in the Irish language*, to the irrepressible horror of the present editor of *The Army and Navy Gazette*, and to the infinite delight of all Kerry.

BROOKLYN ITEMS.

RAILROAD EXTENSION.—Arrangements have already been commenced for the extension of the Grand street and Newtown railroad to Newtown. Much of the stock required for building the road is already on the ground, and as soon as the frost is out of the ground the work of construction will be commenced.

ATTEMPTING TO VOTE ILLEGALLY.—Michael Nolen was, on Tuesday, arrested for attempting to vote illegally. On Wednesday morning he was discharged by Justice Coleman for want of evidence to convict him of the charge.

The police made three arrests for illegal voting on Tuesday. Two were discharged by the Justice, as it did not appear that they violated the law wilfully. James Nolen, a resident of the Sixth Ward, was held for examination on the charge of voting in the Twelfth Ward.

ARRAIGNMENTS IN THE COURT OF SESSIONS.—The prisoners indicted by the last Grand Jury were arraigned in the Court of Sessions yesterday. There were a large number, most of whom pleaded not guilty, among them John Corvan, James Riley, and James Hanlon, for the killing of James Candey. Henry Beatty pleaded guilty to passing counterfeit bills, and was sentenced to State Prison for two years. Charles Weckel pleaded guilty to burglary, and was sentenced to State Prison for two years. John Sullivan, similar offense, sentenced to State Prison for three years. Charles Wendell, for assault and battery upon Ann Barbara Negie, was fined $20. Patrick Cooney, for selling liquor without license, was fined $15.

BROOKLYN COMMON COUNCIL.—The Common Council met last evening, the President in the chair.

The Fire Department Committee of both districts presented a large number of reports in favor of buying sites for engine-houses, repairing engines, &c., all of which were adopted.

A report in favor of awarding the contract to build a house for Hose No. 12 to John Ross, for $2,745, was adopted. A resolution in connection therewith, authorizing the transfer of $745 from the account of lighting streets to the Fire Department account, was laid over.

An ordinance providing for the regulation of Steam Fire-engine Companies was submitted by Ald. Furey. It provides that the companies shall be denominated by the name and number they now bear in the department. All companies with a first-class engine shall be entitled to a complement of seventy men. The second-class engines sixty men. One Engineer for each engine is provided, with a salary of $600 per annum.

Some debate ensued, the Aldermen generally expressing the opinion that the salary was too high, when the whole subject was laid over till next meeting.

The contract for regrading and repaving Fourth avenue from Baltic to Twenty-first street, and from Twenty-third street to the city line, was awarded to Thomas Hollehan for $9,769.

The subject of the Eighth Ward maps was brought up and laid over, when the Board adjourned.

BOARD OF SUPERVISORS.—In the Board of Supervisors yesterday, an application for an appropriation in aid of the House for Young Deaf Mutes was received, the Secretary of the Institution stating in the communication that the Home sheltered a class not received into the State Deaf and Dumb Asylum, viz: children under 12 years of age. While the Board unanimously sympathized with the meritorious institution, it, for lack of legal power, was reluctantly obliged to deny the application.

The Committee having charge of the matter submitted the contract entered into with Mr. Schenck for the purchase of the Court-House site for $70,000, and proposed that county bonds to the amount of $100,000, to provide for the payment of the same, &c., be issued. The Committee also proposed to advertise for plans, &c., for the new Court-House, the four best plans to receive the respective premiums of $250, $125, $75, and $50. The subject was laid over till next meeting.

THE POPULATION OF THE STATE.

The President of the Senate of New-York presented to that body yesterday morning the following tabular statement, exhibiting the population of this State by Counties, received from John G. Kennedy, esq., Superintendent of the Census Department, in reply to a resolution of the Senate:

CONSTERNATION IN THE CITY HALL.

The Grand Jury Attacks the Ring.

MOUNTJOY PUT TO THE QUESTION.

HE REFUSES TO ANSWER.

HE IS SENT TO ELDRIDGE-ST. PRISON.

The Grand Jury of the Oyer and Terminer entered the Courtroom yesterday afternoon, and through their foreman announced that a witness summoned by them, Mr. George Mountjoy, had refused to answer questions put to him by them.

Mr. Mountjoy being present Judge Ingraham asked him why he would not answer the questions.

Mr. Mountjoy stated that they were of such a nature that he would prefer to have the advice of his counsel before answering them.

The Judge said he had that right and proceeded with the trial of a civil case pending before him, while the counsel was sent for.

In a few minutes Mr. Lawrence entered the Courtroom, and Mr. Mountjoy, after a short consultation with him arose and addressed the Court as follows:

If your Honor please, I cannot answer the question put to me. I think it would degrade me in the eyes of the community to do so, and I will not answer it.

Judge Ingraham—The law of the Legislature does not excuse you on that ground. You are to appear and give evidence. The testimony is not to be used against you in any prosecution against you, civil or criminal.

Mr. Mountjoy—That is all I have to say, Sir; I think it will degrade me.

Judge Ingraham—I do not think that is sufficient excuse. The evidence you will give to the Grand Jury is private and does not become known to the public. The law requires you to testify to the Grand Jury in regard to the matter which they have questioned you on. It is better to answer. The Foreman of the Grand Jury will repeat the question.

Mr. Mountjoy—There is no necessity of that; I refuse to answer.

Judge Ingraham—Mr. Foreman, ask the question.

The Foreman (James G. King)—From whom, if any one, during the last three years, have you received money for the purpose of influencing action upon matters pending before the Common Council?

Mr. Mountjoy—I refuse to answer.

Judge Ingraham—Mr. Vandervoort (the Clerk) you will draw up a commitment.

The commitment was drawn up, and Mr. Mountjoy was taken into custody. The law provides that in these cases the offending party shall be imprisoned in the County Jail for a term not exceeding thirty days, or by a fine not exceeding $250. The Judge directed Mr. Mountjoy to be imprisoned.

During the proceedings the court-room was densely crowded with spectators, and in a short time the case was the subject of conversation in all the courts and offices. The rumors of Mr. Mountjoy's retaining certain moneys said to have been paid for the consummation of the Hackley street-cleaning contract, were generally believed to be the cause of the inquisition by the Grand Jury, but their proceedings being strictly secret, it is impossible to tell whether their inquiry was in reference to that particular subject. The following, from the laws of 1857, chap. 446, sec. 52, is the law in relation to bribery of municipal officers:

Every person who shall promise, offer, or give, or cause or aid or abet in causing to be promised, offered or given, or furnish or agree to furnish, in whole or in part to be promised, offered or given, to any member of the Common Council or any other officer of the Corporation, after his election as such member or before, or after he shall have qualified and taken his seat, any money, goods, right in action, or other property, or anything of value, or any pecuniary advantage, present or prospective, with intent to influence his vote, opinion or judgment, or action on any question, matter, cause or proceeding which may be then pending, or may by law be brought before him in his official capacity, shall, upon conviction, be imprisoned in a penitentiary for a term not exceeding two years, or shall be fined not exceeding $5,000, or both, in the discretion of the Court. Every officer in this section enumerated who shall accept any such gift or promise, or undertaking to make the same, under any agreement or undertaking that his vote, opinion, judgment, or action shall be influenced thereby, or shall be given in any particular manner, or upon any particular side of question, matter, cause or proceeding then pending, or which may by law be brought before him in his official capacity, shall, upon conviction, be disqualified from holding any public office, trust or appointment under the Charter of the City of New-York, and shall forfeit his office, and shall be punished by imprisonment in the Penitentiary not exceeding two years, or by a fine not exceeding $5,000, or both, in the discretion of the Court. Any person offending against either of the provisions of this section shall be a competent witness against any other person offending in the same transaction, and may be compelled to appear and give evidence before any Grand Jury or in any Court, in the same manner as other persons; but the testimony so given shall not be used in any prosecution or proceedings, civil or criminal, against the person so testifying.

The law affecting Mr. Mountjoy's case is very strict, and should a writ of habeas corpus be issued in his behalf, on a return stating the facts, the officer issuing the writ would have no discretion, but would be compelled to remit the prisoner to custody. Again, another Grand Jury may propound the same question, and if the witness still refuses to answer, he may be again imprisoned.

LOSS OF THE BRITISH BRIG NEWNHAM.—The British brig Newnham, Capt. White, sailed from Rio Hache Feb. 13, with a cargo of Nicaragua wood and Divi Divi, bound to Liverpool. On the 26th Feb. was six miles distant from Pearl Point, in the aforesaid Island, and on the following morning was one mile distant from Little Inagua, when a strong westerly current was observed to be setting to the leeward. At 5 p. m. of the 27th Feb. the east end of Little Inagua bore N. N. E. four miles distant; at 8 o'clock p. m. the weather became showery, the course being then S. E. ½ S., and changed at 11 p. m. to N. by E.; the weather at midnight became cloudy, and continued so until 2½ o'clock a. m., when she struck on Mahope Key, southeast of West Caicos. The boats were hove out and a stream anchor carried out in order to haul her off the rocks, but all exertions to get her off were without effect. They then sounded the pumps, and found three feet of water in her hold, and portions of her keel floating alongside, when she was abandoned. Capt. White and crew came passengers in the brig James French.

LECTURE BY THOMAS FRANCIS MEAGHER.—T. F. Meagher, esq., delivered a lecture on the Irish patriot Terrence McManus last evening, at Irving Hall. The theme was one especially calculated to draw forth the oratorical powers of the speaker, and the enthusiasm of the vast audience attested their appreciation of the subject and the mode in which it was treated. The lecturer described McManus as the wealthy merchant, but still the patient worker in his counting-house at Liverpool; as the revolutionist, and his attempt at Ballingarry to fire the combustibles he had piled against the house in which the enemy were stationed; as the exile in Australia; as engaged in mercantile pursuits in California, where he died broken hearted.
