THURSDAY, May 2—P. M.

There is an improved tone in the stock market today, the result naturally of the absence of bad news, and from the growth of confidence in the strength of the Government as developed in the events of the past few weeks. The movement, however, is mainly confined to street operators, who make short turns for the rise or fall. The feverish action which has marked the market recently has ceased, and until some important political or military event occurs, we do not anticipate any serious change. The purchases are not to cover maturing contracts which are generally put out again if a buyer can be found. There is so much of doubt in the future that the public, who almost always operate for the rise, cannot be induced to take any important interest in the stock speculation, although we know some wealthy parties have taken considerable lines for cash, to be held for better times. The improvement ranged from ⅛@1¼ ⅌ cent, Illinois Central and Pacific Mail being among the most buoyant stocks. The latter improved to 68 under a rumor that the May dividend would be 5 ⅌ cent. At the Second Board the attention of the members of the Board was generally engrossed in the execution of the Star Spangled Banner, in which patriotism had a heavy load to carry in supplying the deficiency of voice. What business was done established a rather better market, although the changes were not important. The fancies in nearly every case show an improvement on yesterday's prices. In the stocks of the Border States there is not much change. Virginias are still scarce for immediate delivery, but are freely offered on sellers' options. Missouri 6s are firm at 40@40½, at which $55,000 were sold. North Carolinas are 1 ⅌ cent lower. In Railroad Bonds there is but little done, and those of leading roads are scarce and firm. An encouraging feature of the market was the firmness in Government securities, which, in the face of the large wants of Government in the coming year, are buoyant. Registered 6s of the last loan are 89½ bid, and the coupons 86½. At the close the market had a slight upward tendency for the leading railroad shares. Virginia 6s, 45@45; Missouri 6s, 40½@40¾; Canton Company, 9@10; Cumberland Coal Company, 3@4; Pacific Mail, 67@68; New-York Central Railroad, 72@72½; Erie Railroad, 19½@20; Hudson River Railroad, 38½@38¾; Harlem Railroad, 12@12½; Harlem Railroad Preferred, 30@31; Reading Railroad, 31½@32; Michigan Central Railroad, 43@43½; Michigan Southern and Northern Indiana Railroad, 13@13½; Michigan Southern and Northern Indiana Railroad Guaranteed Stock, 28@29; Panama Railroad, 101½@102; Illinois Central Railroad, 58½@59; Galena and Chicago Railroad, 57½@57¾; Cleveland and Toledo Railroad, 23½@23¾; Chicago and Rock Island Railroad, 37½@37¾; Chicago Burlington and Quincy Railroad, 55@55½.

The market for foreign bills is dull and unsettled. Leading bankers' sterling could be had at 104½ and good commercial signatures at 102@104. Nearly all the prominent bankers are buying bills with their sixty-day paper, for the purpose of importing specie. The commencement of the Spring movement of grain, &c., must largely increase the supply of bills, and prevent for some time any serious advance in the rate for bills.

Freights: To Liverpool—45,000 bush. Wheat at 5½d. in bulk, and 6d. in ship's bags; 25,000 bush. Corn at 5½d., in ship's bags; 700 bales Cotton at 7-32d. ⅌ lb; 50 bbls. Pork at 3s. To London—3,200 bbls. Flour, at 2s. 6d.@2s. 7½d.; Heavy Goods at 2½s. To Glasgow—800 bbls. Flour at 2s. 3d.; 100 tcs. Lard at 5s. To Dublin—A bark with 20,000 bush. Wheat at 10½d., in bulk.

The business of the Sub-Treasury was: Receipts, $185,074 18—for Customs, $23,000 00; Payments, $604,162 89; Balance, $10,140,353 65.

The payments, it will be seen, are very large. The Hudson River Railroad earnings were:

April, 1861	$139,750 84
April, 1860	134,605 77
Increase	$5,145 07

The receipts of the Morris Canal have been:

Total to April 21, 1860	$14,714 31	
Week ending April 28, 1860	9,159 16	
		$23,873 47
Total to April 29, 1861	$12,739 60	
Week ending April 27, 1861	9,215 13	
		21,954 13
Decrease—1861		$1,919 34

The following is a report of the amount of coal transported over the Delaware, Lackawanna and Western Railroad for the last week:

	Week. Tons. Cwt.	Year. Tons. Cwt.
Shipped North	4,068.17	65,113.10
Shipped South	18,618.15	218,028.16

Leyton & Wainwright have removed from No. 17 William street to Insurance Building, 49 Wall street.

The Treasurer of the Central Railroad Company of New-Jersey gives notice that the coupons upon the second mortgage bonds of the Company, due to-morrow, will be paid at No. 69 Wall street.

As an evidence of the condition of business in Baltimore, we notice that the transactions of the Stock Board on Tuesday embraced $1,000 City 6s, and 500 shares Mining Stock at 10 cents ⅌ share.

The Money market is without change to notice. On call, with proper securities, there is no difficulty in obtaining all the facilities needed. Paper continues very inactive in the street, at very irregular rates. Favorite names, at short maturity, go at 6@8 ⅌ cent, while the bulk of the paper offered is passed with difficulty at 12 ⅌ cent per annum up to 3 and 4 ⅌ cent per month. We hear of no further failures of importance within a day or two. The rate of discount on uncurrent money is improving. The Union tone of the advices from Maryland has produced a reduction to 3@4 ⅌ cent, and the notes of other Slave States which appear disposed to continue loyal to the Union are selling at better rates. At Chicago, exchange on New-York is down to 8@10 ⅌ cent, with a tendency to lower figures upon the opening of navigation. At St. Louis, the quotation is 15@16 ⅌ cent for Missouri currency. Illinois currency is tabooed.

Our banks are sending some specie to Boston and the West, and are losing some amounts in other directions, but the aggregate average of the day is over 40 ⅌ cent.

The Miami Roads—the Little Miami and Cincinnati, Hamilton & Dayton—will show a gain in their April statements, over the corresponding month last year. In the past two weeks they have both been crowded with through freights, and their whole equipment has been fully taxed to keep the East-bound freight moving. Passenger travel is light.

We annex our usual summary of the Exports of Domestic Cotton from this port for the week ending April 26, as follows:

	Pkgs.	Value.

The shipments of heavy Drills and Domestics to China still continue, and give force to the market, while the trade in all other departments except goods designed for the Army equipments is suspended entirely.

There has been a perfect panic in the general Dry Goods circles during the week, and some of our first-class jobbers have been obliged to ask extensions. The fact is patent that the jobber, with a large surplus, even, cannot meet his engagements if his receipts are entirely cut off. He may be rich in assets—unavailable as they are for the present—yet it affords him no relief from bankruptcy and ruin, for his engagements must be met without default.

The practice of selling single-name dry-goods paper in the street, as adopted by the commission houses, is productive of great inconvenience, if not of peril to the jobbers. In times of panic and distrust, the market is so overloaded with paper that credit is at once destroyed, as every bank and capitalist having invested their surplus funds in favorite names in times of ease and confidence, become eager to realize the moment they find the paper is less current, and panic ensues. If the jobber would limit his business to the credit which could be afforded him by the agents and manufacturers—without resort to the street—he would have no difficulty, for he could insist upon making his notes payable to the party in interest rather than giving them to his own order, and thus preparing them for an initied circulation. This might involve the idea of giving charter paper, but a house that is allowed a line of $50,000 in eight months' purchases, could obtain a much larger amount on four months' purchases, for the guaranty would be less, and it would be within the bank limit, and thus afford facilities to the party receiving the paper. The agent or manufacturer could give twice the amount of credit on four months bills that they could on eight months, which is the recognized time on domestic goods. Besides, the system of selling paper in the open market gives a fictitious credit to a weak merchant, and invites him to expand his business beyond that point which prudence would dictate, and forces the strong merchant to compete with the weaker one, who is obliged to sell his goods for cash, at a loss, in order to meet his increasing liabilities; and, in the general distrust of the class, it practically destroys the credit of our best houses, or compels them to anticipate their payments by passing their own notes in advance of their maturity.

Credit is the basis of all mercantile operations, and when that is disturbed by real or fancied causes, the whole fabric falls. If our banks had not the confidence of the community, they could not stand a day. Thus, our New-York jobbers are strong when confidence exists, and the weakest party in a panic; and it is their imperative duty to destroy a system which is capable of so much disaster.

We have no change to report in the general market, and prices of goods for general consumption are without important decline, but for goods forced upon the market concessions are made.

The manufacturers of Cottons are making preparations to reduce their production. We hear of a general movement in that direction at the East, which contemplates the stoppages of the mills at least one-half the time.

This has been forced upon the mill owners by the action of the commission houses, who decline making further advances on consignments.

It is idle to suppose that any commission house could sell goods, even for the best jobber's paper, at present, with the expectation of meeting their own acceptances.

As a financial operation, it would be far better for them to purchase their customer's paper at 24@40 ⅌ cent per annum in the street, and elect such names as are of the first class.

The monthly table of marine losses for the past month, shows an aggregate of fifty-seven vessels, of which eleven were ships, eight were barks, one a barkentine, eight were brigs, and twenty-nine were schooners. The total value of property lost and missing was $1,357,400:

	Vessels.	Value.
Total loss for January	42	$1,565,000
Total loss for February	48	1,291,325
Total loss for March	68	2,125,755
Total loss for April	57	1,357,400
Total for four months	215	$6,339,480

The 234 monthly report of Wm. Key Bond, Receiver of the Cincinnati, Wilmington and Zanesville Railroad, covering the operations of the road for the month of March, is as follows:

Comparison in earnings and expenses with 1859:

Earnings for the year 1860	$314,090 91
Earnings for the year 1859	286,368 34
Increase in 1860	$27,722 57

Of this increase, $13,261 75 is on through business and $14,689 38 is on local business.

The working expenses of 1859 and 1860 compare as follows:

Working expenses of 1860	$211,325 59
Working expenses of 1859	204,859 98
Increase in 1860	$6,465 60

The capital stock is unchanged from last report. On the 1st of January, 1861, the trustees of the real estate bonds redeemed from the proceeds of that fund $20,500, leaving the present amount of said bonds outstanding $99,250. The Cleveland, Columbus and Cincinnati Railroad Company has redeemed and now holds $99,000 of the income bonds, which that Company had guaranteed. The present position of that class of bonds is as follows:

Held by C. C. and C. Co.	$99,000
Held by S. and T. sinking fund	14,000
Extended to 1870	85,500
Outstanding in original form	1,000
