Morton's Celebrated Gold Pens.—Improvements made in the machinery for manufacturing Gold pens, and secured to the subscriber by Letters Patent, have enabled him to overcome the many imperfections inseparable in their production, and also to lessen the cost without the reach of all. The writing public should know the fact, that Gold Pens than with writing for six months do cheaper with that Pens than with steel, therefore, it is economy to use Gold Pens. The Gold Pen is warm, smooth, and yielding by constant and well directed pressure, and changing by curvature and wear; therefore perfect uniformity of writing is obtained only by the use of the Gold Pen. The Gold Pen is always ready and reliable, when the Steel Pen must be often condemned and a new one selected; therefore, in the use of the Gold Pen there is great saving of time. Gold is capable of a greater degree of elasticity, so that the Gold Pen is exactly adapted to the hand of the writer; therefore, the nerves of the hand get no injury, as is known to be the case by the use of Steel Pens. The Gold Pens at prices varying from 25 cents to $1, according to size, the average wear of every one of which will far outlast a gross of the best Steel Pens. Sold by all dealers in the line throughout the country. Wholesale and retail at the store, No. 25 Maiden-lane, where all orders, including cash or post stamps, will receive prompt attention; and a Pen or Pens corresponding in value, and selected according to descriptions, will immediately be sent by mail or otherwise as directed. Address

A. MORTON, No. 25 Maiden-lane, New-York.
