DR. SEELYE'S

LIQUID CATARRH REMEDY.

SYMTPOMS.

The symptoms of Catarrh are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the change of temperature. In this condition the nose may be dry, or a slight discharge, thin and acrid, afterwards thick and adhesive, may ensue.

As the disease becomes chronic, the discharges are increased in quantity and changed in quality; they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, causing a bad breath, the voice thick and nasal; the eyes are weak, the sense of smell is lessened or destroyed; headache frequently takes place.

Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a slick or slimy mucous, which has fallen from the head during the night.—When this takes place, no person may be sure that the disease is on its way to the lungs, and should lose no time in arresting it.

The above are but few of the many Catarrhal symtoms. Write to our Laboratory for our pamphlet describing fully all symptoms; it will be sent free to any address. Also directions where to procure the medicine.

We are receiving letters from all parts of the Union, and also numerous testimonials from those using it, bearing the evidence of its infallible merits.

This remedy contains no MINERAL or POISONOUS INGREDIENTS, but is prepared from vegetable extracts EXCLUSIVELY; therefore it is PERFECTLY HARMLESS, even to the most tender and delicate child.

CALL FOR SEELYES CATARRH REMEDY, and take no other. If not sold by druggists in your vicinity, they will order it for you. Price $1 00 per bottle.

All persons suffering with any affection of the Head, Throat or Lungs, should write at once for our pamphlet fully describing all symptoms pertaining to the above disease.

It will be sent free to any address.

DR. P. H. CARDWELL

HAS THIS DAY EFFECTED AN arrangement by which he will be able in the future to supply all persons who may desire, from a single to a full set of teeth, on the

VULCANIZED RUBBER BASE.

Being the latest improvement in our profession, it has been sufficiently tested to warrant its adoption, we take pleasure in recommending it as being far preferable to nearly every other base heretofore used. It can be used in many instances where all other materials fail. No one need hesitate to call on me, give me your worst and I will demonstrate these facts.

Remember that a full set of teeth, on this method can cost half what they would on gold, and not perhaps inferior in support and Respectfully, P. H. CARDWELL.
