CONSOLIDATED LOTTERIES OF GEORGIA.

Authorized by a Special Act of the Legislature, for the benefit of Academies and for other purposes.

RUDOLPH, DAVIS & CO., MANAGERS, MACON, GEORGIA.

BY THIS SCHEME PURCHASERS may select their own numbers, and pay any amount for a ticket they desire.

EXTRA CLASS!

75 Numbers—13 Drawn Numbers!

To be drawn in the city of Macon, every Monday, Tuesday, Wednesday, Thursday, Friday and Saturday Afternoons, at 4 o'clock, during the years 1859, 1860, 1861, 1862, and 1863.

By this Class, the holder of any One Dollar Ticket, if the numbers so selected should be drawn, will be entitled to a prize, according to the following

SCHEME:

Any $1.00 Ticket with 5 drawn numbers on it,					$100,000
" " "	4	"	"	"	10,000
" " "	3	"	"	"	1,000
" " "	2	"	"	"	500
" " "	1	"	"	"	100
" " "	0	"	"	"	25
" " "	1	"	"	"	5
" " "	2	"	"	"	4
Any $1.00 Ticket with a drawn number on it stationed to come out at any particular place, such as 1st, 2d, 3d, or any other station in the Drawing,					50.00

Tickets from 50 cents to any Price!

And Prizes paid at the above rates per dollar.

This is the favorite scheme in New York, Washington, Baltimore, Philadelphia, Boston, Chicago, Buffalo, and other cities, where there are 5,000 offices in which Tickets in this scheme are exclusively sold, and such is the demand that the Managers of the Consolidated Lotteries of Georgia have been induced to issue Tickets for the benefit of our own and village friends who cannot purchase in the cities. Feeling that it will be an economical in the country as in the cities, the Managers submit it to their patrons.

PLAN OF THE LOTTERY.

In the above novel and lucky scheme there are 75 numbers, from 1 to 75 inclusive, printed upon separate pieces of paper, and enclosed in tubes placed in a glass wheel. Upon the day of drawing the wheel is revolved several several times, and a small boy who is blindfolded draws a number at random from the wheel. It is then exhibited to the audience, and registered by the State Commissioner as the first Drawn Number. The wheel is revolved again several times, and then the second number drawn. This operation is repeated till twelve are drawn out and registered as the 1st, 2d, 3d, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th and 12th Drawn Numbers, and any Tickets having the numbers selected with the numbers drawn from the wheel, anywhere upon them (except the station numbers, which must be in the station for which they bought,) are prizes: if not they are blanks.

The advantage this scheme has over all others is that it enables any one to purchase a Ticket with any number up to nine, and at any price he pleases to pay, and the Prizes are paid in full immediately after the Drawing.

No ticket which shall have drawn a prize of a superior denomination, can be entitled to an inferior prize; nor can any ticket be entitled to any prize other than that for which it was originally bought. For instance, if a person buys a $1 do ticket with nine numbers on it, it may so all draw Lots entitled to $100,000; if the whole 9 numbers are not drawn it is a blank. So with any number bought; they must all be drawn, or the ticket will not be entitled to the whole prize.

Address all orders for the Extra Class, with the numbers, stating the day and date you want them for, to

By R. J. CULVERWELL, M.D., Author of the "Green Book" &c.

The world renowned author, in this admirable Lecture, clearly proves from his own experience, that the awful consequences of self abuse may be effectually removed without Medicine, and without dangerous Surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may cure himself cheaply, privately and radically. This Lecture will prove a boon to thousands and thousands.

Ayer's Ague Cure.

AYER'S

Ague Cure.

FOR THE SPEEDY CURE OF

Intermittent Fever or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers; indeed for the whole Class of Diseases originating in bilious derangement, caused by the Malaria of miasmatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such a remedy we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pains in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants, and persons travelling or temporarily residing in the malarious districts. If taken occasionally, or daily, while exposed to the infection, that will be encreased from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled Dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the Disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate illness of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, confirmed hosts on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
