FINANCIAL NEWS AND COMMENT

Better Undertone Reflected in Stock Market Dealings From Opening.

MEXICAN ISSUES DO BEST

Marine, Chemical and Low Priced Oils Display Weakest Spots.

There were still a few weak spots to be ironed out in yesterday's market, notably among the marine, low priced oil and chemical stocks; but with those exceptions, all of which were relatively unimportant, the market showed no recurrence of the selling pressure that kept it down during all of last week. The dealings had a better undertone from the start, and although it was still true that the strength was the result of short covering almost entirely, the change in the trend nevertheless was sufficiently important to render operations on the selling side unprofitable except to the very nimblest of traders. In special directions the professionals took advantage of weakness to depress stocks, but when no real liquidation came out that selling was to the advantage of the rest of the market; that is to say, in stocks the trend of which had turned upward from the outset.

The change in the character of the trading was rather notable also, because it occurred in the face of no important change in the news. There was a fairly respectable improvement in the Federal Reserve Bank statements on Saturday, but the news over the week end from industrial centres was just as unfavorable as ever. If anything, the news was worse. It provided a fairly good test of the market's underlying position, and with the fact that no stocks could be brought out even on unfavorable news demonstrated traders turned their attention to the side of least resistance, which in yesterday's trading was the long one. It is true that the improvement was very slow in most directions and that only a few stocks recorded material gains on the day, but no one had expected the market to emerge from its present difficulty very rapidly.

Where the market demonstrated its best recuperative power was in the Mexican stocks. Those issues had displayed better resistance to the downward trend than the general run of stocks. Consequently it was natural that the rally should be reflected in them first. But the market also had in addition better news from Mexico and reports that bankers were seriously considering a loan to that country, if the State Department should act favorably in recognizing the new Mexican Administration. The improvement in the rest of the market, however, was not as spectacular as it was in the Mexican issues, but nevertheless a gain on the day in the leading equipments, steels and motors was recorded. There was a particularly sharp recovery in Chandler Motors, due to short covering, while the railroad shares did better in the main. There was good buying reported in Southern Pacific in anticipation of the announcement of the separation of the Southern Pacific oil properties following the meeting of its executive committee this week.

There was no important change in the money situation during the day. The renewal rate was 6 per cent. and that figure prevailed during most of the day, but some loans were made in the last hour at 7 per cent. That figure did not hold long, however, as money was offered before the closing and the rate dropped back to 6. The flurry was due primarily to the announcement that the Government would withdraw $20,000,000 from the banks to-day. As the preparations for those withdrawals were completed yesterday, it is assumed in brokerage quarters that money will continue easy to-day, notwithstanding the proximity of the end of the month interest and dividend disbursements. There was nothing of special importance in the foreign exchange market, in which rates continued steady for the most part.

MICHIGAN BONDS OFFERED.

Harris, Forbes & Co. are offering $1,000,000 State of Michigan 20-year 5 per cent. highway bonds at 102.55 and interest yielding 4.80 per cent. The bonds are tax exempt in Michigan and are free of Federal income tax. They are a direct obligation of the entire State and are legal investment for savings banks in New York, Massachusetts, Connecticut, Michigan and other States.

LUMBER LINE ABANDONED.

WASHINGTON, Nov. 29.—Permission was given the Pere Marquette Railroad to-day by the Interstate Commerce Commission to abandon its line from Rapid City to Kalkaska, Mich. The line had formerly been used in developing the lumber industry, the road's application said, and was practically abandoned during Federal control.
